1865 FORTY-TWO YEARS IN BUSINESS 1907

The Above is from a Photograph Showing the Interior of our Salesroom, which is on the Street Floor, 1406 Olive Street.

Our new Catalogue, revised, enlarged and improved, is now placed in your hands, and through it we solicit your patronage. A glance at its contents will show that it far surpasses the

Catalogue of other houses, both in beauty and usefulness, and the information it contains, apart from mere description and prices, makes it valuable as a book of reference, and one that is well worth taking care of. We always strive to make it interesting and instructive, and of mutual benefit to our customers and ourselves.

The cost of printing and mailing alone foots up into the thousands, and although we present this book to you free, it can only be maintained in its present form by the patronage of all who derive pleasure and advantage from its pages.

We ask you to examine it carefully, and should you desire anything offered in its pages we shall be glad to receive your order, and promise that it shall be filled promptly and well. We are very anxious to have an order from every one who receives this Catalogue, as our stocks are all large and in the best possible condition. We are confident, therefore, that all who send us an order this year will be so well pleased with our high-grade Plants and Seeds that they will become permanent customers.

It is our aim and intention to supply only the best stock at the lowest prices consistent with the quality of goods offered, and all intending purchasers will find it to their advantage to give us an opportunity to furnish estimates upon their lists.

We are grateful for the liberal patronage which we have enjoyed for upwards of forty years, and solicit a continuance of the same.

Very truly yours,

C. YOUNG & SONS CO.,

1406 Olive Street,

St. Louis, Mo.

DISCOUNTS, PREMIUMS AND TERMS TO CLUBS.

There are those who do not wish to spare the money or do not feel able to purchase flowers, although they dearly love them. Then there are those who take pleasure interesting their friends and neighbors in the cultivating of plants, for indeed all communities are better off for a liberal display of flowers. We wish to call the attention of all such persons to the fact that while they are working for us they at the same time provide themselves with plants at no outlay of money to themselves but are practically getting them free.

On application we will send extra copies of this Catalogue for distribution among your friends to assist you in forming a club.

LIBERAL CASH PREMIUMS—Those who prefer to be paid in cash for their services in securing club orders for us, may deduct the amount due them from the remittance instead of ordering plants to the full amount.

Positively no Discount Allowed on Orders not Accompanied by Cash.

HOW TO SEND CLUB ORDERS—Keep each person's order separate, giving his or her full name, with the amount of the order; then make your selection of the amount due you, naming plants desired as your discount, signing your name as getter up of the club.

Remember that the getter up of the club is entitled to all discounts. We cannot allow each member of the club to select discounts, and then allow the getter up of the club to select another discount. We will however, add one plant for each dollar's worth that any one member of your club may send.

HOW WE PACK CLUB ORDERS—Each person's plants will be packed separately with his or her name attached, and the whole order sent to your address, so you will have nothing to do but to deliver the bundle. If the plants are to go by mail, and you desire them to be sent direct to the person, we will do so when the order amounts to \$1.00 or more.

DISCOUNTS ON PLANTS

For \$3.00 select to the value of \$3.50.....	a profit of \$.50
" 5.00 " " " 6.00	" 1.00
" 8.00 " " " 10.00	" 2.00
" 20.00 " " " 25.00	" 5.00
" 50.00 " " " 65.00	" 15.00

Although we send some extras of our selections with every order, we offer no premiums on orders amounting to less than \$3.00.

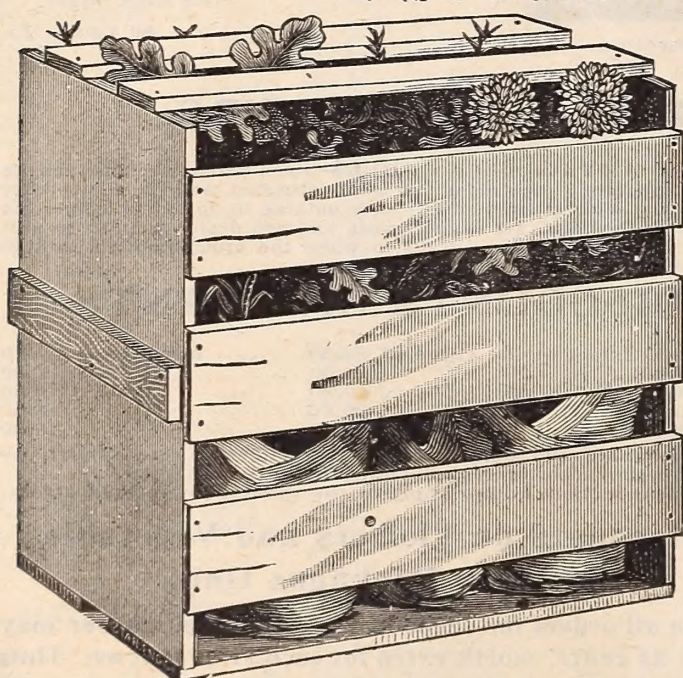

These reductions do not apply to the special low-priced offers.

Discounts on Flowers and Vegetable Seeds in Packages Only.

On all orders for seeds in packets the purchaser may select 25 cents' worth extra for each \$1.00 sent us. Thus anyone sending \$1.00 can select seeds in packets amounting to \$1.25; for \$2.00, seeds in packets to the value of \$2.50, and so on.

The above reductions apply to seeds in packages only. Seeds in bulk are Net Cash Prices.

The following Catalogues are printed by us and will be **Mailed free** to applicants:
Ornamental Trees, Shrubs etc. Beautifully Illustrated Cut Flower Price List with Designs. Also Funeral List Illustrated.

Case of Plants Ready for Shipment by Express.

IMPORTANT ITEMS.

We guarantee every package of Plants, Seeds or Bulbs to reach the purchaser promptly, safely and in good condition. If a package is lost or its contents damaged on the way we will send it again. When we deliver them to you in good order our responsibility ceases.

FREE BY MAIL. We send all Seeds, Bulbs and Plants free by mail, except special large size plants which are too large to be packed in mailing boxes. When Vegetable Seeds are ordered to be sent in quantities of ½-pound and over, postage must be added at the rate of 8c per pound.

PLANTS BY MAIL. We make a specialty of growing hardy, vigorous young plants to be shipped through the mails free to any part of the United States, and it is the wonder of many to receive their plants in such excellent condition, no matter at what distance from here.

PLANTS MAILED AT ANY TIME. Many customers order both seeds and plants at the same time early in the winter. Seeds are sent immediately, but, if requested, we will book the order for plants to be sent later in the season, at any time up to June. Please be careful to state on the order just what date you want us to mail the plants, otherwise we shall consider that you are ready for them immediately, and will forward two days after the seeds, in a separate package.

PLANTS BY EXPRESS. We do not deliver plants free by express, the purchaser paying the charges, which are by the principal express companies, 20 per cent. less than regular merchandise rates. We strongly urge this method of transportation, as it enables us not only to give better values in the form of larger and finer plants, but we also always

add liberal "extras" to help defray charges, and unless instructed to the contrary, all orders are forwarded by express.

PLANTS BY RAIL. Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

PACKING FREE. We make absolutely no charge for boxes or packing, or delivery to any express, freight or steamship line in St. Louis.

WHEN ORDERING always state when you wish the article shipped, else they will be sent you at once. Attention to these details will greatly facilitate our work and prevent confusion, errors and misunderstandings.

HOW TO ORDER. Always use the order sheet and fill out the blank spaces carefully, with each article on a separate line, with the price carried out. When the order is complete add it up correctly and inclose a draft, money order or postal note for the exact amount. It is unnecessary to give the Catalogue description of articles wanted; the name alone will suffice.

HOW TO SEND MONEY. The safest and most convenient and by far the cheapest method of sending money is by Post Office money Orders, and nearly all post offices issue them. The fee on a money order is only 3 or 5 cents for small sums. Money can also be sent by Express Companies Money Orders, Bank Drafts, Bills or Coin by registered letter. We will not be responsible for Coin sent in ordinary letters or for Postage Stamps.

STAMPS. Please do not send Postage Stamps in payment of goods if it can be avoided. They frequently arrive in such a condition that they cannot be used. None but stamps in perfect order will be accepted.

PRIVATE CHECKS. Private Checks for small sums are not desirable, as it costs us so much to collect them. All banks now charge for collecting private checks.

ABOUT WARRANTING SEEDS. While we exercise great care to have all seeds pure and reliable, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter connected with the seeds, bulbs or plants we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once, and any money that has been paid for them will be refunded.

Make all Money Orders, Checks, Drafts, etc., payable to

C. YOUNG & SONS' CO., ST. LOUIS, MO.

SEEDS BY MAIL.

We prepay mail or express charges on all vegetable and flower seeds purchased from this catalogue in packages, ounces, quarter-pounds and pounds and on Peas, Beans and Corn in pints and quarts.

If purchasers wish to pay their own transit charges they may deduct 10 cents per pound on bulk seed, and 10c per pint and 15 cents per quart on Peas, Beans and Corn, from prices quoted.

BEETS.

One ounce to 50 feet of drill; 5 to 6 pounds to the acre in drills.

Eclipse—Remarkable for its rapid growth, extreme smallness of top, and perfectly smooth and round; skin and flesh intense red. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c.

Early Blood Turnip—Excellent either for forcing or early planting. Tops small, leaves green, roots round, crisp, tender and sweet (see cut). Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 55c.

Crosby's Egyptian Turnip—The earliest Beet in cultivation. Color, deep crimson; of excellent quality. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 70c.

Mitchell's Improved Turnip—This is entirely distinct from any other sort. The roots are of round shape, perfectly smooth, with intense blood red skin and flesh. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 55c.

Improved Long, Smooth, Blood Red—The most popular variety for winter use. Roots large, tapering towards both ends, growing even with the surface, flesh dark red (see cut). Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c.

Edmand's Early Turnip—This is a very choice selected strain, with small foliage and fine turnip shape of a uniform size; skin, a deep blood red; flesh richly colored. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 55c.

Bastian's Half Long Blood—An excellent main crop or late variety. Roots grow to a large size and have a dark-red flesh which retains its tenderness until late in the season. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 55c.

Electric—This is a very early variety, almost round in shape. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 65c.

Asparagus.

ASPARAGUS.

Sow the seeds in drills about 1 inch deep and the rows about one foot apart. Keep the soil mellow and free from weeds during the summer and in the fall or succeeding spring the plants should be set about one foot apart, and the crown 4 inches below the surface. The beds should be narrow, so as to permit of cutting to the center. Before winter cover the transplanted beds with about 4 inches of manure. Salt is an excellent manure for Asparagus. Sow a little on the surface in the spring and it will keep down the weeds. The young tops may be cut for the table the second summer, but not very freely until the third.

Conover's Colossal—A large and rapid grower. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 40c.

Barr's Mammoth—A very early variety, stalks frequently 1 inch in diameter. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c.

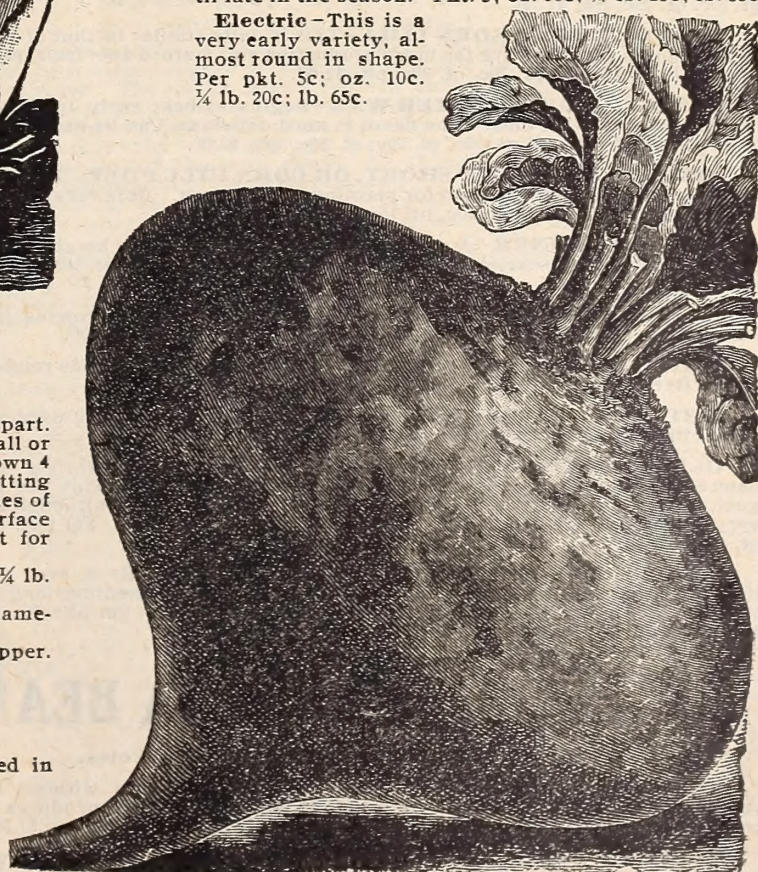

Palmetto—An improvement on Conover's, it being a much heavier cropper. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c.

ASPARAGUS ROOTS.

Good 2-year old roots of the following varieties which may be planted in the spring or fall.

Conover's Colossal.....	per 100,	\$0 90
Palmetto.....	"	1 00
Barr's Mammoth.....	"	1 25

Add 25c per 100 if ordered to be sent by mail
Cultural directions of Asparagus Roots sent free.

Beet—Eclipse.

Bean—Early Red Valentine.

BEANS==Pole or Running.

Stangen-Bohnen, Ger.; Haricot a Rames Fr.; Judias, Sp.

One Quart to 150 Hills.

Pole Beans, being tender, ought not to be planted until the ground is dry and warm. A well-manured sandy loam suits them best. Plant in hills four feet apart, six or eight beans to the hill, eyes downward; afterward thin to three plants in a hill. Set poles eight or ten feet long before planting seed. Add 15 cents per quart extra if to be sent by mail.

LARGE WHITE LIMA OR BUTTER—This is esteemed the best of all pole beans, and is almost universally grown, both for market and private use. ½ pt. 10c, pt. 20c, qt. 25c, pk. \$1.75.

KING OF THE GARDEN LIMA—This is quite similar to that of the common Lima, though the vines are far more productive and mature the fruit much earlier (see cut). ½ pt. 10c, pt. 20c, qt. 30c, pk. \$2.00.

EARLY GOLDEN CLUSTER WAX—Begins to bear early in July and continues until frost (see cut). The flavor is most delicious. Can be used either shelled or as a string bean. ½ pt. 10c, pt. 20c, qt. 35c, pk. \$2.00.

RED SPECKLED, CUT SHORT, OR CORN HILL POLE—This is a climbing green-podded variety, used for planting in with corn. It is very productive and of excellent quality. ½ pt. 10c, pt. 15c, qt. 25c, pk. \$1.75.

SCARLET RUNNER—A great favorite. It grows to the height of 9 or 10 feet, presenting dazzling scarlet flowers from July to October. ½ pt. 10c, pt. 20c, qt. 30c, pk. \$1.75.

LAZY WIVES' POLE BEAN—A favorite variety. Pods growing from 4 to 6 inches long, entirely stringless. ½ pt. 15c, pt. 25c, qt. 35c, pk. \$2.00.

WHITE CORNFIELD—A popular variety. Beans white, pods round and very productive. ½ pt. 10c, pt. 20c, qt. 25c, pk. \$1.75.

WHITE DUTCH CASE KNIFE—A very early variety, good used as a shell bean, either green or dry. ½ pt. 10c, pt. 15c, qt. 25c, pk. \$1.50.

OLD HOMESTEAD OR KENTUCKY WONDER—This variety is about 10 days earlier than any other green sort, being fit for the table about the first of August. It is enormously productive and stringless. The pods although large cook very tender, and are delicious. A very fine market variety. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.75, bu. \$7.00.

HORTICULTURAL CRANBERRY OR WREN'S EGG—A very popular variety for either snap-shot or dry shell beans. Pods are of medium length slightly curved. Beans are of good size, tender and of fine flavor. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.50, bu. \$5.50.

DWARF, or BUSH LIMA BEANS.

These Varieties do not Require any Poles.

NEW DWARF, OR BUSH LIMA—This variety grows without the aid of stakes, in a compact bush form, from 15 to 18 inches high, and produces enormous crops of delicious Lima Beans (see cut). ½ pt. 15c, pt. 20c, qt. 25c, pk. \$1.35, bu. \$5.25.

BURPEE'S BUSH LIMA—Grows from 24 to 30 inches high, and a very heavy and sure cropper. The beans are as large as the White Lima. ½ pt. 15c, pt. 25c, qt. 40c, pk. \$2.25.

BEANS.

DWARF, BUSH OR SNAP.

(1 quart to 100 feet of drill, 2 bushels to an acre.)

All the varieties of Dwarf, Bush or Snap-Beans are tender and will not bear the cold. Plant about the middle of April, if the ground is warm and the season favorable, for a succession, and at intervals throughout the season, finishing about the 15th of August. The best mode of culture is in rows, 2 feet apart, and the beans, 3 inches apart, and two inches deep in the rows. Keep well hoed, and draw the earth up to their stems, but only when dry, working them when wet with rain or dew will cause them to rust and injure the crop.

EXTRA EARLY RED VALENTINE—This is the leading variety both for market gardeners and private use, very productive and of excellent flavor. The pods are round and tender, and remain longer in the green state than any other variety (see cut). Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.25, bu. \$4.50.

EARLY MOHAWK—The hardiest of the earliest varieties; will stand more cold than any other. The pods are from 5 to 6 inches long. A good variety for market gardeners and private use. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.10, bu. \$4.00.

EARLY LONG YELLOW SIX WEEKS—It is extra early, a vigorous grower and very productive; very prolific; the pods are long and entirely stringless. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.10, bu. \$4.00.

GOLDEN WAX—One of the earliest varieties. Pods long, brittle, entirely stringless, of rich golden color. As a bean for winter use it has few equals. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.75, bu. \$6.75.

DAVIS WHITE WAX—Immensely productive, bearing large, handsome, straight pods 5 to 6 inches in length—the dry seeds being white, and of medium size. It is desirable for winter market as a shell bean. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.75, bu. \$6.75.

BLACK WAX—Pods about 7 inches long, color yellow when ripe, very tender and of a good quality. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.10, bu. \$4.00.

GOLDEN EYED WAX—Strong bushy growth, 15 inches in height; plants heavily laden with handsome pods 5 inches in length and ½ inch wide. Per pkt. 10c, pt. 25c, qt. 40c, pk. \$1.50, bu. \$5.50.

BEST OF ALL—A new red-speckled variety, very early, good cropper and compact grower. The pods are flattish round, dark green, very solid and good quality (see cut). ½ pint 10c, pint 25c, quart 40c, peck \$1.25, bu. \$4.75.

YOUNG'S IMPROVED VALENTINE—This variety is of strong growth, the plants are more robust and larger than Refugee or Mohawk and can be planted about the same distance apart; the pods are straight, round and of a light green color. A very valuable variety. Per pkt., 10c, pt., 25c, qt., 40c, pk., \$1.50, bu., \$4.00.

YOUNG'S GOLDEN RUST-PROOF WAX—This is the earliest of all Wax Beans, a decided improvement on the Golden Wax, being a much stronger grower. Pods round, of a clear golden yellow color, straight and much longer than the old variety. It is very prolific and absolutely rust-proof. Per pkt., 10c, pt., 25c, pk., \$1.85, bu., \$7.00.

BURPEE'S STRINGLESS GREEN POD—The earliest of all green podded Bush Beans. The pods are ready for market nearly two weeks earlier than the Improved Valentine or Early Mohawk.

This is the only absolutely stringless green-podded Bean in the market. The pods are round, full, large, and straighter than the Valentine. In quality it is superior to any other Bush Bean (see cut). Per pkt., 10c, pt., 25c, qt., 40c, pk., \$1.50, bu., \$5.50.

The New Bush
LIMA BEAN.

CELERY.

One Ounce for 2,000 plants.

Sow the seeds the first of March or April. By rolling or pressing the seed firmly into the ground it has been found more satisfactory than only slightly covering it.

The seedling plants should be clipped down partially 2 or 3 times to make them short and stocky before transplanting.

Ground where Celery is to be planted should be highly fertilized and cultivated, laid off in spaces 4 to 5 feet apart, and each space being wide enough to plant the Celery in rows 6 inches apart, and from 3 to 5 rows in space.

Celery does not require to be planted in trenches, as in former years. About the first week in September the work of earthing up may be commenced and continued every two weeks until entirely covered up to the leaves. This is done to bleach the stems and render them crisp.

These prices include free delivery in the U. S. If party wishes to pay transit charges, deduct 10c per pound from price quoted.

Improved Dwarf Golden Heart—A variety of great value. In size it is the same as the Half Dwarf White.

Golden Self Blanching—This is the best celery ever raised for general purposes. Without banking up or any covering whatever, even the outer ribs become a handsome glossy, yellowish-white color (see cut).

White Plume—The peculiarity of this variety is the stalk portions of inner leaves and heart; they are white naturally, so that by simply tying the plants together, or by drawing the soil against it, the work of blanching is complete.

Perfection Heartwell—One of the best varieties for general cultivation; very compact and crisp. The plants are very fine in appearance and will keep for a long time. Per pkt., 5c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

Giant White Solid—A long stalked variety, often 3 feet high and one of the best for growing in the South; excellent for soup, greens; will stand heat and drouth well. Strong grower. Per pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Pink Plume—This is a strong, compact grower, with no tendency to rust; extra early, very solid, tender and crisp. It is a self-blanching variety, the same as White Plume or Golden Self-Blanching, requiring but a slight earthing up to blanch it. Per pkt., 10c; oz., 20c; ¼ lb., 50c.

Winter Queen—This is a very valuable variety for winter and spring use, and excels all others as a late keeper. The plants are beautiful in appearance and blanch to extreme white. They grow very close together and quite compact. The ribs are perfectly solid, crisp, and of a delicious flavor. It stands first as a late celery. Per pkt., 10c; oz., 25c; ¼ lb. 60c.

CAULIFLOWER.

One Ounce for 1,000 Plants.

Seed may be sown in September or October and wintered the same as early cabbage plants, or they may be sown in January or February, in a cool hot bed. Its culture is similar to that of the cabbage. The soil cannot be too rich and deep for the purpose. After they begin to head they should be watered every other day and the leaves gathered together and pinned over their heads to protect them from the sun and keep them white. The seed we offer is the finest procurable, and is obtained from the most careful growers in Europe. These prices include free delivery in the U. S. If party wishes to pay transit charges, deduct 10c per pound from prices quoted.

Early Snowball—The earliest and best for all forcing open ground culture. It is a dwarf with short outer leaves; always sure to make large, fine heads (see cut). Per pkt., 20c; ¼ oz., \$1.00; oz., \$2.50.

Extra Early Dwarf Erfurt—A favorite early market variety; large compact heads of fine quality. Per pkt., 20c; ¼ oz., \$1.00; oz., \$2.50.

Extra Early Paris—This is the dwarfest and earliest heading of all the Cauliflowers. Per pkt., 10c; ½ oz., 40c; oz., 75c.

CARROTS.

These prices include free delivery in the U. S. If party wishes to pay transit charges, deduct 10c pound from prices quoted.

✓ **Earliest French Forcing**—It is one of the best sorts for the table; delicate, fine grained, and remarkably fine flavored. Top very small. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

✓ **Early Scarlet Horn**—The tops are small; roots top-shaped, stump-rooted, therefore easily pulled. Grows well in shallow soil. Color a deep orange. Flesh fine-grained. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

✓ **Chantenay Stump-rooted**—The best early Carrot in cultivation, and one which market gardeners should plant for their main early crop. In shape it is midway between the Nantes Half-Long Stump-Rooted and the Guerande or Oxheart varieties, nearly equaling the former in length, and having the broad shoulder and tapering root of the latter. Its color is orange-red; the flesh crisp and tender. Very early and a heavy cropper. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

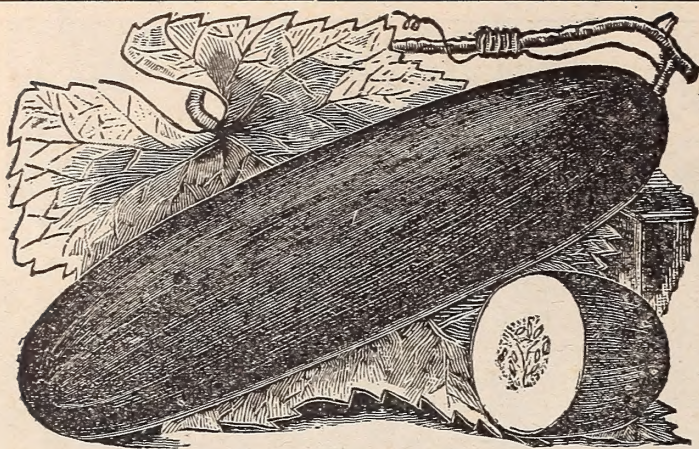

✓ **Guerande or Oxheart**—This variety has given great satisfaction. While not attaining one-half the length of many other varieties, it will compare favorably in bulk of crop, as on good land it will produce Carrots four to six inches in diameter. The crop can be pulled by hand, while the longer sorts require digging. Excellent for table use, as well as for stock. Truly a market gardener's favorite. It is of medium size and admirably adapted for blanching. It is also one of the best for summer use for the home garden. The roots are about six inches long, very smooth and cylindrical, color a bright orange; flesh orange, becoming yellow in the center, but with no core; very sweet and tender. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

✓ **Improved Long Orange**—It grows to a large size, some specimens measuring twelve inches in length. Enormous crops can be grown under fair culture. One of the best varieties for feeding stock. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Cauliflower—Snowball.

✓ **Danvers Half-Long Orange**—A first-class variety; flesh dark orange. The smooth, handsome roots are of medium length, tapering uniformly to a blunt point; flesh sweet, crisp and tender. A great favorite with market gardeners. Also valuable for a field crop, owing to its productiveness. Per pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Cucumber—Sensation.

CUCUMBERS.

One Ounce for 50 Hills.

The plants are tender, and planting should be delayed until settled warm weather. Form low, flat hills, six feet apart each way, of rich soil, mixing in a quantity of thoroughly decomposed manure. Scatter on each hill 15 or 20 seed, or one every inch along the rows, and cover one inch deep, pressing the soil firmly over them.

IMPROVED EARLY WHITE SPINE—One of the most popular varieties for both market and table use. Vines vigorous, fruiting early and abundantly. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

NICHOLS' MEDIUM GREEN—We consider this a most valuable variety, as a pickle sort it will be found unequalled, and for early forcing there is none better. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

WESTERFIELD'S CHICAGO PICKLING—This is undoubtedly the best cucumber for pickling. It begins to fruit when the vines are quite young. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

LIVINGSTON'S EVERGREEN—It is very hardy and probably the most prolific of all varieties, very early. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

WHITE WONDER—A handsome ivory white cucumber of fine quality. The fruit is about eight inches in length, very brittle, and remains solid and edible for a long time, unusually hardy. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 30c.

EARLY FRAME—This is a most desirable variety for pickling, of medium size and fine quality. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

LONG GREEN—Vines vigorous and productive, forming fruit fit for table nearly as early as the shorter sorts, fruit about 12 inches long, firm and crisp. The young fruit makes excellent pickles, and when ripe is the best for sweet pickles. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

FORDHOOK PICKLING—An extremely prolific variety that continues setting its fruits long after other sorts have ceased to bear. It produces longer vines and more cucumbers than any other kind. The thinness of skin, their uniformity of size and shape, the crispness and tenderness of the flesh, taken with its free-bearing habit, render it one of the best pickle cucumbers. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

BOSTON PICKLING—A distinct variety. A favorite with pickle growers and commercial gardeners, and good for table use. Quite productive. Fruit small, uniform in size. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

WHITE WONDER—One of the best white cucumbers in cultivation, fruits large, of uniform size and shape. Per pkt. 5c, oz. 20c $\frac{1}{4}$ lb. 50c.

SENSATION—This is a very vigorous growing variety, recommended highly for forcing and for table use (see cut). Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

CUMBERLAND—This variety is a rapid, vigorous grower, very prolific, except the extreme stem, and during the whole period of growth the form is exceptionally straight and symmetrical. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

EARLY CYCLONE—A most desirable sort. It is very prolific, and fruits in bunches of three or four, which are of uniform size and shape. It is an excellent variety for slicing or pickling. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

LIVINGSTON'S EMERALD—The flesh is crisp and tender, perfectly round and smooth, and highly recommended for table use. They make excellent pickles. Per pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c.

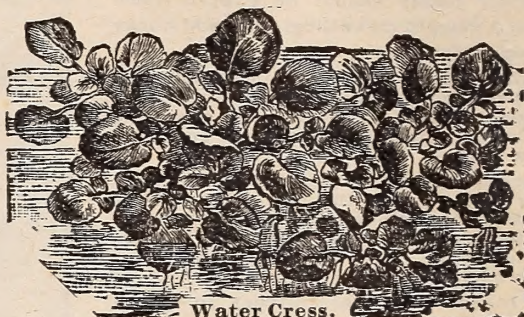

KENDEL'S
EARLY GIANT
SWEET CORN.**POP CORN.**

WHITE PEARL—Per pkt. 10c, lb. 20c. By mail 28c.

CRESS—(Or Pepper Grass.)

EXTRA CURLED—Pepper Grass is extensively known and used as a small salad. Sow early in the spring, thickly in shallow drills, and at intervals throughout the season (for succession). Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 55c.

WATER CRESS—This is quite distinct from the Pepper Grass, and only thrives when its roots and stems are submerged in water. Per pkt. 10c, oz. 35c, $\frac{1}{4}$ lb. \$1.

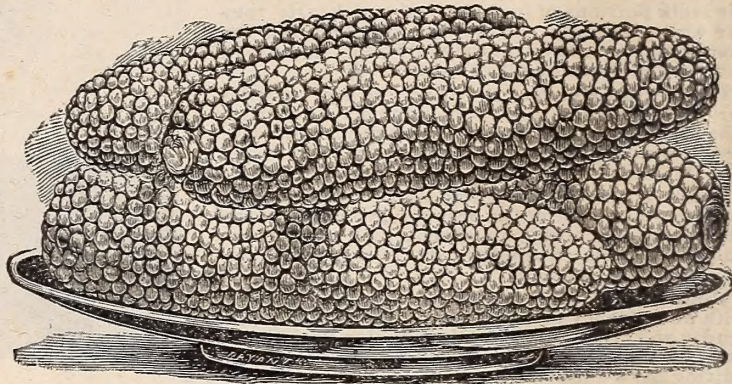

Water Cress.

CORN SALAD.

LARGE ROUND LEAVED—Sow early in the spring, in rows about one foot apart; it is ready for use in six or eight weeks from time of sowing. If wanted in early spring sow in September, covering up with hay or straw as soon as cold weather sets in, the same as spinach. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 65c.

These prices include free delivery in the U. S. If parties wish to pay their own transit charges deduct 10c per pound from prices quoted.

Corn, White Delicacy.

CORN, SUGAR.

Welschkorn, Ger.; Mais, Fr.; Maiz, Sp.

Quart for 200 hills, 8 to 10 quarts in hills for an acre.

All varieties of sweet and sugar corn may either be sown in rows $4\frac{1}{2}$ feet apart, and the seeds placed about 8 inches apart in the rows, or planted in hills at a distance of 3 or 4 feet each way. The taller the variety, or the richer the soil, the greater should be the distance apart. We make our first plantings in this vicinity about the first of May, and continue successive plantings every two or three weeks until the last week in July.

LARGE WHITE OR MAMMOTH CORY—This new strain is as early as the original cory. While the ears are of a larger size, the grains are placed more compactly. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

COUNTRY GENTLEMAN—This variety of corn retains its delicate tenderness and flavor even when a little old, as the ears are enclosed in a heavy husk, which tends to keep the ears in the milk for several days longer than any other corn. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

STOWELL'S EVERGREEN SUGAR CORN—This is the best late sweet corn in every way, being large kernel, hardy and productive, sweet and tender and remaining a long time in condition suitable for cooking. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

FIRST OF ALL—The First of All is ready for the table from three days to a week earlier than the cory, making it very desirable, not only for family gardens, but extremely valuable to grow for market; of medium size, well filled with grains to the very tip. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

MAMMOTH SUGAR—A late variety, one of the most productive and finest flavored varieties. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

KENDALL'S EARLY GIANT—The ears of this variety grow to an immense size, often measuring 10 inches and having 10 to 12 rows of corn on each cob. Kernels pure white, sweet and tender. The general report on this corn is that it is ready for use in 60 days on light soil and 75 days on heavy clay. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

WHITE DELICACY—A very fine variety of sweet corn, of immense size, yields abundantly and fine rich flavor (see cut). Per pkt. 10c, oz. 20c, qt. 35c, pk. 75c, bu. \$2.75.

HOLMES PREMO—This variety gives general satisfaction everywhere and combines all the merits of the best early varieties, but is superior to them in quality and yield. Per pkt. 10c, pt. 20c, qt. 35c, pk. 75c, bu. \$2.75.

EGG PLANT.*One Ounce for 1,000 Plants.*

The seed germinates slowly and should be started in strong heat to secure a rapid and continuous growth from the first, which is very important. When the plants are formed to rough leaves, transplant to three or four inches apart, keep the bed very warm, shading from the direct rays of the sun; when the ground has become warm and all danger, not only from frost, but from cold nights, is passed, carefully transplant into very warm, rich soil, setting the plants 2½ feet apart.

New York Improved Large Purple. This is the leading market variety everywhere. Plant is robust, the leaves and stems being thickly set with spines, which are not found to any extent on the other varieties (see cut). Per pkt., 10c; oz., 30c; ½ lb., 85c.

Black Pekin. The fruit of this handsome variety is jet black, round in form and very solid. It is quite early and a very superior variety. Per pkt., 10c; oz., 30c; ¼ lb., 85c.

ENDIVE.

Endive is one of the best salads for fall and winter use. Sow for an early supply, about the middle of April. The main sowings are made in June and July, from which plantations are formed at one foot apart each way in August and September. When the plant has attained its full size, then the process of branching begins. This is effected by gathering up the leaves and tying them by their tips in a conical form.

Green Curled. Leaves cut and curled; endures extreme heat. A favorite market sort. Per pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

White Curled. While the leaves are not so tender as the green curled, it is the most beautiful variety; the mid-rib is yellow and the leaves almost white. Per pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

KALE, OR BORECOLE.

The Kales are excellent greens for winter and spring use, and are improved by frost. Sow from May to June, covering it thinly and evenly. For early spring use sow in September and protect over winter with a covering of straw or litter.

Dwarf Curled German. Leaves yellowish green, finely fringed. Sow in September for winter and early spring use. Per pkt., 5c; oz., 15c; ¼ lb., 25c; lb., 65c.

Curled Mosbach. The stalks attain a height of two feet and will produce continuously throughout the season, the lower leaves being gathered before they become old. Per pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Prices include prepay charges on packages, pints and quarts. If purchasers wish to pay their own transit charges, they may deduct 10c per pint and 15c per quart from the prices quoted.

**Kale.****Premium, Flat Dutch.****CABBAGE.***1 oz. will produce 1500 plants, half pound of seeds in beds to transplant for an acre.*

In latitudes where the thermometer never indicates 20 degrees below the freezing point the early variety of Cabbage may be sown in the open border, but in colder climates they must be sown in a hot-bed, about the middle of January or the first of February, and planted out in March or April, in a rich, deep, loaming soil in rows 2 feet apart and 18 inches in the row. The late varieties are usually sown in the early part of May, and plants are set out in July, in rows 3 feet apart and 2 feet on the rows. In transplanting they must be set in other ground up to the first leaf, no matter how long the stems may be.

Early Jersey Wakefield. Unquestionably the best early Cabbage in cultivation. Per pkt., 5c. oz., 15c ¼ lb., 45c. lb., \$1.50.

Early Charleston Wakefield. An improvement over the old Jersey Wakefield, being quite as early and much larger in size of head. Per pkt., 5c. oz., 35c. ¼ lb., \$1.00. lb., \$3.00.

Fottler's Early Drumhead or Early Brunswick. This is certainly one of the second earliest sorts in cultivation. Per pkt., 5c. oz., 20c. ¼ lb., 50c. lb., \$1.75.

Mammoth Drumhead. Probably the largest variety of Cabbage in cultivation. Should be planted 4 feet apart each way. Per pkt., 5c. oz., 20c. ¼ lb., 60c. lb., \$1.75.

Henderson's Early Summer. The earliest large heading Cabbage; growth compact so that it may be set as close as the smaller sorts. Per pkt., 5c. oz., 30c. ¼ lb., 65c. lb., \$2.00.

Premium Flat Dutch. (Selected stock). A very popular and highly esteemed variety; in its keeping qualities unsurpassed. Both for market and family use this variety is more extensively cultivated than any other. Per pkt., 5c. oz., 20c. ¼ lb., 50c. lb., \$1.75.

Early Express. This early Cabbage, while not as large as Jersey Wakefield, is four or five days earlier, and for a first early variety cannot be excelled. It heads of conical form; very desirable. Per pkt., 5c. oz., 15c ¼ lb., 50c. lb., \$1.50.

Early York. An early variety. Heads small, heart-shaped, firm and tender, of very dwarf growth, and may be transplanted fifteen or eighteen inches apart. Per pkt., 5c. oz., 20c. ¼ lb., 60c. lb., \$1.50.

Early Red Dutch. Used almost exclusively for pickling; it is one of the hardiest of all red Cabbages, and will keep later in the season than any of them. Per pkt., 5c. oz., 20c. ¼ lb., 50c. lb., \$1.75.

Early All Head. This variety is ten days earlier, and a little larger in size than any other summer variety; the heads are deep and flat, very solid and uniform in size and color. Per pkt., 10c. oz., 20c. ¼ lb., 75c. lb., \$2.75.

Danish Ball Head. This excellent variety originated in Denmark. It is very hardy and a vigorous grower, producing large, round, solid heads with very few outside leaves, consequently, it may be planted closer together than the general varieties of Cabbage. For planting late in the spring, for a fall crop or winter use, this variety has few equals, as it withstands drouth and succeeds better in poor soil than most any other variety. The heads are about 8 to 10 inches in diameter. It is an excellent keeper. Per pkt., 10c. oz., 35c. ¼ lb., \$1.00. lb., \$2.75.

BURPEE'S SUREHEAD. The heads are very hard and uniform, weighing generally from 10 to 15 pounds, each. Per pkt., 5c. oz., 25c. ¼ lb., 75c. lb., \$2.50.

Mammoth Red Rock. This is the best, largest and surest heading Red Cabbage ever introduced. Heads deep red to center, and will frequently average 12 inches. A sure cropper, and in every way a first-class sort. Per pkt., 5c; oz., 25c; ¼ lb., 60c; lb., \$2.00.

All Seasons. Makes a first-class Fall and Winter sort. One of its main qualities is its almost absolute certainty to head. Per pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Othello. (Red Brunswick)—This is the largest of all the varieties of Red Cabbage. The heads are large and solid and of a deep black red color. Per pkt., 10c; oz., 15c; ¼ lb., 75c.

Winter Stone Head. Very early, producing large heads shaped nearly round. It is a good keeping variety well adapted to winter use. Per pkt., 10c; oz., 25c; ¼ lb., 75c.

Danish Succession. This is a very fine variety of cabbage. Extra Stock. It is a very sure header, good keeper, producing well shaped heads and has very few outer leaves. Per pkt., 10c; oz., 25c; ¼ lb., 75c.

Dark Red Zenit. This is one of the best varieties of red cabbage in cultivation. The heads are medium in size, dark red color and very nicely ribbed. It is a medium early grower and an excellent keeper. Per pkt., 10c; oz., 25c; ¼ lb., 75c.

Perfection Drumhead Savoy. Heads large; of uniform size, sure header. The best for main crop. Per pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

All Year Round.

LETTUCE.**STANDARD VARIETIES.**

This is of easy cultivation, but likes a good, rich soil. For early use sow under glass in February and March and trans plant as soon as the ground can be worked. Later sowing may be made in the open ground at intervals of two weeks, for succession, as long as the weather permits. Thin out well and set in rows one foot apart and one foot between the plants. Lettuce requires good ground and abundant moisture.

St. Louis market. A very popular variety with the St. Louis market gardeners; of quick growth, remarkably tender and sure to head; does equally well either for early forcing or outdoor planting. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Boston Market, or Tennis Ball. A favorite forcing variety, forming hard heads, it makes but few outer leaves, and for this reason can be planted very close together. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Salamander. One of the best for summer use, forming good-sized, compact heads; color, light green outside and white inside. It will remain longer in a head and stand a greater amount of heat without burning or running to seed than any other variety. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Early Curled Simpson. Forms large, loose heads of thin and exceedingly tender golden yellow curly leaves; the best curly-leaved variety, for planting outdoors. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

New York. This variety grows to an unusual large size and solid head, with but little tendency to run to seed. It is not a forcing variety, but is one of the best for summer use. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Green Fringed. A popular old sort; good-sized, compact heads. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Improved Hanson. Heads very large, hearts quickly, and stands the summer well; quality excellent. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Early Cabbage, or White Butter. One of the very best head lettuces for summer that we know of. The heads are of good size, close and well formed. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

All The Year Round. A hardy, crisp-eating and compact-growing variety, with small, close heads of dark green color. An excellent summer lettuce (see cut). Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

California Cream Butter. This is one of the best of summer varieties of Head Lettuce. The heads are of good size and are so very solid they often have to be cut before the seed stalk can appear. They are crisp, have a rich, buttery flavor and are an ornament to the table. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Iceberg. A beautiful lettuce worthy of universal cultivation. Large, curly leaves of bright, light green, with a very slight reddish tinge at the edges. Very handsome heads, unusually solid because of the natural tendency of the large, strong leaves to turn in, which also causes thorough blanching. Crisp, tender and fine in every particular. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Yellow Seeded Butter. Large yellow heads, very tender and sweet. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Philadelphia Butter. This old reliable variety is very tender, has large solid, greenish-white heads, and stands the heat extremely well. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Crisp as Ice. A most beautiful attractive lettuce of the cabbage type. The heads are solid, of immense size when well grown and are exceedingly tender and brittle. The leaves are exceedingly glossy, thick, nicely crimped and curled; outside they are beautifully variegated with bronze and green. The heads when cut open have a rich, creamy yellow heart. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

May King. This variety Lettuce open its heads about ten days earlier than any other sort. The heads are of globular shape, hard and well closed, leaves are light green with delicate ribs lightly waved, interior is clear yellow, tender and of fine flavor. Per pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 75c.

Mushroom Spawn.

MUSHROOM SPAWN.

It comes in pressed bricks weighing about 20 ounces. These are broken into pieces the size of a walnut and put into the bed 8 inches apart each way. Price per brick, 30c; by mail, 45c; by express, 6 bricks \$1.25; 5 lbs., \$1.00, postpaid.

For Novelties in Vegetable and Flower Seeds, see Pages 21 to 36

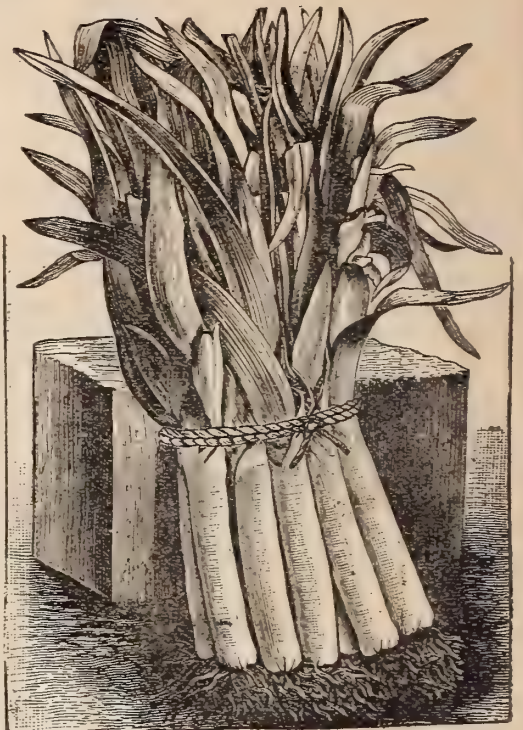

MUSTARD.

One ounce of seed will sow about 75 feet of drill.

A Spring salad; can be sown as soon as the ground is free from frost. It grows rapidly, and must be cut when young. Sow in shallow drills one foot apart.

Brown. Stronger and more pungent than the white. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 35c.

White. Best for salads and general use. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 35c.

Leek—Scotch.

LEEK.

Broad Scotch or London Flag. The favorite market variety; very large with broad leaves (see cut). Per pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.00.

Large Musselburgh. Very large, with broad leaves, spreading like a fan, hardy and of excellent quality. Per pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

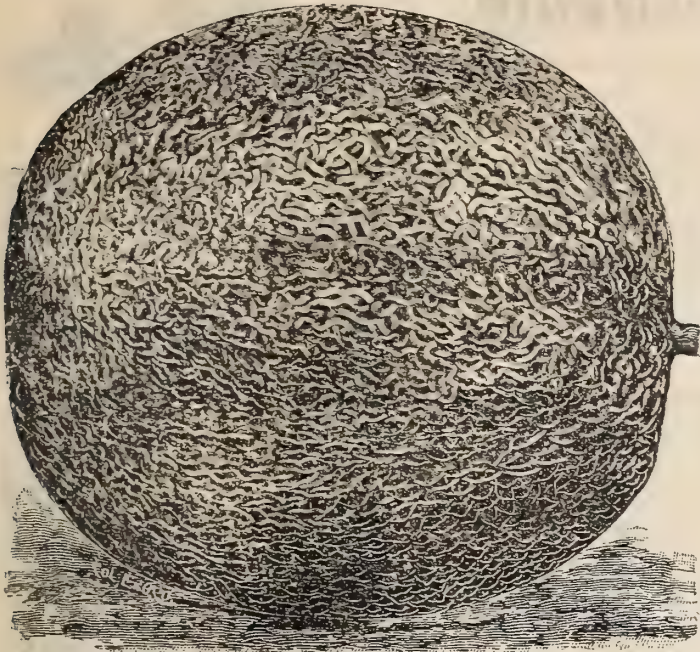

Kohl-Rabi—White Vienna.

KOHL-RABI.

An intermediate between Cabbage and Turnip, and combines flavor of both; edible part is turnip-shaped bulb. Sow in light, rich soil, early as possible, in drills 16 in. apart; when well established, thin to 6 in. apart.

Early White Vienna. The earliest and best variety for table use; white bulb. Per pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.75.

Early Purple Vienna. Differs from the above variety only in color, which is a bluish purple. Per pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Long Island Beauty.
MUSKMELON

One ounce for 60 hills two to three pounds in hills to an acre.

The best soil for fine melons is a rich, warm, sandy loam. Make broad shallow hills, 6 feet apart each way. Plant ten or fifteen seeds in each hill, after the ground has become warm. When well started, thin to three or four stocky plants in each hill. For large melons pinch off the ends of the long runners.

Hackensack extra Early—This variety is fully ten days earlier than the old Hackensack, which it resembles. It is one of the hardiest and most productive of all the varieties of muskmelons. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Jersey Bell—One of the earliest, best and most prolific small melons; grows very uniform in size and shape. Flesh, light green and of a very fine flavor. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Muskmelon—Montreal Market.

Montreal Market—Fruit is nearly round, fastened at end; deep and regularly ribbed; skin, green; melting and of a delicious flavor. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Rocky Ford—This has become one of the most popular of small melons; the seed we offer has been grown from a carefully selected strain of netted stem; nearly a perfect globe in shape, of a very uniform size, averaging about $1\frac{1}{2}$ lbs. each; they are thick meated, with a thin rind; skin green, regular ribbed and heavily netted. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Emerald Gem—Too much cannot be said of the quality of this prolific Melon. The rind is thin, of a green color, and the seed cavity small. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Long Island Beauty—Fruits of a large size, well-flattened, heavily ribbed and netted, of very handsome appearance, and fine quality, ripens very early, flesh, green, thick and firm. Per pkt. 5c., oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

Paul Rose—The fruits are nearly round or slightly oval, rather larger than the Netted Gem. The flesh is quite thick, of a deep, rich orange color, ripening close down to the rind with deep seed, and as a market melon is one of the very best. Per pkt. 5c., oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

Champion Market—This is a splendid variety of the Netted Gem Strain, the melons are very regular in form, nearly round, averaging 8 inches in diameter, with heavy well-netted ribs, thick light green flesh, and a very thin rind. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

Immensity—This is a very large variety as the name implies. They are regular in form nearly round, averaging about 10 inches in diameter, thick well netted ribs, light green, flesh tender and sweet. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

Watermelon Floridas' Favorite
MELON, WATER

Wasser-Melone, Ger.; Melon d' Eau, Fr.;

Sandia, Sp.

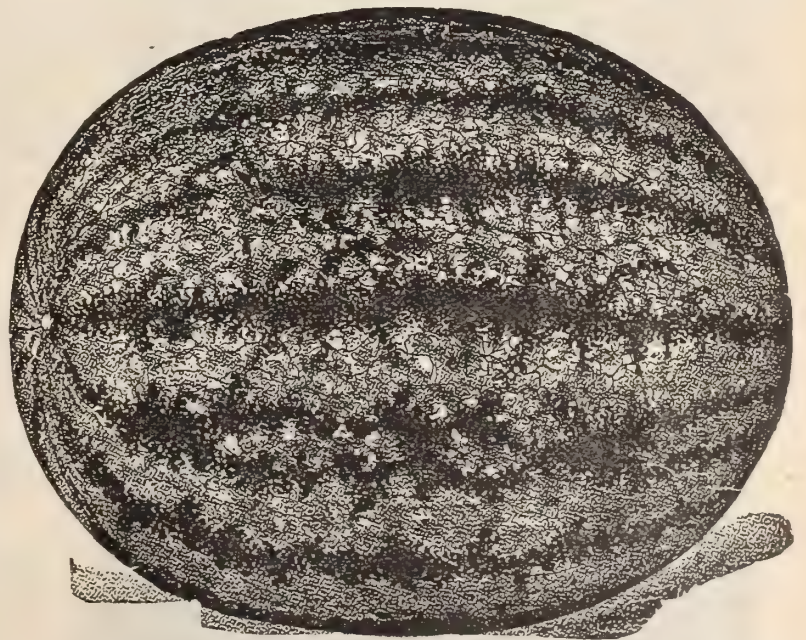

1 oz. for thirty hills.

The Dixie—This watermelon is very productive, excellent quality, a good shipper. Its flavor is unexcelled, sweet, juicy and tender. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Mammoth Ironclad—Grows to a very large size, of oblong shape, very thick, and retains its thickness at both ends the flesh is of a dainty red color, of a rich, sugary flavor. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Florida's Favorite—This variety is one of the earliest melons in cultivation, oblong in shape. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Sweet Heart—An entirely distinct melon; good shipper, and very attractive in appearance; of a large size and shape; nearly globular in form. The flesh is a bright red, firm, solid and very tender, melting and sweet. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Watermelon Cole's Early.

Cole's Early—The finest all around Watermelon in existence. The fruits are not large, seldom over 12 inches in length by 9 inches in diameter (see cut). Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Jumbo Jones—In shape this melon is almost round; the skin is green with faint stripes of a lighter green. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Hoosier King—This melon grows long and of even diameter throughout the entire length. The flesh is red, very solid, sweet and luscious. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Halbert Honey—The vines are of strong growth and sets fruit very freely, they average 18 to 20 inches long and are full or bluntly rounded at both ends. Skin is dark glossy green, flesh a beautiful crimson rich coloring and delicious quality, and a thin white rind. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Blue Gem—Melons are uniform in size of oval form, color is a rich dark green with striping of a lighter shade the fruit resembles the Kolbs Gem a great deal but is much darker and richer in coloring. It is an excellent shipper the flesh is a fine grained crimson and of sweet sugary flavor. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

Onion—Silver Skin.

ONIONS.

One ounce for 100 feet of drill five or six pounds in drills for an acre.

The onion must have a clean and very rich soil. Use well-rotted manure freely, and be sure and get the seed in as early as possible in the spring. Sow in shallow drills not less than one foot apart, and thin out when young onions are about the size of quills. As onions grow on top of the ground they may be allowed to remain pretty thick.

White Portugal or Silver Skin—This is the standard white variety for general culture; it is equally desirable for the family garden as the market. The flesh is mild and sweet. It is a good keeper the best kind to sow for pickling. Per pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Prizetaker—This onion grows to an immense size measuring from 12 to 18 inches in circumference, and under special cultivation they have been raised to weigh 4 to 5 pounds each. The outside skin is quite thin and of pale yellow color while the interior is clear white. It is easily grown, medium early in maturing and quite mild in flavor. Per pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Early Red Globe—A very early variety of globe shape and red color. A good keeper. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Danver's Yellow—An excellent early oval, straw-colored variety; productive and good keeper. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Wethersfield Red—One of the best varieties for a general crop; of good size, red, flattish heads, and keeps well. Per pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.50.

White Queen—A rapid-growing variety, of mild flavor, pure white, and splendid for pickling. They grow small, and can be sown thickly. It is best to dry the onions as soon as dug. Per pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Southport Yellow Globe—This variety has the same general characteristics as the Southport White and Red Globe, but yellow in color. It is entirely distinct from the Danvers type. The flesh is white and mild in flavor. It is quite productive and a good keeper. It is a handsome onion like all the Southport shapes, and they always command a high price in the Eastern markets. Per pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Southport Red Globe—This can be planted with safety wherever the Danvers will mature. It differs from the Standard Red Globe in being much rounder. Hardly as good a keeper as the Red Globe. Excellent for fall and winter use. Per pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Onion, Early Red Globe.

PARSNIP.

1 oz. for 200 feet of drill; 5 to 6 pounds in drills for an acre.

Sow as early in the spring as the weather will permit, in drills 15 inches apart, covering half an inch deep. When well up thin out to 5 or 6 inches apart in rows.

Long Smooth or Hollow Crown—(Abbott's Improved)—Best for general use (see cut). Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c.

PUMPKIN.

Large Tours—This variety grows to an immense size, often weighing over 100 pounds. Per pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.00.

Large Cheese—Resembling in flavor the crookneck squash yellow flesh, fine grained. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Golden Oblong—A splendid variety for field culture; can be grown in the cornfield for winter use. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

PEANUTS.

The peanut thrives and produces best on light, sandy tolerable fertile soil. April is a suitable time for planting.

They produce from twenty-five to seventy-five bushels per acre according to the soil and culture. Per lb. 20c postpaid.

If ordered by express deduct 10c per pound.

Peanuts.

OKRA or GUMBO.

White Velvet—The pods are round and smooth and much larger, and not prickly to the touch, very productive. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 55c.

Dwarf Green Prolific—Early and productive. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 55c.

Improved Long Green—Long-ribbed pods. Per pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 55c.

ONION SETS.

If ordered sent by express deduct 5 cents per pint and 10 cents per quart.

Onion sets should be planted early in spring in rows 12 inches apart. When raised from sets the onions can be used in the green state in June, or they will mature in July, one quart to 4 feet of drill.

Yellow and White Onion Sets—Pt. 20c, qt. 30c, pk. 90c, bu. \$2.75.

White Velvet Okra.

PEAS.

(One quart for 75 feet of drill; 2 to 3 bushels per acre in drills.)

For the early crop plant as early in the spring as the ground can be conveniently worked, and cover about two inches deep. The small varieties should be planted in rows, about two feet between the rows; the larger growing sorts somewhat further. Ground, to give best results, should be rich, without the application of fresh manure at the time of planting, as it tends to run them more to vines than pods,

EXTRA EARLY GRADUS. This is the earliest large podded wrinkled pea in cultivation; it grows about 2½ feet in height; the pods are produced in great abundance and are well filled with from 6 to 10 peas of enormous size. Per ½ pt., 10c, pt., 20, qt., 45c, pk., \$1.10, bu., \$4.00.

NOTT'S EXCELSIOR. The most valuable of all dwarf early wrinkled peas; usually ready for the table in 40 to 45 days from planting. Height about 14 inches; of a vigorous constitution. This variety cannot be recommended too highly. Per ½ pt., 10c, pt., 20c, qt., 45c, pk., \$1.10, bu., \$4.00.

IMPROVED STRATEGEM. An excellent wrinkled pea, with sturdy vine, growing only about 2 feet high. The pods are of extra large size, often measuring five inches in length and are always well filled, frequently containing 10 peas to the pod. The flavor is first-class. Pkt., 10c; pt., 25c; qt., 30c.

AMERICAN WONDER. Is one of the very best of the earliest wrinkled peas in cultivation, and a superior cropper, bearing large, well-filled pods, having from six to nine large peas in a pod. The vines are ten to twelve inches high, and of robust habit. A fine variety for the home garden. Per ½ pt., 10c, pt., 20c, qt., 45c, pk., \$1.10, bu., \$4.00.

CHAMPION OF ENGLAND. The standard late variety; very rich and delicious flavor. It is an abundant bearer (see cut), Per ½ pt., 10c; qt., 20c; gal., 60c; pk., \$1.00; bu., \$3.50.

PHILADELPHIA EXTRA EARLY. An extra early sort of good quality and very prolific; height, 2 feet. Per ½ pt., 10c; pt., 20c; qt., 45c; pk., \$1.10; bu., \$4.00.

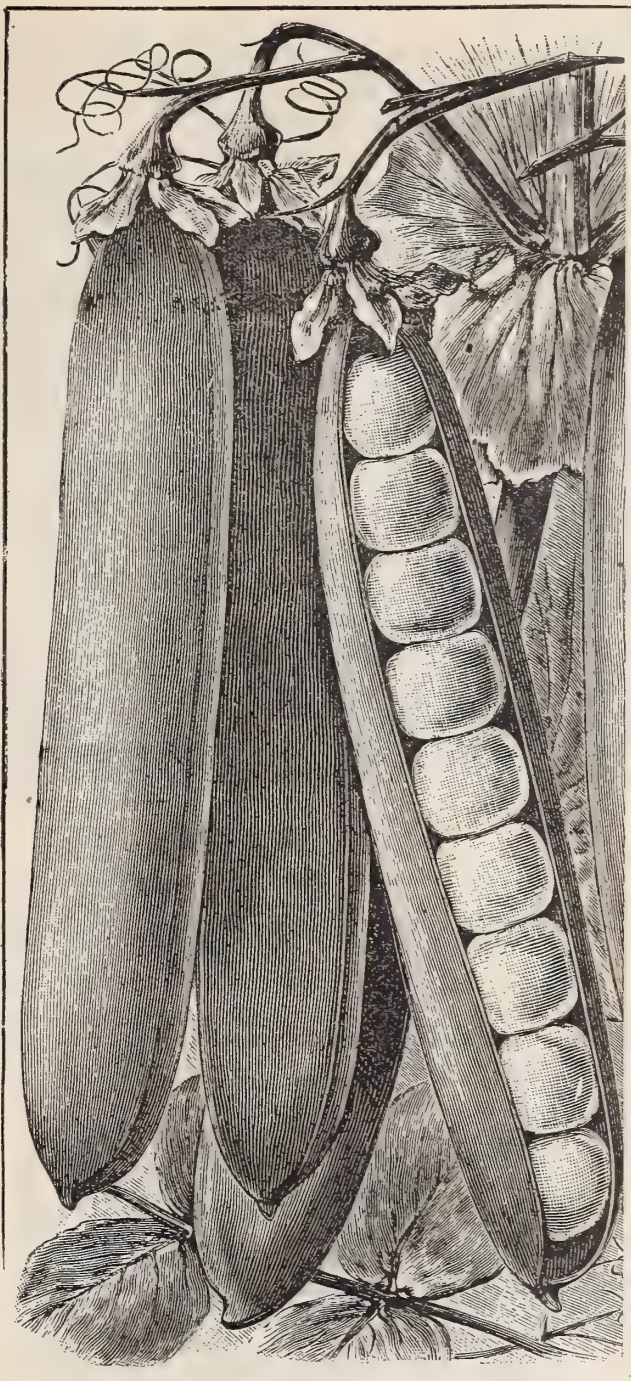

FIRST AND BEST. This is indeed the first and best as to earliness and uniformity of ripening, maturing in 40 days from sowing; very dwarf, growing only about 18 inches high. Per ½ pt., 10c; pt., 20c; qt., 45c; pk., \$1.10; bu., \$4.00.

McLEANS LITTLE GEM. A dwarf, first early, green wrinkled marrow; very prolific and of superior flavor; 1 foot. Per ½ pt., 10c; qt., 25c; gal., 75c; pk., \$1.25; bu., \$4.50.

ALASKA. The vines of this variety grow from 20 to 30 inches in height bearing well-filled, medium sized pods; it is a most popular variety with canners everywhere. The entire crop matures at one time so that at the most, two pickings are required. Per pkt., 10c; pt., 20c; qt., 45c; bu., \$4.00.

THOMAS LAXTON. The only rival to the famous Gradus—as a long-podded, extreme, early wrinkled pea—and in some respects, even better. The growth is identical with that of the Gradus, but the pods are a deeper, richer green, square at the end instead of having a long sloping point. In the judgement of experts who have grown the two side by side, the Thos. Laxton is even sweeter and finer in flavor than the Gradus, while the large peas are of a deeper green they present a more attractive appearance on the table. Per pkt., 10c; pint, 25c; qt., 45c.

AMEER. This variety is hardy, vigorous and productive. It has long curved green pods, which are well filled with large peas of splendid quality. It is unusually early for a large podded variety, delicious and fine cropper. Per pkt., 10c; pt., 25c; qt., 45c.

Peas—Philadelphia Extra Early.

RHUBARB.

THE EVER-BEARING CRIMSON WINTER RHUBARB. This vegetable was introduced by Luther Burbank, of Santa Rosa, Cal., and claims it to be literally ever-bearing. The flavor is delightful, quite different from the common Rhubarb. It is fine grained, requires no stringing so there is no waste and requires less sugar than the older variety. The color is beautiful, when properly cooked and makes a most inviting dish, and a berry-like flavor.

We offer this in roots only, which should be planted with the crown above the surface. Plants freshly set should have but one crown, if they have more than that they divide the strength of the roots and give only small crowns. They should be planted from February to July. The plants should be set out 2½ feet apart, 6 feet between the rows, and thrive best in a well drained, rich, sandy loam and needs no fertilizer (see cut).

Large Roots.....Each, \$0 35; 6 for \$1 00
Medium RootsEach, 20; 3 for 1 00

RHUBARB.

Sow in April in drills 18 inches apart and cover the seeds with fine soil, pressing it down firmly. When the plants are strong enough, thin out to 6 inches. In the fall or following spring, transplant the roots into deep, rich soil, 3 feet apart each way.

LINNAEUS. A well-known market variety very early and tender. Per pkt., 5c; oz., 15c; ¼-lb., 40c; 1-lb., \$1.50.

VICTORIA. Very large; later than Linnaeus. Per pkt., 5c; oz., 15c; ¼-lb., 50c; 1-lb., \$1.50.

For Rhubarb Roots see Page 17.

The Ever-Bearing Crimson Winter Rhubarb.

PARSLEY.

1 oz. for 150 feet of drill.

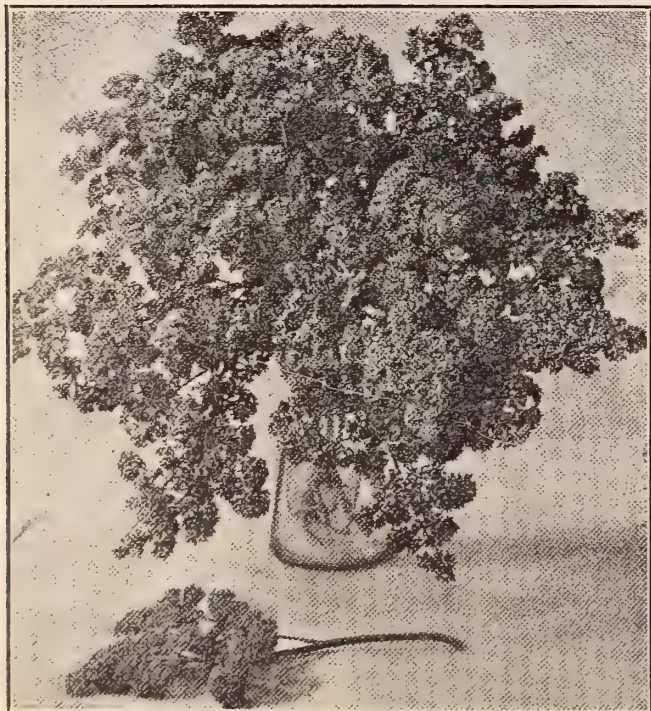

Parsley succeeds best in rich, mellow soil. As the seed germinates very slowly, three or four weeks elapsing sometimes before it makes its appearance, it should be sown early in spring. Sow thickly in rows a foot apart and half an inch deep. For winter use protect in a frame or light cellar.

Fernleaf—A beautiful variety invaluable as a garnishing plant. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 65c.

Plain—Hardier than the curled variety, good for flavoring. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. 50c.

Champion Moss Curled—Select stock, crimped and curled, fine for garnishing. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Double Curled or Dwarf Extra—A new variety, popular, extra curled. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 65c.

Parsley.

C. Young & Sons Co.,
St. Louis.

Dear Sirs:

I received my plants OK and was more than pleased with the extra plants for which accept my sincere thanks. Some of my neighbors seeing my plants have gone in with me on another order that I am sending you to-day. All my plants doing nicely. Yours truly,

McBame, Mo.
April 12, 1906.

Mrs. G. H. Cox.

POTATOES.

In Drills 3 Feet Apart, 12 to 14 Bushels to the Acre, Our Potatoes are Specially Raised for Seed Purposes, and are Northern Grown.

Red River Triumph—This is a very early potato. The tubers are medium in size, of a bright red color, popular in the south. Pk. 50c, bu. \$1.60.

Maule's Commercial—The tubers are of a beautiful shape and appearance, being oblong and rather broad and thick, a most prolific main crop sort. Per pk. 50c, bu. \$1.40.

Pingree—The tubers grow in bunches very close together, of a good size, and of a light russet color, very few eyes, which are nearly flush with the surface, in quality no other surpass it for a main crop. Per pk. 50c, bu. \$1.50.

Early Rose—The leading variety for earliness, quality and productiveness. Per pk. 40c, bu. \$1.50.

Early Michigan—The Early Michigan is popular and deservedly so. It is fine looking, flesh and skin both pure white, well netted, of excellent quality, a strong grower. Per pk. 50c, bu. \$1.50.

Rural New Yorker No. 2—This is a very vigorous grower with an exceedingly solid tuber, which enables it to resist all diseases to a remarkable degree. Its extreme whiteness of skin and flesh make it a good table variety (see cut). Pk. 40c, bu. \$1.40.

Red River Early Ohio—Very productive, fine quality, an excellent keeper one of the best potatoes for home or market use. Pk. 40c, bu. \$1.50.

Large Bell Pepper,
PEPPER.

SWEET MEDICINIAL HERBS.

No garden is complete without a few herbs for culinary or medicinal purposes, and care should be taken to harvest them properly. This should be done on a dry day, just before they come into full bloom, then dried quickly and packed closely, entirely excluded from the air. Sow in the spring in shallow drills, a foot apart, and when well up, thin out or transplant to a proper distance apart.

Anise—For garnishing, cordials and flavoring. Per pkt. 5c, oz. 15c.

Basil, Sweet—The leaves and tops of the shoots are used for highly seasoned soups, stews and sauces, a leaf or two is sometimes placed in salads. Per pkt. 5c, oz. 15c.

Borage—Excellent for bees. The leaves are used in salads or boiled as spinach, the flowers are aromatic and used in cool drinks. Per pkt. 5c, oz. 15c.

Coriander—For garnishing, the seeds are aromatic and useful for flavoring. Per pkt. 5c, oz. 10c.

Dill—The aromatic seeds are used in pickles, preserves, soups, and sauces. Per pkt. 5c, oz. 10c.

Fennel—The leaves boiled enter into many fish sauces, and are beautiful for garnishing, the seeds are employed in confectionery and for flavoring liquors. Per pkt. 5c, oz. 10c.

Lavender—A popular, aromatic herb, emitting a delightful perfume. Per pkt. 5c, oz. 15c.

Marjoram, Sweet—The leaves and ends of the shoots are popularly used for seasoning, it is usually grown as an annual. Per pkt. 5c, oz. 15c.

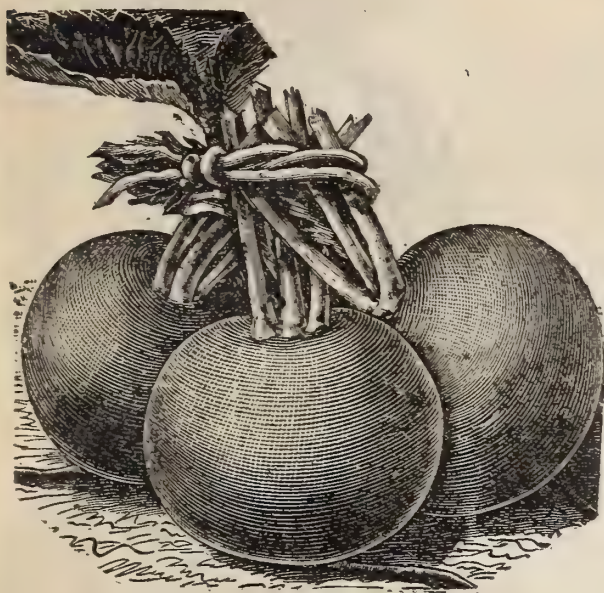

Rosemary—The aromatic leaves are used for seasoning. The oil from the flowers is the chief ingredients in "Eau de Cologne." Per pkt. 5c, oz. 25c.

Sage—The leaves are used in dressings and in sauces. Per pkt. 5c, oz. 15c.

Savory, Summer—Used for seasoning and flavoring soups and dressings. Per pkt. 5c, oz. 15c.

Thyme, Broad Leaved—The leaves are dried for seasoning, also useful as a bee food. Per pkt. 5c, oz. 15c.

RADISH.

Radish, Early Scarlet Globe.

✓ **FRENCH BREAKFAST.** Color, bright carmine, with clear white in the lower portion. Very tender and mild. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EXTRA EARLY SCARLET GLOBE.** This beautiful radish is the earliest of all, and the best for family use. It is rich, bright red in color, round, smooth and firm (see cut). Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **LONG BRIGHTEST SCARLET.** A very early variety, the roots being fit for use about 25 days after sowing. Color, a bright scarlet. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **WHITE BOX.** It is a beautiful, clear, ivory-white, of perfect form, with few and short leaves, and hence can be grown very thickly in the row. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **IMPROVED CHARTIER.** A long and unusually large variety. The upper portion of the radish is bright crimson, shaded down to pink, to the tip it is pure white. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EARLY SCARLET TURNIP.** The earliest sort, turnip-shaped, color, fine scarlet. It is remarkably mild, crisp and tender. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **LONG SCARLET, SHORT TOP.** A standard long variety. Root is long, straight, smooth and of a rich scarlet color. Very quick growth. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

Radish-Icicle.

Radishes thrive best in light, sandy loam. Heavy or clayey soils not only delay their maturity, but produce crops much inferior, both in appearance and flavor. For a successive supply sow from the middle of March until September, at intervals of two or three weeks. For an early supply they may be sown in a hot-bed in February. Sowing should be made in drills ten inches apart and the plants should be thinned to two inches in the row.

Radish-Delicious

✓ **WHITE TURNIP.** Similar to Early Scarlet Turnip in every respect, except its white skin. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **LONG WHITE VIENNA—(Lady Fingers).** This is the finest long white radish in cultivation for summer. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **CHINESE ROSE, WINTER.** A fine winter sort, root a half long stump of from three to four inches, scarlet and pink in color, tipped with white. Quite salable in market during fall and winter. Keeps perfectly. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **ROUND, BLACK SPANISH.** A fine winter Radish, very attractive skin, flesh white and firm. One of the oldest but one of the best sorts. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **ROUND, WHITE SUMMER.** A great favorite, pure white, round and smooth skin, crisp and tender. A fine variety. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **GRAY SUMMER TURNIP.** Good for a summer crop, crisp and tender. A very choice sort. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **RED ROCKET RADISH.** This variety has a very small top, which permits close planting—a great advantage when grown under glass—the bulb is smooth, deep scarlet in color, with a very small root. The flesh is crisp and of good flavor. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **WHITE ROCKET RADISH.** A trifle heavier than Red Rocket. It has an equally small top; the bulb is pure white, while the color of the flesh is distinct, being of a clear waxy-white. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **WHITE ICICLE.** This radish derives its name from the transparent whiteness of the root. When grown in the open ground it is quite early, while the roots continue brittle, crisp and solid until they are fully as large as those of the Long Cardinal: it is very desirable for the home garden (see cut). Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EARLY CRIMSON GIANT.** This is an entirely new variety. It attains twice the size of the turnip-shaped varieties, and remains tender and perfect to the very last. The shape of the bulbs vary a little between round and oval, but the skin is a deep crimson and the flesh pure white. The roots develop 6 to 7 inches in circumference, are an ounce in weight, and have surprised all who have tried it. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EARLY GOLDEN YELLOW.** A comparatively new sort, very popular in the New York market. The roots are oval, very smooth and handsome, bright, light yellow color, and of fine quality. It matures very quickly and has a small top and neck. Our stock is grown from selected roots and is very fine. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EARLY WHITE GIANT STUTTGART SUMMER—(Round).** A large grower, top-shaped and long keeper; all white, smooth, brittle, never pithy, second early. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

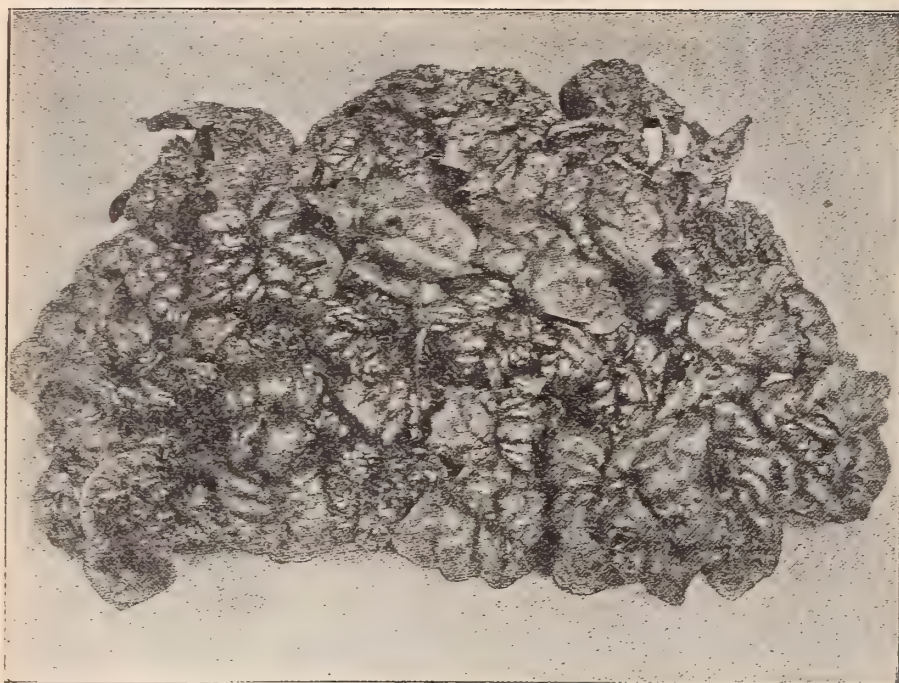

✓ **WOOD'S EARLY FRAME.** Shorter and thicker than the Long Scarlet Short Top. Best long Radish for forcing, also good for outdoor crop, either Spring or Fall, mild, brittle, of fine flavor. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

✓ **EXTRA EARLY ERFURT.** Its shape is of the best type of the round sorts; color of skin, a very dark red; white flesh, with small tap roots. Per pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

These prices include free delivery in the U. S. If party wishes to pay their own transit charges deduct 10c per pound from prices quoted.

Radish-French Breakfast.

Spinach—Savoy Leaf.

SPINACH.

Deduct 10c per lb. if ordered to be sent per Express.

One ounce for 100 feet drill. For the winter crop sow in September. It may be covered up in exposed places with straw or hay during the winter. For summer use sow in March or April. Spinach is best developed and most tender and succulent when grown in rich soil.

✓ **Victoria.** The best variety for spring sowing, as its long standing quality makes it valuable for that purpose. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 15c., lb. 40c.

✓ **Bloomdale Curled Savoy Leaved.** The leaf of this variety is wrinkled and produces twice the crop of the old variety. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 15c., lb. 40c.

✓ **Round Thick Leaf.** The main market sort. Equally good for fall or spring sowing (see cut). Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 15c., lb. 35c.

✓ **Long Standing.** Except for standing a long time before running to seed, this variety resembles the well known Round-Leaf. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 15c., lb. 35c.

✓ **Prickly.** May be sown either in spring or fall; the best winter variety. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 15c., lb. 40c.

✓ **New Savoy Leaf—**This is the hardest large Savoy leaved, curled and crimped, with thick leaves, and is one of the best varieties for fall sowing, or family use. Per pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c., lb. 40c.

SORREL.

Broad-Leaf. French—Used for salad. Per pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

SALSIFY OR OYSTER PLANT.

Deduct 10c. per lb. if ordered to be sent per express.

Especially esteemed for its peculiar oyster flavor. Sow the seed early in the spring, in drills 12 inches apart and 1 inch deep, thinning out the young plants to 6 inches. The roots will be ready for use in October, when a supply should be taken up and stored like carrots. Those remaining will suffer no injury by being left in the ground till spring.

Mammoth Sandwich Island—This variety grows to an extra large size, resembling a good size parsnip (see cut). Per pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 40c., lb. \$1.25.

Long White—The favorite market variety, and best flavored. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Wisconsin Golden—This new salsify or oyster plant is of high culinary merit. The root is larger than the Mammoth Sandwich Island variety, the best heretofore on the market, and has a richer color, inclining to yellow. Many tests of it have been made and the verdict is universally favorable.

It is rich, tender and delicious, and decidedly superior to the white varieties.

The leaves are quite peculiar in appearance, of a dark green color, and crimped or curled in a manner characteristic of the new and distinct type. Per pkt. 10c., oz. 15c., $\frac{1}{4}$ lb. 40c.

Squash.

Salsify Sandwich Island.

SQUASH

Deduct 10c. per lb. if ordered to be sent per express.

Squashes will grow readily on almost any soil. It is useless to sow until the weather becomes settled and warm. The bush varieties from 3 to 4 feet each way, and for the running sorts, from 6 to 8 feet. 8 or 10 seeds should be sown in each hill, thinning out after they have attained their rough leaves, leaving three or four of the strongest plants.

Early White Bush Scallop, or White Patty Pan, an extra large size of the early white bush scalloped; mature quite early and will continue to do so if the fruits are picked off as soon as they are large enough. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Early Yellow Bush Scallop, or Golden Custard. This is similar to the Mammoth White Bush, except in color, which is a golden orange. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Golden Hubbard—Very productive and fine quality. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Burpee's Fordhook—Fruit oblong in form, 8 to 10 inches in length.

Boston Marrow—Very popular variety, oval shaped, skin yellow, flesh orange colored and fine grained. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Hubbard—The standard winter squash, no better variety grown, more generally cultivated as a late sort than any other; flesh fine grained, dry and of excellent flavor. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Essex Hybrid—Of finest quality, flesh thick, fine grained and very solid, a good keeper, very productive, early and of rapid growth. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Pineapple—Pure white color, unusually thick flesh, good for summer or winter. White. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Summer Crookneck—A beautiful white variety of squash of excellent quality; splendid for market or home garden. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Gregory Delicious—This is a fine variety of squash and is best adapted for fall and winter. In appearance it resembles the Hubbard and has very small seed cavities; flesh deep orange color, tender and almost of mealy dryness; no matter how it is cooked, it is simply delicious. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

Fordhook—The flesh of this squash is very dry and sweet, it is one of the earliest of the winter varieties and if stored in a cool, dry place will keep until the following June. The shape is shown in the picture, the outside color is bright yellow, inside color straw yellow, the skin is so thin that it need not be removed for cooking. The meat is thick and the seed cavity small, the green squashes can be used at any stage of their growth, easily grown, on all soils and is valuable for home or for market, immensely productive. Per pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 65c.

TOBACCO

Seed should be sown as early as possible after the danger of frost is over, and covered very lightly. When the plants are about 6 inches high, transplant into rows 4 or 5 feet apart each way, and cultivate thoroughly with plow and hoe.

Big Havana—A hybrid Havana or Cuban seed leaf. A heavy cropper of fine texture. Per pkt. 5c., oz. 25c., $\frac{1}{4}$ lb. 65c.

Connecticut Seed Leaf—Is hardy and endures the cold better than the tender varieties. Per pkt. 5c., oz. 20c., $\frac{1}{4}$ lb. 60c.

Tomatoes do best in light, warm not over-rich soil, sowing seed in hot-beds during March. When the plants are about 2 inches high transplant in boxes 3 inches deep and 4 or 5 inches apart. Set out of doors as soon as danger from severe frost is over. The fruits will come earlier if the vines are tied to a trellis.

If by mail in quantities of one-half pound and upward, postage must be added at the rate of 8c per pound.

FAVORITE. A fine Tomato. One of the largest in cultivation. Per pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c.
YOUNG'S EXCELSIOR. The color of this variety is bright crimson, with a slight purplish tinge. Like all large tomatoes it is a strong, vigorous grower and very early for its size, it is an enormous cropper, yielding the entire summer. Per pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.00.

ALICE ROOSEVELT. Large size, smooth and globular shape; flesh is a dark scarlet color. They contain very few seeds and weigh between 5 and 7 oz. Per pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.00.

NEW STONE. Color, a bright scarlet, smooth, and ripening evenly to the stem; a heavy cropper and good shipper. Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

SPARK'S EARLIANA. This is one of the earliest bright red tomatoes. They are of medium size and grow very close together, in clusters of 5 to 7 of deep scarlet color and are $2\frac{1}{2}$ inches in diameter, and have very small seed cavities and a slight acid flavor. Per pkt., 10c; oz., 40c; $\frac{1}{4}$ lb., 75c.

VAUGHAN'S MODEL. The fruit is first-class; color, deep brilliant scarlet. The plants are of bush form and hold their fruit well off the ground. Per pkt., 15c.

ATLANTIC PRIZE. A very rapid, strong growing variety; fully ten days ahead of any other (see cut). Per pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

MATCHLESS. A very large growing variety; skin remarkably tough; a good keeper. Per pkt., 5c; oz., 30c; $\frac{1}{4}$ lb., 65c.

LIVINGSTON'S BEAUTY. This variety is as early as the Acme, is round, smooth and of a glossy crimson color (see cut). Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 65c.

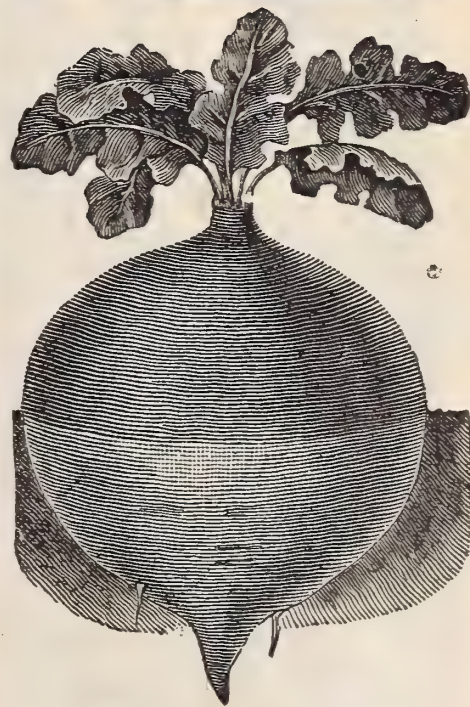

ACME. One of the earliest; is of medium size, smooth and regular in shape. Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 65c.

GOLDEN QUEEN. A yellow tomato, very solid, large and handsome. Its flavor is of the best. Smooth, round and very productive (see cut). Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 65c.

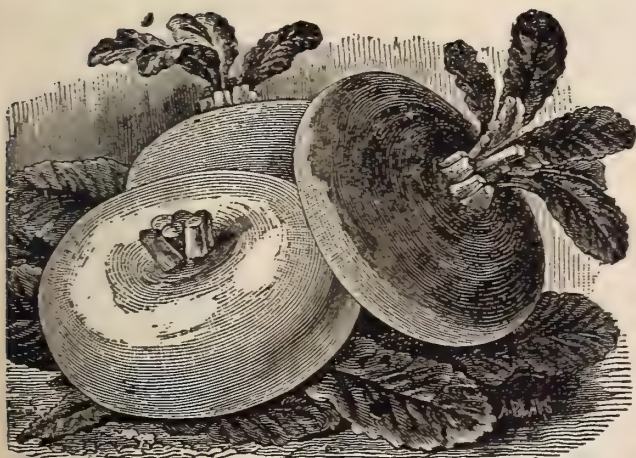

PERFECTION. Color blood red, almost round in shape, perfectly smooth and very solid. Per pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c.

PEACH. Resembling a peach in shape and size; color, deep orange-rose. Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 70c.

RED CHERRY. The shape and size of a cherry (see cut). Per pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Rutabaga, Improved Purple Top.

Turnip, Purple Top, Strap Leaf.

Yng TURNIPS.

Steckrabe, Ger.; Navel, Fr.; Nabo Coman, Sp.

One ounce for 150 feet of drill. One to two pounds in drill for an acre. Sow the seed very early, in drills 18 in. apart and $\frac{1}{2}$ in. deep. When the plants are a few in. in height, thin out to 6 in. apart in drills. For late crop sow in July and August, broadcast or in drills.

If by mail in quantities of one pound and upward, add 8c per pound for postage.

✓ **Purple Top, Strap Leaf.** This variety is the principal sort for early spring and fall use. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 45c.

✓ **Early White, Flat Dutch.** An excellent garden variety; the best for spring sowing. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 45c.

✓ **Golden Ball.** A rapid grower, globe-shaped, bright yellow color. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 45c.

✓ **Early Red Top, White Globe.** The flesh is pure white, of high quality and excellent flavor. Per pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 45c.

Purple Milan. One of the earliest varieties in cultivation. Fine for table use.

RUTABAGA, OR SWEETES.

Cultural Directions same as Turnip.

✓ **Improved American.** Very hardy and productive, flesh yellow, solid and sweet; good for stock and table use. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 50c.

✓ **Long Island Improved.** This is undoubtedly the finest variety of purple top Rutabagas grown, the shape is slightly oblong, with a single top root, free from all coarseness, and for conformity of crop is superior. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c.

FARM AND FIELD SEEDS.

CORN.

The prices include sack and free delivery to any freight depot in St. Louis.

White Cap Yellow Dent. This variety is considered by all large professional corn growers to have more general good merit than any other corn grown. It is a very heavy yielder and a vigorous grower, even on poor land. Per pk. 40c; bu. \$1.40.

Clark's Early Yellow Mastodon. This is a very quick growing variety, extra large and very productive. Ears average 9 to 12 inches long with 20 to 30 rows on the cob; stalk bearing 3 to 5 ears, often weighing 2 lbs. each. Pk. 40c; bu. \$1.40.

Champion Early White Pearl. This is the best of the White Dent varieties. It is pure white, a tremendous cropper, and very early, coming in from 95 to 100 days. Per pk. 40c; bu. \$1.40.

White Hickory King. This is a pure white corn too well known to need any introduction. Good grower and a large yielder in most any situation, either high or low ground. Per pk. 40c; bu. \$1.40.

Golden Beauty. This is a standard Yellow Dent Corn and is well named, as it is the most beautiful yellow corn grown. The ears are medium in size and very heavy and long, having from 15 to 20 rows on a cob. Per pk. 40c; bu. \$1.40.

Improved Leaming. A Yellow Dent variety; very small cob, with a deep, long grain; very productive, yielding from 75 to 100 bushels per acre. Per pk. 40c; bu. \$1.40.

Dungan's White Prolific. One of the largest varieties of White Corn grown; a very deep grain and a small pure white cob. One of the greatest points in this corn is its yielding capacity, it producing double the quantity of any other variety. Per pk. 40c; bu. \$1.40.

Early Canada Yellow Flint. This Flint Corn is the hardest and earliest in maturity and can be grown more satisfactorily further North than the Dent Corn. Per pk. 40c; bu. \$1.40.

KAFFIR CORN.

A variety of Sorghum cultivated for both forage and grain, growing from 4½ to 6 feet high; is stocky and erect and has wide foliage. Kaffir Corn has the quality, common to all Sorghums, of resisting drouth, and in this fact is to be found its peculiar value to Southern sections. Sow in rows 3 feet apart, 5 to 6 lbs. to the acre. Per lb. 10c; by mail, 18c per lb.; 10 lbs. 75c.

BROOM CORN.

Improved Evergreen. Grows about 8 to 10 feet high; stands up well, and is entirely free from crooked brush. The fibre is long and fine. It will not get red in the field before it is cut; but is strictly a green variety of brush. Peck, 50c; bu. (48 lbs.) \$1.50.

COW, OR SOUTHERN PEA.

Plant in thoroughly pulverized soil. If wanted to plow under for manure, sow with grain drill, in drills a foot apart. If grown for fodder or for seed, plant 3½ feet apart and cultivate thoroughly. The seeds must not be sown until soil has become thoroughly warm. W't per bu. 60 lbs.

Black Eye. Seed large; round oblong; creamy white; large black eye. Pk. 60c.

Black. Seed all black; called also "The Poor Man's Pea," on account of its wonderful prolificacy. Per pk. 60c.

Clay Colored. Large seed; of a blue-clay color. Per pk. 60c.

Whip-Poor-Will. The seeds are large; speckled brown in color. Per pk. 60c. (Prices per bu. on application.)

BUCKWHEAT.

(Sow 3 pecks to the acre.)

Japanese. Distinct and superior to all other varieties; taller strain and much larger grain, far outyielding the older varieties. Per lb. 10c; by mail, 18c per lb.; pk. 40c; bu. \$1.25.

Silver Hull. This variety continues in bloom longer than common Buckwheat; the flour is whiter and husks thinner. Per lb. 10c; by mail, per lb. 18c; per pk. 50c; bu. \$1.50.

SUGAR BEETS AND MANCEL WURTZEL.

(Sow 4 to 6 lbs. to the acre.)

These are very valuable for stock feeding. Cultural directions same as Beets.

Red Globe. Similar to Yellow Globe, differing only in color. Per oz. 5c; ¼ lb. 15c; lb. 35c.

Giant Intermediate. Very profitable to grow; an improvement on Yellow Ovid. Per oz. 5c; ¼ lb. 15c; lb. 35c.

Vilmorin's Improved (White Sugar Beet)—This variety has more saccharine matter in it than any other. Per oz. 5c; ¼ lb. 15c; lb. 35c.

SORCHUM.

(Culture direction same as Corn.)

Early Amber. An early popular variety. Its distinct feature is its earliness and great yield of both sugar and cane. Per lb. 10c; by mail, 18c per lb.; pk. 50c; bu. \$1.50.

Early Orange. A little later variety than the Amber, well adapted for the South. Per lb. 10c; by mail, 18c per lb.; pk. 50c; bu. \$1.50.

SUNFLOWER SEED.

(Sow 4 or 5 lbs. to the acre.)

Mammoth Russian. Single heads measure 12 to 22 in. in diameter, and contain an immense quantity of seed. It is an excellent and cheap food for fowls, and it can be raised cheaper than corn. Per lb. 10c; by mail, 18c per lb.

MILLET.

German or Golden Millet. Superior to all others. Medium early; 3 to 5 feet high. Sow same as common millet. Per lb. 10c; by mail, 18c per lb.; bu. \$1.50.

INSECT DESTROYERS.

SLUG SHOT—This is a powder poisonous to insects, either killing them or driving them away. For the destruction of the potato bug, striped bug on melons and cucumbers, black flies on turnips and radishes, and the green worm on cabbages, we know of nothing so effectual. 1 lb. canisters with perforated top, 25c each; by mail, 35c; 5 lb. packages, 30c; 10 lb. packages, 50c.

HELLEBORE—For destroying rose slugs and currant worms. A few applications only are necessary, and it is thoroughly effective. Per ½ lb. 20c; ½ lb. 30c; 1 lb. 50c. By mail, 16c per lb. extra.

YOUNG'S INSECT POWDER—This powder is what we have been using in our greenhouses and gardens for the past two years for destroying aphids, or green fly on potted plants, roses, etc. It has never failed. Also the best powder for the destruction of the rose slug and any other insect that infests all outside plants. In packages of ¼ lb. 25c.

FLOWER OF SULPHUR—A preventive and cure for mildew on roses, grapevines, etc. Per lb. 10c; per 3 lbs. 25c. If by mail, add 8c per lb.

TOBACCO STEMS—For fumigating plants infested by green fly. Per lb. 15c; per barrel of 20 lbs. \$1.00.

TOBACCO DUST (Fine)—For green or black aphids, fleas, beetles, etc. Splendid fertilizer and preventive for insects in the ground and around roots. Ten cents per lb. or by mail 20c per lb; 5 lbs. 35c; 10 lbs. 65c; \$3.00 per bbl.

NICOTINE—An economical and powerful nicotine extract. One part to 600 of water is sufficiently strong to kill all insects except scale, for which use 1 to 400. Pint, \$1.50.

PUNK—Very useful and convenient article for fumigating plants infested with aphids, mealy bug, or other insects. When ignited it does not produce any flame, but a large quantity of smoke, which is not offensive. Large size box, 75c each.

FERTILIZERS.

PURE BONE MEAL—This is ground very fine, is excellent for top-dressing lawns and well adapted for mixing with soil for potting purposes, for which one part of meal to fifty of soil is about the right proportion. Price—2 lbs. (not mailable) 15c; 10 lbs. 50c; 25 lbs. \$1.00. In 50 to 100 lbs. 2½c per lb.

BOWKER'S FOOD FOR FLOWERS—A fertilizer free from odor, clean to handle. Made expressly for flowers grown in the house or garden, producing a healthy, luxuriant growth and induces early and generous flowering. It can not in any way harm the plants if applied according to directions, which accompany every package. Small package, 15c; by mail, 25c. Large packages, enough for 20 plants for six months, 25c; by mail, 40c.

PULVERIZED SHEEP MANURE—Most nutritious food for plants. Its effect is immediate and lasting; it is clean to handle and perfectly odorless, and one of the best manures to mix with soil for potting plants. One part manure to six parts of soil. As a lawn dressing it is unequalled. Ten pounds is sufficient for an area of 300 square feet. 5 lbs. 25c; 10 lbs. 50c; 50 lbs. \$2.00; 100 lbs. \$3.50.

LEAF MOULD—It is very valuable for the growing of ferns and all plants that require a light rich soil; should be mixed with clean, sandy loam, about one-quarter of leaf mould to three-quarters of loam.

It is perfectly dry and light. Per lb. 35c; 2 lbs. 60c by mail postpaid; 5 lbs. by express, 75c; 10 lbs. \$1.25.

POTTING SOIL—We have had a mixture prepared that will be suitable for most all kinds of plants. It is made up of clear sod loam with the right proportion of rotten manure, leaf mould and good sharp sand. It is finely sifted and ready for immediate use. Per bushel, 75c; per barrel, \$1.50.

MANURE FOR LAWNS—This is the best of the fertilizers for lawns, producing a thick, luxuriant growth of grass. It should be put on the lawn during the fall months. The finest lawns in St. Louis last summer were those that were top-dressed with this fertilizer last fall. Per barrel, \$1.50; six barrels, \$7.50, per freight or express at buyer's expense.

YOUNG'S TRANSPLANTED VEGETABLE PLANTS.

Add 25c per 100 if ordered to be sent by mail.

Cabbage—Varieties, Jersey, Wakefield, Henderson, Early Summer and Premium Flat Dutch, ready April 1st. Per doz. \$.10; per 100, \$.50.

Cauliflower—Varieties, Early Snowball, ready April 1st. Per doz. \$.20; per 100, \$1.25.

Egg Plants—New York Improved and Black Pekin, ready May 10th, pot grown. Per doz. \$.50; per 100, \$3.75.

Pepper—Sweet Mountain and Long Cayenne, ready May 1st, pot grown. Per doz. \$.40; per 100, \$3.00.

From seed bed transplanted one time. Per doz. \$.25; per 100, \$1.50.

Tomatoes—Atlantic Prize, Livingstone Beauty, ready May 1st, pot grown. Per doz. \$.40; per 100 \$3.00.

From seed bed transplanted one time. Per doz. \$.25; per 100, \$1.50.

Add 10c per dozen if order be sent by mail.

Celery Plants—Ready in June, White Plume, Golden Self Blanching Giant Golden Heart, etc. Per doz. \$.15; per 100, \$.50.

Sweet Potato Plants—Ready May 15th, Extra Early Varieties. Per doz. \$.10; per 100, \$.40.

Tomato, Young's Excelsior—Ready May 1st, pot grown only. Per doz. \$.50; per 100, \$3.50.

Asparagus Roots—Good 2-year old roots of the following varieties which may be planted in the spring or fall.

Conover's Colossal.....per 100, \$0 90
Palmetto....." 1 00
Barr's Mammoth....." 1 25

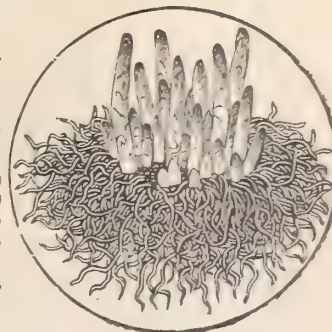

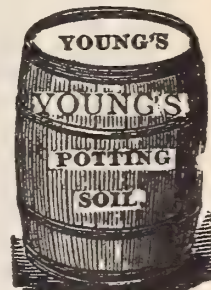

Add 25c per 100 if ordered sent by mail. Culture directions with each order.

Chive Plants—Each, \$.10; doz. \$1.00.
Horse Radish Roots—Each, \$0.05; per doz. \$.25.

Rhubarb Roots (Victoria)—Each, \$.15; per doz. \$1.50.

Horse Radish Roots.

Asparagus Roots.

YOUNG'S LAWN GRASS SEED.

IT HAS NO EQUAL FOR MAKING A NEW LAWN OR RENEWING AN OLD ONE.

IN MAKING A NEW LAWN, first spade the ground well. If it is unusually poor, spread over it a layer of rich top soil to the depth of three or four inches. As soon as the ground is thoroughly pulverized and smooth, sow our "Lawn Grass Mixture" thickly then rake and pat the surface smooth with the back of a spade or if the lawn is large use a roller. Get the seed in as early in the spring as possible. When the shoots of young grass have grown to the height of three or four inches, it should be mown with a sharp scythe; after this it should be mown every week with a lawn mower.

RENEWING OLD LAWNS. Have the lawn raked early in the spring. Remove all dead grass and leaves, then sprinkle it with our Lawn Grass Seed sowing thickly the bare spots and thin spaces, so that the seed and grass will grow at the same time, forming a perfect sod. Our improved Lawn Grass Seed is the best mixture for sowing or renewing lawns. It has been carefully prepared, and thorough testing has shown it to be the best seed for sowing in this climate, producing a smooth and durable turf, that will remain green throughout the summer.

As a guide for the proper quantity to order, we may state: For making new lawns, 5 bushels per acre, or for renovating old lawns, 1 to 2 bushels per acre; for a lot 15x20 or 300 square feet, 1 quart is required for a new, or 1 pint for renovation.

Price per quart, 30c by mail. If ordered to be sent by Express or Freight, purchaser paying the charges: Quart 25c; peck, \$1.00; bushel of 20 lbs., \$4.00.

YOUNG'S GOLF LINK GRASS SEED.

This is a special mixture of tough growing varieties of grasses that will stand the extreme drought of summer.

This special grass seed is highly recommended by all the clubs that have used it on their golf links.

Per quart 25c; peck, \$1.00; bushel of 20 lbs., \$4.00.

YOUNG'S SHADY NOOK LAWN GRASS SEED.

There are very often some bare spots on lawns caused by the shade from trees and other objects which cannot be kept clean without a great deal of care. We have succeeded in making a mixture of evergreen grasses that thrive in a shady situation. With this mixture it will require no more attention to keep these shady spots green than any other part of the lawn.

Per quart, 25c; peck, \$1.00; bushel of 20 lbs., \$4.00.

A View of a Lawn Sown with YOUNG'S LAWN GRASS SEEDS and ENRICHED with their FERTILIZER.

GRASS AND CLOVER SEED.

If Order is to be Sent by Mail, Postage must be Added at the Rate of 8 Cents per Pound.

Fancy Kentucky Blue Grass Seed—25c per lb.; 75c pk.; \$3.00 per bu.
Extra Cleaned Kentucky Blue Grass Seed—Per lb. 20c; pk. 50c; bu. \$2.00.

Orchard Grass—Valuable for either pasture or hay. Per lb. 20c; bu. \$2.50.

Red Clover—Per lb. 20c; 5 lbs. 75c; price per bu. on application.

White Clover—Valuable in mixtures both for lawns and permanent pasture. Per lb. 30c.

English Rye Grass—A very valuable grass for either pasture or lawn. Per lb. 20c; per bu. \$2.50.

Bermuda Grass—Suitable for the South where the winters are not below the freezing point: very valuable for pastures where the summers are very hot and dry. Per lb. \$1.00.

Crimson Clover—If sown at the last of summer or early in autumn it will furnish very early green fodder. Per lb. 15c.

Red Top Grass Seed—Fancy cleaned. Suitable for lawns or pasture. Per lb. 25c; pk. 75c; bu. \$2.50.

Timothy, Extra Choice—Per lb. 15c; pk. \$1.00.

Hungarian Grass—Valuable for forage or sodding. Per lb. 10c; pk. 25c.

Sweet Vernal Grass—Valuable for mixing with pasture grasses on account of its fragrant odor. Per lb. 25c.

IMPORTED PORCELAIN WREATHS AND CROSSES. For Cemeteries.

These lasting and beautiful tributes for the decoration of graves are imported direct from Paris where they are much used for this purpose, and are preferred by many to those made of natural flowers. The flowers are of porcelain, perfectly formed, and bordered with metal leaves enameled in white and green. They are elegant in design and of exquisite workmanship, closely resembling natural flowers in appearance. (See illustration taken from photograph.) They are substantially made of durable materials, and if slightly protected will retain their color and beauty for years.

These designs come only in wreaths and crosses; we cannot supply any other forms made of this material.

Prices given include packing and delivery to express office. They cannot be sent by mail.

CHOICE CUT FLOWERS SUPPLIED DAILY.

Artistic, Original Designs and Arrangement of Cut Flowers
Our Specialty.

CUT FLOWERS.—We ship large quantities of Cut Flowers at all seasons of the year, and our careful method of packing insures their safe arrival in a perfect state of preservation. Our customers write us that when the flowers are unpacked they are as fresh and fragrant as though just gathered from the garden or conservatory. Loose Cut Flowers should be unpacked when received, and placed in vases of water, where they will be fresh for several days. Baskets and designs should be left in the boxes just as they are received from the express company, and kept in a cool place until needed. Write for our special Cut Flower Price List. It gives the names and color of all the forcing varieties of Roses, and prices of all Cut Flowers that are in season.

Please be careful in ordering to give plain shipping directions, and mention the latest time it will do for the flowers to arrive in your town. Orders by telegraph from unknown parties sent C. O. D.

The following is a list of the most fashionable varieties of Cut Flowers grown: Roses, Carnations, Chrysanthemums, Lily of Valley, Marguerites, Orchids. Bulbous stock in season such as Hyacinths, Tulips and Narcissus.

Choice Boxes of Cut Flowers put up artistically. Prices from..... \$1 00 to 15 00

Dear Sirs:—The cut flowers I ordered arrived by express this A. M. in excellent shape. Thanking you for such fine flowers and prompt attention, I remain,

Yours respectfully,
ISABEL V. DENNY.

Asparagus—New Colossal.

A WORD REGARDING OUR NOVELTIES.

The following sixteen pages contain a list of meritorious new vegetable and flower seeds and also such old varieties as we deem worthy of special notice. Many we have introduced ourselves, others we have obtained from good sources; all are good. Everything we find on trial to be better than or distinct from other sorts we aim to catalog, and the varieties we sell are to be relied upon—all fresh seeds.

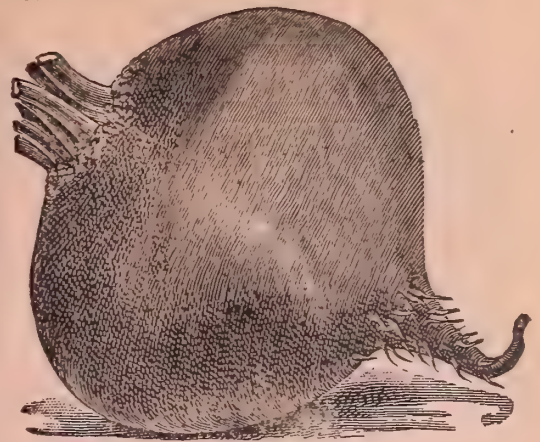

ASPARACUS

New Colossal. A very fine variety, with very large stalks, which retain their thickness to the very end and have close round heads; very quick growing and tender; per pkt., 5c; oz. 10c.

Columbian White. A distinct variety that produces fine white shoots, which are tender and of fine flavor. It is of very vigorous and robust growth. This variety does not require any earthing up as in the green sorts, in order to have the shoots white; per pkt., 10c; oz., 15c.

Wiboltt's Half Long Blood. The bulb of this variety is tender and of fine quality, rich color, and is entirely free from roughness; fine variety for slicing; per pkt. 10c; oz. 15c; ¼ lb. 30c.

Crimson Globe. A handsome variety of extremely rich color and superb qualities. The beets are of medium size, oblong form, and average 3 in. in diameter. Skin smooth, flesh is purplish crimson and free from stringiness. Foliage is small of rich bronze purple. This is one of the best varieties we know of (see cut); per pkt. 10c; oz. 15c; ¼ lb. 30c.

**BEET.**

Early Model. A splendid round, early Beet, coming in between Electric and crimson Globe, of good size, uniformly perfect and almost round, with small, dark crimson colored leaves. In quality and color it is peerless, very fine grained, tender and sweet never woody or stringy. Color of both skin and flesh, rich blood crimson, per pkt. 5c; oz. 10c; ¼ lb. 20c.

BEANS

Dwarf French. A very fine new sort, extra early and prolific, the pods are very long and well filled. It is a good market sort as its excellent flavor makes it a variety much sought after, per pkt. 10c; pt. 25c; qt. 40c.

Dwarf Green Seeded Matchless. A new form of white seeded, matchless, dwarf Bean, with dark green, long pods, often 6 in. in length, well filled, very productive and hardy; highly recommended; per pkt. 10c; pt. 25c; qt. 45c.

Phenomenon. This is a very early and extremely prolific Pole Bean, with long, fleshy, stringless pods; seeds white; per pkt. 10c; pt. 25c; qt. 40c.

New Marvel. This is a new, distinct climbing bean, and is a great improvement over the other. The pods are grown in clusters of from 4 to 5. The plants are covered with bunches of pods from top to bottom. It is a fine market variety as well as extremely early sort, per pkt. 10c; pt. 25c; qt. 40c.

Jones' Stringless White Seeded, Round Pod Wax. An absolutely Stringless Bush Wax Bean, strong growth, having no tendency to form runners. It is nearly a week earlier than any strain of the Black Wax, the pods forming very quickly, and are long, perfectly round and exceptionally solid; of a delicate light color. Fine table quality when nearly matured; per pkt. 10c; pt. 20c; qt. 40c.

Giant Stringless Green Pod Valentine.

This new variety is a great improvement over the old Valentine, which it resembles. The plants are of a strong growth, very productive, pods are 5 to 6 in. long, light green, slightly curved, very meaty, being broadly rounded and saddle-backed; the pods are brittle and stringless at all stages, and of a mild flavor; per pkt. 10c; pt. 25c; qt. 40c.

Beet—Early Model.

CAULIFLOWER

Emperor. An early variety producing very solid, pure white heads of the finest quality; close growing compact habit. It is adapted for market or home garden use and is one of the best; per pkt. 15c; ¼ oz. \$1.00; oz. \$3.50.

Extra Late Steadfast. A quite remarkable variety, with short stem and large leaves, the heads are of large size, firm and fine grained; a beautiful clear white and delicate in flavor. This variety comes ready for use, when all other varieties have been cut; per pkt. 15c.

Danish Giant Snowball. This variety originated in Denmark and is a great improvement over the older sort. The plants are of strong growth, with erect dark green leaves. The heads are of good size, pure snowy white, very close and compact and of extra fine quality; per pkt. 15c; ¼ oz. \$1.00; oz. \$3.50.

Dry Weather. This strain originated in Denmark, but has been fully tested in America, with the most happy results. It produces a large, solid, pure white head. It is in all respects a first-class cauliflower, but is especially and peculiarly adapted to dry situations and to resisting the effects of droughts. It will not thrive in poor soil or under bad treatment, as like all other cauliflowers it requires manure and culture; but it will succeed with less rainfall than any other variety within our knowledge (see cut); per pkt. 15c; ¼ oz. \$1.00; oz. \$3.50.

Late Metropole. This is a very fine strain of Cauliflower. Has an excellent shape and grows to an enormous size and is distinguished by its great tenderness, delicate flavor and extreme whiteness. When well cultivated, the heads attain a diameter of 10 to 12 inches and average 12 to 15 pounds each. It requires a strong soil on account of its weight; per pkt. 15c; ¼ oz. \$1.00; oz. \$3.50.

Cauliflower—Emperor.

Carrot—Early Gem.

CARROT.

Early Gem—A handsome variety of good size and of rich, dark orange color. It is smooth and the flesh very close in texture. An excellent keeper and of fine flavor and yields abundantly. Per pkt. 10c; oz. 25c.

New Earliest Short Horn—Very desirable sort with point root. It is small reddish orange of globular shape, an excellent keeper and of fine flavor. Per pkt. 5c; oz. 25c; ¼ lb. 75c.

Golden Rod—This is a half long stump-rooted variety, somewhat deeper in color and a heavier cropper than Danvers. Smooth, uniform and handsome, entirely free from core, with sweet and tender flesh. Never becomes stringy, nor shows rings. Highly recommended for both table use and stock feeding, and especially desirable for market gardeners. Pkt. 10c; oz. 25c; ¼ lb. 75c.

Giant Intermediate—This variety is uniform in shape, and where the soil is favorable it will grow clean without any side roots. The core is tender and entirely free from any coarse rank flavor. For table use it is unexcelled and yields abundantly. Per pkt. 10c; oz. 25c; ¼ lb. 75c.

Celery—Monarch.

CUCUMBERS.

New Davis—This variety has no equal. Its excellent eating qualities, shape, color and productiveness places it without a rival. It is a very vigorous grower and should not be planted too close together. It has very few seeds, which makes it preferable to any other sort for the table. It is a grand variety for either market or the home garden. (See illustration). Per pkt. 10c.

Lemon—A new and distinct type, tender and sweet, nearly round, with the yellow and green markings and smooth skin of the lemon, while the flesh is exceedingly tender and crisp with a flavor surpassing all other cucumbers. It is one of the best for pickling, size 2½ to 3 inches in diameter. Per pkt. 5c; oz. 10c.

Excelsior—An excellent and free bearing variety, light green color, white spined, 10 to 14 inches in length, fairly early, contains little seed, firm and juicy flesh of excellent flavor, good for salads and for pickling. Per pkt. 10c.

ENDIVE

Famous—This is a very fine variety that can be grown at all seasons of the year. In appearance it is quite handsome. Its crisp leaves give it a very particular look, the heart is very full, and it blanches easily without being tied up. It should be treated as a winter Endive principally, but can just as well be grown for summer use. Per pkt. 5c.

Golden Heart—This is a splendid variety of Endive with broad leaves and a golden yellow heart; as the name implies. A fine sort. Per pkt. 5c.

Cucumbers—Davis.

CELERY.

Monarch—A very desirable variety both for home or market and a remarkable good keeper. The stalks are large and have a magnificent bright golden yellow heart, very solid, crisp and tender, and of delicious flavor. Per pkt. 10c.

Perfected White Plume—This variety is unsurpassed for fall and early winter use, requiring very little earthing up to blanch it; heart large, stalks full, a fine keeper, compact grower. Per pkt. 10c.

Young's Golden—(Self Blanching)—Color a beautiful golden color, very full stalks, dwarf and very easy to blanch on account of its light color. Its leaves are elegantly curled which makes its appearance preferable over all other varieties. For garnishing dishes it is invaluable. Per pkt. 10c.

Golden Self Blanching Improved—The general color is identical with the parent plant. It is beautiful in appearance and keeps well for a long time, and is a most valuable variety. It is of waxy golden color, very solid and of rich nutty flavor. Per pkt. 10c.

CORN.

Mason's Favorite—A standard variety and one of the best varieties for general use. The ears are of large size, very tender and of delicious, rich flavor. The plants are luxuriant, healthy growers and are scarcely affected by drought and are wonderfully prolific. Per pkt. 10c; pt. 20c; qt. 35c.

Early Metropolitan—The stalks are of strong growth, bearing one or two large ears; the ears are about 9 inches long, and 10 to 12 rows filled with large grains of fine, sweet flavor. Per pkt. 10c; pt. 20c; qt. 35c.

Early Sheffield—This sugar corn is a very early, hardy variety; the stalks are strong and vigorous, growing about 5 feet high and generally bearing two large ears that are well filled to the top of the cob. The kernels are large, white and very sweet. Per pkt. 10c; pt. 20c; qt. 35c.

Clark's None Such—This variety well deserves its name. It is one of the best second early varieties in the market. Its quality is simply delicious, and customers report that a number of the stalks contained two ears 12 inches long and were filled from end to end. It is a red cob variety and preferred by many on that account. Pkt. 10c; pt. 20c; qt. 35c.

Peep O'Day—One of the very earliest sorts. It grows about 3½ feet high and bears nearly 2 ears to a stalk. They are of good size for so early a sweet corn, a very good variety. Per pkt. 10c; pt. 25c; qt. 45c.

EGG PLANT.

Scarlet Chameleon—An interesting variety producing medium-sized flat fruits, which when ripening are white at first, changing gradually into yellow and turning to brilliant scarlet at last. Per pkt., 10c.

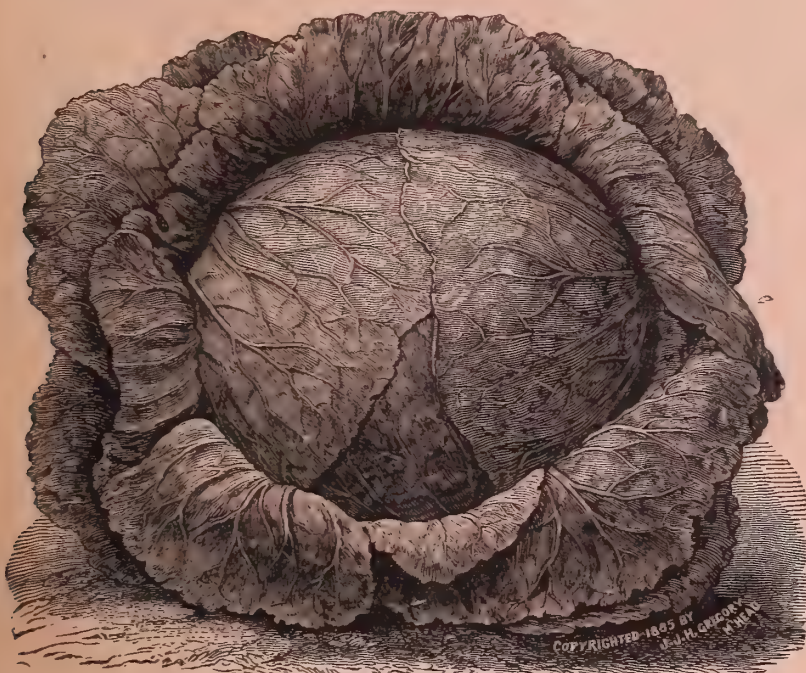

Japanese Monster—This novel variety originated in Japan. The fruit is of enormous size, absolutely perfect shape and the color a dense black resembling the noted Black Pekin, over which it is a great improvement. The flesh is pure white and very firm and has very few seeds. The plants are very vigorous, with ample foliage. Per pkt., 10c.

Black Beauty—This variety is from 10 to 12 days earlier than New York Improved. The fruits are broad, thick and almost black. The skin is rich and lustrous, and the color does not fade or change on the plant. A fine market variety. Per pkt., 10c; oz., 30c.

CHICORY.

Improved Venetian Striped.

A most interesting variety and a great improvement on the red-leaved Lombardy Chicory, the leaves of which are, however, much larger than in the latter sort. The leaves when well blanched are striped red, rose and yellow. Used by itself or in a mixture with Cornsalad or Lettuce, it makes a delicate and attractive salading for winter use. Per pkt., 15c.

Cabbage—Early Stonehead.

LEEK.

Bulgarian Winter—This is one of the most desirable varieties of Leek. It grows to enormous size and is extremely hardy and of an excellent flavor. Per pkt., 10c; oz., 15c; ¼ lb., 40c.

Long Mezieres Winter—This new variety excels all the Leeks grown. It has broad, vigorous, erect leaves and a long, good sized stem of snow white color and excellent flavor. It is very hardy, may be recommended as one of the best sorts for the market. Per pkt., 10c; oz., 15c; lb., 40c.

Cabbage—Dark Red Zenit.

KOHL RABI.

White Delicacy—This is an exceedingly valuable variety, and is fine for the private garden. It is round like an apple with smooth skin and very few leaves. The flesh is very tender, pure and of delicious flavor. Per pkt., 10c.

KALE.

Improved Dwarf Green—This variety is hardier than Cabbage and makes excellent greens for winter and spring use. The leaves are as curly as Parsley, tender and of fine flavor, and are much improved by frost. Sow the seed in May or June, transplant in July, and treat same as Cabbage. Per pkt., 5c; oz., 10c.

Egg Plant—Black Beauty.

CABBAGE.

Eureka—A flat or round-headed Cabbage of the hardy Wakefield type, excellent for fall planting in the South or to winter over in cold frames for the earliest crop in the North.

It is about a week later than other varieties planted at the same time. The heads are not as large as Early All Head, but they will stand as long after heading. Per pkt., 10c; oz., 25c.

Red Zenit—The best red Cabbage up to date. The heads are very solid, of the richest deep blood red, medium size, fine ribbed and with but few outer leaves. It matures medium early, and is a good keeper. Per pkt., 10c; oz., 25c.

Early Stonehead—This is exceptionally robust and hardy. It is unsurpassed for fall and winter use. They are each solid as stone and will stand quite a long time without bursting. The outer leaves are large and spreading so that the plant should be set 2 feet apart in the row. The heads often measure 10 to 12 inches across and are of very sweet flavor. Per pkt., 10c.

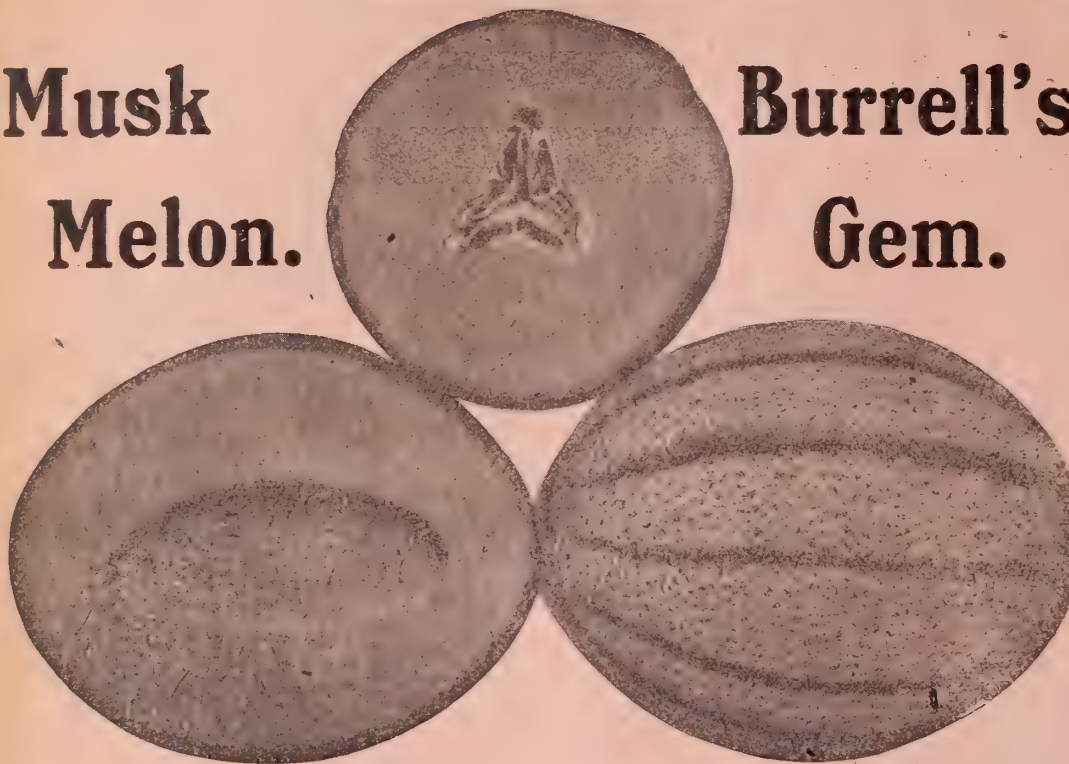

Leek—Bulgarian Winter.

MUSKMELON.

**Musk
Melon.**

**Burrell's
Gem.**

Muskmelon. Burrell Gem.

Young's Netted Gem—This variety ripens early, nearly round in shape, firm green flesh, sweet and quality and very early and one of the most delicious varieties that we know of; per pkt., 5c; oz., 15c.

Burrell's Gem—A great improvement on Rocky Ford. The melons are very fine and have an exceptionally beautiful appearance, the meat is golden color of a perfectly delicious flavor. They are like all melons easily grown and will keep longer than most any other variety. An excellent shipper and a grand variety for the market or home garden. No garden should be without this grand variety; try it and be convinced. Per pkt., 10c.

Young's Giant Tiptop—A great improvement on the old familiar Tiptop and quite similar to the Rockyford and will be a far more popular variety. The color of flesh is of a suffused salmon and ripens thoroughly to the extreme green edge. The meat is very sweet, juicy and highly flavored. Good quality, a splendid keeper and an excellent shipper. Per pkt., 10c.

Columbus—A green fleshed general crop variety, ripening with Hackensack, and a heavy yielder. Vines strong and thrifty, and the melons retain their good quality for a week or more if left on the vines. Strikingly distinct in shape, color and general markings, and no melon will compare with it as a long keeper. Beautiful buff skin is covered with a very thick netting. It is almost entirely free from ribs or seams. The flesh is solid and thick, even at the blossom end, leaving only a small seed cavity. Its attractive appearance insures ready sales in any market; pkt., 5c; oz., 15c.

Jenny Lind—This is the gem of the musk melons. The fruit is small, round, flat in shape, deeply but evenly ribbed, most attractive greenish gold color when ripe. In flavor it is not surpassed by any other variety, and for private use there is none better; (see cut), per pkt., 5c; oz., 10c; ¼ lb., 30c.

luscious clear to the rind. It is of superior

WATERMELON.

Watermelon—Gilbert's Success.

Gilbert's Success—A fine variety. Dark mottled green rind has very cool appearance, very prolific, flesh deep red. There has never been before the American people a melon offered as a shipper better than Triumph with but one exception, and that is it grows too large to be so profitable to the shipper. This was my views in crossing Sweetheart and Triumph. It will stand as well as Kolb Gem or Triumph and is a fine table melon, (see cut); per pkt., 10c.

Santiago—This plant grows uniformly large and long, being distinctly barrel shaped, retaining the same thickness throughout the entire length with blunt rounded ends. This melon will grow in a favorable location 2 feet long by 12 to 14 inches in diameter, weighing 48 to 50 pounds. The flesh is a deep blood red color, very sweet flavor and entirely melting in character, free from stringiness; per pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.25.

McIver's Sugar—This melon is oblong in shape and large in size, quite handsome in appearance, and the quality is superior. The flesh is of a soft, pale pink and free from any stringiness. It is quite juicy; per pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 75c.

Muskmelon—Tiptop.

LETTUCES.

Large Parisian—The hearts of this variety are of good size, firm, crisp and tender, and they remain good for a long time before starting to seed. It is of superior quality and excellent flavor; per pkt. 10c.

Big Boston—A fine variety, similar to the Boston Market in appearance and shape. It is a most desirable variety for general use or for market gardeners, producing large, solid heads, crisp, tender and of fine quality; per pkt. 10c; oz. 20c; ¼ lb. 75c.

Icehead—This is a grand winter lettuce and a good variety for market use, being unsurpassed as to hardness and firmness. It exceeds all others in size, quality and taste. Color a light yellowish green. It grows rapidly and thrives well in any soil; per pkt. 10c; oz. 20c; ¼ lb. 75c.

Giant Glacier—A magnificent lettuce. Plants, 12 in. and heads 6 in. across; leaves, light green, with ornamental edges; inner leaves or head, white in color, and wholly tender and crisp, and free from bitter taste. One of the sorts best able to withstand drought, and to produce mild flavored heads under a hot sun. It is a fine lettuce, and we confidently recommend it for spring and midsummer use. It is almost like a savory cabbage in the texture of its leaves, and is a strong type and likely to prove widely popular; per pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.50.

Wonderful—Excellent variety for supplying fine, crisp, well blanched lettuce, during the hot summer months, withstanding both heat and drought better than any other variety. The plants are rich, deep green, often growing more than 15 inches in diameter. The heads are solid, with the inner leaves blanched to a pure white; one of the summer lettuces; per pkt. 5c; oz. 15c; ¼ lb. 40c.

Lettuce—Large Parisian.

Peas, Duke of Albany.

garnishing. This is a very strong point in our new parsley, with its beautiful and closely curled leaves of handsome dark green shade, while the flavor is all that could be desired. As a pot plant for winter decoration, in window, or on dining table, it is simply "exquisite." It is altogether the finest strain of curled parsley that has ever come under our notice. Per pkt. 10c; oz. 20c.

OKRA.

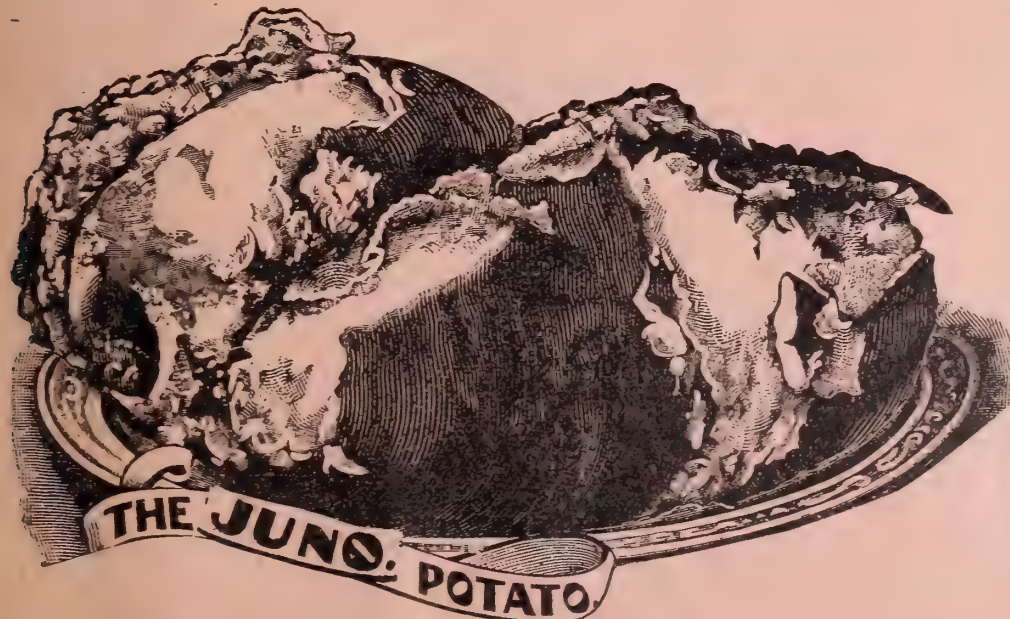

Perkins' Long Pod—An exceedingly handsome variety of okra, which is a great improvement upon other varieties heretofore grown. The pods are very tender, long, slim, and of a beautiful deep green color. The habit of growth of plant is dwarf, and it is very productive, the pods covering plant from top to bottom. In flavor this variety cannot be excelled, and will greatly please all who are fond of "Gumbo Soup." Per pkt. 5c; oz. 10c.

PEPPER.

Giant Neapolitan—A very prolific and remarkably fine pepper, resembling the large bell or bullnose, but more vigorous in growth and with more ample foliage. The fruit is also of larger size and is produced in great abundance, the color is a brilliant red, and the flesh is very thick and perfectly mild. This variety cannot be excelled. Per pkt. 10c.

Chinese Giant—This is a very strong, vigorous growing variety, but of a stocky habit, seldom more than two feet in height. It is very early in ripening, and immensely productive for a large pepper. The monstrous fruits are of a thick, blocky form, and of the most brilliant, glossy scarlet; the flesh is unusually thick and extremely mild, and makes an excellent salad. Per pkt. 10c.

Golden Dawn—This is a fine variety of pepper. The color is a distinct yellow, which makes a handsome appearance. The flavor is mild and very sweet. An excellent variety for table use. Per pkt. 10c; oz. 25c; ¼ lb. 75c.

PEAS.

Duke of Albany—A most valuable variety with remarkable hardy growth, producing pods of large size, well filled with extra large peas. The vines grow about 3 feet in height and are very productive. It is an exceedingly valuable tall growing wrinkled variety exceptionally profitable as a market sort; per pkt. 10c; pt. 25c; qt. 45c.

Young's American Giant—A grand early wrinkled variety. It is more suitable for the home garden than for market use. It is one of the earliest varieties grown the vines are unusually robust and stocky. In favorable weather it will mature in about 42 days; per pkt. 10c; pt. 25c; qt. 45c.

Reliance—A very valuable variety for market or home garden. The vines are of thick, strong growth attaining a height of 4 to 5 feet in rich soil. The peas are closely crowded in the pods, which are completely filled to the end, and are very sweet and tender. Per pkt. 10c; pt. 20c; qt. 45c.

Juno—A dwarf main crop green wrinkled variety of fine flavor. The vines of this variety are laden with pods, and contains from 6 to 8 peas in a pod of the finest quality, and they fill the pod so thoroughly that they are almost cylindrical in shape. It is one of the first table varieties, and a very heavy cropper. Per pkt. 10c; pt. 25c; qt. 45c.

British Wonder—This variety is exceedingly sweet, foliage is dark green, pods are produced most abundantly and are uniformly well filled with large, dark green peas. The vines grow from 15 to 18 inches high and mature early. Per pkt. 10c; pt. 25c; qt. 45c.

Senator—A grand wrinkled pea. The pods are much larger and more attractive, and the vines more productive than the McLean. The handsome large round pods are curved and always well filled; sweet and tender. Vine grows about 2 feet high and carry a large crop. Per pkt. 10c; pt. 25c; qt. 45c.

PARSLEY.

Livingston's Exquisite—One of the main features in any variety of parsley is the ornamental effect of its leaf when used for

Peas, Early Giant.

POTATO.

Young's Juno—The tubers are quite large and run mostly uniform in size, color and quality of any early potato. The plants are of vigorous growth and the stalks grow erect and are closely set with the foliage.

We have found this to be a grand table variety as it is a dry, mealy potato; large and of extreme whiteness. A strong grower, and exceedingly productive. Per pk. 45c; bu. \$1.60.

California, Mo., Oct. 4, 1906.
C. Young & Sons Co.
Dear Sirs—My roses and bulbs received some days ago in perfect condition. I want to thank you very much for the bulbs sent "gratis."
Yours truly,
MRS. W. C. HECK.

ONION.

Ailsa Craig—A very fine new variety, handsome, large, oval shape, with pale straw colored skin, a splendid sort. It is very productive on account of its distinct shape and is in great demand, a splendid keeper, and any person who likes raw onions will be more than pleased with this variety as it has excellent flavor. We believe when this variety is better known it will rank among the most popular and valued sorts. Per pkt. 10c.

Mammoth Silver King—The skin is of a beautiful silvery white. The flesh has a particularly mild and pleasant flavor, and is so sweet that it may be eaten raw like an apple. No other white onion attains such mammoth size, nor will any other white variety grow uniformly so large. The bulbs are of an attractive shape, flattened, but thick, as shown in the illustration. The average diameter of fully grown Mammoth Silver King onions is from 3 to 4 inches (see cut). Per pkt. 10c; oz. 20c.

New Yellow Cracker—This is a comparatively new variety of onion. It is a strong, early and quick grower, and thrives well in any soil; an excellent keeper and yields abundantly. The color is a rich yellow and makes a very attractive bulb. It is medium in size and remarkably solid. Per pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Onion, Ailsa Craig.

SPINACH.

✓ **Giant Green Curled Savoy**—The leaves are large, thick dark green crimped and heavily veined, and produced in great numbers. It surpasses the other varieties in quality and productiveness and has the true Savoy handsome appearance. It is valuable for either spring or fall use. Per pkt. 10c; oz. 20c.

✓ **New Savoy Leaf**—This is the hardiest large Savoy leaved variety, curled and crimped with thick leaves, and of finest quality and good strong growth. Per pkt. 10c; oz. 20c.

Spinach, Giant Green Curled Savoy.

SALSIFY.

■ **Wisconsin Golden**—This new salsify or oyster plant is of high culinary merit. The root is larger than the Mammoth Sandwich Island variety, the best heretofore on the market, and has a richer color, inclining to yellow. Many tests of it have been made and the verdict is universally favorable.

It is rich, tender and delicious, and decidedly superior to the white varieties.

The leaves are quite peculiar in appearance, of a dark green color, and crimped or curled in a manner characteristic of the new and distinct type. Per pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c.

SQUASH.

White Congo—This new variety has light green leaves with pointed lobes. The fruits are small cream, white in color, of a peculiar shape, thick and ribbed near the stalk, and tapering to a point at the ends. Flesh compact, very sweet, finely flavored and of superior quality. Per pkt. 15c.

Gregory's Delicious—This is a fine variety of squash, and is best adapted to fall and winter. In appearance it resembles the Hubbard, and has very small seed cavities; flesh, deep orange color; tender and almost of mealy dryness. No matter how it is cooked it is simply delicious. Per pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Fordhook—The flesh of this squash is very dry and sweet. It is one of the earliest of the winter varieties, and if stored in a cool, dry place, will keep until the following June. The shape is shown in the picture. The outside color is bright yellow; inside color straw yellow. The skin is so thin that it need not be removed for cooking. The meat is thick and the seed cavity small. The green squashes can be used at any stage of their growth. This squash is easily grown on all soils, and is valuable for home or for market. Immensely productive. Per pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Salsify, Wisconsin Golden.

C. Young & Sons.

Litchfield, Ill., May 10, 1906.

The order which you filled and shipped yesterday received same day in excellent condition. I write to thank you for your prompt and courteous treatment of my order with which I am well pleased. Also wish to thank you for the extras in both plant and seeds. Wishing you success and assuring you of my further patronage, I am,

Yours truly,

329 Henry st.

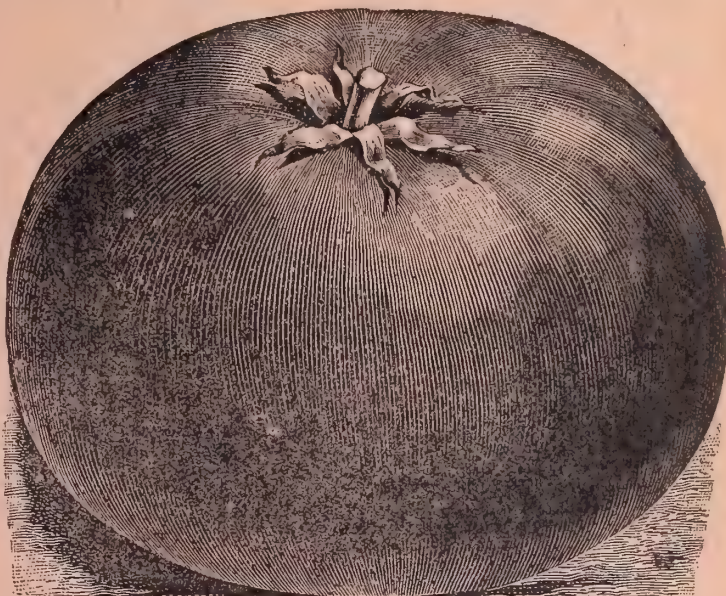

Marian Hussey.

TOMATO.

YOUNG'S NEW GRAPE.—Very choice new variety, vines are robust, and grow about 3 feet high. The fruits are a beautiful scarlet color and measure about 2½ inches across, quite solid and tender and tart, which, makes it a delicious variety for slicing for the table. It is extremely productive. Per pkt. 10c, oz. 35c.

YOUNG'S GIANT PURPLE.—The skin of this variety is a beautiful red with a slight purplish tinge. It is an extremely large tomato, perfectly smooth, flesh solid and thick with very few seeds; a fine cropper. The plants are dwarf, vigorous and of upright growth, hardy, and dark green in color. They begin to fruit early and continue almost until frost which is a great advantage. No garden is complete without this enormous variety. Per pkt. 10c., oz. 35c.

YOUNG'S EXCELSIOR.—The color is bright crimson, with a slight purplish tinge. Like all large tomatoes, it is a strong vigorous grower, and very early for its size. Enormous cropper, yielding the entire summer until killed by frost; very seldom cracks and is nearly seedless. It is the best tomato for either market or private use in cultivation. (see cut). Per pkt. 10c., oz. 35c.

TOMATO—YOUNG'S EXCELSIOR.

TURNIP, WHITE STONE.

TURNIP.

WHITE STONE.—This is a new variety of great merit. The shape of it is shown in the illustration; the color is pure white, both outside and inside; the flesh is solid, mealy, and of fine flavor. As a heavy cropper and reliable keeper it cannot be excelled. It is fine for either garden or home use. Per pkt. 10c., oz. 20c.

EARLY WHITE MILAN.—This is an extra early variety, well adapted to early spring and summer planting, and sown at intervals will furnish a continuous supply of the most delicious turnips. They are of medium size, very handsome, smooth and of a clear ivory white. The flesh is tender, mild and of a sweet flavor. For a white table turnip this variety is unequalled. Pkt. 5c, oz. 20c.

RADISH.

OLIVE SHAPED, WHITE.—A beautiful pure white variety as shown in illustration. It is crisp, tender and of a most delicious flavor; of extremely quick growth. It is one of the choicest varieties for the table both for flavor and color. No garden should be without it. Per pkt. 10c, oz. 25c. (see cut).

DELICIOUS.—This new radish is of a bright carmine red color, inclining toward a purple tint. It is superlatively good. Its size and form are correctly shown in the illustration. The leaves are small. The flesh is white, crisp, juicy and sweet. It is a quick grower, and bunches up handsomely. It is perfectly solid and crisp to the center. Per pkt. 10c, oz. 15c.

WHITE CHARTIER.—This is one of the finest white radishes that we know of. It is a summer variety, succeeding best when treated as such. It matures in about 40 days from time of sowing, and remains fit for use about 14 days after. The flesh is pure white, crisp and tender. Mild and very valuable for slicing. A most desirable variety. Per pkt. 10c, oz. 15c, ¼ lb. 25c.

EARLY CRIMSON GIANT.—This is an entirely new variety. It attains twice the size of the turnip shaped varieties, and remains tender and perfect to the very last. The shape of the bulb vary a little between round and oval, but the skin is a deep crimson and the flesh pure white. The roots develop 6 to 7 inches in circumference, are an ounce in weight, and have surprised all who have tried it. Per pkt. 10c, oz. 15c, ¼ lb. 25c.

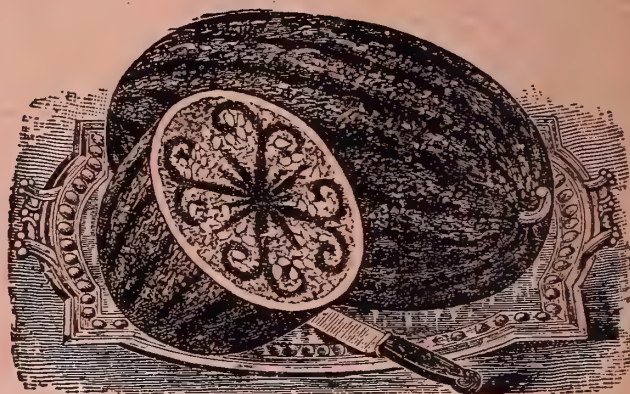

TOMATO—YOUNG'S NEW GRAPE.

RADISH—OLIVE SHAPED WHITE. ?

Beans.

Pansy.

Sweet Peas.

Nasturtium.

THE following selection of Flower Seeds contains a selection of the best and most desirable NOVELTIES and Specialties in Flower Seeds. Every one is either a decided new variety or a great improvement on older kinds, and many are very valuable for cut flowers, no garden should be without them.

Aquilegia—Long Spurred.

NEW ASTER.

Giant White Victoria—The flowers of this variety are beautiful and pure snow white and of vigorous branching habit. It resembles the Hohenzollern varieties, but surpasses them a great deal, a charming variety for cutting and for exhibition purposes; it is also useful for bedding and for pots (see cut). Per pkt. 10c.

Pearl—The flowers are from 5 to 6 inches in circumference and shaped like little balls. The plants 20 inches high are strikingly graceful, bearing about twenty flowers on slender stalks 8 to 12 inches long. While especially valuable for cutting purposes, it is useful for bedding and for pots. Per pkt. 10c.

ASTERS—SEMPLER BRANCHING.

These varieties are superior to any other class of branching Aster, the flowers grow very large and double, often measuring 4 inches in diameter. They are borne on long stems making them excellent for cutting. WHITE, per pkt. 10c; LAVENDER, per pkt. 10c; FLESH PINK, per pkt. 10c; ROSE AND WHITE, per pkt. 10c; CRIMSON, per pkt. 10c. MIXED, per pkt. 5c. One pkt. each of the 5 distinct colors for 45c by mail postpaid.

Aster—Victoria White.

AQUILEGIA.

Long Spurred Hybrid—A beautiful hardy perennial, large flowering pure white sort, with fine long white flowers, it is perfectly hardy and a handsome plant for pots and if planted in groups presents a very attractive appearance (see cut). Per pkt. 10c.

ALYSSUM.

Purity—A dense compact variety that are completely covered with snow white blossoms; the plants are thrifty, grow dwarf and give the impression of a carpet of snow spread over the ground. We know of no other flower, which is so particularly adapted to borders etc. The plants commence to bloom when quite small and will flower all summer until late in fall. This habit with its fragrance makes it indispensable for every garden (see cut). Per pkt. 5c.

AGERATUM.

Dwarf Blue Multiflora—A new variety coming quite true from seed producing thrifty plants of very dwarf habit and blooming profusely all summer. The delightful blue flowers contrast beautifully with the foliage, as well as the white flowered variety, it is well suited for borders. Per pkt. 10c.

Alyssum—Purity.

SELECTED ASTERS.

Aster Giant Comet Ruby—Flowers of this variety are borne on long stems and on account of their long, loose flowers, they resemble a Chrysanthemum, which makes them invaluable for cutting. Color, bright scarlet. Per pkt. 15c.

Aster Miss Roosevelt—This beautiful Aster when first opened is a light yellow color, and by degrees changes into a delicate flesh color. The combining of the two colors produces a singular change and produces a color similar to the color of the well known Rose Glorie de Dijon. Per pkt. 15c.

Sunlight—This is quite a novelty in Asters, as it is a true sulphur yellow, a color not often met with in Asters. It has long stiff stems and the flowers are 2 to 3 inches across. Per pkt. 10c.

Japanese—Long petals, curiously waved and curled, so as to give them a striking resemblance to the Japanese Chrysanthemums. They grow 14 to 15 inches in height and are well branched. Mixed colors. Per pkt. 10c.

Daybreak—It generally attains a height of 18 to 24 inches and produces in large quantities; its perfect globe-shaped flowers are of a beautiful shell pink color, similar to that of the Daybreak Carnation. Per pkt. 10c.

Snowflake—The flowers are pure white and of good shape, and plants are finely formed. Per pkt. 10c.

Townschendii—This variety produces rosy lilac flowers 2½ inches across, and is continually in bloom from July to October. Per pkt. 10c.

Hortensia Rose—This class produces large needle shaped flowers of about 6 inches in circumference which are borne on stiff stem. Per pkt. 10c.

DWARF GLORIA.

The plants grow to a height of 10 inches, are very branching and free blooming. The flowers are about 2½ inches in diameter, and pure white with a scarlet margin. Per pkt. 10c.

CYCLAMEN.

Triumph of Lyons. A beautiful variety, the flowers are of a most handsome coloring and the leaves very ornamental; color, white, with crimped edges slightly colored. Per pkt. 20c.

CANDYTUFT.

Hybrid White. Large flowered, select strain. Plants are of very dwarf growth, much more so than the ordinary varieties, with four or five times as many flowers and of larger size; each bush is very attractive, as they are literally covered with a mass of flowers (see cut). Per pkt. 10c.

CALLIOPSIS.

Tom Thumb Beauty. This elegant dwarf and compact growing annual forms a good comparison to our already popular variety, **crimson King**. The plants grow about eight inches high, and are covered with bloom, the color of which is very showy, being a golden yellow, with crimson centre. A gem either for pots or borders (see cut). Per pkt. 10c.

Tom Thumb Crimson King. A charming new variety; height 7 inches, a very compact and massive bloomer; forms a perfect bush, smothered with rich, dark crimson flowers, which makes it very attractive. No garden should be without it. Per pkt. 10c.

Golden Ray. A new dwarf compact variety six to eight inches in height, flowers large golden yellow, with conspicuous purplish-brown centre, petals twisted like those of the single flowered Cactus Dahlia. Per pkt. 10c.

Hybrida Superba. These pretty plants from dense bushes about 16 inches high, and are covered the entire summer with their

beautiful flowers in all shades of yellow-orange to the deepest velvety brown. For groups, borders and pots, and also as cut flowers, they are most desirable. Per pkt. 10c.

Calliopsis—Tom Thumb Beauty.

CAMPANULA.

Persifolia Alba. A very choice variety of Campanula, producing spikes about 20 inches high. The flowers are large, numerous and very free flowering. It is splendid for cut flowers (see cut). Per pkt. 15c.

CHRYSANTHEMUMS.

Maxima Praecox. Of dwarf habit; forming compact bushes, which are perfectly covered with pure white flowers. They are very lasting and a great novelty. Per pkt. 15c.

Evening Star. Flowers pure golden yellow and from 3 to 4 inches in diameter. It is a cut flower of the first rank, height 18 inches. Per pkt. 15c.

Morning Star. A superb Marguerite Chrysanthemum, with immense flowers of an attractive soft yellow or primrose. The flowers last a remarkably long time when cut. Height 10 inches. Per pkt. 15c.

Campanula—Persifolia Alba.

Candytuft—Giant Flowering White.

Marguerite Carnation—Giant Flowering.

These fragrant garden Carnations flower profusely the first year from seed. **Giant White**, per pkt. 15c. **Giant Red**, per pkt. 15c. **Giant Rose**, per pkt. 15c. **Giant Striped**, per pkt. 15c. **Giant Mixed Colors**, per pkt. 10c. The entire collection of four distinct colors, one pkt. of each for 30c.

Tom Thumb. This is a very dwarf variety, growing about nine inches high; mixed color. Per pkt. 15c.

SHASTA DAISY.

It is perfectly hardy. The flowers are of the purest white. For garden decorations and cutting purposes it is of exceptional value. Per pkt. 20c.

Eschscholzia Crocea.

DIANTHUS.

Young's Heddewigii fl. Pl., Mixed—A very choice strain of Dianthus, extra select flowers, large and very double. The colors are rich and vivid and the odor delightful (see cut). Per pkt. 10c.

Queen Alexandria—A grand novelty in the Dianthus line, very fine quality flowers, pure white, large flowered with crested surface to petals. Per pkt. 10c.

Snowdrift—This is a grand variety, the robust and free branching plants grow about 1 foot high and have strikingly large flowers 3 to 4 inches across; very double and fine lacinated petals of the purest white (see cut). Per pkt. 10c.

Lacinatus Vesuvius—This is a splendid selection of the annual pink "Salmon Queen." The nicely fringed flowers are of the most intense colors. The plants attain a height of 10 to 12 inches, and may be used to make very effective beds or borders. Per pkt. 10c.

ESCHSCHOLTZIA.

Crocea—A very fine new variety of Eschscholtzia, color a beautiful orange, shaded, almost double, much deeper in color than the Mandarin. The plants are of compact, upright habit and quite bushy (see cut). Per pkt. 10c.

Carmine King—A new effective variety with large flowers of a striking Rose color, just as intense color on the inside as on the outside, Per pkt. 10c.

Dianthus Heddewigii.

... DAHLIA ...

New Colossal Mixed—A very fine strain of seed which characterizes itself with the extreme largeness of its flowers. The width of the petals, the length and the firmness of the stalks will make these varieties plants of great effect for bedding and fine for cut flower bouquets, they vary in colors of singles and doubles mixed and retain their good colors notwithstanding their extreme large size. Per pkt. 10c.

YOUNG'S COSMOS.

Sunflower—A beautiful new variety, color golden yellow. The flowers measure 2 in. across, the Plants are dwarf, growing only about two feet high and are a great improvement on the old yellow variety. Per pkt. 15c.

Black Prince—This is one of the showiest varieties we know of; color a dazzling red which makes the plant very attractive. Per pkt. 15c.

Titania—The plants of this variety grow from three to four feet high, with fluffy flowers from 2 to 3 inches across, semi-double, with irregular lacinated petals of the purest white which are borne on slender stems in great profusion. Per pkt. 15c.

One packet of each of the three varieties, postpaid for 30 cents.

Heliotrope Marguerite.

Heliotrope.

Marguerite—A charming new variety with large umbels of dark blue flowers and the plants are covered with masses of bloom, one of the finest varieties we know of, very fragrant and dainty for cut flowers. Per pkt. 10c.

Midnight—This variety has black stems and very dark foliage. The flowers are a very striking contrast in color, being variegated, light and dark purple and white; very attractive. Pkt. 15c.

Gazania.

Splendens Hybrida Grandiflora—This variety requires a sunny situation and can be strongly recommended for covering banks edging, etc. The flowers are bright yellow with dark centers. Per pkt. 15c.

Gazania.

IMPATIENS.

Holsteii.—A new handsome Balsam; it forms bushes $1\frac{1}{2}$ to 2 feet high, and resembles in habit, foliage and shape of flowers the popular Impatiens Sultana which rarely bears more than one flower on each peduncle but this variety produces from 2 to 4 flowers in each which are a vermillion red; they are quite showy in flower beds. (see cut.) Per pkt. 15c.

FOR-GET-ME-NOTS.

Sylph.—The blossoms of this very pretty novelty are silvery white and most suitable for effective spring bedding, it also makes a very neat pot plant. Per pkt. 15c.

Gracilus Alba.—The plants grow very dwarf and are covered with snow white blossoms. A very profuse bloomer. (see cut.) Per pkt. 15c.

Water Fairy or Fairy Eye.—Dark blue color, with a large, white center eye. It blooms readily from seed; it is often in bloom in eight weeks from time of sowing. Per pkt. 15c.

CAILLARDIA.

Grandiflora, Semi Plena.—Grows about 2 feet high; color is light or dark yellow and in many cases they are tinged with red which makes it extremely showy. Per pkt. 10c.

CAILLARDIA.

Sulphur Queen.—The most striking of Gaillardias, they are borne on wiry stems and are excellent for decorations. The color is pale yellow with a bright dark red eye, giving the flowers a distinct appearance. Per pkt. 15c.

Poppy, The Shirley, Foreign.

NEW POPPY.

Improved Shirley.—This is a very choice strain of Poppy of this famous variety which greatly surpasses the older sorts and is a much stronger grower and produces abundant bloom. We offer them in the following colors: (see cut)
Orange scarlet, pure white, deep pink, deep scarlet. Per pkt. 15c.

POPPIES.**YOUNG'S COLLECTION OF GIANT FLOWERING VARIETIES.**

Miss Sherwood.—In pure white satiny color shading toward the margin into an exquisite salmon rose. Per pkt. 15c.

Fringed Alpine.—The plants form rosettes of pretty grey, green foliage, not over 4 inches high, and throws up numerous slender flower stalks bearing flowers of white, salmon, rose or orange, all with yellow stems. The petals are gracefully lacinated fringed. Per pkt. 15c.

Fayal.—The colors of the flowers are of every perceivable shade of red, pink, maroon, white self and variegated. Per pkt. 10c.

Striped Iceland.—The flowers are striped, yellow on a bright red ground, which makes them very attractive. Per pkt. 10c.

Maid of the Mist.—A magnificent single, peony flowered white poppy. Flowers often measuring 3 to 4 inches across, borne on long stems. Per pkt. 10c.

Irresistible.—The flowers are very large, color a bright pink, with petals fringed and tinged with white. Per pkt. 10c.

Rosy Morn.—This is a fine novelty and one that deserves attention. It has rosy white petals which are delicately fluted with folds coming from the center and adorned with a light yellow. We think this will do well wherever planted. Per pkt. 15c.

Impatiens Holsteii.

This entire collection of 7 varieties, one package of each variety, for 60c. by mail, postpaid.

For-get-me-not Gracilus Alba.

Mignonette, Yellow Prince.—The plants of this variety are of a rich, canary yellow, a vast improvement on anything before introduced in the way of a yellow Mignonette. The flowers are large and thick, after the style of the already well-known Giant Crimson Machet' (see cut). Per pkt. 5c.

CHRISTMAS PEPPER.

A very handsome dwarf growing plant which is entirely covered, in October, with a small fruit of a brilliant red color. It is of very easy culture. The seed may be sown in the open ground, and when the plants are transplanted into pots before frost and treated as a house plant, they are very attractive all winter, as the fruit does not drop off very easily or dry up. Per pkt. 10c.

Mignonette, Yellow Prince.

NEW NASTURTIUMS.

QUEEN OF TOM THUMB SCARLET—This new color in our already popular variegated leaved variety Queen of Tom Thumb will be found a fine addition to the Nasturtium family. The color is a rich orange scarlet and forms a grand contrast to the beautiful silver variegated leaves. Per pkt. 10c.

QUEEN OF THE TALL—This new and beautiful variety mixed resembles our Queen of Tom Thumb in foliage. Its beautiful variegated leaves and flowers in mixture of bright colors has a very pretty appearance when grown on arches or trellis work. The plants are very vigorous and as quick a grower as the ordinary Tall Nasturtiums. Per pkt. 10c.

NASTURTIUMS.

Young's Novelty Collection of Dwarf and Tall Varieties.

7 Distinct Sorts. One Package of Each Variety for 30c.

Tall Sunlight—This beautiful Nasturtium has large foliage of a light green color, which is nearly concealed with rich golden yellow flowers that are borne very profusely the entire summer until killed by frost. The flowers are very large, often measuring 3 inches in diameter. It is a splendid climber (see cut). Per pkt. 10c; oz. 25c.

Tall Moonlight—This variety has the same style of growth and size of flowers as Sunlight, except it is of a light straw color; it has the same crinkled effect in the petals. Per pkt., 10c; oz., 25c.

Tall Chameleon—This new variety possesses a most unusual feature by presenting different colored flowers on the same plant. They are variously blotched, striped and bordered with these several colors and borne in great profusion. Pkt., 10c; oz., 25c.

Hybrids of Madam Gunter—These Hybrid varieties are exceedingly strong growing climbers, often attaining the height of from 5 to 6 feet; they are also equally well adapted as trailing vines for vases or over the ground, being covered the entire summer with large substantial flowers of the most brilliant shades, embracing the following colors; rose, pink, maroon, salmon, light yellow and dark orange, in self colors and in stripes and blotches in the most varied manner. Per pkt., 5c; oz., 25c.

Dwarf Chameleon—This is a dwarf form of the Chameleon strain, possessing exactly the same peculiar features of producing various colored flowers on the same plant. Its dwarf habit makes it very useful for bordering or edging. Per pkt., 10c; oz., 25c.

Nasturtium.

Dwarf Hemisphere—It is one of the spreading, rounded form, each plant resembling a giant round ball cut in half and set on the flat part. The leaves are large, the color of flowers are a rich lemon yellow, with throat blotches of deep crimson. Per pkt., 5c.

Dwarf Lilliput—This is a very distinct variety, growing smaller in size than the Tom Thumb Nasturtium. The flowers are borne in clusters on the top of each bush and of a brilliant combination of colors. Pkt., 10c.

Nasturtiums.

YOUNG'S COLLECTION OF NASTURTIUMS.

GIANT CLIMBING VARIETIES.

8 Distinct Sorts. One Package of Each Variety for 35c.

Climbing Caprice—The remarkable character of this variety is in the large number of varied flowers on a single plant. The flowers are extra large, showing a combination of colors. It is of climbing or creeping habit with beautiful dark colored foliage. Per pkt., 10c.

Climbing Margaret—Flowers very large, of light yellow color, striped and spotted, with blood red foliage and stem dark. Very effective. Per pkt., 10c.

Climbing Firefly—A distinct variety of recent introduction, with large flowers of a dark orange color, spotted blood red, the spur is also blood red; foliage dark green; very attractive. Per pkt., 5c.

Climbing Primrose—Large creamy white flowers and brown spots, foliage dark a very vigorous grower. Per pkt., 10c.

Climbing Victoria Louise—Flowers large, very distinct color a creamy white with orange scarlet blotches, the calyx and the spur being a pure orange red. Per pkt., 10c; oz., 25c.

Climbing Salmon Queen—A very strong growing variety, with dark green foliage. The flowers are most distinct, the colors being a soft, rich, velvety shade of salmon. Per pkt., 5c.

Climbing Jupiter—The flowers of this variety are exceedingly large, often measuring 3 to 3½ inches in diameter, borne on long, stiff stems, color a rich, golden yellow. Per pkt., 10c.

Climbing Saturn—This is the best dark red variety in cultivation, it is a superb flower, very large, color a rich, velvety red, whose glowing color fascinates nearly everyone. Per pkt., 10c.

Nasturtium.

Sweet
Peas.

AURORA—Standard and wings, beautifully flecked with bright orange salmon on a creamy white ground. The finest of all striped Sweet Peas. Per packet 5c.

COUNTESS OF LATHAM—A soft cream tint, heavily shaded with soft shell pink in the center. Per packet, 5c.

DAINTY—The flowers are of largest size and splendid substance, while they are borne, three and four set well at the end of long, stout stems. The beautifully formed flowers upon first opening appear to be white, but quickly change to white with pink edge. Per pkt., 5c.

LORD ROSEBERRY—Flowers are of a rosy magenta color, of hooded form, borne on long stems, showing veins of rosy carmine, but rather softer in tone. Per packet, 5c.

NORA UNWIN—Beautiful flowers, pure white, fine form and stiff upright growth. A charming new sort. Per packet, 10c.

MRS. ALFRED WATKINS—A superb pink of Gladys Unwin type, the flowers are extremely large and will be found one of the best of its sort. Per packet, 10c.

GLADYS UNWIN—This variety has a very large, bold flower, but with a very striking upright crinkled or wavy standard and broad wings; color a rosy pink. Per packet, 10c.

MONT BLANC—This is a very early variety. Color pure white, stiff upright stem, very large flowers. The flowers are produced 3 or 4 on a stem. This is one of the best white varieties. Per packet, 5c.

COUNTESS SPENCER—The color of both standard and wings is a delicate pink, deepening towards the edges; of very vigorous growth and fine form, and borne always on long, stiff stems. Per pkt. 5c.

MARRS—The flowers of this variety are intense, glowing scarlet, of Grandiflora form, wings heavily suffused with rose. Per packet, 5c.

MISS WILMOT—The enormous flowers of this variety are borne on stiff stems from 12 to 16 inches long. It is superior in size and richness of coloring to a great many other varieties. Color is rich orange pink. Per packet, 5c.

EVELYN BYATT—This has caused a great sensation wherever shown during the past year, and is unquestionably the finest and richest Sweet Pea yet brought out, and one which will be largely used for market and private garden. Per packet, 10c.

PHYLLIS UNWIN—Color a deep rosy carmine. These are produced 3 or 4 on a stem in the same manner as Gladys Unwin. The stems are long and stout and it is well described as a Giant amongst Sweet Peas. Per packet, 10c.

NEW PETUNIA.

Rheingold—This variety belongs to the large flowering class of Petunias. It has large flowers of fine shape, with wide open throats far up towards the outer margin it is steeped into a clear, bright, golden yellow, intarnished by the usual net of dark veins and which with the pure white margin is of a most marvelous effect. Per packet, 20c.

CHOICE PETUNIAS.

Rosalind—Beautiful large flowering variety of single fringed Petunia, flowers delicate rose with a light yellow centre throat slightly veined. Per packet, 10c.

Superbissima Quadricolor—The bright rose flowers veined for two-thirds of their surface with a network of lustrous carmine which merges toward the throat into a deep blood red; it is a striking plant. Per packet, 15c.

Star—The flowers are a dark maroon and each one is distinctly marked with a five-point star which makes it quite showy. The plants branch freely and bloom most profusely. It is considered one of the best varieties of recent introduction. Per packet, 15c.

SALVIA SPLENDINS.

Fire Ball—Of the many sorts of Salvia this is undoubtedly the finest of

all. It has large heavy trusses of flowers of a deep scarlet color. The plants branch freely and are very profuse bloomers, the side shoots often producing 4 to 6 spikes so evenly divided on the foliage and of such erect habit as to almost hide it. Easily raised from seed and makes a gorgeous bed in any garden. Per packet, 15c.

Maroon Prince—This is a beautiful variety of the well-known scarlet sage. Color is a deep claret maroon. It is a very strong grower, stiff stem and flowers profusely. Per packet, 15c.

Silverspot—The leaves are rich, soft, dark green, with a light sulphur cream-colored spot of various sizes liberally sprinkled over them. The flowers are large and of intense bright scarlet color; habit, dwarf and compact. Per packet, 10c.

YOUNG'S STAR COLLECTION OF SWEET PEAS.

7 BEAUTIFUL VARIETIES FOR 25c.

YOUNG'S BOUQUET COLLECTION OF SWEET PEAS FOR 1907.

6 GORGEOUS VARIETIES FOR 30c.

GIANT NEW PANSIES FOR 1907

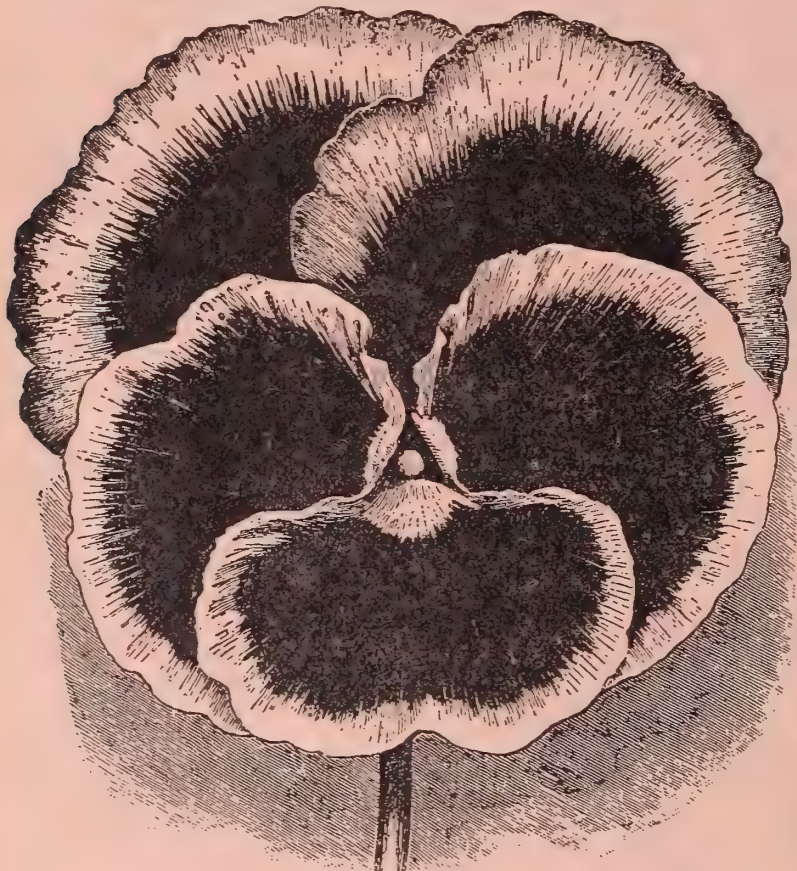

Andromeda—A beautiful new variety, ground color a delicate rosy, apple blossom hue, flushed and veined with lavender, blue or lilac rose forming almost a border; it comes true from seed, which is uniformly of light color (see cut); per pkt. 15c.

Emperor Francis Joseph—This is a very large, white flowering Trimardeau variety, of a dwarfier and more compact habit than any other, the flowers have mostly 5 large blotches of a bright blue similar to Pres. Carnot. It comes quite true from seed; per pkt. 15c.

Mauve Queen—The upper petals of the flower show a delicate, rosy lilac, the lower part is marked with three large clearly defined blotches of a bluish, carmine color, contrasting beautifully to each other; per pkt. 15c.

Marchal Neill—The flowers are very large and are of the same delicate cream color as the rose which bears its name; per pkt. 15c.

SPECIAL OFFER;—1 pkt. of each of the 4 varieties for 50c.

Pansy Andromeda.

VERBENA

Mammoth Firefly—A Mammoth Verbena, which comes quite true from seed, and is entirely distinct by its grand trusses of brilliant red flowers, with large pure white eyes; per pkt. 15c.

Mayflower—This variety has all the characteristics of the Mayflower, or trailing Arbutus, with the additional merit of possessing the same lovely and delicate pink and white coloring, making the flowers closely like the Arbutus, with the same exquisite fragrance; per pkt. 10c.

Hybrida Grandiflora Imperialis—This new strain is distinguished by enormously large flower trusses. The individual flowers are as large as those of the Phlox Grandiflora and are marked with an exceptionally large white center; they vary in all shades of colors known in Verbenas; per pkt. 15c.

WALL FLOWER

White Dame—The flowers of this new Wall Flower are large, cream-white shade of color, very free flowering and will be found a distinct addition to the wide range of color in this popular flower. The plants are of dwarf and compact habit of growth and very suitable for Spring bedding (see cut); per pkt. 10c.

Blood Red (Tom Thumb). The plants are of a dwarf, well branching habit, with clusters of bright red flowers, and will be a striking ornament for every garden, as it is a new color in this class of plant; per pkt. 10c.

Pansy—Victoria.

SELECTED PANSIES.

These are new varieties of Pansies, which, by selection and careful tests have proved themselves to be of improved size, substance, form and colors, and which we offer you as Pansies of a superior race.

Cornuta—A fine Pansy that has delicate, rosy, lilac flowers; for carpet bedding or groups it is especially recommended; per pkt. 15c.

Rosy Morn—An attractive variety of Giant Pansy. Color bright, purplish crimson, margined; per pkt. 10c.

Papilio—This is a very distinct sort. Large flowers, free flowering, fine for bedding. Color, violet lilac; per pkt. 10c.

Snow Queen—A beautiful white variety of pure satin color, with enormous flowers; per pkt. 10c.

Victoria—Color of this variety is a claret red, with giant flowers, good form and substance (see cut); per pkt. 10c.

Striata Perfecta—A decidedly beautiful variety, striped, many charming colors, which makes it very showy; per pkt. 10c.

Yellow Gem—An attractive, large flowering variety of spotless yellow color; per pkt. 10c.

SPECIAL OFFER—1 package of each of these 7 var. for 60c.

Wall Flower—White Dame.

YOUNG'S

RELIABLE FLOWER SEEDS

AGERATUM.

Valuable plants for large beds or borders. They are in bloom the whole year; of easy culture, succeeding in any soil. Half hardy annuals (see cut).

Imperial Dwarf Blue—Large blue flowers, 8 inches high. Per pkt. 5c; oz. 25c.

Imperial Dwarf White—Large white flowers, rarely exceeds 6 inches in height. Per pkt. 5c; oz. 25c.

Little Dorrit—A very dwarf variety about 6 inches high. Per pkt. 5c.

Blue Perfection—The darkest blue Ageratum dwarf, compact; about 8 inches high. Per pkt. 10c.

ALYSSUM.

A very hardy annual, blooming the entire summer and winter. Flowers pure white and fragrant. For hanging baskets or vases it is one of the best blooming vines. Grows easily from seed.

Carpet of Snow—Pure white, grows only 2 to 3 inches high, is a perfect carpet of snow-white flowers through the entire season. Per pkt. 10c.

Sweet Alyssum—Pure white, very fragrant. Per pkt. 5c; oz. 25c; lb. \$1.25.

Little Gem, or Tom Thumb—Of a dwarf habit, growing 3 or 4 inches high. Pkt. 10c; ½ oz. 20c; lb. \$2.00.

In this new strain of Antirrhinum, the flowers are nearly double the size of the older sorts, and the flowers more closely set on the stem. For summer flower beds they are very showy and bloom the entire summer (see cut.)

Firefly—A bright scarlet, orange and white. Per pkt. 10c.

Coral Red—Very attractive color. Per pkt. 10c.

Golden Queen—Pure golden yellow. Per pkt. 10c.

Black Prince—A very dark maroon, nearly black. Per pkt. 10c.

Fairy Queen—A light pink, quite handsome. Per pkt. 10c.

Luteum—A bright canary yellow. Per pkt. 10c.

Niobe—A new variety of the half dwarf sort. The tips of the flowers are of a velvety crimson maroon, while the tubes are pure white, the contrast is very striking. Per pkt. 10c.

Queen of the North—Grows about one foot high, and is densely covered with large white flowers from July until October. Per pkt. 10c.

Peloria—This is a remarkably curious variety which has upright tubular flowers. Color is white with garnet frill surrounding the mouth of the flowers. A very fine variety and a novelty in Snap Dragon. Per pkt. 10c.

Majus—The tall growing variety; height about 2 feet. All colors mixed. Per pkt. 5c; oz. 20c.

Majus Tom Thumb—Dwarf variety; growing about 10 inches high. Mixed colors. Per pkt. 5c; ½ oz. 25c; oz. 40c.

For Novelties in Flower and Vegetable Seeds, see Pages 21 to 36.

Antirrhinum.

ANTIRRHINUM.

GIANT FLOWERED VARIETIES.

Ageratum.

Aquilegia. Double Yellow.

AQUILEGIA—or Columbine.

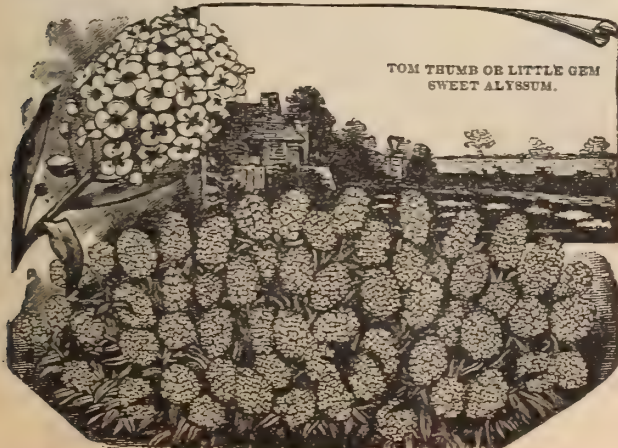

The flowers of these new large Hybrid varieties have been greatly enlarged and the shades of color increased from the old, well-known Columbine seed, may be sown in the open ground.

Double Yellow—The flowers, a deep yellow with fine spurs, bloom abundantly and are attractive when planted in clump (see cut). Per pkt. 10c.

Golden Sparred—Color, yellow, semi-double. Per pkt. 10c.

Double White—Very free blooming. Per pkt. 10c.

Mixed Colors—Per pkt. 10c.

Alyssum.

TOM THUMB OR LITTLE GEM
SWEET ALYSSUM.

ASTERS.

Young's Superb Varieties.

One of the most popular of our garden favorites. They grow best in a light, rich soil, and in hot dry weather; they should be mulched with rotten manure and well watered, which will increase the duration of their bloom. The seed we offer is the best that is procurable.

NEW GIANT COMET.

The flowers of this variety are very large and double, often measuring 5 inches in diameter and composed of long, waxy, twisted petals, resembling a Japanese Chrysanthemum. The flowers are borne on long stems, which adds to their value for cutting purposes. (see cut).

PURE WHITE.....Per pkt. 10c AZURE BLUE.....Per pkt. 10c
ROSE.....10c CRIMSON.....10c

MIXED COLORS.....Per pkt. 10c

This collection of Giant Comet Asters, 4 distinct colors, 30c.

DAYBREAK.

It generally attains a height of 18 to 24 inches and produces in large quantities. Its perfect globe shaped flowers are of a beautiful shell-pink color, similar to that of the Daybreak Carnation. Pkt. 10c.

GLOBE-FLOWERING PYRAMIDAL.

A favorite class, thrifty, upright growers; flowers large, nearly 4 inches across and almost perfectly round, with incurved petals. Per pkt. mixed colors, 10c.

Aster-Hohenzollern.

HOHENZOLLERN ASTER.

The finest type of the Giant Comet, or Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stem, which makes them cut flowers par excellence. White; Crimson, or Pink; Brilliant Rose; Light Blue; Silvery Lilac. Each pkt. 10c.

VICK'S BRANCHING.

This is a strong grower of a branching habit, it blooms later in the season than any other; the flowers are pure white, usually 4 inches in diameter and over; they are borne on long stems. (see cut).

PURE WHITE.....Per pkt. 10c CRIMSON.....Per pkt. 10c
PURPLE.....10c LAVENDER.....10c
PINK.....10c MIXED COLORS.....10c

This collection of Vick's Branching Asters, 5 pkts. of different colors 40c.

PERPETUAL, OR MONTHLY. Our own saving from best sorts, many of great merit. Per pkt., 15c.

COBAEA SCANDENS.

A rapid growing climber, with large foliage; valuable for covering trellises, arbors etc. Flowers large bell-shaped, of a violet blue color. In planting place the seed edge-wise (see cut). Per pkt., 10c.

CANDYTUFT.

A beautiful and useful plant of easy culture. It blooms long and freely (see cut).

WHITE ROCKET. Per pkt., 5c; oz., 20c.

EMPRESS. Flowers exceedingly large and fragrant. Per pkt., 10c; oz., 30c.

QUEEN OF ITALY. A new dwarf, erect growing variety, thickly studded with a fine pink flower; it may be treated as a perennial. Per pkt., 10c.

SNOW QUEEN. It bears but little foliage, and the mass of white flowers produced, makes it useful for borders. Per pkt., 5c.

TOM THUMB. Giant Flowered—The florets, as well as the heads of the bloom are double the size of the old varieties. Per pkt., 5c.

SEMPERVIRENS. White, a hardy, compact-growing variety, well adapted for permanent front rows of borders. Per pkt., 10c.

GIBALTARICA. A vigorous growing variety; colors, red, rose and white; perfectly hardy. Per pkt., 10c.

CALENDULA.

Meteor—Striped Orange on a yellow ground. Per pkt. 5c; oz. 20c.

Prince of Orange—Strain yellow stripe around each petal with orange. Per pkt. 5c; oz. 20c.

Favorite—Light sulphur striped with creamy white very double, the lightest colored variety. Per pkt. 10c.

Mixed Colors—Per pkt. 5c; oz. 15c.

COCKSCOMB

(*Celosia Christata*).

A very free flowering plant, growing best in rather light soil, producing spikes of beautiful comb-shaped flowers.

Dwarf Varieties—Mixed colors. Per pkt. 5c.

Tall Varieties—Mixed colors. Per pkt. 5c.

Flame of Love—A splendid dwarf variety with immense ruffled combs like scarlet chenille. The depths are glowing orange scarlet. Per pkt. 10c.

Spicata—A beautiful garden annual in the erect pyramidal form, growing to about 2½ feet high and producing numerous heads of ever lasting flowers 3 to 4 inches long. The color is light pink, changing into silver-white colors. Per pkt. 10c.

Thompsoni Magnifica—This novelty represents the most perfect strain of the feathered or ostrich plumed Cockscombs. The plants have a true pyramidal branching growth and the flower spikes vary in the most magnificent shades of colors, ranging from the clearest yellow to the darkest blood red. Of great value for all decorative purposes in and out of doors. Per pkt. 10c.

Eschscholtzia, Golden West

Calliopsis—California Sunbeam.

CALLIOPSIS

(Or *Coreopsis*).

California Sunbeam—This is an improvement on *Coreopsis Lanceolata*, the flowers being twice as large and more cup-shaped; color a golden yellow (see cut). Pkt. 10c.

Double—(*Tinctoria fl. pl.*)—The flowers are double, of rich golden yellow, with a wine maroon spot. Per pkt. 10c.

Golden Wave—(*Drummondii*)—Of a bushy and compact habit, and covered the entire summer with beautiful golden flowers with dark centers, measuring 2 inches across. Per pkt. 5c. oz. 20c.

Tom Thumb—Mixed colors, a dwarf strain compact habit, 1 foot high. Per pkt. 10c.

All Colors, Mixed—Per pkt. 5c; oz. 20c.

CAMPANULA

This perennial is the well known, popular, large, bell-shaped flower, known everywhere as Canterbury Bell.

Calycanthemum Rosea (Cup and Saucer)—Color a delicate rose pink (see cut). Per pkt. 10c.

Calycanthemum (cup and saucer) All colors, mixed. Per pkt. 5c.

CENTUREA

(*Cyannus*).

Commonly known as "Blue Bottle", Corn Flower, Bluet, Ragged Sailor; one of the finest annuals for cut flowers, blooms all summer (see cut).

Victoria—A very dwarf variety, growing only about 8 inches high; color, bright blue. Per pkt. 10c.

Emperor William—A strong growing variety, producing blue flowers. Pkt. 10c.

Single—All colors, mixed. Per pkt. 5c; oz. 25c.

Double—All colors, mixed. Per pkt. 5c.

NEW CENTUREAS

King of Blue Bottles—And is a clear, deep blue throughout, while the old varieties have a reddish center. Per pkt. 15c.

Sauveolens—The flowers keep for a long time after being cut; very showy, and well adapted for out-door planting. Per pkt. 10c.

Marguerite—The blossoms are very large, averaging 2 to 4 inches in diameter; of the purest white; deliciously scented and produced very freely on long stems, which render it very valuable for cut flowers. Per pkt. 5c.

Oderata—This variety is similar to Marguerite in growth, the only difference is the color, it being a dark purple. Per pkt. 5c.

ESCHSCHOLTZIA.

Golden West—The flowers of this variety are exceedingly large, often measuring 4 to 6 inches in diameter. Color a light canary yellow, with an orange blotch at the base of each petal. It is of a very easy culture, thriving well in the open ground, and flowering continually the entire summer, which is quite a novelty in a yellow flower. Per pkt. 5c.

Mandarin—The plants of this variety are upright and very compact, free from the straggling habit of the older varieties. The color of the flowers are deep orange shaded crimson; a very showy flower, (see cut). Per pkt. 10c.

FORGET-ME-NOT

Myosotis—The Forget-me-not is an old favorite plant, bearing clusters of star-shaped delicate blue flowers with white and yellow eyes. It flourishes best in a moist, shady situation and is in constant bloom nearly the whole season, (see cut).

Eliza Fourcort—A large flowering variety with large clusters of sky-blue flowers, distinctly marked with a yellow eye. Pkt. 10c.

Victoria—This variety can be sown any time of the year; dwarf, bushy habit, flowers of a bright azure blue. Per pkt. 10c.

Dwarf Alpestrous—Compact plants, flowering profusely, mixed colors. Per pkt. 10c.

Palustris—Large flowers. Pkt. 10c.

FUCHSIAS

Commonly called Ladies' Ear Drops, succeed best as pot plants, if planted outdoor they will thrive only in a partial shady situation.

Mixed Colors, Choice Strain—Per pkt. 15c.

DAISY

A favorite plant, well adapted to edging borders and low beds. Although perennial they will bloom the first season if sown early. (see cut).

Double—Giant Snowball—Extra large, double pure white. Per pkt. 15c.

Double Longfellow—Large, double, rose-colored flowers. Per pkt. 15c.

Double Mixed, from best German seed. Per pkt. 10c.

Campanula—Cup and Saucer.

YOUNG'S DIANTHUS.

(CHINESE OR JAPANESE PINKS.)

The Varieties of Dianthus known as Chinese Pinks and Japanese Pinks are among the most brilliant of our garden flowers, and for beauty and variety cannot be surpassed (see cut).

SINGLE VARIETIES.

Eastern Queen—Beautifully marbled, large band of rich mauve upon the paler surface of the petals. Per pkt. 5c.

Crimson Bell—Large fringed flowers of a velvety crimson color. Per pkt. 5c.

Heddewigi (Single Japan Pink)—A very large strain; mixed colors. Per pkt. 5c.

Salmon Queen—Flowers fringed. Color, brilliant salmon. Per pkt. 10c.

Snowflake—White flowers of large size, exquisitely fringed. Per pkt. 5c.

Lacinatus (Mixed colors)—Finest single fringed sorts. Per pkt. 5c.

Single China Pink (Mixed Colors)—Per pkt. 5c; oz. 40c.

SPECIAL OFFER—One packet each of the 7 varieties, 25c.

Pheasant Eye Pink—Single fragrant flowers, finely fringed. Per pkt. 10c.

Perpetual Flowering Garden Pink—Perfectly hardy; in bloom continually in the summer. Per pkt. 20c.

For Novelties in Flower and Vegetable Seeds see Pages 21 to 36.

Dianthus—Japanese.

Dianthus—Fireball.

DOLICHOS.

Daylight. The foliage is abundant and handsome; the flowers spring out with wonderful profusion in large sprays of spikes of pure white pea-like blossoms (see cut). Per pkt., 10c; oz., 25c.

Darkness. The vines grow quickly, attaining the height of 6 to 8 feet when trained on poles or suitable trellises. The flower spikes are large and long standing out well from the foliage, and are thickly set with large pea-like flowers of deep reddish violet or lavender purple. Per pkt., 10c; oz., 25c.

DOLICHOS LABLAB.

(Hyacinth Bean.)

A hardy climbing plant of rapid growth, bearing large clusters of showy flowers the entire summer. Per pkt., 5c.

DELPHINIUMS.

(or Hardy Larkspurs.)

A handsome and well known hardy perennial, with curiously cut leaves, producing splendid spikes of flowers in great profusion throughout the summer. If sown early they bloom the first year from seed.

Blue Butterfly. This is a very attractive annual, of a dwarf compact, bushy habit, rarely exceeding one foot in height; with finely divided foliage, and bearing during the summer months, large stems of flowers of the richest ultramarine blue, a color that is seldom seen in any other variety of summer flowering annuals. Per pkt., 15c.

Formosum. Hardy, blue with white center. Per pkt., 5c.

Finest Hybrids—Mixed Colors. Per pkt., 5c.

Dahlia.

COURDS.

CHINESE LOOFA, OR DISH RAG GOURD. Long, green fruit; the inside when ripe, is a tough, fibrous, sponge-like mass; very popular for bathing. Per pkt., 5c.

HERCULES CLUB. Large, green fruits; 2 to 5 feet long. Per pkt., 5c.

JAPANESE NEST EGG. Color, shape and size of egg. Per pkt., 5c.

POWDER HORN. Shaped like a horn. Per pkt., 5c.

ORANGE. Shaped the same as an orange. Per pkt., 5c.

MALABAR. Ornamental, variegated leaves and striped fruits. Per pkt., 5c.

DIPPER. Dipper shaped. Per pkt., 5c.

MIXED. Per pkt., 5c.

DAHLIA.

A beautiful autumn flowering plant that can be easily raised from seed as tubers. Blooming early in the summer if sown in the spring (see cut).

Lucifer. The flowers are of medium size and mostly of a glowing scarlet, verging toward the center into a deep blood red, and are produced in great abundance, and thrown well clear of the dark foliage, forming a most attractive contrast. The plants grow about 2½ feet high, and are extremely effective even as a single specimen, but more effective when several are grouped together on a lawn. It is a fine cut flower as it is an excellent keeper. Per pkt., 10c.

Twentieth Century. This superb new class of Dahlias originated and developed after years of careful selecting and hybridizing. The plants are strong, vigorous growers of branching habit and grow about four feet high, bloom early and continue to flower until killed by frost. The flowers are quite large, often measuring from 4½ to 6 inches in diameter, color intense rosy crimson with white tips and a white disc around the yellow center. As the season advances the colors become lighter. A great acquisition to the Dahlia strain. Per pkt., 25c.

Double Ponpon. Boquet or Lilliputian variety. All colors mixed. Per pkt., 10c.

Single Flowering Mixed. Large, showy, single flowers. Per pkt., 10c; oz., 35c.

Double Large Flowering. Finest mixed. Per pkt., 10c.

HIBISCUS.

Hardy garden plants, forming strong bushes about three feet high, bearing throughout the summer, immense saucer-shaped flowers, six inches across. Sown early, they will flower the first season.

Rose Pink, with White Eye.

Dolichos—Daylight.

Festus, April 18, 1906.

C. YOUNG & SONS'

Dear Sirs: We received our plants and seeds the 17th, and they were all O. K. They suited us fine and we all like them and hope they will grow. Thanking you for filling our order and pleasing us so well, we are,

Yours very respectfully,

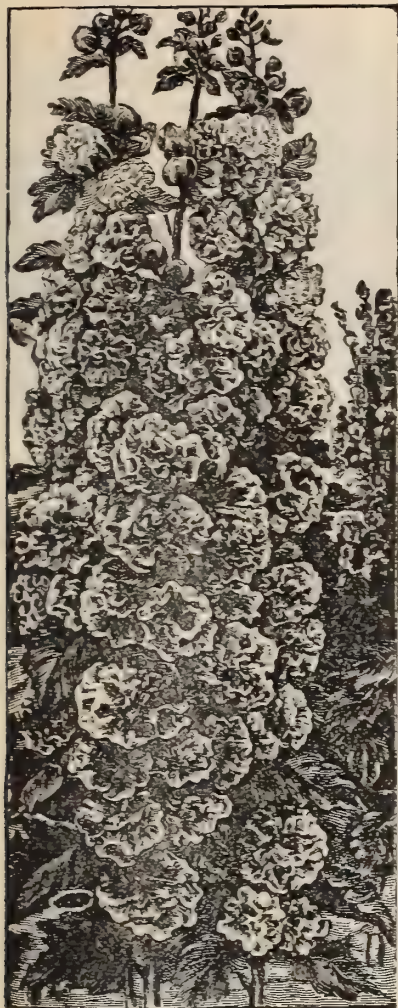

MRS. EMMA KEATING.

HELIOTROPE.

A half-hardy perennial, flowering during the whole season; its delightful perfume makes it a most desirable bouquet flower. Seed sown in the spring makes fine plants for summer blooming. Finest mixed. Per pkt., 10c.

Heliotrope.

Hollyhock.

HOLLYHOCKS.

Grand Summer and autumn flowering plant, bearing long spikes of double and single flowers.

Double Mixed—From Carter's superior strain. Per pkt., 10c.

Single Allegheny Mixed Colors—Fine fringed and mottled variety. Per pkt., 10c.

Larkspur.

HUMULUS.

Japonicus (Japan Hop)—A rapid growing summer climber, often attaining a height of 20 to 30 feet in 3 or 4 weeks. It is not affected by heat, drouth or insects (see cut). Pkt., 5c.

Japonicus Variegatum (Variegated Leaf Japan Hop)—The leaves are of a rich green, are blotched and marked with white and gray. Per pkt., 10c.

HELIANTHUS.

(Sunflower)

Miniature—Bear little orange-colored flowers with black center. Per pkt., 5c.

Silver Leaved—Grows 5 feet high with large leaves of shining silver color; flowers single. Per pkt., 5c.

Mammoth Russian—The giant among sunflowers; immense single heads; full of seed. Per pkt., 5c.

Californicus (fl. pl.)—Large double flowers; orange-color. Per pkt., 10c.

IPOMEA.

Heavenly Blue—Color, light blue. Per pkt., 10c.

Setosa (Brazilian Morning Glory)—A rapid growing vine with large leaves, making a dense shade. The flowers are 3 to 4 inches in diameter. Per pkt., 10c.

Learii—Bright blue; splendid. Per pkt., 10c.

Huberi—Silvery white marble foliage, with large trumpet shaped flowers. Per pkt., 10c.

Special offer—One package of the four varieties for 25c.

LARKSPUR

Dwarf Chinese—

These are exceedingly pretty garden plants of a compact habit, not over one foot high when in bloom; mixed colors. Per pkt., 10c.

Branching—This variety grows 2 to 3 feet high, and bears large spikes of flowers on long stems. Per pkt., 10c.

Tall Rocket—Mixed colors. Per pkt., 5c.

Dwarf Rocket—A dwarf variety with double flowers in various colors. Per pkt., 5c.

Elatum Hybridum Nanum—This variety grows from 3 to 3½ feet. They are of candelabra habit and produce extra large flowers in all shades of blue—from the lightest shade to the darkest indigo. A bed of this variety makes a fine show when in full flower. They bloom the first season from seed. (see cut.) Per pkt., 15c.

GAILLARDIA.

Beautiful hardy plant, commonly called the Blanket Flower. Exceedingly free flowering; grows almost anywhere. The colors of the flowers are golden yellow, amaranth red, claret and purple. Hardy annual.

Amblyodon—Clear, bright red. Per pkt., 5c.

Sun-Kissed—Gold and scarlet. Per pkt., 5c.

Aurora Borealis—Rings of gold, crimson and white. Per pkt., 5c.

Grandiflora—Brilliant scarlet, marked with yellow. Per pkt., 5c.

Lorenziana—Color, orange, claret and sulphur yellow. Per pkt., 5c.

Gypsy-Queen—Hardy. Color, crimson. Per pkt., 10c.

All Colors Mixed—Per pkt., 5c; oz., 25.

Special Offer—The entire collection of six named Gaillardias, 25c.

Gaillardia.

LANTANA.

Hybrida Mixed—A vigorous growing plant with a profusion of flowers all summer. Per pkt., 5c.

New Dwarf—The flowers of this variety are very showy and contain all shades of pink, red, orange, yellow and white, and are most striking and pleasing shades of color; growth, dwarf, bushy and compact from 8 to 10 inches in height. Per pkt., 10c.

LATHRUS LATIFOLIUS.

Perennial climbers, producing beautiful white rose and purple blossoms in clusters.

White—A beautiful variety, color pure white. Per pkt., 10c.

Crimson—Fine large flowers, color bright red. Per pkt., 10c.

Purple—Delicate flowers, shading from purple to blue. Per pkt., 10c.

Albus—Per pkt., 10c.

Mixed—All colors. Per pkt., 10c.

Imperial Japanese Morning Glory.

MORNING GLORY

(CONVOLVULUS MAJOR)

Handsome showy climber of easy culture. Suitable for covering arbors, windows, trellises, stumps, etc. Will grow in almost any soil.

All Colors Mixed—A choice mixture of many colors. Per pkt. 5c; oz., 10c.

Mignonette.

MIGNONETTE.

(Reseda Olerata)

A well known, hardy annual in bloom the whole season and is so fragrant that the whole atmosphere around is perfumed. No garden should be without it. (see cut).

Machet—Dwarf and vigorous grower. Per pkt. 5c; oz. 35c.

Golden Queen—Golden Flowers. Per pkt. 5c; oz. 20c.

Parson's White—Pure white. Per pkt. 5c; oz. 20c.

Victoria—Large flowering. Per pkt. 5c.

Giant Gabrielle—Hardy, vigorous, grower, with large spikes. Per pkt. 5c.

Allen's Defiance—A magnificent, large flowering variety. Per pkt. 5c.

Bismark—Large spike; very full rounded at top. Per pkt. 5c.

New Golden Machet—Bears immense flower stalks, deliciously scented. Per pkt. 5c.

Red Goliath—This variety is of strong growth, luxuriant foliage; spikes are immense. Per pkt. 10c.

White Pearl—The plants have the same vigorous compact habit of growth as the parent Machet, and is very free flowering. The flowers show a clear pearly white, specked with red, not easily found in Mignonette. Per pkt. 10c.

Large Flowered (Mixed)—The common sweet Mignonette. Per pkt. 5c; oz. 10c; ¼ lb. 25c.

MORNING GLORY.

IMPERIAL JAPANESE MIXED.

These are an improvement over the common varieties of Morning Glory, and whenever climbers are grown, these have a prominent place. They are of easy culture, and can be sown in the open ground, in a warm, sunny situation as the weather is settled, and all danger of frost is past, being a very strong and rapid grower, they soon cover a large area; often attaining a height of thirty to forty feet. The varied forms of the foliage are a decided novelty, the color and shadings of the flowers are beyond description. Our choice mixture contains nearly thirty distinct shades and colorings ranging from deep rich purple to a pure silver white, while to many of these, the solid colors are beautifully bordered in contrasting shades, and in others the coloring is diversified by rich tinged markings of spots of glowing colors.

Choice assortment of mixed colors. Per pkt. 10c; oz. 25c.

Imperial Japanese Mikado—A superfine mixture of the ruffled and fringed sorts. Per pkt. 15c; oz., 35c.

**MARIGOLD.**

A well known free flowering plant of easy culture. The African is tall and strong growing, and best adapted to mixed borders. The French, grows dwarf and is more suitable for bedding purposes and pot culture. (see cut).

Legion of Honor—Dwarf compact about 15 inches high, with dark green fern-like leaves star-like flowers distributed over the surface, flowers golden yellow with petals marked with reddish brown. Per pkt. 10c.

Striped Grandiflora—Has the free flowering habit of the dwarf French and has fine striped, well formed flowers. Per pkt. 10c.

Eldorado—Flowers very large, petals imbricated and extremely double color in all shades of yellow, from the palest primrose to the deepest orange. (see cut). Per pkt. 5c.

Dwarf French—(Mixed Colors)—Per pkt. 5c.

Large African—(Mixed Colors)—Per pkt. 5c.

FOR NOVELTIES IN FLOWER AND VEGETABLE SEEDS, SEE PAGES 21 TO 36.

LEMON
VERBENA**LEMON VERBENA.**

In this popular half-hardy shrub the leaves have a delicate lemon-like fragrance; flowers white. Per pkt. 10c.

LOBELIA.

Very dwarf-growing plants. The Erinus Species are the trailing varieties, most suitable for hanging baskets, vases, etc., and the Compactas are dense growing, used chiefly for edging, beds and ribbon gardening.

Crystal Palace Compacta—Dark-blue; splendid. Per pkt. 10c.

Nana Compacta—Very dwarf, upright-growing. Per pkt. 10c.

Erinus Gracilis—Light-blue; trailing habit. Per pkt. 10c.

Victoria—(Erinus Compacta)—The plants of this variety are compact, and of strong growth. Foliage luxuriant dark green, flowers very large, and of light rose red color. It is fine for Carpet bedding (see cut). Per pkt. 10c.

MAURANDIA.

Graceful climbers for windows and conservatories, or for open grounds in summer. Very ornamental for hanging vines in vases or for covering stumps or low trellises.

Barclayiana—Purple flowered. Per pkt., 10c.

Giant Flowering—Mixed colors. Per pkt., 10c.

MARVEL OF PERU.

(FOUR O'CLOCKS).

The flowers, red, white, yellow and variegated, grow in clusters on the summit of the stem. They are exceedingly fragrant; expanding in the evening.

Variegated Foliage—Mixed colors. Per pkt., 5c; oz., 15c.

Finest Mixed Colors—Per pkt., 5c; oz., 15c.

MATRICARIA.

CAPENSIS ALBA (Double White Feverfew.)

A garden plant of easy culture, button shaped and very double. Per pkt. 10c.

Mexico, Mo.
May 6, 1906.

C. Young & Sons Co.
Dear Sirs:

Received plants and seeds in fine condition. Many thanks for the two extra roses sent.

Mrs. B. A. Thornburgh.

Lobellias.

MOMORDICA.

Very curious trailing plants, with ornamental foliage and remarkable fruit.

Balsamina—(BALSAM APPLE)—From East Indies; 10 feet. Per pkt., 5c.

Charantina—(BALSAM PEAR)—10 feet. Per pkt., 5c.

MESEMBRYANTHEMUM.

Dwarf-growing plants of great beauty, well suited for edging and covering rock work, producing their star-like flowers in great abundance.

Crystallium—Leaves and stems appear as though covered with a coating of ice. Per pkt., 5c.

Cordifolium Variegatum—The leaves are distinctly variegated with green and white. Per pkt., 15c.

Moonflower (Ipomea Grandiflora.)

MOONFLOWER.

(Ipomea Grandiflora.)

These have become celebrated as the finest growing of all the summer climbers. They grow with marvelous rapidity, reaching a height of 40 or 50 feet in a few weeks, and are covered with large, pure white fragrant flowers in the evening and cloudy days. For covering trellises, arbors, fences, verandas and trees they are without a rival. (see cut). Per pkt. 10c.

NEW HYBRIDS OF NICOTIANA SANDERII.

These are beautiful garden plants and thrive in almost any soil or situation either in pots, boxes or open ground, as a cutflower they are delightful. Plants can be easily raised from seed, if sown in February and grown in cold frames they will flower in May and if planted in the open ground will continue to bloom all summer and autumn. The plants are laden with flowers from the base to the summit and they vary in colors of purple, white, pink, dark and light red crimson, violet and salmon.

We offer a collection of the following varieties of Nicotiana, one package of each of the eight different colors for 35c postpaid.

NICOTIANA.

Affinis—A free flowering plant that produces delightful, sweet-scented flowers the entire summer. Per pkt. 5c.

NASTURTIIUM DWARF.

(Tropaeolum Minor.)

For show and constant bloom few garden flowers equal the old Nasturtium, which, by the way, has been greatly improved during the past few years in colors and habit of growth. They flower most profusely when planted in a poor soil and remain in bloom a long time; stand heat and drought without the slightest effect. (see cut.)

GOLDEN KING—Flowers are very large, often three inches across, deep golden yellow, maroon blotches, per pkt., 5c.

AURORA—Salmon rose, mottled blush white, garnet blotches very distinct, per pkt., 5c.

CRYSTAL PALACE GEM—Sulphur, spotted maroon per pkt., 5c.

KING OF TOM THUMB—Foliage dark green, flowers brilliant scarlet, per pkt., 5c.

PEARL—A pure white, per pkt., 5c.

LADY BIRD—Orange yellow with red spots, per pkt., 5c.

EMPRESS OF INDIA—A brilliant crimson, dark foliage, per pkt., 5c.

CLOTH OF GOLD—Golden yellow foliage, light scarlet flowers, per pkt., 5c.

SPECIAL OFFER—1 package of each of the 8 varieties 25c.

YOUNG'S OWN CHOICE MIXTURE—In equal portions of above varieties, per pkt., 10c; oz., 25c.

ALL COLORS MIXED—Many beautiful colors. per pkt., 5c; oz., 15c.

Tall Nasturtium.

NASTURTIIUM, TALL OR CLIMBING.

(Tropaeolum Major.)

This variety of Tropaeolum or Nasturtium requires but little care, for seed sown in the spring of the year in any fair garden soil will produce plants 10 to 12 feet high before autumn. They do not require a rich soil, for a rich soil is apt to be productive of leaves rather than flowers.

ATROPUPUREA—Rich, velvety pink, per pkt..... 5c

COCCINEA—A bright orange scarlet, per pkt..... 5c

LUTEUM—Pure, rich yellow, per pkt..... 5c

KING THEODORE—Velvety, dark crimson, per pkt..... 5c

PEARL—Cream white, per pkt..... 5c

SCHEUERIANUM—Of a straw color, splashed crimson..... 5c

DUNNETT'S ORANGE—Golden orange, garnet blotches..... 5c

HEMISPHERICUM—Straw color, rosy blotches..... 5c

SPECIAL OFFER—1 package of each of the 8 varieties..... 25c

YOUNG'S OWN CHOICE MIXTURE—Equal proportions of each color, per pkt., 10c; oz. 25c.

MIXED COLORS—Per pkt., 5c; oz., 15c.

Nasturtium Lobbianum.

NASTURTIIUM LOBBIANUM

(Climbing Nasturtium.)

They are as easily grown as the common tall growing varieties which they surpass in the remarkable brilliancy of color; very attractive for vases or hanging baskets or grown simply trailing on the ground.

SPITFIRE—Fiery red, very showy, pkt., 5c.

BRILLIANT—Fine scarlet, per pkt., 5c.

NAPOLEON III—Yellow spotted brown, per pkt., 5c.

ASA GRAY—Primrose yellow, per pkt., 5c.

CHAIXIANUM—Yellow carmine blotches, per pkt., 5c.

ROI DES NOIRS—Blackish crimson, per pkt., 5c.

MIXED COLORS—Per pkt., 5c; oz., 25c.

SPECIAL OFFER—1 package of each of the 6 varieties, 25c.

3 CHOICE NASTURTIIUMS FOR 20c.

QUEEN OF TOM THUMB—(Silver variegated foliage)—This charming novelty produces flowers of a rich bright crimson which forms a very pretty contrast to the silver variegated foliage, and is a strikingly handsome and useful bedding or pot plant even before coming into bloom; it is very free flowering and produces 90 per cent with true variegated foliage. It is very dwarf and compact, and is a great acquisition as a bedding plant. Per pkt., 10c (see cut).

BLACK PRINCE—This is the darkest shade of climbing Nasturtium we know of, the opening blooms are deep blackish glossy purple, deepening into a velvety black. The foliage is also very dark and of high lustre like the dwarf Nasturtium Empress of India. It makes most effective plants. This is a novelty of enduring value (see cut). Per pkt., 10c.

SNOW QUEEN—This is a remarkable pretty variety of Liliput Nasturtium with yellowish white flowers turning to a pure white. It is a splendid variety for a flower bed. Per pkt., 10c.

Nasturtium, Dwarf.

Pansy.

SUPERB PANSIES.

RUBY. Color, from scarlet, scarlet-orange, wine-red to rose. The flowers are exceedingly large and of a fine form. Per pkt., 15c.

BRIDESMAID. The ground color is a delicate rosy-white, rivaling in delicacy and beauty the apple blossom. The center of the flower is regularly spotted with dark blotches to the outside. Per pkt., 15c.

MASTERPIECE. This variety differs from all other strains in the shape of the flowers, border of each petal being curled or waved, giving the flowers a double or globular appearance. Another feature of this marvelous strain is that it produces some tints of color not found in any other pansy. Per pkt., 20c.

FAIRY QUEEN. Color, a delicate azure-blue, clearly margined with a clean-cut border of pure white, very distinct. Per pkt., 10c.

MAMMOTH BUTTERFLY. A French strain of pansies, with splashes and blotches as varied as the color of a butterfly. Per pkt., 10c.

Pansies—Giant Trimardeau.

PANSIES IMPROVED.

GIANT TRIMARDEAU.

SPECIAL OFFER—One pkt. of each of the 12 distinct colors for 75c.

A strain of Pansy, which, for variety, beauty, matchless forms, colors and markings have never been excelled. Flowers twice as large as ordinary pansies.

Giant Golden Queen. Pure yellow, spotless. 10c.

Giant Violet Blue. A dark marine blue, 10c.

Giant Adonis. A very bright red, 10c.

Giant Striped. Mahogany, striped with yellow. Per pkt., 10c.

Giant White. White-blue blotches. Per pkt., 10c.

Giant Lord Beaconsfield. Purple, shaded white. Per pkt., 10c.

Giant Emperor William. Velvety royal purple. Per pkt., 10c.

Giant Violet and Gold—(Atropurpurea). Splendid. Per pkt., 10c.

Giant Margined—(Auriculaflora). Purple, edge white. Per pkt., 10c.

Giant Mahogany Color. Dark brown, very distinct. Per pkt., 10c.

Giant Black Prince. Color, pure dark velvety black. Per pkt., 10c.

Giant Yellow Prince. A pure yellow, with black center. Per pkt., 10c.

Giant Trimardeau. All colors, mixed. Pkt., 10c; 1/8 oz., 65c; 1/4 oz., \$1.25; oz., \$4.50.

YOUNG'S CHOICE PANSIES.

PANSY PRINCE HENRY.

This is a strong growing variety, with flowers often measuring 3 1/2 inches across. The color is a dark indigo, each petal having a blackish brown vein, blotched like the Bugnot race, from which it originates. The edges are slightly waved and frilled. Per pkt., 15c.

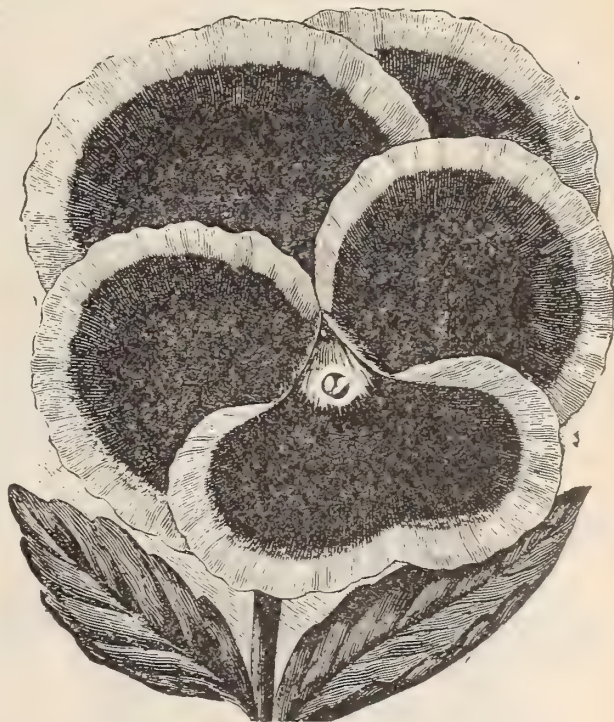

PANSY HERO.

A fine strong growing variety both for bedding and for cut flowers. It has large and well-shaped flowers, regularly curled and crimped, of deep blue color with contrasting lighter shades toward the outer petals. The plants are bushy and compact. Per pkt., 15c.

PANSY PYSCHÉ.

The plants of this variety are perfect in habit and very floriferous. Each flower is elegantly curled and undulated, which gives it a very handsome appearance. It is a violet color, surrounded by a broad white edge. Per pkt., 15c.

These three new varieties, postpaid, for 30 cents.

Pansy.

EMPEROR FREDERICK. Color, a rich, deep purple with golden-bronze center, with a scarlet and yellow margin, very attractive. Per pkt., 15c.

PRESIDENT CARNOT. A fine variety, with deep, velvety-violet blotch across the surface of each of the fine petals, the other edge of which is margined with clear white. Per pkt., 15c.

COQUETTE DE POISSY. Color, rosy-lilac, deepest at center, and shading to nearly white on the two upper petals. Per pkt., 10c. Eight distinct varieties; one pkt. of each variety for 60c.

YOUNG'S PANSY MIXED:—A fair proportion of all the above Varieties, Choice Strain, Mixed Colors. Per pkt., 5c; 1/4 oz., 35c. For Pansy Plants see Page 36.

Thebes, Ill., May 1st, 1906

C. YOUNG & SON, St. Louis, Mo.,

DEAR SIR:—Many thanks for your promptness in filling my order; arrived in fine condition, also thanks for the extras. My Pansy seeds are growing fine.

Respectfully,

SHELBY S. BRAWN.

Petunia.

POPPIES.

An old favorite, exceedingly showy, making a gorgeous display during the summer months. All the Poppies are hardy. Sow the seeds where the plants are to flower as they do not stand transplanting. (see cut).

Double.

Japanese Pompon—A dwarf variety bearing a great number of double flowers. All colors mixed. Per pkt. 10c.

Double Carnation—Very double, and with finely cut or fringed petals. All colors mixed. Per pkt. 5c; oz. 20c.

Single.

Tulip Poppy—(*Papaver Glaucum*)—This variety grows from 12 to 14 inches high; each plant producing fifty to seventy-five flowers. Per pkt. 10c.

Danebrog—Large, bright scarlet, with white cross in the center. Per pkt. 5c.

Shirley—The colors are pure, soft and varied, and range from bluish white, delicate pink and carmine. Per pkt. 5c.

Platycodon Japanese Fl. Pl.

Iceland Poppy—A fragrant variety, flowering continually from beginning of June to October. Per pkt. 10c.

Cardinal—Flowers 4 to 5 in. across, of satiny white, with a distinct feathered margin of scarlet. Per pkt. 10c.

Special Offer—The full collection of five named varieties of single Poppy for 20c.

Single, All Colors Mixed—Per pkt. 5c; oz. 25c.

Poppy, Irresistible.

PETUNIAS.

These are the leading window and garden flowers and few give more general satisfaction. Always full of flowers and ever an object of great beauty, commencing to bloom early and continuing a mass of flowers throughout the season. Of easy culture. (see cut).

Single Giants of California Varieties.

Ruffled Giant—The flowers of this variety are of an extraordinary size and substance with very deep throats, and distinguished from the large ringed varieties by deeper fringing and fluting, giving the appearance as if it were artificially ruffled. All colors, mixed. Per pkt. 20c.

Fringed Giant—The flowers average 4 to 5 inches in diameter; they are of innumerable shades of color, all beautifully fringed. All colors, mixed. Per pkt. 20c.

California Giant—The flowers of this variety are of gigantic size, often measuring from 4 to 5 inches across. They are deeply mottled and veined, and range in every conceivable shade of pure white, crimson, lavender, pink, etc. (see cut). All colors, mixed. Per pkt. 15c.

Special Offer—The three distinct Giant of California varieties for 40c.

Single Varieties.

Hybrida Grandiflora—An extra large flowering variety; striped and blotched. Per pkt. 10c.

Snowball—The plants are of dwarf, compact, bushy growth, completely covered with small white flowers. Per pkt. 10c.

Dwarf Inimitable—A dwarf variety. Flowers single, color a berry red, with a white starlight centre. Per pkt. 10c.

Fine Single—All colors; very choice; mixed. Per pkt. 5c; oz. 40c.

Double Varieties.

Double Large Flowering Mixed—A magnificent strain, with flowers 3 to 4 inches across; very double and all shades of color in crimson, white, rose and maroon blotched. Per pkt. 25c.

PLATYCODON.

Large Flowering—Chinese Bell Flower. Hardy perennial; bearing large, broad, bell-shaped white or blue flowers. (see cut). Per pkt. 10c.

Japonicus Fl. Pl.—(Japanese Bell Flower). This is a free flowering variety with large glossy blue flowers. The inner petals alternate with the outside ones, which makes the flower have the appearance of a star. It grows from 12 to 20 inches high and blooms from June to October (see cut). Per pkt. 10c.

C. YOUNG & SONS CO. St. Louis, Mo.

The plants and seeds were received some time ago and were in perfect order. Allow me to thank you for the plants sent (gratis) and my seeds are growing fine.

Yours truly,
Daisy Murphy.

Grafton, Ill., May 29, '06.

FOR NOVELTIES IN FLOWERS AND VEGETABLE SEEDS, SEE PAGES 21 TO 36.

Sweet Williams.

PYRETHRUM.

Parnifolium Arum—(Golden Feather). Dwarf-growing, extensively used for ribbon and carpet bedding; foliage a bright yellow. Per pkt., 5c; oz., 50c.

PORTULACCA.

(Flowering Moss)

A beautiful and popular annual, each plant covering a space of 2 feet in diameter, with flowers of almost every color imaginable; luxuriating in the warm sun and sandy soil. The drouth is never too long or the heat too intense.

Double, All Colors Mixed—The flowers are perfectly double. Per pkt., 10c.

SINGLE VARIETIES.

Striped	Per pkt., 5c	Crimson	Per pkt., 5c
Yellow	5c	Rose	5c
Variegated	5c	White	5c

Special Offer—The full set of 6 varieties for 20c.

Single Varieties, Mixed Colors—Per pkt., 5c; oz., 40c.

SMILAX.

A valuable climber, either for the house or conservatory. Per pkt., 10c; oz., 30c.

SWEET WILLIAM.

Hunt's Perfection—A splendid strain, flowers of many bright colors, large size and various markings, including the finest auricula eyed varieties; of all colors. (see cut). Per pkt., 5c.

Single—Mixed. Per pkt., 5c.

Double—Mixed. Per pkt., 5c.

STOKESIA CYANEA.

This is a rare, beautiful, hardy perennial; easily raised from seed and will flower the first year, if sown early. The plants grow about 24 inches high, each bearing 20 to 30 lavender-blue flowers. It is in bloom from July until killed by frost, and is a choice variety for hardy borders and fine cutting. Per pkt., 15c.

Ricinus Borboniensis.

PHILOX DRUMMONDII GRANDIFLORA.

The "Grandiflora," or large flowering varieties, are a great improvement over the older sorts, the flowers being twice as large and as freely produced. Color is very brilliant (see cut).

PURE WHITE	Per pkt.
CRIMSON	10c
BRILLIANT SCARLET	10c
STRIPED	10c
CARMINE	10c
MIXED	10c

The full set of five varieties, 25c.

PHLOX STAR AND FRINGED.

The flowers are perfectly star-shaped and exquisitely fringed, often measuring one and one-half inches across. Per pkt., 10c.

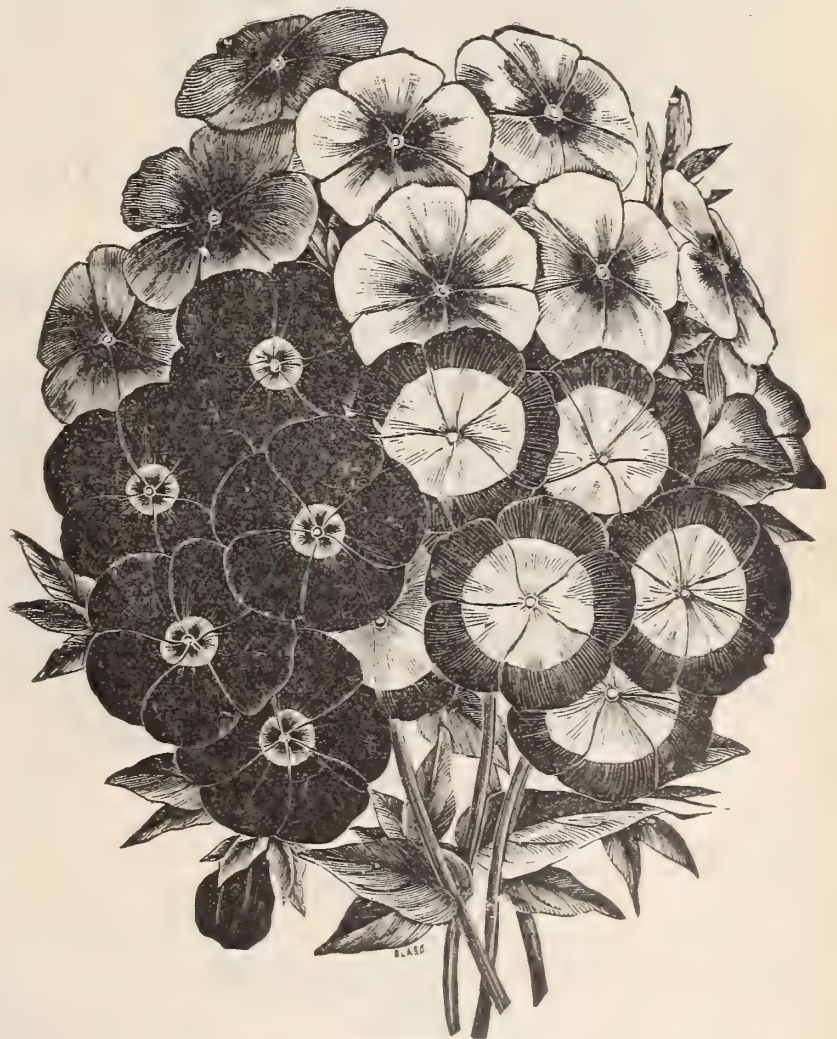

PHLOX, NEW DWARF.

Plants not over 8 inches high, and one mass of flowers; splendid for margins, low beds and pot culture.

All Colors, Mixed—Many sorts, Per pkt., 10c.

PHILOX, HARDY EVER-BLOOMING.

A hardy, ever-blooming variety, growing into strong bushes from 1 to 2 feet high, bearing immense heads or pinnacles of flowers, 8 to 10 inches long and 6 to 8 inches in diameter; varying in all the different shades of color of red, white and pink. (see cut). Per pkt., 10c.

Phlox Drummondii Grandiflora.

RICINUS.

Known as Castor Oil Plant and Palma Christa. A rapid growing foliage plant, with large palm like leaves, much used for sub-tropical effects on the lawn or for center of beds of foliage plants. Half-hardy annual.

Borboniensis Arboreus—Very large and handsome foliage. 15 feet. (see cut). Per pkt., 5

Gibsonii—One of the most ornamental and showy varieties, with dark purple foliage. Per pkt., 5c.

Zanzibariensis—This is another distinct variety, surpassing in size and beauty all varieties. The leaves in a young state are a brownish purple, changing into a dark green with a reddish rim as they grow older. Per pkt., 10c.

Mixed Varieties.—Per pkt., 5c; oz., 10c; 1lb., 50c.

SWEET PEAS.

Sweet peas are universal favorites. In addition to their beauty and ornamental appearance, they possess a rich and delightful fragrance, and are very valuable for cut flowers, bouquets, etc. Sow the seed 3 or 4 inches deep and supply brush or sticks for their support. Hardy annuals (see cut.)

YOUNG'S SUPERB COLLECTION

—OF THE—

BEST SUMMER FLOWERING SWEET PEAS.

The Following Nine Distinct Colors for 25c.

C. YOUNG & SONS.

St. Louis, Mo.

Plants and seeds received in good condition.

Thank you for the rose, the lovely McArthur.

Respectfully yours,

Farmington, Mo.
April, 14, 1906.

Mrs. Maurice Westover.

YOUNG'S POPULAR COLLECTION OF SWEET PEAS.

The Following Ten Distinct Colors for 25c.

Dorothy Eckford—A pure white, very fine.

Hon. F. Boverie—Soft pinkish salmon; a charming variety.

America—Heavily striped with bright blood red on white ground.

King Edward VII.—Magnificent large bright red flowers.

Othello—A deep maroon self-color; of very large size.

Blanche Burpee—A grand flower of fine form; snowy white.

Admiration—A delicate shade of rosy lavender; one of the choicest varieties.

Lady Nina Balfour—The flowers are large and well expanded; color, delicate lavender.

Blanch Ferry—Striped pink and white; erect stems.

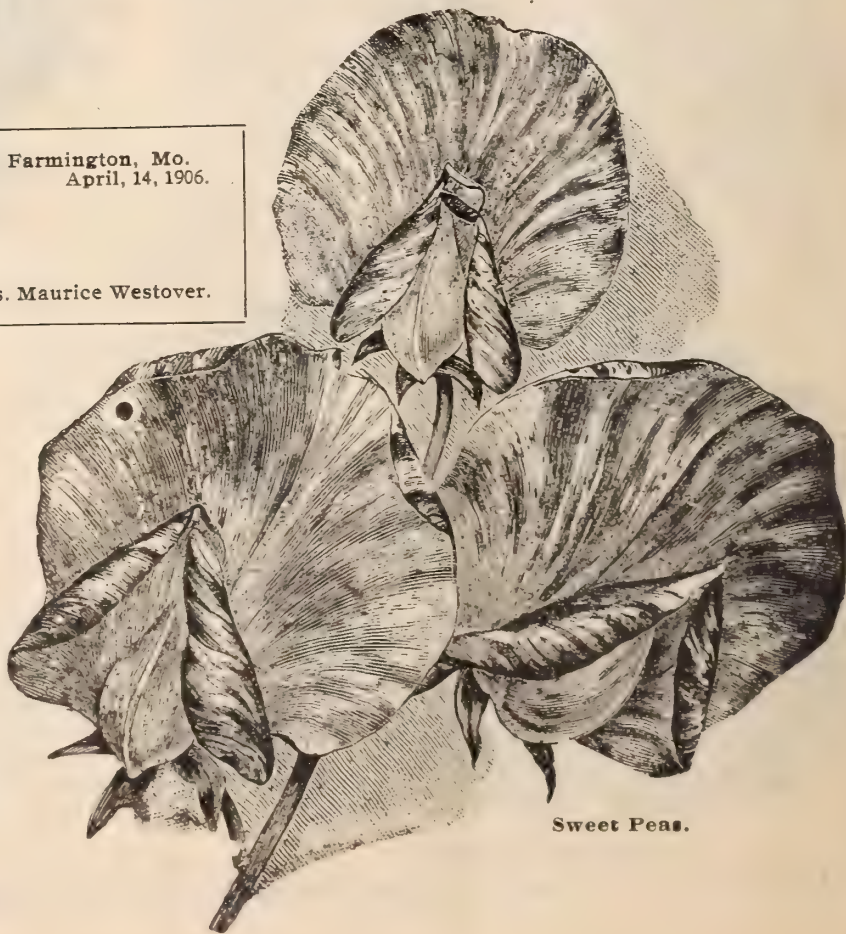

Lottie Eckford—Large silvery white flowers, shaded soft lavender.

POPULAR MIXTURE—Containing an equal proportion of all the above colors. Per oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 65c.

Prices of all the above varieties, 5 cents per packet; 10 cents per ounce.

SWEET PEAS, choice mixed, a fine assortment of all choice varieties. Per oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 40c.

**FOR NOVELTIES IN FLOWER AND VEGETABLE
SEED SEE PAGES 21 TO 36.**

Sweet Peas.

Tritoma.

RUDBECKIA.**BI-COLOR SUPERBA.**

This variety represents semi-double or nearly double flowering flowers of a golden-yellow to a brownish yellow color, having a central dark brown ring and disk. The plants grow about 2 to 2½ feet high, and entirely well covered all summer until killed by frost in autumn. Per pkt. 15c

Schyzanthus.

Hybridus Grandiflora—It attains a height of about 12 inches, grows quite compact, and is literally covered with beautiful large flowers. The colors and designs vary so that one sowing will produce an abundance of colored flowers, which make an attractive garden. Per pkt. 10c.

Schyzanthus.

Salvia, or Flowering Sage.

Splendens—Scarlet Sage—Spikes of intensely rich scarlet flowers that continue in profusion until frost (see cut). Per pkt. 10c.

Bonfire—This is the finest variety of Salvia ever introduced; grows in a very compact oval bush about two feet high and producing spikes of brilliant scarlet flowers, which stand out stiff and erect and it is not unusual for a plant to bear 200 spikes. Per pkt. 10c.

Coccinea—Fine free flowering. Per pkt. 5c.

Burning Bush—This variety makes a compact bush about 2½ feet high and produces long drooping spikes of brilliant scarlet flowers thrown well above the foliage; a dazzling effect when in full bloom. Per pkt. 10c.

Silverspot—The most distinct feature of this novelty is its strikingly handsome spotted foliage. The leaves are rich, soft, dark green, with a light sulphur cream-colored spot of various sizes liberally sprinkled over them. The flowers are large and of an intense bright scarlet color; habit, dwarf and compact. Per pkt. 15c.

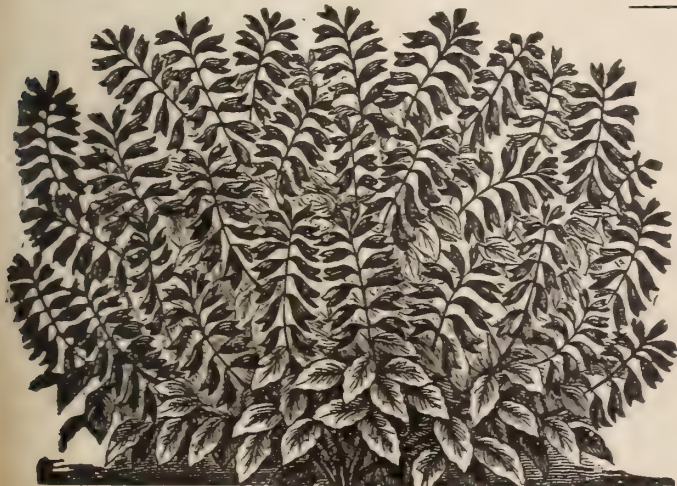

STOCKS.

Queen Alexandria—Flowers delicate lilac, a tint of incomparable beauty, and for cut flowers it is exceptionally fine. The plants throw up a fine center spike about one foot in height, surrounded by numerous side shoots, all covered with large blossoms. Per pkt. 15c.

Cut and Come Again—One of the best varieties of stocks for cut flowers; grows about 2 feet high, flowering continually from early spring until late in fall; color pure white and very double (see cut). Pkt. 10c.

New Giant Perfection—A splendid variety of pyramidal growth, finest mixed. Per pkt. 10c.

Dwarf German—Ten Week—Mixed colors (see cut). Per pkt. 5c.

Salvia.

Stocks—Ten Week.

SCABIOSA.

Nana Compacta—Commonly called Morning Bride, a very free blooming annual. Valuable for cutting purposes (see cut).

Mixed Colors—Per pkt. 5c.

TRITOMA.

Hybrida Empress—This is a very attractive variety. It commences to bloom in June and continues the greater part of the summer. The color varies from deep orange to carmine. It is easily grown from seeds and blooms the first year if sown early. This variety is used a great deal for bedding and is a strong grower (see cut). Per pkt. 15c.

THUNBERGIA.

Alata—Rapid growing annual climbers, 4 to 6 feet high, splendid for trailing over trellises, fences, etc. Beautiful flowers borne in profusion; buff, white, orange, etc. Mixed colors. Per pkt. 5c.

YUCCA.

Filamentosa—An ornamental hardy plant with large spikes of white flowers. Per pkt. 10c.

Messrs. C. Young & Sons, St. Louis, Mo.

Mexico, Mo.

Gentlemen—The roses, plants and seeds all came all right and I'm very well pleased with them. I also want to thank you for extra plants and extra packets of seeds. Am very grateful to you for them and am sure you will get more orders next year. Thanking you again I am very respectfully,

Mrs. W. H. Turner.

Violet.

WILD FLOWER GARDEN.

These mixed flower seeds contain more than a hundred varieties of easy growing and pretty flowers, suitable for forming a wild-flower garden; very useful for sowing alongside of fences and on untidy bare spots of ground which are frequently unsightly. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

WALL FLOWER.

Fine German mixed flowers on long spikes, deliciously fragrant; in many shades of color, chocolate and orange purple.

Mixed Single and Double—Per pkt. 5c.

VIOLET.

Favorite hardy perennial plants, admired for their beauty and fragrance. They flower the first year from seed (see cut.)

Oderata—Single blue. Pkt. 10c.

Czar—Largest flowering variety. Per pkt. 10c.

Zinnia.

VERBENA.

Class of universally popular bedding plants, well-known and admired for their beautiful flowers, of almost every shade and tint of color. Good healthy plants can be produced from seeds as readily as almost any tender annual (see cut).

Young's Giant Flowered—The new mammoth strain is absolutely the largest flowered Verbena known that can be grown from seed. A splendid mixture. Per pkt. 15c.

Young's Auricula Flowered—A mammoth variety, having a distinct white eye or spot in center of each petal; very striking and beautiful. Per pkt. 15c.

CHOICE STRAINS IN THE FOLLOWING COLORS IN SEPARATE PACKETS.

Pure White.....	Per pkt. 10c.

Giant Verbena.

VINCA.

(Or Periwinkle.)

Handsome bushy plant, flowering freely during the hot summer months, and blooms the first season from seed,

Aiba Pura—White. Pkt. 5c.

Rosea—Bright rose. Pkt. 5c.

Rosea Alba—White with rosy eye. Pkt. 5c.

All Colors Mixed—Pkt. 5c.

ZINNIA.

The plants form a handsome bush with perfectly formed double flowers, often measuring 5 to 6 inches in diameter, of easy culture and bloom continually throughout the entire summer.

Zebra-Striped—The flowers are a perfect form, distinctly striped and spotted with different shades of color. Per pkt. 10c.

Elegans Tom Thumb—Compact bushes, not over 12 inches high by about 14 inches in diameter. Flowers are perfectly double. Per pkt. 10c.

All colors mixed. Per pkt. 10c.

Elegans, All Colors Mixed—Per pkt. 5c.

MAMMOTH FLOWERING VARIETIES.

Deep Yellow—Per pkt. 10c.

White—Per pkt. 10c.

Crimson—Per pkt. 10c.

Golden Yellow—Per pkt. 10c.

Orange—Per pkt. 10c.

SPECIAL OFFER—1 package each of the 5 different colors for 20c.

Mammoth, All Colors Mixed—Per pkt. 10c.

For Novelties in Flower and Vegetable Seeds See Pages 21 to 36.

Novelty
AND
RARE PLANTS

3 GRAND

NEW ROSES of Special Value.

JOSEPH HILL. (H.T.)

This fine rose, raised by M. Pernet-Ducher, and distributed in 1904, is the grandest "fancy" rose yet introduced; it has glossy, leathery foliage (like Pearl des Jardines), makes long, heavy breaks, with reddish plum colored young growths. The flower is enormous, the bud very long and pointed; color pink, salmon shaded, outside of petals pink-copper. A beauty. Price, 50c each.

WELLESLEY. (H. T.)

This grand rose, Liberty crossed with Bridesmaid, retains the form of Liberty with the fullness of Bridesmaid and in color is a beautiful shade of pink, the outside of the petals being bright and clear with a silvery reverse. It is a very vigorous, healthy grower, carrying the flowers on long, stiff stems which are clothed with heavy, dark green foliage. It is remarkably free flowering and possesses unusually fine keeping qualities. Lights up brilliantly under artificial light. Price, 50c each.

REINE MARGARET D'ITALIE. (H. T.)

Of bushy growth, foliage dark green, buds long and pointed, flower large and full, color glossy carmine scarlet lightened with vermillion; extremely free; very sweet; one of the best novelties of recent years, especially as a red garden rose. Price, 50c each.

SPECIAL NOTICE. The 3 New Roses named above are the best of this year's introduction. We can only offer them in one size. Strong plants from 3 inch pots, 50c each; the three varieties for \$1.25. All lovers of choice roses should include these 3 sterling novelties in their order.

New Rose—Joseph Hill.

THREE GRAND NEW ABUTILONS.

New Abutilon—Frank Harris—We recommend this as one of the most beautiful and satisfactory plants for house and window culture ever offered. May be set out in Summer and taken indoors in Winter; grows low and compact, and bears large cup-shaped, satiny-pink flowers the whole year, Summer and Winter, or as long as kept in growing condition. 20c each. (see cut.)

New Abutilon—Arthur Belsham—Splendid large, bright crimson flowers, exceedingly bright and beautiful, one of the newest and handsomest Abutilons yet produced. 20c each.

New Abutilon—Menellk—Fine broad, cup-shaped flowers with beautiful overlapping petals; color, orange veined with crimson. Very handsome and continuous bloomer. 20c each.

Price 3 beautiful window plants described above for 50c postpaid.

New
Abutilon—
Frank
Harris.

New Pink Begonia.

GRAND NEW PINK RUBRA BEGONIA.

Of erect growth, with handsome emerald-green drooping foliage, and flowers in endless number hanging in graceful clusters, delicate pink in color with light emerald calyx and buds. Its lovely pink color with the delicate emerald tinge of foliage and buds give the plant a peculiar charm, and it is certainly one of the very finest winter-flowering plants one can possess. 25c each; 3 for 60c. (see cut.)

BEAUTIFUL NEW BECONIA.

Glaucophyllia Scandens—(Trailing Begonia)—A vigorous growing variety, producing its beautiful clusters of rich, salmon-colored flowers from the axil of each leaf. Its drooping habit makes it a very desirable plant for hanging baskets. 25c each.

SPECIAL OFFER—The two New Begonias described above for 40c postpaid.

THREE GRAND CANNAS.

The Three Cannas described below are entirely different from any other and sure to attract attention wherever seen.

KING HUMBERT.

THE BEST OF ALL CANNAS.

Giant Flowered.

Orange Scarlet.

Bronze Leaf.

This remarkable "Gold Medal" Canna has been the sensation of the past two years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other; the handsome leathery foliage with a strong, noble habit. It has the broadest leaves of all the new kinds. Price, 3-inch pot plants, 35c each.

PRES. MEYER—(see cut)—A grand variety with extra large bright amaranth-red flowers, which are raised well above the foliage; in strong, heavy, many flowered trusses; grows about 6 feet high, with large bronzy purple foliage; entirely distinct. We know of no variety of recent introduction that equals this one in wealth and color of bloom. Planted around a piazza it produces a grand effect (stock limited.) Price, 25c each.

HARRY LAING—This is an extraordinarily grand Canna in every way. Flowers are of gigantic size, measuring 6 inches in diameter. In color, the flowers are very brilliant, deep orange, round and full, and are thrown high above the foliage, making them very showy and effective. It is one of the most effective bedders we have. It is a very free bloomer, and bears a large number of flowers on each spike. 25c each.

SPECIAL OFFER—The three grand Cannas described above, strong-growing plants for 75c postpaid.

Pres. Meyer.

New Mum. Mrs. Mary Mann.

THE BEST NEW CHRYSANTHEMUMS

The grand New Chrysanthemums described below are recommended as among the best and the most valuable varieties up-to-date. They are good healthy growers early and abundant bloomers, and bear flowers of the largest size and most beautiful colors. Many of them have taken first prizes at the great shows, and all are recognized as among the very best of their respective classes.

Mrs. Mary Mann.—A seedling from *Marie Liger*, with perfect stem and foliage; an easydoer; November 1. With fine globular form, large size, broad grooved petals and extra fine shade of rose pink; florets show the bright shades to its best advantage. $3\frac{1}{2}$ feet tall, 25c. each. (see cut.)

Mrs. Geo. Beech.—A deep golden yellow sport from *Mrs. Swinburne* (the only yellow sport from a white variety that we have ever noticed as having this deep brilliant color); a perfectly globular, incurving form of the largest size. 20c. each.

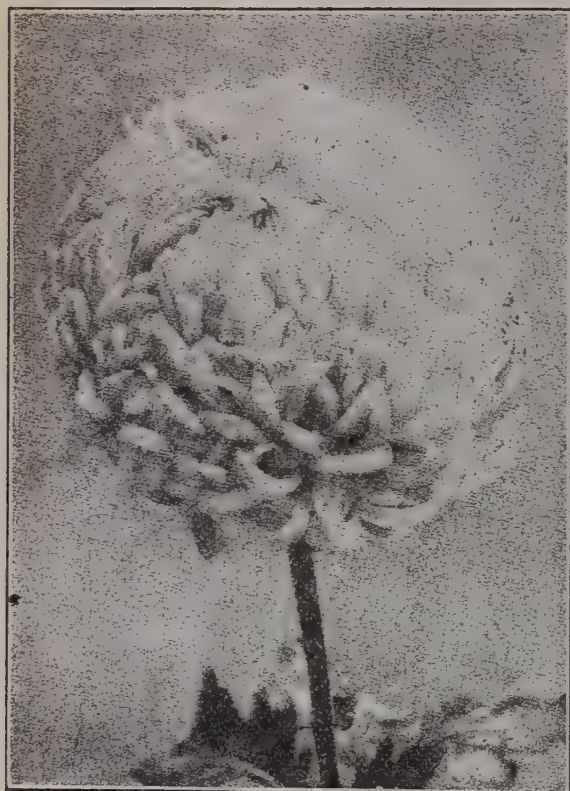

Miss Alice Byron.—A mammoth, extra-large white variety of most robust habit and medium height. Petals broad firm and cupping to the center, which is full and solid. Blooms often measure ten to twelve inches in diameter by seven inches deep. Magnificent heavy foliage, close up to the flower, carried erect on stout stems. 20c. each.

Lord Hopetoun.—To our minds this is the very handsomest of the scarlet and gold section; while not so full and heavy as *Wright* or *Maynell*, it is the showiest both in color and form. Grand beyond description. 4 feet. Midseason. 20c. each.

Lord Salisbury.—Grand for exhibition. Yellow, suffused crimson; of beautiful bright shade; a big fine variety, slightly reflexed, 17 inches across; first crown. Makes a fine bush plant. 20c. each.

Pres. Roosevelt.—This we consider one of the very best of the new varieties. In growth it is all to be desired, being short and sturdy. Flowers globular form of large size. Color white ground with light shell pink center, and on tips of each petal, giving the entire bloom a light pink appearance and is especially attractive under artificial light. 20c. each.

SPECIAL OFFER.—The 6 Best New Chrysanthemums described above for \$1.00 Postpaid.

New Mum—Mrs. Robt. Foerderer.

6 NEW CARNATIONS.

Victory—A brilliant scarlet, easy to grow, and of healthy constitution; flowers average 3 inches or more, borne on long stems, vigorous in habit and very free in bloom throughout the year (see cut.)

Candace—A grand clear pink flower of large size, strong clove fragrance. Flowers borne on long stiff stems, fine for cutting.

Glendale—A splendid variegated sort, having stems and a good flower. The two colors, red and white, are clear and pleasing. Was awarded first prize at World's Fair as best variegated.

Robt. Craig—Color, dark scarlet, large full flowers, $3\frac{1}{2}$ inches, with a 30-inch stem which holds the handsome flower perfectly.

Helen Goddard—The color is a very bright shade of clear pink without a trace of either blue or salmon, and the color holds its brightness until the bloom goes to sleep. Size, 3 to $3\frac{1}{4}$ inches.

White Perfection—Color, pure white, size full $3 \times 3\frac{1}{2}$ inches, form perfect, stem stiff and wiry, fragrance, spicy clove. Early and free flowering.

Special Offer—Price 20c each. The full set of six varieties for \$1.00, postpaid.

FOUR NOVELTY CHRYSANTHEMUMS.

The four Mums described below are the latest introductions. These varieties have never before been offered for sale. They are selected as the prize winners for the shows of 1907.

Saus-Souci—One of the largest chrysanthemums grown, color, mahogany red, tipped with gold; very showy. 50c each.

M. E. Mulnard—A beautiful grower with elegant stem and foliage; color, creamy white, soft pink and gold; bloom very large and of deep rosette form. 50c each.

Mme. L. H. Cochet—An early flowering V-morel, nearly as large, of the same form and color, grand foliage; beautiful shade of bright pink; very free in perfecting fine flowers. 50c each.

Mrs. Robt. Foerderer—A seedling from Marie Liger and a fine companion for Mary Mann. Nice dwarf grower with beautiful foliage, globular flower of a beautiful shade of cream and amber (see cut). 50c each.

Special offer—The four novelty mums for \$1.50, postpaid.

Hardy Early Flowering Pompon Baby Chrysanthemums.

These beautiful varieties are now universally popular for out-door bedding. They produce a profusion of blooms from September to late in November. All of the varieties offered are quite hardy with slight protection in the northern states. Once planted, will take care of themselves. Height, 2 feet.

Prince of Wales—Best white.

Julia Lagavere—Very fine crimson.

Golden Fleece—Clear yellow, small flower; early and free; one of the best for out-door planting.

Climax—Rosy pink, free and early.

Julius LeGray—Rich, dark crimson, striking in color and very free bloomer.

Sheehan—Rich bright bronze.

Special Offer—Price 10c each, the six varieties for 50c, postpaid.

Carnations.

STATE.

Clematis Ville de Lyon.

New and Rare Clematis.

The following is a select list of varieties that succeed best in our climate. Many failures in growing this type of Clematis are distinctly traceable to shallow planting. The crown of the roots should be set at least 3 inches below the surface of the soil.

Ville de Lyon—Its blooming capacity is great and the flowers are of the most magnificent brilliant crimson; they are large and of beautiful circular form. **Each, \$1.00.**

Duchess of Albany—A beautiful bright pink; deeper down the centre, softening to lilac pink round the margin.

Ramona—A strong hardy grower, a very free and almost perpetual bloomer; flowers very large and borne in great profusion; color deep sky blue; very handsome.

Sieboldi—Large flowers of a delicate lavender color; a fine variety.

PRICES: Extra Size Plants for Immediate Effect. Many of our customers desiring immediate effect prefer this stock, which we import from the best nurseries in Europe. **Price unless noted: Extra strong, 3 year old plants, 75c; doz., \$8.00, by express, not prepaid.**

4 Beautiful New Coleus.

These magnificent New Coleus surpass all other varieties in exquisite coloring. Their many new shades and countless combinations of colors are truly wonderful and entirely beyond the power of words to describe.

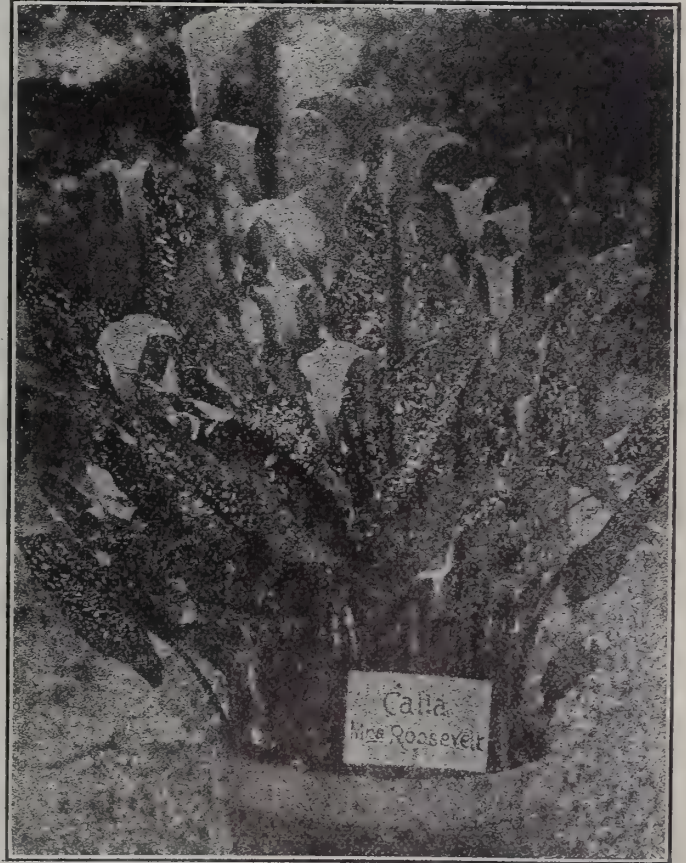

Sensation—The grandest coleus of recent years; leaves 8 to 10 inches long and 5 inches wide; has a deep velvety texture, beautifully scalloped edge; color crimson maroon with center of light red. A magnificent variety that will sell on sight. **15c each.**

Duneira—A magnificent coleus, belonging in the class with **Brilliancy** as far as effect goes, but a much freer grower; color, various shades of crimson; leaves very large; a fine showy bedder. **15c each.**

Fascination—Rich, lustrous carmine merging into maroon; the margins capriciously outlined in yellow and green. **15c each.**

Lyons—Golden yellow, prettily shaded, leaves crisp and beautiful scalloped. A splendid grower, compact and durable. **20c each.**

SPECIAL OFFER—The 4 New Coleus described above for **50c**, postpaid.

New Yellow Calla (Richardia)

NEW HARDY DAISY CHRYSANTHEMUM GARZA.

One of the finest flowering Mums that has ever been introduced. Flowers are from 2½ to 3 inches in diameter, petals of a snowy white encircling a disc of gold. A very effective garden and decorative plant. **Price, 20c each; 3 for 50c, by mail postpaid.**

2 GRAND NEW FUSCHIAS.

J. Moens—Tube and sepals currant red, enormous double corolla very long, light rosy mauve.

Ravoul d' Allard—Very long corolla, reddish prune color, exterior heavily veined carmine sepals sharply reflexed.

PRICE: 20c each; the 2 New Fuschias for **35c**, by mail postpaid.

MRS. ROOSEVELT.

A distinct new variety admirably adapted for outdoor cultivation in the same manner as a Dahlia or Gladiolus, lifting the bulbs in fall and storing until time to plant the following spring.

It is a remarkably strong grower, producing freely large pale yellow flowers, and when not in bloom its rich, dark-green foliage, which is distinctly and freely spotted and blotched with white, makes it a conspicuous and attractive subject in the garden. Large, strong bulbs which will flower freely this season, **50c each; \$5.00 per doz. (see cut).**

New Godfrey Ever-Blooming Dwarf Calla Lily.

Undoubtedly the finest thing ever sent out in the calla line, and quite indispensable. Compared with the ordinary calla, it gives three blooms to one; is snow-white and perfect in form; blooms on very small plants. **Price fine growing plants, 25c each; 3 for 65c.**

New Ostrich Plume Fern

Whitmanii. A New Fern of the Ostrich Plume type, but more beautifully feathered. It is a dwarf compact grower and has two or three times as many fronds as the Ostrich Plume Fern, giving the whole plant an airy lace-like appearance. Without doubt it is the most magnificent Fern grower and possesses all the hardy robust and easy going qualities peculiar to the Boston Fern and all its varieties (see cut).

Fine Strong Plants, 50c each.

Two Grand New Heliotropes.

15c each. The two Varieties for 25c.

Lueur d'Opale. Plant low and branching, compact and robust; very free flowering, trusses extremely large, florets very broad, azure-lilac, passing to pearl white, with yellow eye. Odor, very powerful; color, bright and pleasing.

Buisson Fleuri. Plant, semi-dwarf, extremely beautiful in growth; free grower, easily propagated; the plant is covered with bloom, trusses extremely large, florets large and flat-faced; color, rosy-violet, with star-shaped white eye.

New Fern—Whitman.

NEW GERANIUMS FOR 1907. BRUANT TYPE.

New Geranium—"Pierre Lalande."

Princess Olga Altieri. A dwarf, free growing, branching variety, with extremely large, semi-double florets in a very showy truss; center, tender rose, brighter at the edges.

Albion. One of the finest of single whites; pure in color, immense in size of circular form, and, best of all, of strong, healthy constitution.

Nuit Poitevine. Trusses and florets of the very grandest size, rosy purple with maroon shadings, the lower petals are clear violet; the upper, feathered in scarlet at the base; one of the handsomest of these dark geraniums.

Albert Pottier. Has a magnificent truss of fine, large, single florets; color unapproachable: orange-scarlet, very intense.

Pierre Lalande. Enormous trusses, with single flowers of the very largest size; a beautiful deep shade of salmon; vigorous grower (see cut).

Special Offer:—Price 20c each; the set of five New Geraniums for \$1.00.

Galveston, Texas, April 18, 1906.

C. YOUNG & SONS CO.,
St. Louis, Mo.

DEAR SIR:—Plants received in good condition.
Accept our thanks for generous gift of two roses.

Very resp.,
MRS. H. C. BRISCOE.

TWO NEW DOUBLE IVY-LEAVED GERANIUMS.

These are the grandest of all house plants, or for baskets or vases; they can be grown to droop or climb, as desired.

New Ivy Geranium, Achievement. This is a grand new novelty from England, being a true cross between the Ivy and the Zonal class. It has the habit and texture of the Zonal with the form of Ivy foliage and also of the Ivy bloom. The color is pure self-rose with white eye, immense in size, on long stems, freely produced.

New Ivy Geranium, Gen. Champimnet. Color grand scarlet, beautiful form, largest size.

Special Offer:—15c each; the two beautiful varieties for 25c

HYDRANGEA GRANDIFLORA ALBA.

This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the largest size of pure snow-white color, and the foliage is very handsome. One of its most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs, while its long season of bloom, from early June through August, renders it doubly valuable to every owner of a garden. Perfectly hardy standing 20° below zero,

This new shrub is bound to become the most widely grown, and the most useful of all the Hydrangeas, and the most valuable, hardy plant found in the American garden.

Price—Strong one-year-old plants, \$1.00 each.

Hydrangea Grandiflora Alba.

**NEW TREE RAMBLERS.**

We have imported from one of the largest Rose growers in Europe, a nice stock of these beautiful Ornaments for Lawn or Garden. Being perfectly hardy, they need no protection during the winter. A drooping tree like cut, covered with beautiful crimson Roses; will be sure to attract attention.

Price—Tree Crimson Ramblers \$1.50 each.
Baby 1.50
 By express only, purchaser paying charges.

New Salvia

Flame of Fire.
 A great improvement on existing sorts, being more compact, earlier and freer-flowering. Each plant forms, when in flower, a bushy specimen 20 to 24 inches high, and is so completely hidden by the masses of spikes of scarlet bloom as to appear like a ball of fire.

**Price, 15c each;
 \$1.50 per doz.
 postpaid.**

New Violet.

NEW VIOLET—"GOVERNOR HERRICK."

In offering the "Governor Herrick" Violet we think it will fill a place in the Single Violet class not now covered by any violet for the following reasons:—First. For its freedom of blooms, for it will produce two hundred flowers per plant in a season. Second. The color is a rich, dark purple, very much darker than the Princess of Wales—a distinct variety. Third. The stems are strong and heavy, carrying the flower erect; of good length, from six to eight inches. The flower is very large and open. The plant is a very strong, vigorous grower and does not have diseases of any kind. We commence to pick on October 4th and continue to pick from the same plants until May 14th. It is a continuous bloomer.

Price—Strong plants, 20c each, 3 for 50c; \$1.75 per doz. postpaid.

3 Very Choice New Ever-blooming Roses

THE COLORED PLATE SET

NOTE—We ask particular attention to the 3 Grand **EVER-BLOOMING ROSES** described below. They are all very lovely sorts specially selected to make a choice bed in lawn or garden near the house.

A Grand New Velvety Crimson Rose

ETOILE DE FRANCE.

Hardy and Ever-Blooming.

This grand new Rose was raised by the well known Rose hybridist Mons. J. Pernet-Ducher of Lyons, France, and issued in 1904. Exhibited at Turin, Italy at an international exhibition in May, 1904, it was awarded a gold medal. The same month it was awarded a first class certificate of merit by the National Horticultural Society of France, honor given only to varieties of preeminent merit. We have grown it this season (1906) and can endorse the high encomiums passed on it in Europe. It is vigorous in growth, foliage plentiful and of a handsome bronze-green; long stems, stiff and erect, with very few thorns. The flowers are very large, petals of splendid substance, magnificent cupped form, very full and expanding freely; color, superb velvety crimson, the center of the bloom a vivid cerise. The buds are long and pointed, borne singly and erect, making it very valuable for cut flowers. Taken all in all, it may be safely said that it is the best Rose of its class and color as yet offered.

New Ever-Blooming

FRANZ DEEGEN.

Yellow Rose.

It is a seedling from that grand Rose "Kaiserin Augusta Victoria," inheriting the unusual beauty of form of that splendid garden Rose. A strong, healthy grower, throwing up fine shoots very freely, which bear the splendid flowers proudly erect. The foliage is dark green and glossy, quite ample and of fine substance, making it strongly resistant against mildew, black spot and other fungoid diseases.

The buds are long and pointed, quite full at the base, just the ideal form; the open flower is broad and full, rarely showing the center, except in very hot and dry weather. The ground color is yellow, very bright and pleasing. As the flower ages the outer petals change to canary color, but not invariably, as many flowers retain the deep color throughout. The expanding flower reveals depths of deep golden-orange, brilliant and attractive, similar to the famous "Sunset" Rose.

The New Hardy Ever-Blooming

"KILLARNEY."

Irish Hybrid Tea Rose.

It has been thoroughly tested in this country, and all who have grown it agree that both as a rose for outdoor culture as well as for growing under glass it has a brilliant future. It is perfectly hardy in this latitude, having withstood the severe winters of 1903-'04 without protection; in growth it is strong and robust, and as free flowering as any rose we know. In color it is a sparkling, brilliant, imperial pink; the blooms are large, the buds long and pointed, the petals very large and of great substance, and just as handsome in the full-blown flower as in the budform. We distributed but a limited number of this grand Rose last spring, and all who were fortunate in securing a plant have been delighted with it.

SPECIAL OFFER—The 3 Colored Plate Roses, good strong plants, 25c each, the set of 3 for 60c by mail postpaid. 1 year old plants 50c each, the 3 varieties for \$1.25. Large 2 year old plants by express 75c each, the 3 varieties for \$2.00.

3 NEW GLADIOLUS

As Shown In Colors on Back Cover of This Book.

Are the cream of the latest introductions, and are especially selected from our large assortment of varieties as the most distinct in color. The flowers are of exceptional size and beauty. The collection is prepared specially with the view of providing our customers with the best type of this flower. We have offered the price low, so that these 3 varieties should be included in every order.

PRICE, large size flowering bulbs, 10c each; the 3 varieties for 25c, postpaid.

No. 1. **Sunrise**—Very peculiar and striking flower, rosy pink flamed with carmine, white stripe through each petal, very large distinct carmine blotch.

No. 2. **Klondyke**—Strong, vigorous plant, blooming early, flower round well opened, of a clear primrose yellow with blotch of vivid crimson maroon on the three lower petals.

No. 3. **Gov. McCormack**—Extra large flower and truss, beautiful rose mottled with silvery gray, and with violet and white mottled throat. Very fine, being of unusual size and beauty.

GORGEOUS NOVELTIES IN NASTURTIUMS AND SWEET PEAS.

YOUNG'S SPECIALLY PREPARED ROSES FOR GARDEN CULTURE.

New Rose—Frau Karl Druschki, Hybrid Perpetual Rose.

While many of our customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are what are known as field-grown plants; that is, the plants have been cultivated in fields during the growing season of 1906, receiving ordinary garden culture. In fall they were carefully dug, planted in pots and stored in cold greenhouses, where artificial heat is only used in extreme weather to exclude severe frost. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth. We study our own interests in supplying the amateur with such plants as will succeed under ordinary favorable conditions by making a customer of every planter.

How to Grow Roses in the Garden.

PREPARATION OF THE GROUND.—Roses will grow in any fertile, well-drained ground, but they respond quickly to liberal cultivation, producing a more vigorous growth, more flowers and of better quality when so treated. The ground should be dug to a depth of 18 inches, incorporating with the soil a liberal amount of well decayed manure, preferably cow manure, but if this is not readily procurable, our Pure Ground Bone applied at the rate of 5 pounds to the square yard makes a good substitute.

WHEN, WHERE AND HOW TO PLANT.—The best time to plant Roses as supplied by us is just as soon as danger from severe frost is over. In the vicinity of St. Louis this is usually the first week in April and continuing throughout the month of May; but the earlier the plants are set out the better the results. Always select an open, sunny position. Roses will not succeed in the shade. In planting set the plants so that the ball of earth is about 1½ inches below the level of the ground. Firm the soil well around the plants, and if the soil is dry, thorough watering should be given at once. After this no water need be given except during exceptionally dry weather.

PROTECTION IN WINTER.—The varieties listed as Hybrid Perpetual require no protection beyond a top dressing of four or five inches of stable manure, leaves or some loose material placed around the base of the plants at the approach of severe cold weather. The Everblooming varieties, in addition to the protection noted above, should have their tops covered with clean dry straw, evergreen branches, or some material tied loosely about in such a manner as to permit some circulation of air, the idea being not to keep the plants warm, but to protect them from the sun and frequent thawing of the wood, this being generally the cause of damage. This covering should be removed as early in spring as the weather becomes reasonably settled. The plants should then be pruned, removing all dead wood and growth, bearing in mind that severe pruning produces quality, light pruning, quantity of flowers. At the same time the beds should be carefully cleaned and a further supply of fertilizer should be applied, which may be forked in to a depth of 5 or 6 inches.

Different Sizes.

We call special attention to our FIRST SIZE ROSES. The constant increasing demand for large Roses that will produce an effect at once, has induced us to grow them in large quantities for the present season. They are of one and two years growth, splendidly rooted, more or less branched, and in best condition for producing an abundant crop of flowers. On account of their large size they can only be sent by express (purchasers paying express charges); but with express orders we always add enough plants "gratis" to nearly cover the express charges.

Second Size Roses.

These are strong, vigorous plants, five to ten inches high, and cannot fail to give satisfaction. They are specially grown and prepared for sending through the mail. In ordering this size sent by mail we pay the postage, and you have no charges to pay.

Roses by Mail.

When only a few varieties of Roses are wanted, say from one to five dollars worth, the mails afford splendid facilities for obtaining them. Packed, as we do, in strong wooden boxes, with live moss filling, they arrive in as green and fresh condition as when just taken from the greenhouse, and as we prepay the postage, you have no trouble or expense when you receive them.

Roses by Express.

When the orders are large, or large plants are desired, it is always safest and cheapest to have them sent by express. We always add "gratis" plants liberally with all express orders, and we warrant them to arrive in good growing condition.

In ordering from the following lists be sure to specify the size rose desired, **WHETHER TO BE SENT BY MAIL OR EXPRESS.**

C. Young & Sons Co.

SIX SPLENDID NEW GARDEN ROSES.

THE FINEST RECENTLY INTRODUCED.

Vase of Mildred Grant.

Alliance (Franco Russe)—A superb new golden yellow ever-blooming Rose. It is a strong upright grower and constant and abundant bloomer; makes long pointed buds and splendid large double flowers; bright golden yellow, shaded with pink and deep rose at the centre, delightfully fragrant, and quite hardy with usual protection.

Amelia Sazaine Morin—One of the best hardy monthly Roses for outdoor planting. It is a dwarf, compact grower, flowering continually the entire summer. Color, white shaded with blush. Delicately fragrant.

The Ideal—This is a magnificent new Hybrid Tea Rose, one of the finest yet produced; resembles La France in some ways but the flowers and buds are larger and brighter colored and the plants make stronger and more vigorous growth; it is a tremendous bloomer and the flowers are extra large and double and deliciously tea scented; it is certainly a most promising new Rose and bids fair to become an ideal variety.

Gainesborough—This is a hardy ever-blooming Rose and we doubt if there is any other variety that is equal to this in freedom of growth and profusion of flower. A good strong grower with beautiful foliage. Color a delicate tint of pinkish white. Flowers and buds very large and fragrant.

Christine de Neuchâtel—A fine new French Rose. Very free bloomer, large handsome flowers and bright shining buds; color, a deep glowing red; very sweet; a good healthy grower and constant bloomer.

Mildred Grant—This variety we can recommend as a first rate bedder. The size of the bloom and the grandeur of form place this in the first rank of prize-winning varieties, while it is extremely free in producing its flowers, and of easy culture. Color is pearl white, very delicately blushed.

SPECIAL OFFER:—Price, any of the above 20c each; the 6 varieties for \$1.00, postpaid, strong one-year-old plants 40c; each, the set of 6 varieties for \$2.00.

The Two Great COCHET ROSES.

THE BEST HARDY EVER-BLOOMING ROSES EVER INTRODUCED.

Pink Maman Cochet—This superb Rose is well known as a queen among Roses and one of the best and most beautiful varieties ever grown and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral pink, elegantly shaded with rosy crimson, has broad, thick, shell-like petals and makes superb long pointed buds, immense bloomer, continues loaded with buds and flowers the whole season. Deliciously sweet, and a hardy, vigorous grower. It ranks among the very finest hardy ever-blooming Roses, has no superior and should be included in every collection.

White Maman Cochet—A magnificent ever-blooming Tea Rose. It is identical with its parent, Maman Cochet, except in color of flower, which is snow white, sometimes faintly tinged with the faintest suggestion of pale blush. It has the same freedom of bloom, magnificent form of buds and flowers, which are marvelously beautiful in its perfection; the flowers are large and very double, with petals of unusually heavy texture, making it of more than ordinary value in the open ground.

Price the two Cochets, strong plants, 15c each; the two varieties for 25c, by mail postpaid; one-year-old plants 25c each, the two for 40c; two-year-old plants by Express only 40c each, the two for 75c.

White Maman Cochet.

Rock Bridge, Ill., April 16, 1906.

C. YOUNG & SON'S CO.

Gentlemen:—The plants, seeds and bulbs arrived in fine condition. Am well pleased with them. Many thanks for so many extras.

Respectfully,

MRS. DR. A. E. MILLER.

Six Splendid New and Choice EVER BLOOMING ROSES.

Vase of Killarney Roses.

THE SET OF FOUR LA FRANCE ROSES.

PINK LA FRANCE—One of the most beautiful of all Roses and is unequalled by any in its delightful fragrance. The flowers are very large, double. Color is light silvery pink. It blooms continuously throughout the season. Stands first among the Roses of our climate. Price, first size, two years old, 40c; 2d size, 25c; 3d size, 15c.

WHITE LA FRANCE—A seedling from "La France" retaining the habit of growth, fragrance and blooming qualities of the parent variety, with flowers of a pearly white, shading toward the center to light rose. Price, 1st size, two years old, 40c; 2d size, 25c; 3d size, 15c.

RED LA FRANCE—It is a sport from La France and retains all the characteristics of the type, with the blooms three to four shades darker, of a deep carmine pink hue. The flowers are produced in profusion upon long stems, very large and double. The growth is vigorous, with beautiful light green foliage. Price, 1st size, two years old, 40c; 2d size, 25c; 3d size, 15c.

STRIPED LA FRANCE—A very beautiful sport from La France, which it resembles exactly, except that it is beautifully variegated in bright rose on a satin pink ground. A delightful addition to the La France family. Price, 1st size, two years old, 40c; 2d size, 25c; 3d size, 15c.

SPECIAL OFFER:—The full set of four La France Roses, 1st size, \$1.50; 2d size, 75c; 3d size, 50c; postpaid.

KILLARNEY—No other Rose has attracted so much attention recently as the new Irish Tea Killarney. Coming as it does from the north of Ireland, it seems to revel in our more genial climate and has proved a most valuable Rose wherever tried. It is a strong robust grower and free and continuous bloomer. The color is brilliant sparkling pink; the flowers are extra large and full, with broad thick petals and delightful tea fragrance. 15 cents each; second size 25 cents each; two-year-old plants by Express 50 cents each.

RICHMOND—It has a perfect shaped bud on good length of stem, making it desirable for cut flowers, and when planted outside the flowers open up nicely and are of an attractive carmine crimson. 15 cents each; second size 25 cents each; two-year-old plants by Express only, 50 cents each.

LA DETROIT—A magnificent new Hybrid Tea Rose of largest size and splendid form; color clear fresh pink, shading to deep rose; fine broad shell-shaped petals, very full and deliciously tea scented; a vigorous grower and abundant bloomer. 15 cents each; second size 25 cents each; two year old plants by Express, 50 cents each.

GENERAL McARTHUR—(Hybrid Tea.) Color, the most brilliant crimson. It is also one of the very sweetest varieties. It is a good, strong, vigorous grower, producing stems 24 to 30 inches long a free and continuous producer. We predict a good Red Rose for every man's garden. Hardy.

FRAU KARL DRUSCHKI—This new hardy Rose is of German origin, and has won many prizes and made many friends. It is unquestionably the ideal hardy white Rose. Its flowers, which are very large, are perfect in form and snow-white in color, with large shell-shaped petals, forming a beautiful flower. 25 cents each; second size 35 cents each; two-year-old plants by Express, 75 cents each.

ROSALIND ORR ENGLISH—A grand new Rose of great promise. The flowers are very large and of fine regular form, delightfully rose scented, color clear shiny satiny pink. A free and constant bloomer, fine for cutting during the summer. Hardy with light protection. 15 cents each; second size 25 cents each; two-year-old plants by Express, 50 cents each.

SPECIAL OFFER:—The 6 splendid new and choice Roses for 75 cents, postpaid; 2nd size 6 for \$1.25; two-year-old plants by Express, 6 for \$2.50.

Pink La France.

C. YOUNG & SONS,

Gentlemen:—Your favor and kindness in the correction of the slight mistake made in the shipment of the 14th is greatly appreciated.

I want to thank you for the plants which came this morning in fine condition as per original order. I am sure it is very kind of you to correct the mistake and send plants prepaid. I assure you everything is satisfactory.

Thanking you once more for past favors, I remain,

Yours truly,

MRS. C. VEASMAN.

Dixon, Mo., April 20, '06.

SIX CHOICE EVER-BLOOMING ROSES FOR 50c.

Although these six Roses have been in commerce for some years, the demand for them does not appear to diminish; on the contrary, it seems as if we sold more of them with each succeeding year.

Perle des Jardins. Probably better known than any other yellow Rose grown. Beautiful clear yellow, distinct from all other Tea Roses.

La France. We have always given this variety the first place. It is of most superb form and as double as a Rose can be. No variety can surpass it in delicacy of color, which is silvery-rose, shaded with pink, with a satiny sheen over all the petals.

Pink Hermosa. This is the famous old Hermosa. It is always in bloom and always beautiful. Color, a most pleasing shade of pink. Very fragrant.

Safrano. An old favorite. Bright apricot yellow, changing to orange and fawn, frequently tinted with rose. Very fragrant.

Gruss an Teplitz. One of the brightest colored Roses grown. When first opened it is dark rich crimson, quickly changing to bright scarlet shading to velvety fiery red.

The Bride. The standard pure white Rose. Of perfect form and extra large size, the buds being long and pointed, while the flower opens up beautifully and full; delightfully scented.

SPECIAL OFFER:—The set of six choice Ever-Blooming Roses for 50c by mail, postpaid; large plants, by express, the set of six for \$1.25. Extra large two-year-old plants, the set of six varieties for \$2.00.

A SET OF FAMOUS SOUPERT ROSES.

Clotilde Soupert. So famous has this superb variety become that it is almost unnecessary to describe it. Rose lovers the world over know it to be one of the best Roses. It is a strong, dwarf grower and a truly wonderful bloomer, producing cluster after cluster of finest formed flowers. In form they are perfectly full and double and deliciously sweet.

Pink Soupert. This desirable new Rose is of sturdy, compact, bushy habit, and a wonderful bloomer. Flowers are various shades of pink, sometimes almost red, then again a bright Hermosa pink, and again the same bush will produce light pink flowers, suffused with lilac. Quite hardy.

SPECIAL:—The four Souperis 15c each, the set of four for 50c, postpaid; 2nd size, 25c each, the set of four for 75c; large 2-year-old plants, by express, 40c each, the set of four for \$1.25.

Mosella. (Yellow Soupert)—Combines the form and size of the Tea Roses with the free flowering branching habit of the Polyanthas, constituting a most satisfactory summer bloomer. Is quite hardy and may safely be left in the ground if protected slightly. Light yellow, shading to white at edge of petals; blooms in clusters of three to five flowers.

White Soupert. When in full bloom this grand little Rose has the appearance of a perfect ball of pure white. Flowers perfectly double and produced in large round clusters, completely covering the foliage, and are delightfully fragrant. A grand success as a pot plant or for summer borders. Its vigorous habit of growth and free-blooming qualities make it one of the most valuable plants.

Bethalto, Ill., April 28, 1906.

C. Young & Sons, St. Louis, Mo.,

Gentlemen:—Please accept my thanks extra fine plants received from you and the extra Roses. Plants started to grow as though never moved.

Yours respectfully,

Herman Kabel.

Windsor, Mo., April 19, 1906.

C. Young & Sons Co.,

Gentlemen:—The Roses came all right yesterday morning. I planted them yesterday evening and think they will do fine. I thank you very much for so many fine extras.

Very truly yours,

W. J. Livingston.

AMERICAN BEAUTY SET.

SIX SPLENDID HARDY EVER-BLOOMING ROSES.

THE following six magnificent roses are the very finest in cultivation. The flowers are the largest size double, and of fine form and deliciously scented. In our opinion, they are the grandest roses now in cultivation.

American Beauty.

Souvenir de la Malmaison (Bourbon)—One of the choicest Roses we offer and one that will give entire satisfaction for either garden or pot culture. The color is a creamy flesh, bright and clear. The flower large and double; very fragrant.

SPECIAL OFFER:—The American Beauty set of choice Roses for \$1.00, postpaid; large plants for immediate effect, the set for \$2.50; by express only.

THE HARDY SINGLE WHITE MEMORAL ROSE.

(ROSA WICHURAIANA.)

Creeps on the Ground Like Ivy—Dark Green Leaves—Numberless Satiny White Flowers, with Golden Yellow Discs—Hardy as Grass, and will Grow in Sun and Shade.

It is difficult to conceive anything more appropriate, beautiful and enduring for covering graves and plots in cemeteries than the **HARDY MEMORIAL ROSE**. It forms a dense mat of very dark green, lustrous foliage and flowers in lavish profusion from the first week in July throughout the month, and sparingly for the rest of the season. They are single, pure white, with a golden yellow disc five to six inches in circumference, and have the strong fragrance of the Banksia Roses.

But its use is not confined to cemeteries. Planted in the garden, either as a creeping plant or trained upright to a stake, it makes the prettiest sight imaginable. It has been largely used throughout the famous park system of Boston for covering rocky slopes, embankments and such places as it was desirable to cover quickly with verdure. It quickly adapts itself to all conditions of growth, whether barren soil, rocky ledge or fertile garden, and no more fitting place can be found for it than running through the grass. (See cut.)

Price, nice plants, 10c each, 6 for 50c; one-year-old plants, 25c each, 6 for \$1.00.

American Beauty—As a natural Rose, this undoubtedly stands at the head, cut bloom of it bringing twice as much money as any other rose grown to-day. The first great attraction is its fragrance, delicious beyond comparison; second, its great size; third, the profusion of rich foliage that can always be found with every bloom. Each shoot produces a single flower and can be cut with a stem from 12 to 18 inches in length, which adds much to its value for decorative purposes.

Gruss an Teplitz—As a bedding rose this is one of the finest. It will take rank with *Hermosa* and *Souper*. Color, brightest scarlet shading to deep, rich velvety crimson; a perfect sheet of richest crimson-scarlet all summer. It is a splendid grower and most profuse bloomer. A gem among scarlet bedders; a rose for everybody, as it succeeds under the most ordinary conditions.

President Carnot—It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. It is so handsome and distinct that it attracts immediate attention. It is, indeed, a wonderful Rose, one that everybody can grow and bloom.

Kaiserin Augusta Victoria—A beautiful Rose with elegant, large pointed buds and very large, full double flowers; color delicate creamy white; deliciously fragrant. The plant is a strong, healthy grower and constant bloomer, one of the choicest and most trustworthy garden roses.

Maman Cochet—It is a vigorous grower with beautiful foliage. In bud it resembles the *Mermet* family, being long and shapely, borne on long, stiff stems. It is one of the largest size, and the flower is built up or rounded, and very double. The color is a deep rose pink, the inner side of the petals being a silver-rose, shading and touched with golden yellow.

MESSRS. C. YOUNG & SON'S CO.,

St. Louis, Mo.

Sirs:—Your bill of goods shipped March 26th received in good order.

Thanks for the Rosebush.

Yours truly,
MRS. CHAS. BEAN.

Palestine, March 31, 1906.

MADAM A. CARRIERE.

FIVE OF THE BEST EVER-BLOOMING

Pure White Roses

ALL HARDY

Persons who wish a small bed of pure white hardy roses, suitable for cemetery or other purposes, will find this lot just what is wanted: good vigorous growers and constant bloomers. They are all quite hardy, and very desirable for out-door culture in open ground.

BALL OF SNOW. A truly elegant rose, very full and double; exquisitely fragrant; pure white in color and entirely hardy. It is invaluable for cemetery or other planting where white flowers are desired as it blooms freely all summer.

COQUETTE DES BLANCHE. Flowers large, pure snow white, very double, full and fragrant; a strong grower and constant bloomer.

EMELIA PLANTIER. A vigorous grower; flowers yellow, changing to white. A free bloomer.

COQUETTE DES ALPS. Pure snowy-white, sometimes shaded with blush; flowers, full and pretty; blooms through the season.

MADAM ALFRED CARRIERE. We know of no better white rose than this. It blossoms as freely as most of the Teas, although perfectly hardy; extra large, full flowers, very double and sweet; color, rich creamy white; exceedingly beautiful (see cut).

Price, 25c each; the set of five varieties for \$1.00, by mail, postpaid. Large plants, by express only, 40c each; the set of five for \$1.50.

GRAND MEMORIAL ROSE—Madame Plantier.

Specially Recommended for Lawn and Cemetery Planting.

Among all pure white roses specially recommended for cemetery planting, there are few finer than Madame Plantier. It is one of the hardiest of all hardy roses and does not Winter kill even in the coldest and most exposed localities. It is a strong vigorous grower, making handsome, upright bushes, and an enormous bloomer, sure to be covered with lovely snow-white flowers every season without attention. Makes hardy, healthy, handsome bushes that will take care of themselves and give lots of snow-white blossoms every season. Price, strong, plants, 20c each, 3 for 50c, 16 for \$1.00. Two-year bushes, 30c each, \$2.50 per dozen.

Tree Roses

The Tree Roses are grafted on hardy Rose stalks four or five feet high, are tree shaped, and when in full bloom are objects of beauty, making handsome plants for the lawn or Rose border. In this shape we offer only the Hybrid Perpetual or hardy class. We have them in white, the different shades of pink, red and crimson. Fine, strong trees that will bloom nicely the first year, \$1.00 each, \$9.00 per doz. These can only be sent by express.

SPECIAL NOTE:—In filling your orders we shall do our very best to make every shipment satisfactory and profitable to you; in any case where we fail to do this, please report to us at once.

We promise liberal count, careful labeling and light, secure packing.

Tree Rose.

Rugosa Roses.

ROSA RUGOSA RUBRA. Foilage, shiny bright green; flowers, deep rose, produced in clusters. Beautiful bright red berries in autumn. Strong two-year-old plants, 35c.

ROSA RUGOSA ALBA. Similar to above in habit, growth, freedom of bloom and form of flower. Pure white. 35c each.

NOTE:—We pay all postage on roses and plants, sent by mail, but when sent by Express the purchaser pays the Express Charges. Two-year Roses should always go by Express, unless to very distant points, as we can send larger and better plants in this way, and when packed with the tops on and some earth on the roots, they arrive in the best condition to grow and bloom quickly.

Rosa Rugosa.

Prairie Queen.

HARDY CLIMBING ROSES

Highly valuable for training over arbors, trellises, verandas and screens, for unsightly objects such as old buildings, fences, walls, etc. They will grow 10 to 12 feet high, and are entirely hardy, and when in bloom are entirely loaded down with beautiful roses.

PRAIRIE QUEEN. Clear, bright pink, sometimes with a white stripe; large, compact and globular, very double and full; blooms in clusters; one of the finest. (see cut). 1st size, strong 2-year-old plants, 35c each; second size, 15c each.

BALTIMORE BELLE. Pale blush, nearly white, very double flowers in beautiful clusters, the whole plant appearing a perfect mass of bloom. We offer this variety in two sizes. First size, strong 2-year-old plants, 35c each; second size, 15c.

Forest Park Collection of Hardy Ever-Blooming Roses.

A Bed of Roses in Forest Park, St. Louis.

The beds of beautiful Ever-blooming Roses in Forest Park have become famous, and that all may grow and enjoy these splendid roses we offer below the varieties planted in these beds. The illustration above shows their vigor of growth and free-blooming qualities. By ordering the "Forest Park Collection" you will obtain a very select assortment of the finest ever-blooming roses, that will be sure to prove entirely satisfactory.

No. 1. PERLE DES JARDINS—The flowers are very large and double, of perfect form. Color, a rich shade of yellow; a healthy, free grower, with beautiful foliage and unequalled in profusion of bloom. No collection of roses is complete without Perle. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 2. SOUVENIR DE LA MALMAISON—When used as a bedding rose in summer has no equal as it produces the most perfect flower in the hottest weather. Its rich, flesh-colored flowers are of immense size, and are produced in abundance, and have the requisite form and substance to withstand our hot, dry summer. Exquisitely fragrant. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 3. MADAME SCHWALLER—This rose has the strong, firm growth of the hybrid perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June roses. The color is a bright, rosy flesh, paler at the base of the petals, and deepening on the edges. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 4. GENERAL WASHINGTON—This variety possesses all the desirable qualities of a bedding rose. The flowers are large, double and of a good form and very fragrant. Color, a deep red, shaded crimson and carmine. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 5. AMERICAN BEAUTY—This new rose of American introduction belongs to the hardy hybrid perpetual class, but it blooms almost as constantly as the teas. There is no doubt that it is a good rose for outdoor culture. It is a strong vigorous grower, and a very free bloomer. The buds are extra large, very full and double, and exceedingly sweet. The color is a dark, rich crimson and most exquisitely shaded. The flowers are very lasting after cutting, keeping fresh and bright from one to three weeks. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 6. LA FRANCE—One of the most beautiful of all roses, and is unequalled by any in its delightful fragrance. The flowers are very large, double; color is light, silvery pink. It blooms continuously throughout the season. Stands first among the roses of our climate. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 7. SOUVENIR DE WOOTON—This superb rose is unquestionably one of the finest varieties ever introduced for summer blooming. The color is a beautiful shade of carmine crimson, delicately fragrant; a constant and most prolific bloomer, every new shoot forming a flower bud. It retains its color better than any rose of its class, and is exceedingly vigorous in growth, rendering it one of the most satisfactory roses for the amateur to grow. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 8. MADAME TESTOUT—A magnificent rose; flowers full very large, globular form; color, clear satin rose; petals bordered with tender rose, very fragrant; vigorous grower. This variety resembles La France, but its color is more deep, vivid and brilliant; flowers less full but are better formed. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 9. CHAMPION OF THE WORLD—Color, rich glossy pink, delightfully fragrant, and is such a strong vigorous grower, that it is almost impregnable against attacks of the insects which usually destroy some of our finest roses; thus it is certain to be unequalled for the garden or cemetery. A royal rose. It is a wonderfully prolific blooming variety. Every shoot is loaded with flowers. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 10. CLOTHILDE SOUPERT—One of the most prolific bloomers in the entire list. Beginning to flower when not over four inches high, and continuing without intermission the entire season. The flowers are borne in sprays, very double and handsomely formed. The outer petals are pearl white, shading to a center of rosy pink but varying sometimes on the same plant from pure white to deep silvery rose, a grand bedding variety. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 11. DINSMORE—A true perpetual bloomer; begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full and quite fragrant. Color, bright fiery scarlet passing to fine rosy crimson; very showy and handsome and one of the best roses ever introduced for general planting. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 12. KAISERINA AUGUSTA VICTORIA—An extra fine white variety, faintly blended with cream color; very large, full double and perfect in form. Fragrance very delightful and distinct from that of any variety. A free and vigorous grower; excellent summer bloomer. 1st size, 50c; 2d size, 25c; 3d size, 15c.

No. 13. HERMOSA—We believe the Hermosa is the best known in the entire rose family, and a universal favorite. Hardy as a lilac bush and as free flowering as the geranium, it combines everything most desirable in a rose. The flower is cupped, finely formed and full color, the most pleasing shade of pink. Each, 1st size, 50c; 2d size, 25c; 3d size, 15c.

The third size may be forwarded by mail, but the first and second sizes are too large to be sent per mail, and must be sent per express.

SPECIAL OFFER OF FOREST PARK COLLECTION: Strong young plants, the set of 13 varieties, \$1.50 by mail or express.

Large plants, the set of 13, for \$2.50, by express only. Extra large two-year-old plants, the set of 13, for \$5.00.

When ordering, say the "Forest Park Collection" of Ever-Blooming Roses.

12 Choice EVER-BLOOMING Roses FOR GARDEN PLANTING 12

This selection is made up of Tea or other monthly-blooming varieties, and will produce a mass of roses to cut from the entire season. The plants have been grown with special care, and the varieties are the very best for outdoor culture; invaluable either for display or cutting.

Price, 15c each, the full set of 12 varieties \$1.50 postpaid; 2d size, 25c each, the full set 1f 12 varieties for \$2.50. We can furnish strong two-year-old plants of any of the above roses, each, 40c, the set of 12 varieties for \$4.00 by express.

BRIDESMAID—Very large size, and of regular full form, delightfully tea-scented; color, clear rose-pink. A free and constant bloomer; makes elegant buds for cutting.

THE BURBANK ROSE—The Burbank is one of the freest flowering roses in cultivation. The flowers are double, of fine form, nearly 3 in. across. The color is a deep rose-pink, the center shading to beautiful soft rose.

GOLDEN GATE—The flowers are extra large size; very double and full, and delightfully fragrant; ground color, rich creamy white, tinged with clear rose.

METEOR—The color is rich velvety crimson, exceedingly bright and attractive. The plant is of vigorous growth and very free-flowering; a constant bloomer. Fine for summer bedding or pot culture.

PAPA GONTIER—A magnificent red Tea. A strong grower; with fine healthy foliage, the buds are large and long.

PERLE DES JARDINS—Unquestionably the finest yellow rose for either Summer or Winter flowering. The flowers very large and double, of perfect form. Color, a rich shade of yellow.

DUCHESS DE BRABANT—One of the most deliciously scented and beautiful old varieties in cultivation, being of free growth, always in bloom, and of a most desirable color; a beautiful silvery pink.

MARIE GUILLOT—White, slightly tinted lemon; very large, finely shaped double blooms.

SOUVENIR DE LA MALMAISON—Rich flesh color, beautifully formed large, double flowers.

HELEN GOULD—There is no finer bedding Hybrid Tea Rose than this. Large full flowers of fine form, color bright growing carmine, long pointed buds.

KAISERIN AUGUSTA VICTORIA—Color soft pearly white, fragrant. It is very valuable for cut flowers, being so free-blooming that every shoot is invariably crowned with a magnificent flower; the finest of its class.

SOUV. DE PRES. CARNOT—The flower is of large size, of exquisite shape with heavy thick, shell-like petals, long and pointed. Color delicate rosy flesh shaded a trifle deeper at center.

4 Choice Selected Ever-Blooming Roses.

SUNSET—The new orange yellow Rose; ground color deep orange yellow, thickly shaded with dark ruddy crimson; beautiful buds and large full flowers, deliciously tea-scented. A strong healthy grower and abundant bloomer.

MAD. ABEL CHATENAY—A grand bedding Rose, as it is a profuse and continuous bloomer; flowers of good size, very double, with slightly recurved petals; elegant buds, just the right size and shape for button-hole use; color, rosy carmine shaded salmon.

PEACE—The freest growing new rose of the season. Long, willowy stems bear large, solitary flowers of creamy white color. A flower of grand build, from the very first bud-form till the rose drops its petals. In addition to its other good qualities, it is the very finest of all the summer blooming varieties.

SOUV. DE PIERRE NOTTING (TEA)—A worthy offspring of illustrious parents, M. Neil and Mamam Cochet. Long budded and fully double-flowered, the open bloom shows a combination of delicate coloring not easily described. Base, clear, yellow, shaded with apricot, and margined in carmine-rose.

SPECIAL OFFER:—The 4 Choice Selected Roses, 20c each; the 4 for 75c postpaid; 2d size, 35c each, the 4 var. for \$1.00; Strong 2 year old plants, 40c each, the set of 4 var. for \$1.50.

The Crimson Rambler

A Wonderfully
Prolific
Bloomer.

Crimson Rambler.

BABY RAMBLER.

The Ever-Blooming Dwarf Crimson Rambler.

This great novelty originated through crossing of Crimson Rambler and Glorie des Polyanthus. It preserves the prolific flowering quality of the latter, but with the color of the Crimson Rambler (clear brilliant ruby rose). It can then be called a perpetual dwarf Crimson Rambler. The bush is very vigorous, absolutely hardy. Reaches the height of 24 to 30 inches.

The foliage is of a fine polished dark green and is never attacked by insects or fungus. It blooms in clusters and is a very continuous bloomer. The time of inter-blooming of the first umbel is not ended when the adjacent branches are ready to open with a considerable number of flowers, so that the period of blooming is not interrupted until the first hard frost, that is in November. We have counted as many as 120 flowers on a single panicle.

Price, nice plants, 20c each, 3 for 50c; 2nd size, 1 year old plants, 35c each, 3 for \$1.00; 2 year old plants, 75c each, by express only.

Mascoutah, Ill.

C. Young & Sons, St. Louis, Mo.

Gentlemen: I received the plants last Saturday in good condition and am much pleased with them. The plants are such healthy ones. In a few weeks I will send you another order as I will need some roses for our cemetery lot. Thanking you very much for the extra roses.

Yours truly,

Mrs. E. R. Schubfregel.

3 Best Ramblers.

CRIMSON RAMBLER—Everybody knows this rose now. Because none can help remembering it if ever a good plant in bloom meets his eye. These splendid Crimson trusses of thirty or forty flowers each, bright crimson in color and holding this color for 12 to 15 days are very striking. The foliage contrasts finely with the blooms. We see this grand climber blooming against green walls of vines and twining in evergreens and made in hedges and borders for walls, clustered at posts, along lawns or drives. Everywhere it is magnificent. Hardy everywhere. Strongest grower we have. Every garden should contain this grand Rose.

Price, nice young plants, 15c each; 2d size, 25c each; 2 year Bushes, 50c each; extra sizes with canes 3 to 5 feet long for immediate effect, \$1.00 each.

PHILADELPHIA RAMBLER—The most magnificent of the hardy Crimson Climbing roses. The flowers are exceedingly bright, very double, lasting and durable and of perfect form. It does not fade, bleach or look washed out, but holds its dazzling color to the last. Has handsome foliage, and is not subject to mildew.

The Philadelphia blooms about two weeks earlier than Crimson Rambler.

Price, nice young plants, 15c each, by mail post-paid; 2d size, 25c; large plants, 50c each, by express

DOROTHY PERKINS—Another Climbing Rose, which in general habit closely resembles the Crimson Rambler, but of a beautiful shell-pink, full and double, and of an unusually large size for a cluster Rose. The trusses are made up from 30 to 40 flowers, and frequently 50 to 60 flowers on the stronger branches. Certain to become popular.

Price, nice plants, 15c each; 2nd size, 25c each; large plants, 50c each, by express.

Rose—"Baby Rambler."

SIX OF THE BEST CLIMBING TEA ROSES.

CLIMBING WOOTTON.

PRICE: 15c Each. The Set of 6 for 75c, post-paid. Large two-year-old plants by Express 35c each, the Set of 6 for \$2.00.

CLIMBING CLOTHILDE SOUPERT—It is a vigorous grower, forming canes 15 feet in one season, and covered with large clusters of flowers all summer. Flowers are large, double and a beautiful shell pink, forming the buds in clusters. Perfectly hardy and will stand any kind of weather.

CLIMBING METEOR—All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flower. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer, and will make a growth of from 10 to 15 feet in a season; in bloom all the time, as it is a true ever-bloomer.

MRS. ROBERT PEARY or Climbing Kaiserin Augusta Victoria—This is by all odds the most remarkable new rose of recent introduction. It is an off-spring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. Color, pure white. They are of excellent substance, and produced on long stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose.

W. C. EGAN—This new climber is a very strong and robust grower, often attaining the height of 10 to 15 feet in one season. Perfectly hardy and requires no protection in the winter when planted outdoors. The flowers are borne in large clusters, often as many as 20 blooms in a cluster. Color a delicate white with a slight tinge of pink to the center.

MARY WASHINGTON—The flowers are pure white, quite double and fragrant blooming in clusters and very profusely; is hardy with slight protection.

CLIMBING WOOTTON—Though not one of the newest Roses, yet the trade is just finding out the wonderfully good qualities of this Rose. It is superior to Souv. de Woottoon, its parent, in that the stems are much longer and the growth is more rapid. The color is identical with its parent, a deep velvety crimson. It will live long through the coldest winters with but slight protection.

MARCHAL NEIL.

MARCHAL NEIL ROSE—A magnificent climbing rose. It is a splendid variety for Southern cultivation where they obtain a degree of perfection seldom seen in any rose; the buds and flowers are superb, extra large, very double and deliciously perfumed. They are in point of beauty the first of their class. Color a deep golden yellow. This variety is highly esteemed for general planting, as an outdoor rose we recommend it more highly than ever to our southern friends.

Price, first size, \$1.00, second size, 50c; third size, 25c.

C. Young & Sons, St. Louis, Mo.

Gentlemen: The Roses you sent me some time ago are all living and doing fine. I have cut a number of beautiful roses off some of them already. I want to thank you especially for the 3 fine premium roses, one of which I am very fond of and that is the "Peace rose."

Enclose find stamped envelope for which please inform me if this rose can be left out doors over winter with protection. I am very proud of it and don't want to lose it. Thanking you in advance for this information, I remain,

Yours very truly,

M. M. Bennett.

2637 Bellefontaine St., Kansas City, Mo.

P. S.—Keep me supplied in Catalogues I will want some more either this Fall or next spring.

Kansas City, Mo., May 14, '06.

12 HARDY ROSES.

HYBRID PERPETUAL.

THE twelve hardy roses named below are unequalled in their class, combining the greatest variety of form, richness of color, and freedom of bloom which are possible. They thrive and bloom finely in all sections of the country and should generally be planted in open ground, as but few varieties are suitable for house culture.

They are, also, most of them, very fragrant and the effect produced by their large, highly colored flowers is truly grand.

Price, 20c each; \$2.00 per dozen, by Mail or Express. Large two-year-old plants for immediate effect, 40c each; \$4.00 per dozen, by Express only.

American Beauty—Well known as one of the grandest and most beautiful constant blooming Roses; immense buds and flowers; rich glowing crimson, exceedingly sweet.

Ball of Snow—In the "Ball of Snow" we have a Rose of large size, which is perfectly double, exquisitely fragrant, pure white color and entirely hardy. It is invaluable for cemetery or other planting where white flowers are desired.

Gen. Jacqueminot—A rich, dark crimson with velvety sheen, full and fragrant. The best-known Rose, perhaps in the world; in this country its sobriquet of "Jack" Rose is its best-known title.

Paul Neyron—Probably the largest of all Roses; color, clear dark pink, shaded carmine. Form of flowers, bold and handsome; very fragrant.

Mrs. John Laing—Rich satiny-pink, large and full, delicious fragrance. This fine variety cannot be too highly praised. For freedom of bloom it is unsurpassed in its class, being nearly equal to the Monthly Roses in that respect.

Prince Camille de Rohan—One of the grandest hardy red Roses and unapproached in color. It is best described as a blackish-crimson.

Gloire de Lyonaise—This grand Rose is the nearest yellow Hybrid Perpetual we have. It cannot be called deep yellow, but rather a pale shade of chamois or salmon-yellow.

Magna Charta—Bright deep pink, very large and fragrant. A grand and very popular garden Rose.

Cheshunt Hybrid—Very velvety and rich crimson, large, beautifully formed, splendid sort.

General Washington—One of the most satisfactory Roses in the list for general planting; brilliant crimson; large, perfectly double and a free bloomer.

Red Rose. Ulrich Brunner.

Madame Jos. Dubois—A most vigorous growing and persistent bloomer. The flowers are very large and double, on long stiff stems; of fine waxy texture and substance.

Ulrich Brunner—Considering its handsome upright style of growth, prime foliage, pretty wood, its extra heavy blooming qualities (blooming during the summer) striking rich cherry red color, large flowers, fragrance, etc., we believe it the peer of any red Hybrid grown. Truly a fine Rose. See cut.

Greenville, Ill., April 27, 1906

C. YOUNG & SONS:

The plants came to-day by Express. They were fine plants and we were well pleased with all.

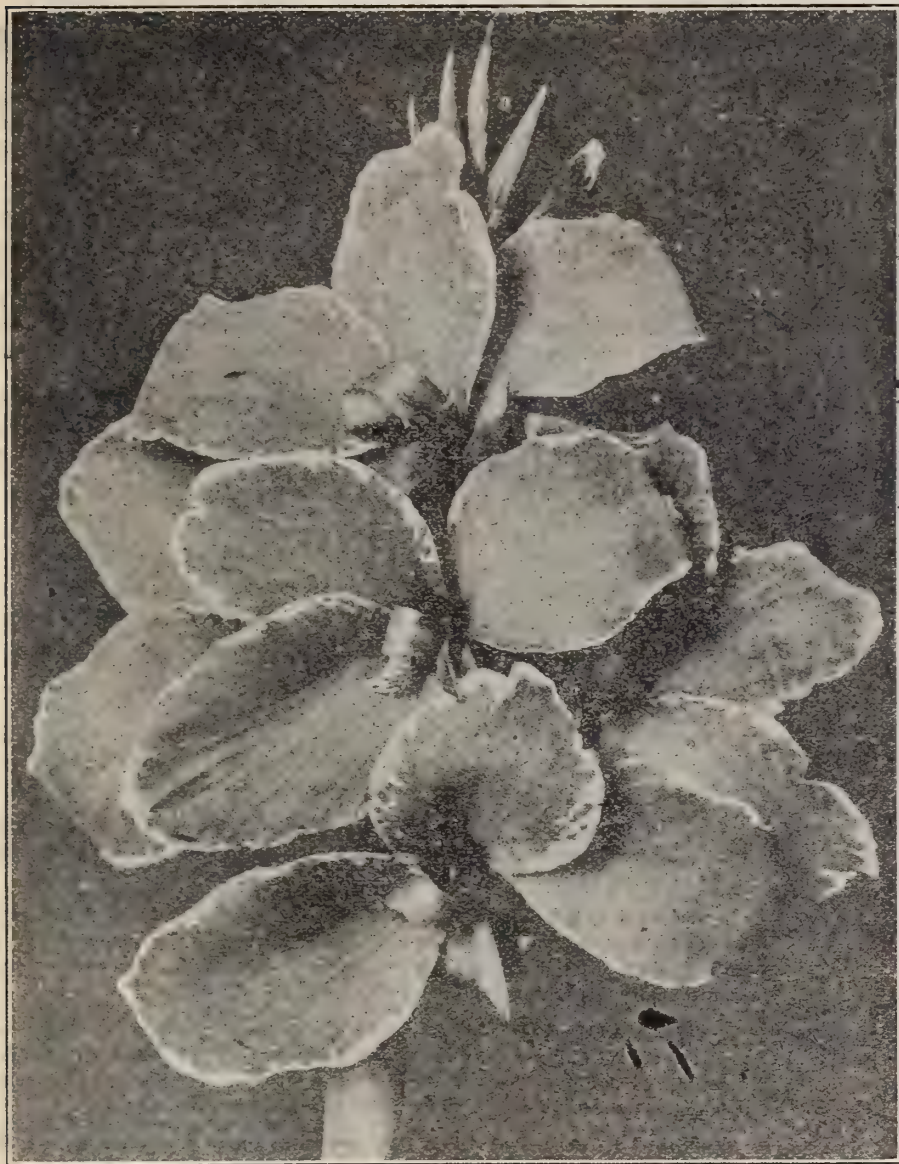

Yours respectfully,

LIZZIE S. COLCORD.

TWO-YEAR-OLD FIELD GROWN ROSES.

These Roses are much larger than our two-year-old pot-grown roses, and as the season for planting them is limited, we advise our customers to order as early as possible. Our stock cannot be excelled in strong, healthy growth. The branches are from two to three feet high, each plant having from three to five canes. These are Roses for which nursery-men charge from 75 cents to \$1.00 apiece. They are all fine varieties, such as Magna Charta, Duke of Edinburgh, Cheshunt Hybrid, Giant of Battles, La Reine, Paul Neyron, General Jacqueminot and many others. We have put the price low, and are sure that they will give more satisfaction for the amount expended on them than anything you can buy in the plant line, as they will give immediate effect. We cannot fill orders for these Roses after the 15th of April.

Price, 35 cents each; three for \$1.00; \$3.00 per dozen. By Express only.

Orchid Canna Partenope.

5 Grand Orchid Flowering Cannas.

The Best Varieties in Cultivation.

Selected as the very best varieties that are grown. They are all vigorous growers, and bloom continually the entire summer; average height 4½ feet.

Allemania—This is a truly splendid variety; grows 4½ feet high, with handsome foliage, and bears grand clusters of splendid flowers. The outer petals are bright scarlet with a broad yellow border, the inside colors being scarlet and dark red, beautifully mottled and variegated; exceedingly showy and handsome. 15c each.

Burbank—The new orchid-flowered Canna. At last we have not only a clear, beautiful yellow Canna, but also a flower magnificent in size. The flowers are truly gigantic in size, the upper petals spreading fully 7 inches, and the form is really semi-double. Toward the inner part the petals show fine crimson spots; all the rest of the flower is a most beautiful, rich canary yellow. A very strong grower, with leaves having a texture like rubber. 25c each.

Italia—Bright orange-scarlet, with broad golden-yellow border; the flowers are produced on massive stems, set well above the foliage, which is large and heavy.

Pennsylvania—We ask particular attention to this grand new American Hybrid Orchid-Flowering Canna, because in addition to being one of the largest and most magnificent varieties ever introduced, it is the only pure deep red flowering sort in the Orchid-Flowering class. The flowers are often immense, often 7 inches across, with petals 2½ inches broad, borne in splendid, branching spikes. A tremendous bloomer; begins quickly; keeps it up. This Canna was the most magnificent of all those grown on our grounds here last summer. Its grand size, pure deep scarlet color and profuse blooming habit, place it at the head of Orchid-Flowering Cannas to date. No one could be disappointed with Pennsylvania. It has no equal. 4½ feet, 25c each.

Partenope—Flowers of extra large size, the broad wavy petals glisten like silk; the prevailing color is orange, delicately streaked with scarlet tints and suffused with salmon; early and a free bloomer; green foliage; five to six feet in height. See cut.

Price the set of 5 Orchid Flowering Cannas Dormant Roots up to April 1st, 75c; growing plants the set of 5 for \$1.00.

5 CHOICE EVER-BLOOMING CANNAS.

We are extensive growers of Cannas, and though our list of varieties is not so large as offered by some establishments, it represents the pick of today. Ever variety offered by us is fully tested and proven to be satisfactory.

Beaute Poitevine—The peerless bedding Canna; defiant of drought and heat, lavish of bloom,—the brightest scarlet of all, 3½ to 4 ft.

Chas. Henderson—Round petaled, deep crimson with golden pencilings in the throat. 4 ft.

Florence Vaughan—(The Speckled Canna)—Symmetrical flowers, orange yellow thickly peppered with bright red. 4 ft.

David Harum—Foliage, dark glossy bronze and plum; flowers borne freely in loose trusses, in color orange scarlet, spotted vermillion, with conspicuously protruding pistil of amber. 3 to 3½ feet.

Madam Crozy—Flowers of dazzling crimson scarlet, bordered with golden yellow; a rich combination of colors, very dwarf in habit, rarely exceeding 4 feet in height. See cut.

Price, Dormant Roots, 10c each; \$1.00 per dozen up to April 1st; Growing Plants, 15c each, \$1.50 per doz.

Canna Madam Crozy.

Bed of Cannas.

BUTTERCUP. A profusely blooming dwarf Canna of thrifty habit, bearing large flowers of waxy, pure "buttercup" yellow. 3 ft.

CONQUEROR. Immense flowers in grand trusses of enormous size, borne erect, three and a half to four feet high; the petals are often three inches long by two inches broad, and very thick and durable; color, rich orange scarlet, dappled all over with bright maroon and beautifully edged with golden yellow. 4 ft.

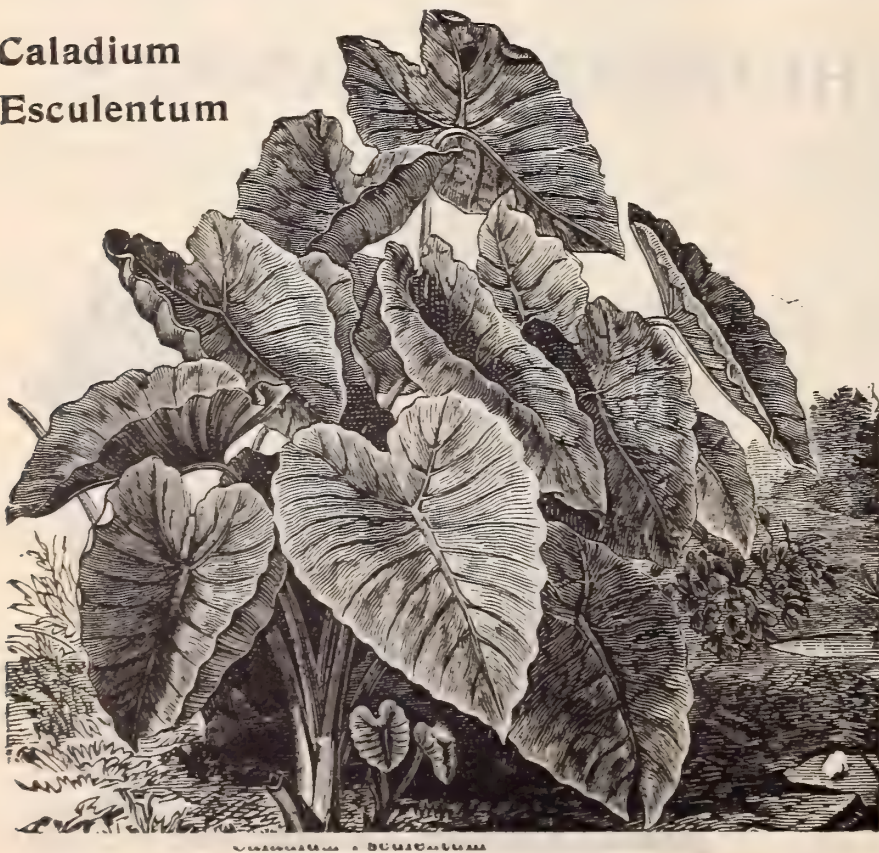

GLORIOSA. Color, bright, rich crimson, with wide border of deep golden yellow. One of the most showy varieties. Height, 3 ft.

DUKE OF MARLBOROUGH. This is decidedly the darkest and richest colored Canna in existence. The flowers are a deep, rich crimson-maroon. 3 ft.

SHENANDOAH. The first of the bronzed-leaved varieties with a pure pink flower. The plant grows to medium height, having broad chocolate-colored foliage with a bronze-metallic luster. The flower is large and of a pretty shade of pink, making a pretty contrast with the bronze foliage. A fine bedding variety. 4 ft.

Price, any of the above choice Cannas 10c each, \$1.00 per doz. Dormant Roots up to April 1st, growing plants 15c each, \$1.50 per doz.

Caladium Esculentum

OUR CELEBRATED COLLECTION OF

Ten Best Bedding Cannas

For a gorgeous display and continuous bloom all Summer long and till frost, there is no plant can equal the Canna. They make the most magnificent show in large rows and beds.

Cannas should be planted in good, rich garden soil, mixed with half of old rotten stable manure. Water sparingly for first two weeks after planting. When growing freely, water liberally. Set the plants 18 inches apart each way, and if more than one kind is used, be careful to plant the taller growing kinds in the center and the dwarf ones along the edge. This applies to planting in beds.

Customers can select any variety we list. It is well to select kinds that will grow the required height you would like to have the plants attain. Note—Height of each kind is plainly stated in description.

BLACK PRINCE. A magnificent variety, flowers frequently five to six inches across; color, an intense dark velvety maroon, almost black; a strong erect grower, with fine dark red stems and deep green leaves edged with purple, about 5 ft.

CHICAGO. One of the showiest varieties. Brilliant orange-scarlet. An exceedingly free bloomer, and a strong grower. A fine variety for bedding and one that is used very extensively in the best parks. 4 ft.

SOUV. D'ANTOINE CROZY. Intense scarlet, rich and dazzling, rich golden yellow-edge; does not fade or scorch in the hot weather. The most brilliant Canna in existence. 3 ft.

SECRETAIRE CHABANNE. A very robust, compact grower; leaves light green; flowers large and open; trusses very large; color a unique, very bright salmon-pink, entirely distinct from any other variety, a most profuse and continuous bloomer. 3 ft.

THE MAIDEN'S BLUSH. One of our most popular kinds; it is pronounced by experts pure soft pink, entirely different from all others; everyone says it is one of the sweetest and most lovely shades ever seen; it is an immense bloomer and is a neat compact grower. 3 ft.

Cannas in Quantity for Massing

For the convenience of those who are at a loss what varieties to select we make a special offer of the best sorts in separate colors. If desired, we will select tall, medium and low-growing varieties, for arrangement in beds. Price, dormant roots, up to April 1st, 50c per dozen. Growing plants ready April 1st in separate colors, \$1.00 per dozen.

CANNA BEDS.

Many of our customers write us in regard to the number of Cannas that is required to fill a bed of certain dimensions. In answer to this question we offer the following suggestions: Plant Cannas about 18 inches apart each way; the tall varieties for the center of bed, and the dwarf growers for the border.

For a round bed 7 feet in diameter it will take 19 plants.
For a round bed 10 feet in diameter it will take 37 plants.
For a round bed 13 feet in diameter it will take 61 plants.

Caladium Esculentum

Very effective and suitable for a single plant on the lawn. The leaves often attain the length of three feet by twenty inches wide, and have a rich tropical effect. Watering in dry seasons will help develop large leaves (see cut). Extra selected bulbs, large size, \$1.00 each. First size bulbs, 50c each; \$4.50 per doz. Second size, 30c each; \$3.00 per doz. Third size, 15c each; \$1.50 per doz.

YOUNG'S CHRYSANTHEMUMS.

OUR LIST OF CHRYSANTHEMUMS contains the cream of all best varieties in cultivation to-day. We grow and test all new sorts as soon as sent out, saving only the best. All the prize winners at the November shows in New York, Philadelphia, Chicago, Cincinnati and St. Louis are included in our collection, as well as some of the grand old sorts that have never been excelled by any of the new varieties.

WE WERE AWARDED FIRST PRIZES AT THE CHRYSANTHEMUM SHOW AT ST. LOUIS IN NOVEMBER, 1906.

CULTURE DIRECTIONS, WHICH, IF FOLLOWED, WILL INSURE SUCCESS.

WHEN TO PLANT—Any time after the ground can be worked, even up to June the 10th, will give good blooming plants.

DISBUDDING AND STOPPING—When the plant is 5 or 8 inches high, cut it back to 4 inches, allow 4 shoots to grow, and when they have attained the same height again, pinch out the terminal bud, continuing to stop them whenever the shoots get 4 inches long until August 15th. After that time they should be allowed to form their buds and flower. If large flowers are wanted, all the buds should be picked off except one on the top of each branch or shoot. In localities subject to early frost, they should be lifted and placed in large pots or boxes; after lifting, water thoroughly, and never allow them to become dry, as that would cause them to lose their leaves and produce imperfect flowers. Manure water, used once a week, is very beneficial at this stage.

TO DESTROY BLACK APHIDES—This is the only insect that is troublesome to the Chrysanthemum. Place tobacco stems on the top or around the pots and the fumes will be sure to kill them. Another remedy is to dust them with Young's Insect Destroyer. ¼-lb. package, 25c.

SIX NEW AND RARE CHRYSANTHEMUMS.

Selected as the Very Best of all New Varieties introduced this year.

ADELIA—Pure white; very large size, of exceedingly graceful form, and one of the very finest varieties ever introduced; will become one of the leaders everywhere. 15c each.

ROI D' ITALIE—This variety is an extremely handsome yellow of very brilliant color, incurved into a fine compact globe of rather narrow petals. has a splendid stem and foliage. 15c each.

LORD SALISBURY—Grand for exhibition. Yellow, suffused crimson, of beautiful bright shade; a big fine variety, slightly reflexed, 17 inches across. 15c each.

LORD HOPETOUN—To our mind this is the very handsomest of the scarlet and gold section; it is the showiest both in color and form. Grand beyond description. 15c each.

MADVONA—The most beautiful shade of pink yet produced in a large flower, with very broad petals, making an exceedingly graceful flower, with grand stem and foliage. 15c each.

JEANIE NONIN—For Thanksgiving and later this has no rival; of the largest size, perfectly globular, finely finished, an easy doer, and a splendid keeper and shipper. This variety is queen of commercial whites, the color being very pure; the most valuable introduction of recent years from the American standpoint. 15c each.

Price of Six New and Rare Chrysanthemums, 15c each; set of six, 75c, postpaid.

One of Our Houses of Chrysanthemums, Flowers Grown for Exhibition.

Six Exhibition Mums.

The following varieties are selected as the leading varieties that took prizes at expositions held in the fall of 1906.

Clementine Touset—Pure glistening white, very chaste. Flowers of great substance, loosely incurved and very symmetrical. Of dwarf habit, though very robust. One of the finest; a general favorite.

Ben Wells—A monster Jap, 10 inches across; blush white, with long, narrow florets, slightly reflexed, but deep. One of the finest; a general favorite.

F. A. Cobbold—August 15th. A large, handsome flower, on a strong stiff stem, elegantly foliaged. The color is mauve pink, very attractive. Fine for exhibition.

W. Duckham—A Japanese incurved pink; undoubtedly the grandest pink ever sent out: won the C. S. A. silver cup for best ten flowers of any variety.

Col. D. Appleton—One of the largest globular yellow sorts; grand stem and foliage.

Intensity—A large, reflexed flower, color a bright crimson. Strong upright growth. It has no equal as an exhibition red.

Price of 6 Great Prize Winners, 15c each; set of 6 for 75c postpaid.

Prairie Durocher, Ill., April 26, 1906.

C. Young & Sons

Gentlemen:—I received my flowers yesterday, all in good order. Many thanks for the extra plants.

Yours respectfully,

Mrs. Maggie Doerr

St. Louis Prize Set.

The Finest Varieties With Which We Won Prizes at the St. Louis Show in November.

Autumn Glory—Deep pink; very large, handsome flower.

Major Bonaffon—Soft, clear yellow, incurved, full in the centre; 6 to 7 inches in diameter and nearly as deep.

Ivory—The grandest of all whites for general planting and for specimen flowers it is the standard variety by which others are judged. Color, snow white.

Cheltoni—A beautiful pure yellow of graceful form.

President Wm. R. Smith—A delicate pure pink, very heavy in substance, borne on strong, stiff stems.

Willow Brook—The earliest of all whites. Strong dwarf grower. A good variety.

May Foster—One of the most popular white varieties. Fine large, pure ivory white flowers.

Wm. H. Chadwick—An immense striking bloom of a waxy-white; occasionally tinted rose.

Geo. W. Childs—The best known of the reds.

H. W. Buckbee—A bright yellow; habit dwarf petals loosely arranged. An excellent variety.

Maud Dean—An extra large-flowered variety; petals broad and incurving; color pink, almost rose, an unusual shade.

Maynell—Incurving crimson; splendid grower; stands feeding well.

Price, St. Louis Prize Set, 10c each; 3 for 25c; the Set of 12 Varieties for 75c postpaid.

Azalea.

CHINESE AZALEA.

(AZALEA INDICA.)

No plant has increased in popularity during recent years with such amazing rapidity as the Chinese Azaleas. At Easter they are seen in every church and in the windows of our finest residences throughout the country. Keep in pots outdoors in a shady place in summer.

DEUCHER PERLE—Best and earliest; color, double white.

MAD VAN DER CRUYSEN—Semi-double, rosy crimson.

SIMON MARDNER—Early, double, rich rosy pink.

VERVAENEANA—Early, double pink, bordered white. See Cut.

Prices according to size, fine sturdy little trees.

	Price, each.
Extra large size, 26 inches diameter, in bud or bloom.....	\$2.50
First size, 18 inches diameter, in bud or bloom.....	1.50
Second size, 14 inches diameter, in bud or bloom.....	1.00

Must be sent by express, too large to mail.

AGERATUM.

Princess Pauline—A most distinct and novel variety of dwarf, compact habit, rarely exceeding five inches in height, its peculiarity being that both colors blue and white, are combined in the same flower. One of the most distinct bedding plants (see cut). Each, 10c; \$1.00 per doz.

Stella Gurney—A short, compact grower and extremely free blooming. The individual tufts are very large and dense, and the color is intense blue. The most beautiful ever seen in Ageratums. A bedding plant without any equal. It can be used as a border around geraniums. Each, 10c; \$1.00 per dozen.

Mexicanum Variegatum—This variety has beautiful variegated foliage, green with a narrow edge of white. 10c each; \$1 per dozen.

Aloysia Citriodora.

(Lemon Verbena.)

No garden complete without it. You should have some to cut for bouquets and baskets of flowers, as its delightful fragrance exceeds that of any plant we grow. Grows rapidly outdoors in summer, and may be kept growing along most of the winter until its season of rest, if potted early in the fall. 10c each.

Alyssum Double White.

ALYSSUM DOUBLE WHITE.

The trusses are enormous, measuring at times one inch in diameter and five inches long. The flowers are perfectly double and of delightful fragrance. Price, 10 cents.

Ageratum.

Abutilon, Chinese Bell Flower or Flowering Maple.

Flowering shrubs, growing two to six feet in height; flowers pendulous, bell-shaped; blooming in abundance during the entire season; now much used for flowering in winter.

The Abutilons or Flowering Maple, is a plant of as easy culture as the geranium and quite as satisfactory. It is beautiful, both in leaf and flower, and is very profuse in bloom.

ECLIPSE. Golden spotted leaves, semi-drooping.

GOLDEN BELLS. Deep, rich yellow, very free.

SOUVENIR DE BONN. Beautifully variegated leaves (see cut).

BOULE DE NEIGE. Fine, pure white, free bloomer. Each, 10c.

TRIUMPHANT. The darkest blood-red yet produced; dwarf and compact, and very free bloomer. Quite a novel color. Each, 10c.

CAPRICE. A most beautiful novelty; profuse foliage, marble and blotched cream and yellow. Bright, purplish-red flowers; with rich, metallic lustre. Each, 10c.

SPECIAL OFFER;—The set of six Abutilons for 50c.

ANTHERICUM VITATUM VARIEGATUM GOLDEN TREE

A fine, hardy house plant, leaves large, dark, glossy green, distinct yellow dots all over them; will keep in any room; hardy in the Southern States. 25c each. (See cut.)

Golden Tree.

ARAUCARIA EXCELSA NORFOLK ISLAND PINE.

Sometimes called the "Christmas Tree Palm," and "Star Palm." It has deep green, feathery foliage arranged in whorls, rising one above the other at regular distances. There is no ornamental foliage plant which equals this in symmetry. It is interesting botanically as one of the oldest of the pine tree family. In a large pot it is a fine lawn ornament in summer. It is easily grown in the house and is highly ornamental (see cut). Price, 24 to 30 inches high, five tiers, \$1.50 each; 18 to 24 inches high, four tiers, \$1.25 each.

Norfolk Island Pine.

ASPARAGUS OR LACE FERN (ASPARAGUS PLUMOSUS NANUS.)

This graceful climbing Asparagus has, to a great extent, taken the place of the once popular *Smilax* in all fine decorations. It possesses the advantage of being much more graceful, its foliage being much finer than that of the most delicate fern, and will last for weeks after being cut, the whole plant being of bright, cheerful green. It is an excellent house plant, succeeding under almost any conditions. 15c each; large plants, by express 25c each. (See cut.)

Asparagus Plumosus.

ASPARAGUS SPRINGERII

Not only invaluable as a decorative plant for growing in pot, window boxes or suspended baskets, but also an excellent bedding plant, where it can be used as a border or edging with the most beautiful effect. It is also most useful to furnish greens for decorating, retaining its freshness for weeks after being cut. (See cut.) Price, 15c each; large plants by express 25c.

Festus, March 13, 1906.

C. YOUNG & SONS' CO.,

Gentlemen:—Received plants Monday the 12; I was very much pleased and delighted to find them in such a fine shape, every one of them healthy, not even a leaf was bent or crushed, every one O.K. The Begonias are all beauties, surely the Countess Louise Erdody I think it is the prettiest I have ever seen. Thanks for those extra plants sent.

Yours respectfully,
MRS. AARON MOORE.

Begonia Rex.

REX BECONIAS (Ornamental-Leaved)

This class of plants is grown for their large, handsome leaves, which are banded and flaked with silvery white, brilliant greens and reds, many having a metallic lustre. Very desirable for house culture, as they thrive where there is little direct sunlight. We offer six of the most distinct varieties. Price, 20c each, the set of six for \$1.00.

Asparagus Springerii.

Begonia Purity.

Begonia-Thurstoni.

Begonia Rubra.

BEGONIAS.

FLOWERING VARIETIES.

Alba Picta—A distinct variety, leaves glossy green, thickly spotted with silvery white; flowers white.

Argentea Guttata—The leaves are oblong in the shape of a purplish bronze color, with silvery markings; the flowers are white.

Metalica—A fine erect growing Begonia, with dark, rough leaves; a free bloomer; flowers waxy white.

Purity—The finest pure white Begonia grown. Its marvelous freedom of bloom and close, compact growth combine to make it one of the finest pot plants. (See cut.)

Pictaviensis—Leaves large and beautiful; spotted flowers, a delicate pink.

Boule de Neige—Strong habit, light green foliage; blooms large and full, pure white, occasionally lightly tinted with pink, light yellow stamens.

Wettsteinii—A beautiful upright growing sort, flower bright coral red in pendant panicles; very free flowering.

President Carnot—Strong growing variety of stiff, upright habit, foliage deep green, underside purplish red; flowers beautiful coral red. (See cut.)

Rubra—A dark, glossy green leaves and scarlet flowers borne in abundance. (See cut.)

Thurstoni—The leaves are a rich, purplish red, while the face or upper side is a bronzy green, shaded with crimson and olive. Flowers rosy white, in large clusters, well above the foliage. (See cut.)

Price any of the above Begonias, 15c each; the set of ten, \$1.25, post paid. Large plants by express, 25c each; the set of ten for \$2.00.

NEW BEGONIA.

Manicata Aurea. (See Cut.)

Manicata Aurea—Large glossy leaves beautifully blotched with creamy white, with carmine etchings in the mature leaves, flowers delicate bluish white on long stems. 25c each.

TUBEROUS ROOTED BEGONIAS.

A class of bulbs that is very popular for bedding and pot culture; their coloring is bright and flowers large and lasting. Some little time before planting outside in spring they should be potted and kept inside until well started.

Single Flowered—Separate colors, white, pink, scarlet, crimson and yellow, 10c each; 80c per dozen.

Double Flowered—Varieties in separate colors, white, pink, scarlet, crimson and yellow, 20c each; \$1.75 per dozen; by mail postpaid.

Begonia-Pres. Carnot.

Begonia Thurston.

Begonia-Manicata Aurea.

Begonia-Double Tuberos Rooted.

Fine Perpetual-Blooming Carnations.

NOTE—These splendid Carnation Pinks are among the most beautiful and desirable flowers we have; highly valued for their constant bloom and delicate fragrance; they flower freely during the Summer and Fall in the garden; and if taken indoors, and kept in a cool, light room, will produce an abundance of lovely flowers all Winter. It is best to keep the buds picked off those intended for Winter bloom, and they should be taken in before hard frost, as they are not entirely hardy. The following are some of the finest varieties in cultivation.

White Cloud—Mrs. Patten.

Apollo—Color a bright, vivid crimson, large flowers, strong stiff stem, good grower.

Enchantress—A phenomenal success. Color, delicate blush pink, deepening towards the center. Size, $3\frac{1}{2}$ in. across.

Harlowarden—Very strong free grower, beautiful large flowers, bright shining crimson with scarlet shading, abundant bloomer.

Lady Bountiful—Pure white, $3\frac{1}{2}$ inches across, and stems 24 inches high, rich clove fragrance, marvelously free bloomer, plants being in bloom the whole season. 15 cts.

Mrs. Patten—Pronounced the best fancy colored or variegated flowers in existence. White, delicately marked with deep pink.

Mrs. F. Jooste—An almost pure pink in color, showing scarcely any lavender. It combines large size with good length and stiffness of stem and strong growth.

Melba—A delicate shade of light pink, very lovely and pleasing to the eye, flowers average $2\frac{1}{2}$ to 3 inches in diameter.

Dorothy Whitney—Deep yellow ground edged with light pink, makes the large well-formed flowers with high well-filled centre, the most perfect form among the yellows.

Gen. Gomez—Color, a brilliant cardinal maroon, very free flowering and of delightful fragrance, flowers large and borne on long stiff stems.

Mrs. E. A. Nelson—Bright pink; the largest variety of its color and a grand carnation in every way.

Prosperity—The largest and most distinct carnation ever sent out; the color is white ground, marbled and veined with deep shaded pink.

White Cloud—Excellent for garden planting; an early and abundant bloomer; pure white, elegantly fringed and deliciously fragrant.

Price, 10 cents each, 3 for 25 cents; Set of 12 Varieties for \$1.00 postpaid.

Marguerite Carnation.

MARGUERITE Monthly Carnations.

A new race of monthly Carnations which is of the greatest value for summer blooming. They bloom freely all summer, and the flowers are mostly all double; they are all elegantly fringed and deliciously fragrant. Price, mixed colors only, 10c each, \$1.00 per dozen.

Umbrella Plant.

UMBRELLA PLANT.

(Cyperus Alternifolia.)

The Umbrella Plant somewhat resembles a Fern in style and habit of growth; grows easily and makes a nice window ornament.

Good strong plants, 15 and 20 cents each, postpaid. Large size, 35 and 50 cents each, by express.

Cyclamen.

CYCLAMEN.

(Alpine Violet.)

The Cyclamen is principally adapted for window culture, and will give more flowers with less trouble than almost any plant we are acquainted with. The colors are usually white, tipped at the base with rosy purple (see cut). Strong plants in bloom from 4 inch pots, 35c each.

Dahlia, Twentieth Century.

CACTUS DAHLIAS OF SPECIAL MERIT**BLANCHE KEITH.** Petals long, full, uniform rich yellow.**BRIDESMAID.** Delicate shade of rose, passing toward the centre to pale primrose: beautifully formed.**CAPT. BROAD.** Brilliant vermilion-scarlet, very full.**DELICATA.** A lovely shade of pink, shading to pale yellow.**EARL OF PEMBROKE.** Bright plum, deep and velvety.**PURITY.** Pure white, without a flaw or blemish.**STRAHLEIN KRONE.** Intense cardinal-red, rich and glowing; long, twisted petals; profuse bloomer.

Price, 20c each, \$2 00 per dozen, the set of seven varieties for \$2.00. Field grown Roots.

Columbia, Ill., June 5, 1906.

C. Young & Sons Co., St. Louis, Mo.,

Gentlemen:—I beg to acknowledge receipt of your shipment and find goods in perfect condition, as well the premium plants, for which please accept my hearty thanks.

Very respectfully,
Mrs. L. Rose.

Cactus Dahlia, Purity.

CHOICE DOUBLE POMPON DAHLIAS**ALBA TRIBRICATA.** The finest of all pure, snow-white Pompon Dahlias, perfect form.**KATHERINE.** Best, pure yellow.**MISS L. KRAMER.** Base of petals yellow, tipped crimson.**SUNSHINE.** Scarlet, perfect form.**LITTLE BEAUTY.** One of the prettiest quilled Pompons; lovely soft pink; a great bloomer, covered with flowers the whole season till cut down by frost.**LA PETITE JEAN.** Rich plum color.

Price, 15c each, \$1.50 per dozen, the set of six varieties for 75c.

Grand Double Dahlias in Mixture Not Labeled.**A BARGAIN IN MIXED DAHLIAS.**

We have a large stock of mixed sorts which contains many of the very finest and high-priced varieties, and which we offer at the low price of 10c each; \$1.00 per dozen; \$8.00 per 100.

NOTE:—All Dahlias are supplied in strong roots. After supply of roots is exhausted, growing plants are sent, which give equally good results.

Cactus Dahlia, Capt. Broad.

New Fern, Scotti.

NEPHROLEPSIS BOSTONIENSIS. BOSTON FERN.

This is one of the finest and best Ferns for growing in pots, vases and baskets; will do well planted in a shady border during Summer, and when lifted and taken indoors, makes a splendid window and house plant during Winter. The beautiful fronds grow two to three feet long and arch over in a most graceful manner. Very popular wherever known.

PRICE.

4 inch pot plants.....	30c
5-inch pot plants.....	50c
7-inch pot plants.....	\$1 00

Nephrolepis Piersoni.

The remarkable demand for this variety continues undiminished. Piersoni has the same vigorous habit of growth and gracefully drooping fronds as its parent, Boston Fern, but its pinnae of leaflets are again subdivided, making each a perfect little frond or leaf. When well grown into good-sized specimens it has a delightful feathery appearance unequalled by any other Fern.

Price: From 4-inch pots, 30c; 5-inch pots, 75c;
7-inch pots, \$1.50.

New Dwarf Boston Fern.

Nephrolepis Scotti See Cut.

A compact dwarf form of the favorite Boston Fern, in general appearance very much like the original form. It is just as gracefully drooping in habit of growth, but is more compact, making well-finished, shapely specimens in the smaller sizes, yet growing into grand large specimens in time. It has been exhibited at all the principal plant shows the past two years, receiving high awards. There is no doubt but that, in a measure, it will supplant the old Boston Fern as a pot plant for house culture, inasmuch as it never takes on that straggling appearance to which the old form is subject at certain stages.

Price strong plants, 25c each; specimen plants from 5-inch pans, 50c each.

NEW COLEUS.

The following are the best and most distinct that have been sent out up to the present. No other foliage plant can for a moment bear comparison with them, so vivid are the colors of some varieties.

Forest Park Beauty—The leaves are much larger and broader than the old varieties and more compact. Color is a bright pink, shaded with deep maroon, with golden yellow at base of the leaf, with a green border on the edge. 15c each; \$1 50 per doz.

Flambo—Dazzling carmine, trimmed with velvety maroon.

Faith—Ground color creamy yellow, handsomely marked with bright crimson. Dwarf and compact.

Illumination—Narrow lacerated leaves, yellow bordered with green.

Miss Retta Kirkpatrick—Large white, center shaded with yellow.

Menole Hazard—Brilliant red. The richest and brightest colored variety yet introduced.

Mrs. R. B. Haynes—Yellow, spotted with deep maroon.

Davis—Curiously blotched and spotted with maroon, red, yellow and green.

Setting Sun—Rich bronze crimson, bright golden edge.

Souv. Gurnsey—A very charming combination of bright crimson, deep maroon and clear yellow.

South Park Beauty—Bright golden yellow, excellent bedder.

Sunrise—Golden yellow and maroon.

Verschaffelti—Rich velvety crimson, the best of all for bedding.

Unless noted, 10c each; 60c per dozen. 100, by express, \$4.00.

Ostrich Plume Fern.

New Coleus.

YOUNG'S GERANIUMS

View in Our Trial Grounds of Geraniums

New and Standard Geraniums

In Choice Collections; at Popular prices

Since the great improvement recently made in Geraniums their popularity has been redoubled, and they appear like a new race. For several years we have been importing all the new varieties from England and France, giving the same care to their selection as in roses, and now we have *the best collection it is possible to obtain*. We do not offer a long list, because we grow the best variety only, and have discarded all that do not come up to the highest mark of excellence.

GERANIUM SUNPROOF

THE EIGHT BEST VARIETIES

That were selected from our trial grounds. Last summer we had thousands of stock Geraniums planted in our grounds, and during July and August they were a blaze of glowing scarlet, pink, white, and all the different shades. The universal comment of visitors was: "There is not an inferior sort in the field."

CLYDE. The giant among the geraniums. We consider this the best bedding geranium of all varieties. Color of flower is a bright vermilion red.

JEAN MADELINE. This variety has enormous trusses, florets semi-double, and a color that is new and unsurpassed among those of the Bruant race. Bright, pure rose, very distinct and new.

PRECURSEUR. This variety is a precursor or forerunner of the white Bruants. It is a very strong grower, a very free bloomer, has fine trusses of single white flowers of very large size and spreading form.

RADIUM. A very compact free grower, producing very large trusses of big single flowers which cover the plant. Color, pure dazzling scarlet, with point of white at the center, single and of fine form.

FLEUVE BLANC. "River of White." The first double white Bruant, obtained after long years of trial. Pure in color, elegant in form, of fine size.

TELEGRAPH. This variety is undoubtedly the most distinct introduction in this line for many years. It is pronounced by expert judges to be the finest Geranium in existence. It has received more honors than any other Geranium in commerce. For the winter window-garden it is unexcelled. The plant is a strong, vigorous grower, bearing immense trusses of single flowers of mammoth size. The color is a rich, deep orange cerise.

MADONNA. A very compact grower; flowers very large, of an unusually good form; color, a pure snow white.

N. S. BRETON. A geranium that will be sought by the most fastidious. A grand velvety scarlet, flowers, semi-double and enormously large; beautiful in form, with white eye.

Price, 15c each, the set of eight varieties for \$1.00 by mail, postpaid; larger plants by express, buyer paying charges at same price.

FOUR GERANIUMS OF SPECIAL MERIT.

These four splendid Geraniums are recommended as the very best of their respective colors. We were awarded the GOLD MEDAL for the four beds we planted at the World's Fair Grounds, one bed of each variety.

They were admired by every one for their distinct colors, large trusses of bloom and their strong, vigorous foliage. They are simply the best of all geraniums.

ACTEON. This is the best scarlet Geranium yet produced. We have tested this variety for the past year and can truly say it is the largest flower and brightest scarlet geranium we have yet seen, and that it cannot be excelled for bedding purposes. The color is a deep scarlet of exquisite shade; the florets are regular in form, more than semi double, and about two and a half inches in diameter. Trusses enormously large on long stems. Foliage and habit are all that could be desired. 15c each.

JEAN VIAUD. The grandest double pink Geranium grown. Flowers semi-double, 2 to 2½ inches in diameter, made up into immense trusses, 12 to 15 inches in circumference. Color, beautiful clear rosy pink, with distinct white blotch at base of petals. Of remarkably vigorous but compact shapely habit. As near perfection as a geranium can be. 15c each.

MRS. E. G. HILL. Florets two and a half to three inches, center of each petal is a soft, light salmon, bordered with rosy salmon, and veined deep rose, frequently forms six petals, not to be confused with the old variety of the same name, resembles a real begonia bloom more than a geranium. 15c each.

S. A. NUTT. Rich, dark crimson. The flowers are of perfect shape and large size, the trusses massive and produced in great number; close compact habit. 15c each.

SPECIAL OFFER:—The above set of four Choice Geraniums for 50c postpaid. Larger plants in bud or bloom, by express, purchaser paying charges at same price.

Muskogee, I. T., April 26, 1906

C. Young & Sons, St. Louis, Mo.,

Gents:—I received my shipments of plants all in good condition. I am well pleased with the appearance of all the plants.

Yours truly,

R. T. Payne.

... GERANIUMS ...

The sets of standard double and single varieties offered below are the best bedding sorts in commerce.

TEN STANDARD DOUBLES.

SWANLEY DOUBLE WHITE—Without seeing it, one would scarcely believe the dwarf growth and free-flowering of this wonderful variety. Dense green leaves throwing up numerous trusses of the purest white at every joint, and continue to do so through the year. 10c each.

BISHOP WOOD—A grand variety of the most perfect habit, with numerous trusses of very large carmine-shaded crimson flowers. 10c each.

THOS. MEEHAN—Very large trusses, florets semi double, color a beautiful brilliant majenta rose. A new color in the type. 10c each.

LE COLOSSE—Very large trusses, semi-double florets, color a very bright orange vermillion. 10c each.

MARQUIS DE CASTELLANE—Splendidly formed flowers; double, color cherry red. One of the finest and most distinct. 10c each.

BERTHA DE PRESILLY—A very robust branching variety, covering the plant continually with bloom. The flowers are large semi-double, of a bright silvery-rose color. Very effective. 10c each.

LA PILOTE—Large trusses of well expanded flowers of a bright scarlet, toned and flamed with a rosy salmon. 10c each.

A. H. TRIGO—Double scarlet of a very intense color; trusses very large; flowers produced in great abundance, a splendid bedder. 10c each.

VILLE DE POITIER—Semi-double Bruant; color bright vermillion scarlet, large trusses, florets large, sometimes exceeding two inches in diameter. 10c each.

MME. LANDRY—Free and constant in bloom throughout the season. The trusses and florets are large, color clear apricot-salmon shading to copper; with a white eye. 10c each.

SPECIAL OFFER:—Price 10c each, 3 for 25c; the set of 10 Varieties for \$1.00.

Geraniums from 3 inch pots for Bedding out in April or May in any color SINGLE or DOUBLE, per dozen, \$1.00; per hundred, \$6.00, by express or delivered to our City Store from 4 inch pots \$1.50 per dozen; \$10.00 per hundred.

TEN STANDARD SINGLES.

APPLE BLOSSOM—Trusses of pearly white, shaded with rose pink, resembling a mass of apple blossoms. (See cut.) 10c each.

ALICE OF VINCENNES—The ground color is rosy pink, heavily veined and bordered with intense scarlet, center white; a very brilliant combination of colors. 10c each.

COLUMBIA—A magnificent new Geranium of an entirely new shade. Florets large and round, a beautiful cardinal with a white eye. 10c each.

GLARE OF THE GARDEN—The flowers are borne in enormous trusses, often measuring from five to seven inches in diameter, and are of the most brilliant shade of scarlet. 10c each.

M. A. BLANC—A most distinct and pleasing shade of salmon, with a light shading in the center; trusses are very large and composed of an immense number of florets. 10c each.

MME. J. CIBIEL—Immense round, perfect flower in enormous trusses; center a bright aurora salmon, with white eye and bordered with broad flesh-white border. A grand distinct and beautiful variety. 10c each.

TEMPEST—A single variety dazzling orange with yellow shadings. A very near approach to the long talked of yellow Geranium. 10c each.

VAN DAEL—Bruant type. Center bright, silvery rose, bordered white; single: large trusses. 10c each.

LADY BROOKE—Petals lapping, and of great substance, quite round. Color, white, with delicate pink mark in the center; very striking: trusses of fine form and immense size. 10c each.

QUEEN OF THE WEST—The best bedding Geranium in cultivation; grows freely and blooms in the greatest profusion, light glowing scarlet; in fine trusses. 10c each.

SPECIAL OFFER:—Price 10c each, 3 for 25c; the set of 10 Varieties for \$1.00, postpaid.

Scarlet Flowering Rose Geranium—Mrs. Taylor.

SWEET SCENTED GERANIUMS.

MRS. TAYLOR—The scarlet flowering, rose-scented Geranium.

NEW LEMON GERANIUM—Neat and handsome; lemon-scent; very desirable.

APPLE-SCENTED GERANIUM—Leaves delightfully scented like rich luscious apples.

PEPPERMINT—New and delightfully scented peppermint strong grower.

ROSE GERANIUM—Richly scented; a great favorite. 10c each, the five for 40c.

New Variegated
Leaved

FANCY GERANIUMS.

THESE lovely new dwarf-growing Geraniums are chiefly remarkable for their bright, variegated foliage; they grow nicely, stand the sun well, and are very pretty and attractive for bedding and edgings, and particularly for pots and window culture.

GERANIUMS.

VARIEGATED LEAVED SORTS.

GOLDEN HARRY HIEOVER—An excellent dwarf bedding golden-leaved sort, with dark bronze zone; scarlet flowers.

HAPPY THOUGHT—Large yellow blotch in the centre of the leaf, with an outer band of green; flowers rich rose.

MME. SALLEROI—A dwarf variety rarely over 6 inches high; foliage green bordered white; fine for edging.

MOUNTAIN OF SNOW—Silver edge; vigorous grower.

MRS. POLLOCK—One of the most beautiful of golden tri-colors; bronzy-scarlet zone; golden edge, scarlet flowers. (See cut.)

15c each; \$1.50 per dozen; set of 5 for \$60c.

Mrs. Pollock.

PELARGONIUMS OR LADY WASHINGTON GERANIUMS.

NEW DOUBLE WHITE PELARGONIUM, MRS. ROBERT SANFORD—This is a grand double white variety; one of the finest novelties, and always very scarce: the flowers are extra large, perfectly double and beautifully laced and ruffled; the color is glistening snow white; exceedingly beautiful. 20 cts.

KINGSTON BEAUTY—Large black blotches on upper petals, which have fiery red edge, surrounded with broad white band, with bright red spot in center.

LORD SALISBURY—White, richly blotched and marbled with rose; immense trusses of large, fine flowers. Each, 20c.

SPECIAL OFFER:—20c each, the three varieties for 50c.

Ivy Geranium, La Rosiere.

Four Grand Double-Flowered, Ivy-Leafed GERANIUMS For 50 Cents.

These splendid Ivy Geraniums recommended as the very best of their respective colors, and most desirable for general planting.

LA ROSIERE. A soft, satiny rose-tint flower, perfectly circular and very double. 15c each. (See cut.)

SOUV. DE CHAS. TURNER. A wonderful stride in this lovely class, producing gigantic trusses six to eight inches across, pips two and one-half to three inches over, deep pink shade, feathered maroon in upper petals. Finest English variety introduced. 15c each. (See cut.)

DOUBLE WHITE IVY GERANIUM, JOAN OF ARC. This is one of the most beautiful plants it has ever been our privilege to offer. The flowers are perfectly double, white as snow, and literally cover the plants when in full bloom. 15c each.

WILLY. Bright orange scarlet, a grand color, flower large and beautifully formed. Good strong grower. 15c each.

SPECIAL OFFER:—The set of four varieties for 50c by mail, postpaid. Large plants in bud or bloom 20c each, the set of four for 75c by express only.

FARFUGIUM GRANDE

A first-class ornamental plant for pots, well adapted for house culture. The leaves are thick and leathery, dark green with yellow spots, an excellent plant for center of hanging basket. Price 25c each.

Gloxinias.

GLOXINIAS.

Charming plants of dwarf habit, producing large and splendid blooms in the greatest abundance under the commonest culture. Is pure white with throats of blue, scarlet, rose or crimson, or the tubes are of bright color, with white throat. Strong bulbs. Each, 25c; doz., \$2.50.

Fancy-Leaved CALADIUMS

Fancy-Leaved Caladiums are among the most beautiful of all ornamental foliage plants. The exquisite colors and wonderful markings of their leaves fairly eclipse everything in this line. Our illustration gives but a very faint idea of their marvelous variegations. They are exceedingly beautiful.

Choice sorts, all labeled, 15c, 3 for 40c, \$1.25 per doz., postpaid.

Caladium—Fancy Leaved.

New Double White Fuchsia, Triloba.

New and Beautiful Fuchsias

New Fuchsia, Autumn Leaves. Always attracts attention by its brilliant colored leaves and stems, which are bright red—quite as bright and striking as the most brilliant colored Autumn leaves. Extra large flowers, rich royal purple and fiery red.

Black Prince. Single, large corolla, well expanded, of a reddish rose, tube and sepals waxy carmine. A very distinct variety.

Charming. Entirely distinct from any other variety. The flowers are of intense rich carmine.

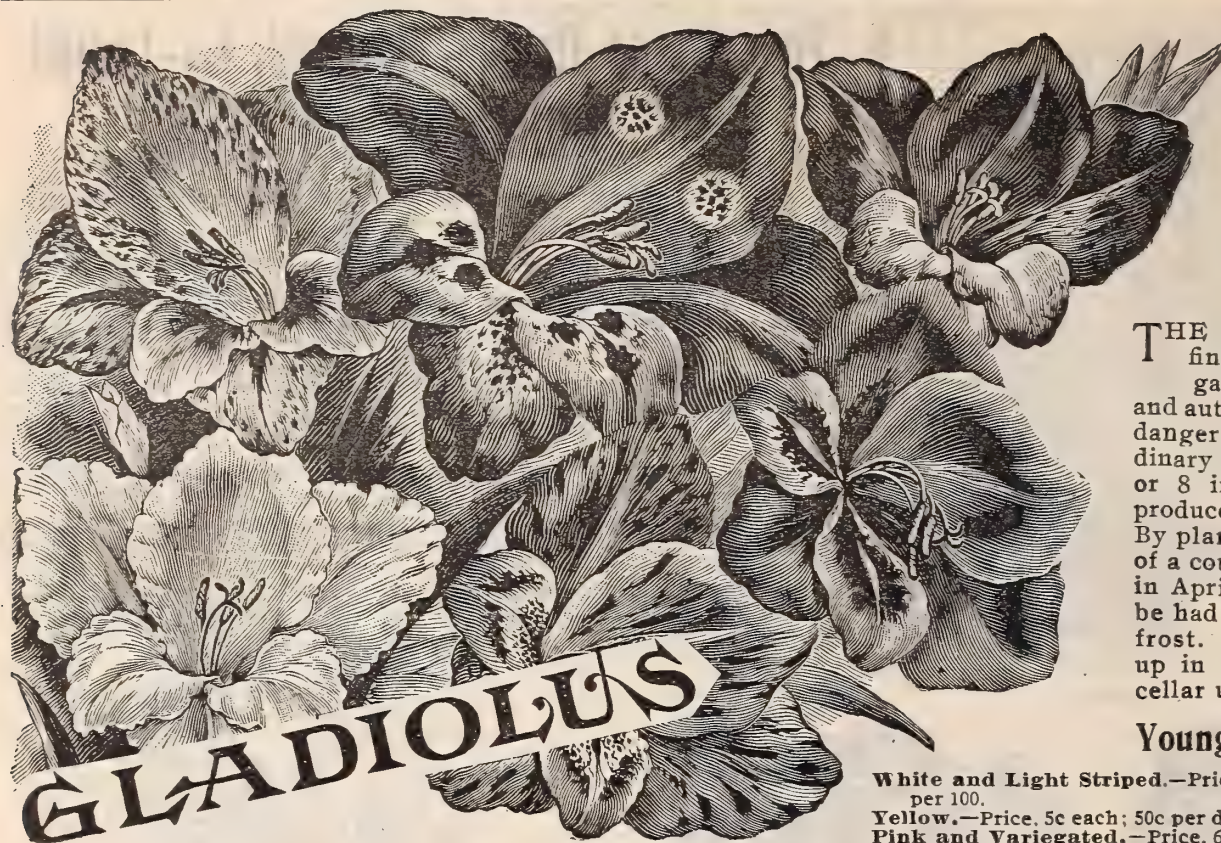

Mrs. Marshall. White tube and sepals, bright, rosy scarlet corolla, flowers large and bold, free bloomer and grower, single.

Rosain's Patrie. Fine double, white tube and sepals rosy carmine, corolla pure white.

Phenomenal. Extra large, double purple corolla. Crimson sepals.

Triloba. This is the best of all the double white varieties. It blooms continually all through the summer. Of a very dwarf and compact habit. (See cut.)

Price, 15c each, the set of seven for \$1.00 postpaid. Extra large plants by express, 25c each.

Young's Superb Gladiolus.

THE Gladiolus are one of the finest features of the flower garden during the summer and autumn months. Plant (after danger of freezing is past) in ordinary soil, 3 inches deep and 6 or 8 inches apart. Each bulb produces from one to three spikes. By planting Gladiolus at intervals of a couple of weeks, from early in April until July, flowers can be had constantly from June until frost. They should be taken up in the fall and kept in a dry cellar until spring.

Young's Superb Mixture.

White and Light Striped.—Price, 5c each; 35c per dozen; \$2.00 per 100.

Yellow.—Price, 5c each; 50c per dozen; \$3.50 per 100.

Pink and Variegated.—Price, 6c each; 40c per doz; \$3.00 per 100.

Red.—Price, 5c each; 35c per dozen; \$2.00 per 100.

"Young's Superb Mixture."—Composed of all the principal colors. Price, 5c each; 30c per dozen; \$1.50 per 100.

YOUNG'S EVERBLOOMING TUBEROSE BULBS.

A wonderful new single tuberose that blooms continuously from early in July until it is stopped by frost. Unlike any other tuberose it flowers the year after from the same bulb, the young roots also producing flower stems. In this way it forms large clumps, frequently having fifteen to twenty large spikes in full bloom at one time. The immense spikes of bloom are borne in great profusion and keep fresh and fragrant for weeks when placed in vases of water. Our bulbs are two years old, extra large sized and will be sure to bloom in great profusion this season. Each, 6c; 50c per dozen; \$2.50 per 100.

YOUNG'S DOUBLE EXCELSIOR PEARL TUBEROSE BULBS

Are noted for their fine quality, extra large size and sure blooming qualities. Average size of bulbs 4 to 6 inches in diameter.

EXCELSIOR PEARL.—Grows about 18 inches high; blooms very early; extra large size, selected bulbs all sure to bloom. Price by mail, 10c each; 75c per dozen. Price by express, 7c each; 50c per dozen; \$3.00 per 100.

PEARL.—Short stalks, long spikes and large flowers; select bulbs of enormous size. Price by mail, 7c each; 50c per dozen. Price by express, 5c each; 30c per dozen; \$2.00 per 100. STARTED IN POTS, ready April 15, which insures them flowering early in the season. 15c each; \$1.50 doz.

Black Calla Lily.

White Calla Lily.

Spotted Calla Lily.

CALLA LILIES.

White Calla, or Lily of the Nile—An old favorite plant, which should be found in every collection. It grows freely and produces large, pure white blossoms during the winter and spring. (See cut.) They require a very rich soil and should always be watered when they are fairly established; strong plants, each 35c.

Spotted Calla (*Richardia Alba Maculata*)—This plant is always ornamental, even when not in flower, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the old favorite white Calla, except being of smaller habit. It flowers abundantly in the garden during the summer months. (See cut.) Started plants, 25c each.

New Dwarf, Ever-Blooming Calla, Little Gem—This charming Calla is of a dwarf, compact habit, and is far better adapted to pot culture than the old tall-growing variety. It is a true ever bloomer, producing flowers almost without intermission. 25c each.

Black Calla—Deep green foliage, handsomely marked. Rich velvety black flowers of immense size. An odd and beautiful plant for house culture. (See cut.) Started plants, 25c each.

Special Offer—The 4 Callas for 75c. Extra large plants, the set of four \$1.25.

HIBISCUS SINENSIS.

Strong growing tropical plants with handsome glossy foliage and large, brilliant, showy flowers. In a warm, sunny window they make fine decorative plants and bloom profusely. If planted in the open ground during the summer they make a gorgeous display with their enormous, bright-colored flowers.

Grandiflora—Rich, glossy foliage, blooming profusely through the summer, literally covering the plant with scarlet-crimson flowers.

Miniatus Semi Plenus—Semi-double flowers of a brilliant vermilion scarlet; petals waved and recurved.

Sub-Violaceous—Flowers enormous, semi-double, clear carmine, tinted with violet; an unusually free bloomer.

Peachblow—An improvement over other Hibiscus in size of flower, freedom of bloom and strong growing qualities. Flowers double; of a rich shade of clear pink, with small, deep crimson center; an entirely new and most beautiful shading; four to five inches in diameter. Blooms freely even on small plants. (See cut.)

Price, 10c each; large plants by express, 25c each.

Hibiscus, Peachblow.

HYDRANGEAS.

Hortensia—A splendid variety that will always be a favorite. Its growth is strong and upright, forming excellent specimen plants; flowers pink, in immense trusses. 10c each.

Otaska—A Japanese variety used extensively for Easter decorations. Flowers large, bright pink, tinted with blue. 10c each.

Strong pot plants from 6 and 7-inch pots—which will make fine blooming specimens,—\$1.00 each. (Must be sent by express.)

Superb Double Hollyhocks.

Four Finest.

Colors yellow, crimson, white and pink
Strong over Winter plants, to bloom this season.

Price 20c each; 3 for 50c; \$2.00 per dozen.

Perryville, Mo., March 31, 1906.
C. YOUNG & SONS' CO.
St. Louis Mo.

Dear Sirs:—Plants arrived yesterday in perfect condition; am well pleased with them. I appreciate the extras for which please accept my sincere thanks.

Yours very truly,

JOS. P. MONAGHAN.

Double Hollyhocks.

RED, WHITE AND BLUE MOONFLOWERS.

The Three Varieties for 50c, postpaid.
Extra Large Plants, the Set of Three for \$1.00.

Moonflower, Red (*Ipomæa Mexicana Palmata*).—From Buenos Ayres. A red morning glory, with a large, tuberous root, bearing rich, violet-crimson flowers; a beauty. To be treated like a dahlia. Each, 20c; extra large plants, 35c.

Moonflower, White (*Ipomæa Grandiflora*).—There are few plants that are as satisfactory as this. One lady says that it was trained on strings to a balcony 25 feet high and 40 feet wide, and that from August to November it was covered nightly with its white, moon-like flowers, from 5 to 6 inches in diameter. It has also a rich, jessamine-like odor at night. It is called Moonflower from its rare peculiarity of blooming best at night, although it also expands its flowers on dull days. It grows everywhere where there are old trees, walls or strings to cling to (see cut). Each, 20c; 6 for \$1.00; extra large plants, 35c.

Moonflower, Blue, or the Giant Morning Glory (*Ipomæa Learii*).—This makes a splendid companion to plant with the white Moonflower. It is equally rapid in growth and free-flowering, blooming in the morning or on dull days. The flowers are the most intense violet-blue, with reddish-purple rays, and are 6 inches across. Each, 20c; extra large plants, 35c.

Moonflower

PONDEROSA.

A WONDERFUL LARGE LEMON.

It is a true overbearing variety. The tree has fruit in all stages of development, some enormously large. No budding or grafting is necessary. The plant is of easy culture, flowering and fruiting in any good ordinary soil.

15c each. Large plants by express, 50c.

Ponderosa.

RUSSELLIA JUNCÆA.

One of the finest basket or vase plants known. In growth it produces long, wiry stems, which are virtually leafless. Upon these stems and branches the flowers are borne. They are about the size of a Manetta, long, trumpet-shaped and brilliant scarlet in color. These lovely blossoms are borne in wonderful profusion during most of the year. Price, 15c each.

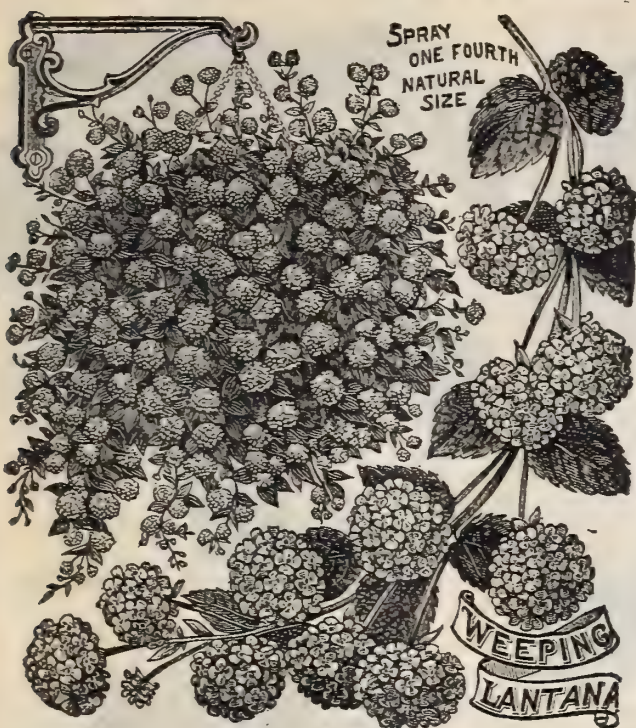

OTAHEITE ORANGE.

The best Orange for pot culture. Plants dwarf and symmetrical in form. Flowers freely with a delightful Orange fragrance. Fruit edible; about half the size of ordinary Oranges. A grand plant for winter culture; scarcely ever without some display of blossoms or fruit. 15c each, 4 for 50c. Large specimen plants, by express, 35c and 50c.

POMEGRANATE.

Jas. Vick.

A dwarf, free-flowering variety, blooming while very small, and remarkably profuse when older. Flowers brilliant orange scarlet. Plunge them in box or tub in summer, and remove them to cellar in winter. Strong plants, 25c each.

Weeping Lantana

A New Weeping Plant of great beauty.

One of the grandest plants grown. The plant has a most graceful, drooping habit, grows very rapidly and blooms continually summer and winter, producing large clusters of flowers of the most delicate lilac or rosy-pink. Foliage a beautiful dark-green. We know of nothing of recent introduction that is so easily grown and gives so much pleasure and satisfaction as this beautiful Lantana. Price, strong plants, 10c; 3 for 25c.

Group of Lantas.

HELIOTROPES.

These are universal favorites on account of their delightful fragrance. Flowers equally well as bedding plants in summer, or as pot plants in the house during the winter.

Jersey Belle—Fine, prominent truss, flowers large and of great substance, and an excellent bedder and pot plant. For planting in masses we have seen none to equal it.

Purple and Gold—A French variety of great beauty; foliage is a bright, golden yellow, very pronounced and marked slightly with a delicate green. In bloom it is exquisitely beautiful.

Mina—Color not very dark or light—medium. Its value is its habit and freeness of flowering.

Queen of Violets—Its color is of the deepest violet-purple, with large, almost pure white center. 10c each, 3 for 25c. Your selection.

JASAMINES.

Maid of Orleans—A very attractive sort, with good size double flowers, blooming profusely all summer.

Grand Duke—This Jasamine is very easily grown; even small plants bear a profusion of very double cream white flowers, having a delicious perfume.

Grandiflora—(Catalonian Jasamine)—Flowers pure white, star-shaped, of exquisite fragrance.

Cape (Gardenia Florida)—This variety is invaluable on account of its sweetly fragrant, double white flower.

Price, 20c each; the set of 4 varieties for 75c by mail postpaid. A limited quantity of large size flowering plants of any of the above varieties, 50c each by express only.

MARGUERITE OR PARIS DAISY.

White—A ray of white petals around a yellow disc, blooms winter and summer; fine for bedding or pot culture; flowers like the field daisy in size and appearance; a good winter bloomer (see cut.)

Prices, large plants in bloom, 25c; small size, 10c.

Soleil D'or—Rather dwarf plant; bright golden yellow flowers, disc and center being the same shade. These two varieties make a beautiful contrast.

Prices, large plants in bloom, 25c; small size, 10c.

NEW MARGUERITE

Queen Alexandra—The single-flowering Paris Daisy has long been a favorite, not only as a cut flower, but also as a decorative pot plant during the winter months, and we predict for this pretty form even greater popularity. The pure white flowers are from 2½ to 3 inches in diameter, the greater percentage coming full double, not unlike an anemone-flowered Japanese Chrysanthemum. 15c each; 2 for 25c by mail postpaid.

LANTANAS.

Showy bedding and basket plants that are being used more extensively than ever before. They are in bloom continuously from spring until frost cuts them down in the fall.

Alba Perfecta—Pure white, very fine.

California—Color, pure yellow; very dwarf and bushy; abundant bloomer.

Michael Schmidt—The flowers fresh and sparkling; of a brilliant yellow, passing into purple vermillion.

Harkett's Perfecta—A new variety, orange and crimson flowers and golden variegated foliage. Price, 10c; 3 for 25c. Your selection.

MANETTIA BICOLOR.

The Beautiful New Climbing Plant—This is the most amount of and desirable of all vines, as it can be grown either in the garden or perfectly in the house. In the house it can be trained along a trellis, producing a wreath of the most brilliant bloom both summer and winter. The flowers are from an inch to an inch and a half in diameter, of a most refined form, intense scarlet, shading into flame, tipped with bright yellow. The leaves are covered with a thick scarlet moss. Price, 15c each; 3 for 50c.

PALMS AND OTHER DECORATIVE PLANTS.

Phoenix Palms.

Standard Bay Laurel.

Fan Leaf Palm, (*Latania Borbonica*.)

STANDARD BAY LAUREL TREE.

(*Laurus Nobilis*.)

For decorative purposes these stately evergreen plants can not be excelled. Fine specimens. Standard form, 44-in. stem, 30-in. head \$10.00 each. 48-in. stem, 40-in. head, \$15.00 each.

BOX TREE.

These are perfectly hardy, and will stand outdoors all winter without any protection. Valuable for outdoor decoration on porches, etc. Fine specimens, about 43 inches high in pyramid form, each, \$2.50 (see cut.)

PHOENIX RECLINATA.

This Palm will thrive under more unfavorable conditions than any other variety, for which reason it is particularly adapted for hallway or other positions where other palms would not exist. Large plants from 7-inch pots about 3 feet high, each \$2.00 (see cut.)

LATANIA BORBONICA.

Leaves large, fan-shaped, of a very cheerful green color; plant of hardy constitution and adapted to all decorative purposes, within or without doors; appreciated by all the plant-loving community. Nice plants, 50c and \$1.00 each, by Express only (see cut.)

KENTIA PALM.

Very reliable palm for house decorations, not easily affected by change of atmosphere. Plants from 4-inch pots, 1½ feet high, \$1.00 each; 2½ feet high, \$1.50 each (see cut.)

SANSEVERIA.

Its stripes are crosswise, with broad white variegations on a dark green ground. They grow to the height of from two to four feet, and will do well anywhere. 20c each (see cut.)

FICUS ELASTICA (Rubber Plant)

One of the best plants that can be grown for any decorative purpose. Young plants, from 4½ inch pots, 12 to 18 inches high, 50c each; 2 feet high, 75c each.

JAPANESE FERN BALL.

A very handsome ornament for the conservatory or window. They grow quite freely under the same cultivation given the general variety of house plants; they should be immersed in water quite frequently, and do not require a sunny situation. Price, 50c and 75c. (See cut.)

TRADESCANTIA MULTI-COLOR.

A beautiful basket plant of creeping habit. Foliage brightly marked and streaked with rose, pink, white bronze and green. Price 15c each, \$1.50 a dozen.

Box Tree.

palm, Kentia.

Rubber Plant.

Tradescantia Multi-Color

Japanese Fern Ball.

COCOS WEDDELIANA.

A small fine growing palm, suitable for the center of a table.

Plants from 4-inch pots, about 12 inches high, 50c each (see cut.)

Cocos Weddeliana.

each, 2 for 25c.

YOUNG PANSIES.

These lovely flowers, favorites with everyone, are too well known to need any description. Nothing can be more effective, whether grown in beds, ribbons, groups, or interspersed among other plants in the border.

We sell seeds and plants of these to many hundreds of customers each season, and they always give the highest satisfaction. Pansies are now being largely used for bedding purposes, vases, etc., and these new and fine types have greatly increased their popularity.

We have chosen such distinct, striking and peculiar types as are most rare and beautiful, and we can faithfully recommend them as extra choice and fine.

Large plants in bud or bloom, 10c each, 75c per doz.; good plants from frame, 5c each, 50c per doz.

Variegated Ground Ivy.

Variegated Ground Ivy.

A thrifty and rapid grower, and a fine acquisition to our list of basket or vase plants. It has light green leaves, bordered with pure white. Hardy, excellent for Rockery (see cut). Price, 10c each; \$1.00 per dozen.

PLUMBAGO.

The Plumbagos are always satisfactory plants, either for pot culture or the garden. They are constant bloomers, and their delicate and graceful flowers are very useful for cutting.

Capensis—A beautiful plant, with heavy, firm foliage and plentiful clusters of the most beautiful pale blue flowers. A shade seldom met with and universally admired. Price each, 15c. Large plants by express, 25c each.

Double Fringed PETUNIAS.

These splendid double Petunias are among our most beautiful and satisfactory flowers for Summer bedding; they thrive and bloom the whole season, even in the hottest weather, and are equally fine for the flower-bed and for pot and house culture. We offer five separate colors—white, pink, variegated, crimson and maroon. Price, 15c each; 2 for 25c; \$1.50 per dozen. (See cut.)

SINGLE PETUNIAS.

A grand assortment; all colors mixed; grown from seed of our own saving, and sure to produce some splendid varieties. Price, 10c each; \$1 dozen.

ISMENE CALITHINA.

A grand summer-flowering bulb, producing throughout the season large Amaryllis-like, pure white, fragrant blossoms. Keep the bulbs in a dry, warm place, and plant in June. Bulbs can be taken up in October, and after a few weeks' rest, potted and flowered in the house in Winter, or kept over for planting out another season. Price, 20c each; 3 for 50c. (See cut.)

Petunia Double, Fringed.

Four Pretty Salvias.

The Salvias, or Scarlet Sages, are the brightest and most brilliant colored Autumn flowers we have and are highly valued for bedding in lawn and garden. No other flowers can make such a dazzling show of fiery scarlet flowers; they begin to bloom in July or August and continue till cut down by hard frost, unequalled in brilliancy and color.

Splendens—One of the finest of all bedding plants, being completely covered in Autumn with long spikes of dazzling scarlet flowers, remaining in bloom until cut down by frost.

Salvia (A. Ragneau)—Early flowering; does not grow over 15 to 18 inches tall and blooms as soon as it becomes well rooted and continues until frost.

Fire Ball—The dwarfest and most compact of the Scarlet Salvias, with dark foliage completely covered with erect spikes of dazzling scarlet. It is early in bloom and continues in clean, bright conditions throughout the season.

New Salvia Bonfire—Neat compact grower, intense fiery crimson flowers, making a sheet of brilliant bloom long after other flowers are gone.

Price 10c each; \$1.00 per dozen, your Selection.

New Mammoth Verbenas FOR BEDDING.

We offer twelve of the best and most distinct varieties of mammoth Verbenas, so indispensable for bedding; all are of the true large, flowering type and sure to give the greatest satisfaction. The colors range through the brightest and most beautiful shades of scarlet, purple, crimson, pink, blue, white, etc.

Price 5c each; 50c per dozen.

Ismene Calithina.

New Mammoth Verbenas.

SWEET VIOLETS.

LA FRANCE.

THE LARGEST OF ALL VIOLETS.

This is the largest and most productive Violet in cultivation. For richness and purity of color and fragrance of flower, it is immeasurably superior to all other single blue varieties. It is a single flower, and while almost as large as a single dollar, it has that sweet simplicity peculiar to the Violet. The color is pure rich violet blue that does not fade. Extremely free flowering, a single plant producing hundreds of flowers throughout the season. Price, 10c each; 3 for 25c; \$1.00 per dozen.

IMPERIAL.

THE BEST DOUBLE VIOLET.

Unquestionably the best double blue Violet for general cultivation. Stands any amount of hardship; is strong, healthy and perfectly hardy. Extremely free flowering, producing quantities of the loveliest deep violet-blue flowers of the daintiest and most refined form, almost like a camelia; perfectly double; deliciously fragrant. Price, 20c each; 3 for 50c; \$1.50 per dozen.

WATER LILIES AND AQUATIC PLANTS

Nymphaea Odorata Rosea (Hardy Pink Water Lily).

Frank Trelease—This superb tender night-blooming water lily surpasses all other red varieties by the brilliancy and depth of the rich glowing dark crimson of its flowers. 9 to 10 inches in diameter; glossy, dark, bronzy red, resembling in color the foliage of the Black Beauty Canna. \$1.00 each.

Marliancea Chromatella—A very free and vigorous grower; flowers 4 to 6 inches across, bright yellow color; leaves deep green, beautifully blotched with brown. A free and continuous bloomer. 50c each.

Parrot's Feather—An aquatic hanging plant. Planted in water-tight hanging basket, so water can be kept standing on the surface of the soil it will trail down over the sides in a most charming manner. In a tank or lake it prefers shallow water. Price, 15c each; \$1.50 per dozen.

Nymphaea Flava—This is a true water lily, with yellow flowers and a delicate perfume. Its leaves are beautifully variegated with brown. It is a very desirable variety either for pond, tub or aquarium. Price, 30c each.

Nymphaea Odorata—Our native water lily; flowers pure white and very fragrant; when grown in rich mud it will produce flowers 6 inches and leaves 18 inches across. Price, 25c each.

Nymphaea Odorata Sulphurea—A handsome yellow-flowered form of our native variety. Price, \$1.00 each.

Nymphaea Odorata Rosea (Cape Cod Water Lily) This is the famous pink water lily of Cape Cod. It possesses all the desirable qualities of the white-flowered species—hardiness, freedom of bloom and delicious fragrance. Price, 50c each (see cut).

Water Hyacinth—One of the most remarkable, curious and beautiful plants we have ever grown. Instead of growing in soil, it floats in the water. 15c each.

Water Poppy—Small oval leaves and showy flowers of bright lemon color, standing a few inches out of the water and producing freely all Summer. Easily grown in a shallow tub or pan. Price, 20c each.

YOUNG'S HARDY LILIES.

The Lily has long been celebrated for its rare and chaste beauty. No plant capable of being cultivated out of doors possesses so many charms. Rich and varied in color, profuse in variety and of delicious fragrance, they stand out prominently from all other hardy plants, and no herbaceous border, however select, should be without a few of its best sorts. They are entirely hardy, but it is well before cold weather sets in to cover over the ground with leaves or coarse manure as a partial protection.

Lilies increase in size and beauty with age, and should be left undisturbed from year to year. Early Autumn or early Spring is the best time to plant lilies. When lilies or other hardy bulbs or plants are received, and you are not ready to plant them in the open ground at once, they should be kept in moist soil in a cool cellar or shed.

Lilies cannot be sent out later than May 15, and we would, in all cases, advise planting in April or earlier.

LILIUM CANDIDUM.

This is the well-known and favorite white garden Lily. It grows from 3 to 4 feet high, and flowers in the open ground about the first of June.

Of all the Lilies this is, perhaps, the easiest to grow, and therefore of the most value to amateurs. It is as hardy as a Peony and never fails to bloom, increasing rapidly and giving more flowers every year, if allowed to remain undisturbed where first planted. 20c each; 3 for 50c.

Speciosum Rubrum—Crimson Banded (see cut)—Flowers are white, with a deep rosy or crimson band on each petal, with deeper colored spots between. They are 5 to 6 inches in diameter, very fragrant and have all the hardiness of the Speciosum class. First size bulb, each, 20c; 3 for 50c.

Tigrinum Flore Peno (see cut)—The well-known double "Tiger Lily" growing from 4 to 6 feet high and bears an immense number of bright orange flowers. Each, 12c; doz., \$1.25.

Lily-of-the-Valley—If there is one flower more than another the can lay claim to that honor of being everybody's favorite, it is the Lily-of-the-Valley.

This beautiful little flower is quite hardy. Choose a partially shaded place in the garden, and plant the roots about 6 inches apart and 2 inches deep. It is especially adapted for planting in cemeteries, as it requires no care after being once planted.

Large Flowering German Pips, 6 for 15c; 12 for 25c, post-paid; by express at buyer's expense, 25 for 40c; 100 for \$1.50.

Auratum, Gold Banded—Justly famous as the most beautiful and fragrant of all Lilies; white, dotted crimson, with clear, broad, golden band running to the center of each petal. First size bulbs, each, 20c; 3 for 50c.

Speciosum Album—Pure white, with beautiful recurved petals, very fragrant. This with Rubrum and Melpomene, belongs to the Speciosum Section. First size bulbs, each, 20c; 3 for 50c.

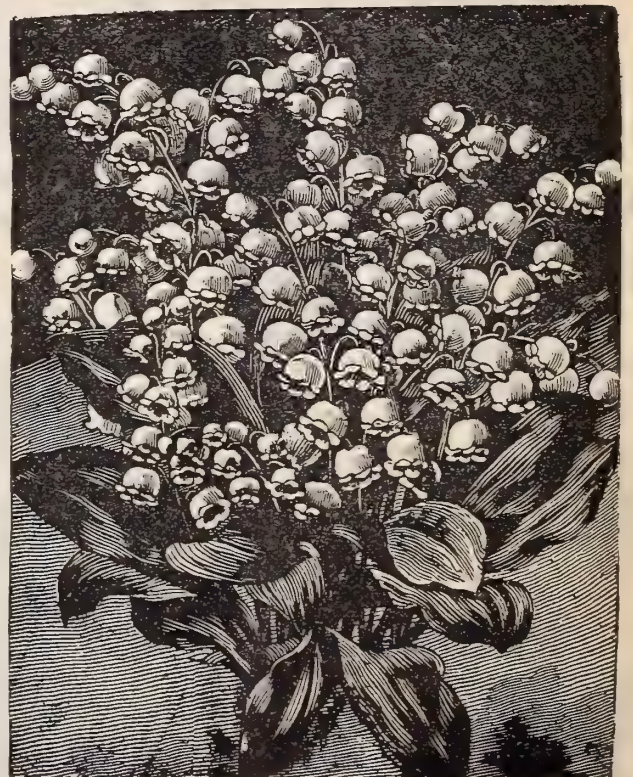

Speciosum Melpomene—A most beautiful variety. Flowers frosted white, spotted, clouded and bearded with pinkish crimson. Petals deeply recurved and widely bordered. First size bulbs, 15c; or 40c.

Speciosum Rubrum.

Double Tiger Lily.

Lily of Valley.

HARDY PERENNIALS.

THE tide of popular favor has turned decidedly towards these most useful of all plants. *Perfectly Hardy*, once planted will last for years, increasing in size and beauty. They are no doubt the *plants of the future*. No pleasure grounds or rural homes, however modest, are considered complete without ornamental trees or plants of a hardy and permanent character. The following sorts have been selected with the greatest care; we think no better can be found.

We send by mail or express as directed. By mail we pay postage, by express the purchaser pays express charges; but express orders get larger plants, except ornamental trees which must be sent by express as they are five to ten feet high and we would advise having the shrubs sent by express as we can send larger shrubs that will give an effect at once.

Astilbe Japonica.

ACHILLEA.

The Pearl—A plant will produce hundreds of flowers the first summer. It commences to bloom early in July and is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decoration.

Price, 10c each; three for 25c; twelve for 75c.

ASTILBE (SPIREA) JAPONICA.

A fine, hardy, herbaceous plant, suitable for border; blooms in early spring; feathery spikes of sweet, white flowers, much admired and largely used by florists for bouquets; is entirely hardy; needs no protection in winter. 25 and 50c each.

Achillea "The Pearl"

New Gaillardia, Gipsy Queen.

HARDY HIBISCUS

Crimson Eye—This magnificent Hibiscus is unequalled among hardy plants for gorgeous beauty. It is a robust grower with dark red stems and foliage. The flowers are immense in size, often measuring twenty inches in circumference. The color is of the purest white, with a large spot of deep velvety-crimson in the center of each flower. 20c, 3 for 50c.

NEW HARDY GAILLARDIA

Gipsy Queen—We know of nothing more likely to give satisfaction in the hardy flower garden. As will be seen by our illustration, the flowers are of elegant shape; they are borne on long stems, 2 to 3 inches across, in shape like a field daisy, but of most gorgeous coloring. The center is dark red-brown, while the petals are orange, crimson and red. This magnificent perennial blooms in the most wonderful profusion from June to November. 20c each; 6 for \$1.

Hybrid Hibiscus.

Daisy.

DOUBLE DAISY.

Plant in a cool, shady place, if possible. In severe winters they need a slight protection of straw or of leaves. Three varieties, double white, double red and Longfellow (see cut). Each, 10c; 75c per dozen.

SWEET PEA.

Hardy Everlasting.

A hardy climber, producing flowers the entire summer in great abundance; admirably suited for covering trellises, etc. (see cut.)

3 Varieties, White, Pink and Purple, 15c each; \$1.50 per dozen.

Sweet Pea, Hardy Everlasting.

HARDY SCOTCH OR SWEET MAY PINKS

These are dwarfier than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground, flowers perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy. Price, 10 cents each; 3 for 25 cents.

TRITOMA PFITZERII.

(Red Hot Poker Plant.)

The greatest bedding plant ever introduced surpassing the finest Cannas for attractiveness and brilliancy, showy as the Gladiolus as a cut flower, and blooms incessantly from June until November. Plants perfectly hardy with protection. Plants show from 6 to 20 grand flower-stalks all the time, each holding at a height of 3 to 4 feet a great cluster of flame-colored flowers of indescribable beauty and brilliancy (see cut). Price, 25 cents each.

Hardy Scotch or May Pinks.

Tritoma—Red Hot Poker.

NEW DOUBLE GOLDEN RUDBECKIA.

Gardening, the most valuable of all the horticultural journals, speaks of this new plant as follows: "We hail it with delight, as being one of the most distinct and beautiful hardy perennials introduced for years." It will give you armfuls of large, very double golden-yellow flowers, elegantly set off with their own foliage. (see cut.)

Price, strong plants which will bloom freely this season, 15 cents; two for 25 cents.

STOKESIA.

(STOKE'S ASTER.)

Cyanea—One of the prettiest and distinct hardy plants we have listed and one that will be a delight to any one to have. It produces showy, Aster-like deep lavender blue flowers frequently 5 inches across, in clustered heads, from early in June until cut down by severe frost in late fall. Grows to a height of about 18 inches. Price, 15 cents each.

DAISY—SHASTA.

In growth the plants are as strong as a common field daisy, very tall, well branched with fine cut foliage and huge white flowers borne in profusion on long stiff stems. The flowers are pure white with gold center, petals very long and center soft and velvety. It is a very pretty hardy plant and one of the novelties that has come to stay. Price, 10 cents; strong plants, 25 cents (see cut.)

YUCCA FILAMENTOSA.

An evergreen. This plant is an object of beauty the year around, if only its leaves are seen: the flower stalks are four to five feet high, with 50 to 200 bell-shaped, creamy-white blossoms hanging from branching arms; hardy (see cut). Each, 25c; large plants, 50c.

Cap. Girardeau Mo., April 27, 1906.
C. Young & Sons Co., St. Louis, Mo.

Gentlemen:—The roses came today and were in fine condition. I want to thank you most sincerely for the extras you sent.

Respectfully yours,
Alpha Durnell.

Yucca Filamentosa.

Rudbeckia "Golden Glow,"

Shasta Daisies.

DIELYTRA SPECTABILIS.

(Bleeding Heart.)

These pretty spring bloomers, with their graceful, drooping sprays of heart-shaped pink and white flowers, are very ornamental, and bloom freely early in the season. The plants being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 20 cents each. (See cut.)

AQUILEGIA.**COLUMBINE.**

The distinct, clear-cut foliage and delicate arrangement of colors in the flower of Columbine, make it one of the showiest and most desirable of the hardy garden plants; especially suitable for rockwork, at the base of foundation walls, and under trees. (See cut.)

15 cents each; \$1.50 per dozen.

PLATYCODON.**CHINESE BELL FLOWER.**

Grandiflorum—Blooms constantly from July until late in September; flowers large, bell-shaped, of a deep shade of blue. An extremely rapid growing plant, will do well in any ordinary garden soil. Perfectly hardy, making a dense branching bush 2 to 3 feet high. See cut. 20c each; 3 for 50c.

GERMAN IRIS, OR FLEUR-DE-LIS.

The German Iris is one of the most desirable early spring-flowering plants. The flowers are of large size and of exquisite colors. No garden is complete without a collection of these beautiful "Flags." We offer the following choice sorts.

Atropurpurea. Rich royal purple.

Bridesmaid. Blush-white veined with blue
Florentina Alba. Fine large pure white.

Old Purple. Fine deep purple,

Princess of Wales. White, veined purple.

Victorine. White, blotched purplish-blue.

Price, 15c each; \$1.50 per dozen; set of 6 varieties for 75c.

LEMON-COLORED LILY.

A pretty hardy, herbaceous plant, with long, narrow leaves; flower stalks two to three feet high, with a crown of beautiful lemon colored flowers three to four inches in diameter that are delightfully fragrant. Price, 25c each.

COREOPSIS LANCEOLATA

A beautiful hardy border plant; grows 15 to 18 inches high, and produces its bright, golden-yellow flowers in great profusion the entire season. It makes a handsome vase flower when cut. 10c; 3 for 25c. (See cut.)

FUNKIAS.**DAY LILIES.**

A handsome, showy plant, with beautiful large broad leaves. Flowers large, pure waxy white, borne in large trusses. Very fragrant. 15c; 2 for 25c. (See cut.)

Cainsville, Mo., March 22, 1906.

Young & Sons, St. Louis, Mo.

Gents:—The plants ordered from you arrived in fine condition and our rose Killarney will bloom in a few days, and allow me to thank you for your great generosity. Your gratis plants exceed three other houses combined of whom we bought a like amount. With best wishes for your success I remain,

Yours respectfully,

J. H. BURROWS, Pastor Baptist Ch.

Aquilegia.

Iris Germanica.

Coreopsis Lanceolata Grandiflora.

Dielytra Spectabilis (Bleeding Heart).

Platycodon Grandiflorum.

Golden Day Lily.

Funkia Alba.

Hardy Herbaceous Plants.

PAEONIES

DOUBLE HERBACEOUS.

Almost a rival of the rose, recently much improved and de-severely popular. Has immense double flowers like enormous roses in almost as many shades, very fragrant and splendid for cutting. Its foliage is ornamental and handsome, and not troubled with insects. It blooms regularly every Spring for several weeks at a time. Is hardy and grows easily anywhere. Height 2 feet. For best results plant early in the Spring in deep rich well prepared soil, covering the eyes but an inch or two. Manure heavily in the Fall after the tops are killed by frost. We offer three distinct sorts. White, double red and double rose. Price, 25c each, post-paid, or 12 for \$2.50. Extra large Roots by Express only 35c; 3 for \$1.00.

Hardy Phlox.

DELPHINUM FORMOSUM.

Perennial Larkspur—One of the handsomest and most satisfactory of all the hardy herbaceous plants, and should be planted extensively, even in the smallest garden; the long spikes of bright blue flowers are produced continually from June until frost. Each 15c; 2 for 25c.

JAPANESE IRIS (Iris Kaempferi).

These magnificent Iris are among the most beautiful of our summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. Many of these flowers measure from 10 to 12 inches in diameter, and rival the Orchids in their rich colorings and markings.

EXTRA FINE MIXED JAPANESE IRIS.

We offer a fine selection of these in assorted colors. They are good strong clumps and will flower the first season. Price 15c each; \$1.50 per dozen.

VINCA MINOR CERULEA (Blue Myrtle).

Grows close to the ground; invaluable for carpeting the ground in shady places. Largely used for covering graves, for which purpose no plant is so well adapted. Price, 10c each; \$1.00 per dozen.

Hydrangea paniculata.

Hardy Perennial Phlox.

The improved varieties of Hardy Perennial Phlox, which we offer below, are among the handsomest and most useful of our Hardy Herbaceous plants, the flowers are very large and borne in grand massive heads of most brilliant colors. The plants are perfectly hardy, and when established, will bloom on, year after year, with little or no attention. There are few plants that with so little care will make such a handsome display of brilliant colored flowers every season.

Our list is made up of the very best varieties, covering the widest possible range in colors, from pure white to dark red and purple. A clump of Hardy Phlox on the lawn will always attract attention.

COLLECTION OF HARDY PHLOXES.

Aquilon. Carmine-rose, shaded salmon, crimson eye.

Bouquet Fleuri. White, with deep rose eye.

Eclairer. Purplish crimson, with white halo.

Mrs. Jenkins. A fine large pure white.

Sunshine. Deep salmon-pink; dark rose eye.

Bridesmaid. Pure white, with large crimson centre.

Champs Elysee. Fine rich purplish-crimson.

Coquelicot. Best pure scarlet, deep carmine eye.

Jeanned'Arc. A fine free-flowering white

Pantheon. Deep salmon-rose; large and fine.

R. P. Struthers. Brilliant rose-red; crimson eye.

Lothair. Soft carmine-pink, rosy eye.

Peachblow. Salmon-rose, deep rose eye.

Price, 10c each; 3 for 25c; the set of 13 for \$1.00.

Ornamental and Flowering Shrubs

All goods ordered from this list must be sent by express or freight, customers paying charges on receipt of goods. All heavy trees in large amounts should be sent by freight, as charges are so much less, and our perfect packing admits a long journey without injury to the trees. Always give full and explicit shipping directions, as our responsibility ends on delivery of trees in good condition to the freight office.

We shall be pleased to quote prices to anyone desiring different sizes or stocks in larger quantities than offered herein. In sending list state definitely the number of each variety and size wanted.

Shrub orders amounting to \$5.00 and over includes prepayment either by express or freight, within 100 miles of St. Louis.

HYDRANGEA PANICULATA GRANDIFLORA.

The Grandest and Most Beautiful of all Hardy Flowering Shrubs for Planting in the Door-Yard and Lawn.

Tens of thousands of this noble summer and autumn-flowering shrub have been sold the past few years, and the demand is now universal. They grow to a height of 8 to 10 feet and are absolutely hardy, grow in any soil and bloom the same year they are set out. They flower abundantly, bearing immense panicles of bloom a foot long, white at first turning to rose in autumn, commencing to bloom in August, when very few shrubs are in bloom. To make a fine specimen, the soil should be prepared as for any other shrub. An annual shortening of branches tends to increase the size of the flowers. When first planted, the branches should be cut back to 6 or 8 inches off the main stock.

Price, strong 1 year old plants, 35c; 2 for 50c; per dozen, \$2.50. 2 year old plants, 50c each; 3 for \$1.25. Extra large 3 year old plants, \$1.00 each.

ORNAMENTAL AND FLOWERING SHRUBS—Continued.

Althea, or 'Rose' of Sharon.

One of the most showy and beautiful flowering shrubs. The flowers are of large size, very double and full, and of various brilliant and striking colors. It blooms freely during August and September, when scarcely any other tree or shrub is in blossom. (See cut.) We offer four distinct varieties—single purple, single rose, double white and single white. Price, 25c each.

ALMOND, DOUBLE PINK AND WHITE.

Beautiful shrub of dwarf habit, bearing abundantly in May, before the foliage appears, small, double flowers, like miniature roses, set closely along the branches. Each, 50c.

Berberis Thunbergii—A beautiful Japan variety of dwarf habit. Small foliage, assuming the most varied and beautiful tints of coloring in the autumn: very desirable for grouping and a grand hedge plant. 25c each; \$2.50 per dozen.

Vulgaris Purpurea (Purple Barberry)—Violet-colored foliage and fruit. 25c each; \$2.50 per dozen.

Althea.

Clethra Aloifolia.

Calycanthus Floridus (D)—Sweet-scented all-spice bush, a very fine and popular plant. The buds are notably fragrant; 2 to 3 feet high. 25c each.

Calycanthus Floridus (Sweet or Strawberry Shrub)—An old favorite, with double chocolate-colored strawberry-scented flowers. 25c each.

Cercis Canadensis (Judas Tree, or Red Bud)—Very showy and beautiful when in bloom. All the branches and twigs are covered with a mass of small pink flowers early in the spring before the leaves appear; 4 to 5 feet high. 50c each.

Chionanthus Virginica (White Fringe).—A tall-growing native shrub, blooming profusely in June. The singular flowers resemble bunches of white silken fringe hung gracefully among the foliage. 25c each.

Corchorus, or Kerria Japonica fl. pl. (Globe Flower)—A graceful shrub, with double-yellow flowers, from June to October. 25c each.

Corchorus Argentea Variegata—Small green foliage, edged with white; one of the prettiest dwarf shrubs. 25c each.

Cornus Florida (White-flowering Dogwood)—An ornamental, spreading, irregularly-shaped tree, producing large white flowers in spring, and rich crimson foliage in Autumn; 4 to 5 feet. 50c each.

Hydrangea Paniculata (type)—This must not be confounded with *Hydrangea Paniculata Grandiflora*, this being the original type from which the variety *grandiflora* originated, and, while not so well known as the last-named variety, it is by many considered superior on account of the flower heads having less sterile flowers, which reduces the weight of the large heads of bloom, thus enabling the plant to carry its flowers more erect and showing same to better advantage; the flowers are creamy-white, turning to a purplish red as they fade. Strong plants, 30c each; \$3.00 per dozen; extra strong plants, 60c each; \$6.00 per dozen.

Forsythia Viridissima—Foliage and bark deep green; flowers yellow; very early. 25c each; \$2.50 per dozen.

Japanese Maples—These are exceedingly beautiful, especially in Spring and early Summer, when they burst into full leaf, and the various colors of the foliage are deep and decided, and in Autumn many varieties deepen in color and assume very beautiful tints. \$1.00 each.

Philadelphus Coronarius Aurea (Golden-leaved Mock Orange)—Fine golden yellow foliage, contrasting beautifully with the dark leaves of other shrubs. 25c each.

Philadelphus Grandiflorus—A large flowered, robust grower. 25c each. (See cut.)

Lonicera Morrowi—A handsome Japanese variety with white flowers during May, but especially valuable for its bright red fruit during the Summer and Autumn months. 25c each.

Cornus Sanguinea (Red-twigged Dogwood)—A strong-growing bush, with crimson colored branches; especially attractive in Winter. 25c each.

Deutzia Candidissima Plena—A fine double white.

Deutzia Gracilis—A dwarf bush covered with spikes of pure white flowers in early Summer.

Deutzia Pride of Rochester—A fine double pure white.

Deutzia Lemoinei—Without doubt one of the best hardy shrubs; flowers very large and produced in broad-based, cone-shaped heads of from 20 to 30 flowers each, of purest white, which open out very full. (See cut.)

Any of the Above Deutzias 25c each; \$2.50 per dozen.

Deutzia Lemoinei.

Syringa Grandiflora (Mock Orange).

ORNAMENTAL AND FLOWERING SHRUBS (Continued.)

MAGNOLIA.

Soulangeana—Foliage large, glossy and massive growing into tree form: very profuse bloomer, color white and purple, strong plant, four feet high, well branched; \$2.50 each.

PURPLE FRINCE.

Smoke Tree—A large shrub of low growth and round form; the foliage is of a lively bright green and the flowers appear in June in large, loose, fringe-like panicles of a light purplish red color, changing to masses of reddish seed-vessels, which remain until frost. 25c each.

SAMBUCUS NIGRA AUREA.

Golden Elder—One of the best yellow foliage Shrubs; the color is remarkably bright, rich and constant. 25c each.

SPIREA (Meadow Sweet.)

The Spireas are all elegant low Shrubs of the easiest culture and which everyone should plant. Their flowering season extends over almost the whole spring and summer. The Spirea should be in every collection.

Spirea Anthony Waterer—A valuable and distinct variety, color bright crimson; it is of dwarf, dense growth, never exceeding 30 inches in height; in bloom the entire summer and fall. 25c each.

Spirea Reevesii fl. pl.—Double white flowers in clusters; very fine. 25c each.

Spirea Van Houttei—The grandest of all the white Spireas; it is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of 20 to 30 white florets make up the raceme, and are set close along the drooping stems. 25c each.

LILAC (Syringa.)

Well known beautiful Shrubs, indispensable in every collection. They flower early in May, when spring flowers are so welcome. They grow rapidly and are very pretty either planted singly on the lawn or in masses with other shrubs.

Lilac Common (*Syringa vulgaris*)—The common purple lilac species. 25c each.

Lilac Common White (*S. Vulgaris alba*)—Flowers pure white, fragrant, beautiful. 25c each.

Lilac Persian—Of more slender growth than the common Lilac; purple flowers in immense spikes. 25c each.

Tamarix Africana (*Tamarisk*)—Strong, slender-growing, irregular Shrubs, with feathery foliage and small, delicate flowers, borne profusely on gracefully-bending branches. These pink flowers are very attractive during May. 25c each.

Snowball (*Viburnum Opulus Sterilis*)—Very beautiful and popular; flowers snowy white, born in large balls in early summer. First size, 36 to 40 inches, each \$1.00; second size, 24 to 30 inches high, each 50c; third size, 18 to 20 inches high, each 25c.

Snowball Plicatum (*Japan Snowball*)—One of the choicest hardy shrubs, with healthy dark foliage; the perfect balls of pure white flowers are born in great profusion, a decided improvement on the old Snowball; very desirable. 50c each.

WEIGELIA.

Beautiful shrubs that bloom in June and July. The flowers are produced in so great a profusion as to almost entirely hide the foliage. They are very desirable for border or grouping, also specimen plants for lawn.

Weigelia Amabilis—A beautiful and distinct pink. 25c each.

Weigelia Candida—Fine pure white; flowers of large size. 25c each.

Weigelia Rosea Nana Variegata—A neat dwarf shrub, valuable for the clearly-defined variegation of green, yellow and pink in its leaves; very effective and useful; flowers delicate rose and pink; one of the finest variegated-leaved Shrubs. 25c each.

Weigelia Eva Rathke—The finest Weigelia in cultivation. A variety that is at once a remarkably free bloomer, flowering continuously throughout the summer and autumn; of an entirely distinct color, being a rich ruby carmine, quite different from anything heretofore offered. (See cut.) 25c each.

SPECIAL PRICES ON SHRUBS—We will supply all varieties priced at 25c each for \$2.50 per dozen.

EVERGREENS.

In transplanting evergreens, great precaution has to be taken never to let the roots dry out at any time

SPRUCE, Norway—Rapid in growth, gracefully drooping in habit, dense in structure, regular in outline and perfectly hardy. \$1.00 each.

PINE, White—Rapid grower; hardy. Needles long and slender. \$1.00 each.

PINE, Scotch—Rapid grower; short, light green needles. \$1.00 each.

PINE, Austrian—Attains great height. Long needles; very dark green. Hardy everywhere. \$1.00 each.

JUNIPER, Irish—One of the most popular evergreens. Rigidly upright, compact, rapid growth. \$1.00 each.

ARBORVITAE, American—Well-known variety; growth upright, conical. Is especially valuable for hedges and screens. \$1.00 each.

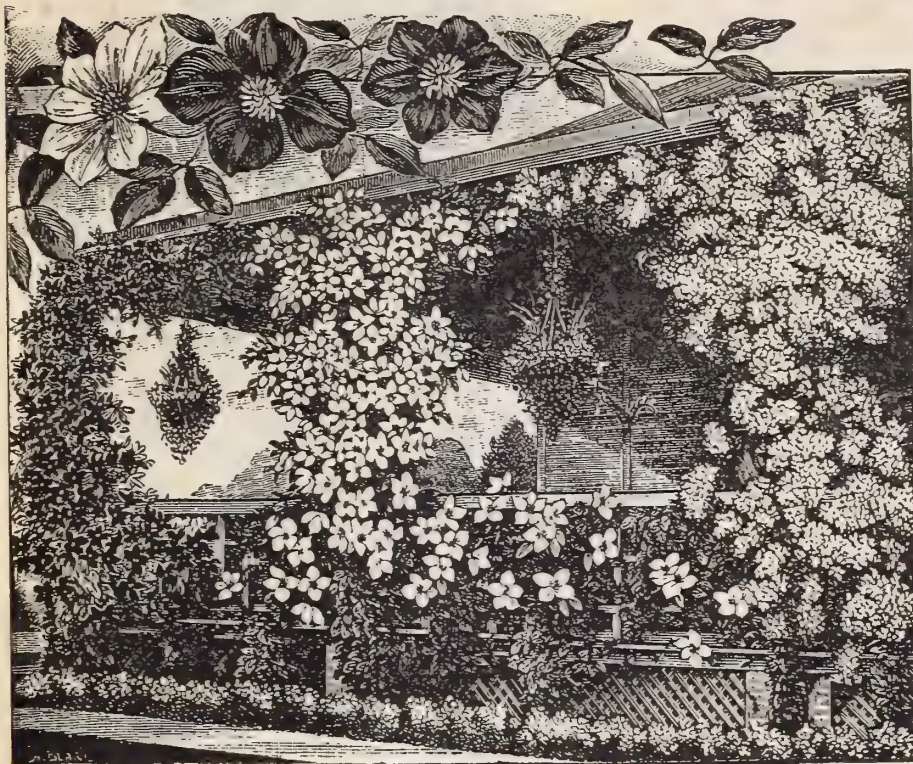

Magnolia Soulangeana.

Weigelia Eva Rathke.

BEAUTIFUL HARDY CLIMBING VINES.

SUITABLE FOR CLIMBING ON VERANDAS, TRELLISES. &c.

Clematis Jackmanii.

Clematis Henryi.

Clematis Paniculata.

Three Grand Clematis for \$1.75

Jackmanii—This is one of the best known and most valuable flowering plants of the day. It is entirely hardy and blooms during the entire season, a perfect mass of bloom when in flower. Color dark, rich, royal purple. It is the variety shown in the engraving, which gives a good idea of this superb Clematis. Strong two-year-old plants, bloom this season, 75c.

Henryi—This variety is a much stronger grower than most of the other varieties, and is entirely hardy; excellent for cemeteries, or wherever a hardy climber is desired; color, pure white. Large strong plants \$1.00 each. (See cut.)

Paniculata—The most valuable and most elegant of the hardy climbers, with large, green, glossy foliage, with pure white flowers, star shaped, about three-quarters of an inch in diameter, very fragrant. Suitable for any place. Strong plants, 50 cents each; one-year-old, 25 cents each. (See cut.)

AMPELOPSIS VEITCHII.

(Boston Ivy.)

This is the most deservedly popular of all climbing plants, being entirely hardy in the most exposed places, attaining a height of thirty feet in two or three years, clinging to stones, brick or woodwork with the greatest tenacity. During the summer the leaves are a rich shade of green and lap over each other with great regularity, like a coat of mail, or like slates on a roof. But it is in the fall that it shows its exquisite beauty; the leaves then change to the brightest tints of scarlet, crimson and orange, so dazzling as to be seen at a great distance.

First size, extra strong pot grown, 2 to 3 feet, 35c each, \$3.50 per doz.

Second size, 1 to 2 feet, 25c each, \$2.50 per doz.

Third size, 6 to 9 inches, 15c each, \$1.50 per doz.

AMELOPSIS QUINQUEFOLIA.

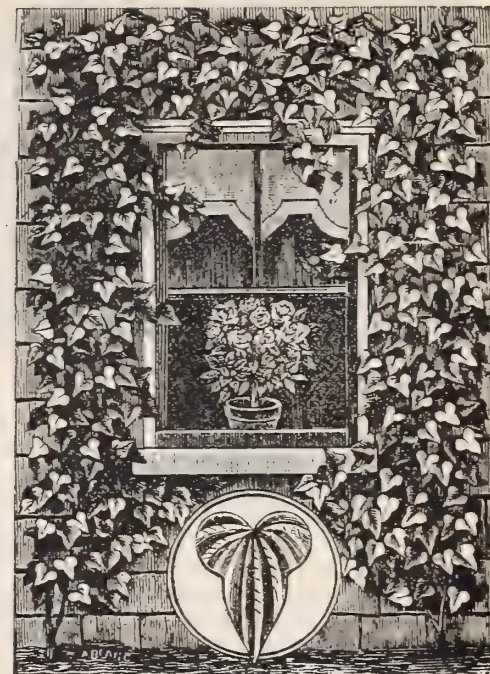

(American Ivy or Virginia Creeper.)

A strong, rapid grower, clinging firmly to walls, brick and stone or wood without support. 25c each.

BIGNONIA RADICANS.

(Trumpet Creeper.)

A splendid climbing plant, suitable for covering dead trees, walls, fences, etc., producing large clusters of trumpet-shaped orange red flowers in August, about three inches long; very handsome in bud, as well as in flower. 25c each.

Cinnamon Vine.

CINNAMON VINE.

(*Dioscorea Balatas.*)

A rapid growing climber taking its name from the peculiar fragrance of the delicate white flowers. The leaves are heart shaped, bright glossy green, growth is very rapid, often running 25 to 40 feet, quite hardy. Good roots 5 cents each; 50 cents per dozen.

HONEYSUCKLE.

Halliana—It is evergreen and a constant bloomer; flowers pure white, changing to yellow; very fragrant, good for trellis or pillar. 25c each; extra large plants, 50c each.

Scarlet Trumpet or Coral—Very strong rapid grower, producing beautiful scarlet flowers all summer; foliage very fine, thick and heavy. 25c each; large plants 50c each.

Monthly Fragrant or Dutch—A fine rapid growing variety. flowers large and very fragrant, color red and yellow, a constant bloomer. 25c each; extra large plants, 50c each.

Yellow Trumpet—Fine grower; yellow flowers. 25c each; extra large size plants, 50c each.

IVY.

Hardy English—The hardy evergreen vine that remains so all the year, making it one of the most valuable of all hardy vines. It is used in covering walls and has become popular for covering graves, especially if in the shade where grass will not succeed. Price, 10 cents each; \$1.00 per dozen.

CHINESE WISTERIA.

Sinensis (Chinese Glycene)—This favorite variety, producing thousands of pendulous clusters of delicate violet blue blossoms, richly perfumed. Price, 50c each.

Sinensis Alba—Of similar habit to Sinensis, with pure white flowers. A lovely climber, 50c each.

Sinensis Alba Flora Plena—This is similar to the other varieties of Wisteria in growth, the flowers are much larger, pure white and perfectly double. 50c each.

PASSIFLORA.

Passion Vines—These beautiful plants, better known as "Passion Flowers," are among the most desirable of our climbers, rivaling the Clematis in beauty of flower, and surpassing them in vigor of growth. They are also among the best of our vase and basket drooping plants, and bloom profusely the entire season. Hardy in most places.

Constance Elliot—The flowers are pure white excepting a very slight coloring at the base of the corolla. 20c.

Pfordti—The best of all the Passion Vines. Large flowers born profusely even on very young plants, a rich shade of blue suffused with rose. 20c.

WEEPING OR DROOPING TREES.

Weeping Willow.

Kilmarnock Weeping Willow—Grafted five or six feet high. It forms without any trimming, an exceedingly graceful tree with glossy foliage and perfect umbrella head; unique in form. Vigorous and thriving in all soils. (See cut.) \$1.00 to \$1.50 each.

Weeping Mountain Ash—A beautiful tree with struggling, weeping branches, making a fine tree for the lawn. Foliage and berries like the Mountain Ash. Hardy \$1.50 to \$2.50 each.

THESE are all dwarf growth, not exceeding 6 feet in height, and make handsome ornaments when planted as single specimens on the lawn.

Camperdown Weeping Elm—Its vigorous branches, which have a uniform habit, overlap so regularly that a compact roof like head is formed. Leaves are large, glossy dark green. A strong, vigorous grower. One of the best weeping trees. Hardy. \$1.50 to \$2.00 each.

MULBERRY, Teas'
Weeping Russian—The most graceful and hardy weeping tree in existence, and especially adapted to the trying conditions of the cities. Wholly unlike anything heretofore introduced. Forms a perfectly shaped umbrella head, with long, slender, willowy branches drooping to the ground. Admirably adapted for small or large grounds or for cemetery planting. (See Cut.) \$2.50 to \$3.50 each.

TEAS' WEEPING MULBERRY.

BIRCH, Cut-leaved Weeping—Trunk straight, slender, white as snow; branches hanging in long, pendulous threads from a great height; leaves finely cut. The best lawn tree grown and beautiful in all stages. Does not "weep" until it has attained some age. Desirable for cemetery planting. Price, \$1.50 to \$2.50 each.

STRAWBERRIES==Choice New and Productive Varieties.

These will do well in any ordinary farm or garden soil. Ground should be well prepared. For field culture set in rows 3 feet apart and from 12 to 15 inches in the row; for garden 15 inches apart each way. Cultivate well and keep clear from weeds. Cut off all runners as soon as they appear, as fruit will be much larger. In winter a covering of straw, leaves or old hay will protect the plants. Do not cover, though, until ground is frozen. Care should be taken not to cover plants so deep as to smother them, and remove the covering in spring before growth starts.

The blossoms of those varieties marked "imperfect" are destitute of stamens, and unless a row of perfect flowering variety is planted at intervals of not exceeding 15 feet, they will not produce perfect fruit. But when properly fertilized, as a rule, they are more prolific than those with perfect flowers. When varieties are not mentioned in orders we always send plants mixed, three or four kinds that go well together.

Strawberry Glen Mary.

Aroma—The largest strawberry that we have ever fruited, enormously productive, berries very large, bright red, exquisite quality, ripens late. Perfect.

Bubach No. 5—P. Fruit large and handsome, roundish, conical, bright scarlet, moderate firm, desirable for home use, season early to medium. Imperfect.

Corsican—Conspicuous for its size, shape, color and quality, color crimson, flesh moderately firm and quality extra good. Perfect.

Clyde—Large, roundish, conical form, color, bright scarlet; fair quality, season medium; vigorous grower and productive. Perfect.

Excelsior—One of the very best of its class, very productive, and yielding berries which are large, firm, high colored and of fair quality. Perfect.

Glen Mary—An extraordinary large size, color a dark glossy crimson, fairly firm and of excellent quality. Perfect.

Kansas—A valuable new late strawberry, an exceedingly robust grower. The fruit is wonderfully large, very dark colored, and exceedingly firm. Perfect.

Marshall—Unsurpassed for table use and noted everywhere for its fine quality. Perfect.

Monitor—The berries are all of large size. The fruit is of a bright, shiny red, uniformly large, firm and attractive, of excellent flavor; early. Perfect.

New York—This is the best and largest new variety. It is a robust grower, berries measuring over 7 inches in circumference, color a crimson scarlet, dark; the flavor is deliciously rich and melting. Perfect.

Senator Dunlap—The best berry for the family table or home market. Quality unsurpassed the size will average large; berries nearly round, bright crimson. Perfect.

Sample—One of the very best berries, and seems to succeed nearly everywhere, producing in profusion large dark colored berries of uniform size. Imperfect.

Wm. Bell—A well-tested variety, that is giving remarkable satisfaction, as a large, handsome productive berry for market or home use. Berries extra large. Perfect.

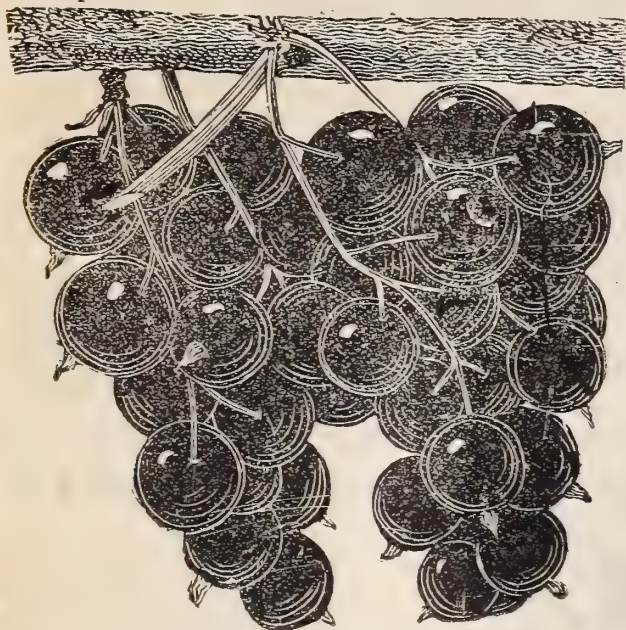

Pot-grown plants, 60c per dozen, \$3.00 per 100. These plants cannot be sent by mail.

Layer plants, 25c for 10, \$1.50 per 100, \$8.00 per 1,000.

If Layer Plants are ordered by mail add 25c to the 100 price.

Select Small Fruits.

Do you grow them? If not why? There is nothing else that you can grow in a kitchen garden that will give as much satisfaction. The care required for berry plants is no more than for the same number of hills of corn; and the results, measured by the value of the product and the pleasure of having a supply of delicious fruit always at your command, far exceed the value of the plants and the labor incurred. We offer a very complete list, at prices within the reach of all—no canvassers' fancy prices.

Currant, Fay's Prolific.

BLACKBERRIES.

If ordered to be sent by mail, add 10c per dozen for postage.

RATHBUN—The plants are very vigorous, producing an abundance of fruiting canes. The roots are strong and penetrate deeply into the soil. The fruit is very large and handsome, intense black, with a very high polish and without any core; juicy, high-flavored, of so superior a quality that it is in a class by itself; 10c each; 75c dozen; \$3.50 per 100.

EARLY HARVEST—A very early variety, medium size; the best for general use, as it is more productive than any other variety in extreme dry weather. Each 10c; 60c per dozen; \$3.00 per 100.

ELDORADO—Vines vigorous, hardy, and their yield is enormous. Berries large, jet-black, borne in large clusters, and ripen well together; sweet melting and pleasing to the taste; have no hard core, and keep eight or ten days after picking with quality unimpaired. 10c each; 60c per dozen; \$3.00 per 100.

MERSEREAU—This early mammoth, iron-clad blackberry is by far the most valuable variety that has appeared up to the present time. It originated in Northwestern New York, where the mercury falls from 15 to 25 degrees below zero and where it has stood in open field culture for many years without the slightest protection, never being injured in the least. It has never had a leaf affected with orange rust, blight, or other disease, or produced a double or "rose" blossom. 10c each; 75c per dozen; \$3.50 per 100.

RED RASPBERRIES.

If ordered to be sent by mail, add 10c per dozen for postage.

CARDINAL—This most promising Raspberry is a natural product of Kansas. Its merits are, vigorous growth, extreme hardiness and productiveness of rich, red, pure-flavored berries. The originator claims that it will grow 10 feet and bear in proportion. 15c each; \$1.00 per dozen; \$4.00 per hundred.

HAYMAKER—An Ohio seedling of the Shaffer and Columbian type, fruit a little more acid and is later than either, prolonging the season. An enormous producer, excelling the Columbian. Improbable as this may seem, the Haymaker has for several seasons in different localities under same conditions produced more fruit, and we offer it as the most productive Raspberry on earth, equal to Columbian in all other respects. 15c each; \$1.00 per dozen; \$4.00 per 100.

COLUMBIAN—Fruit very large, purplish color, of rich, sprightly flavor, unrivaled for canning and preserving. A very vigorous grower and large yielder. 15c each; \$1.00 per dozen; \$4.00 per hundred.

KING—Pronounced the best early red Raspberry by many of the leading horticulturists. Plant a strong grower, very hardy and productive. Berry is firm, a good shipper; large size; beautiful bright scarlet color. Ripens with the earliest. 15c each; \$1.00 per dozen; \$4.00 per 100.

CUTHBERT, OR QUEEN OF MARKET—The best red raspberry cultivation, very hardy and a strong grower; berries large, often measuring 3 inches in circumference, color a rich crimson, medium late. Each per dozen, 75c; per 100, \$4.00.

CURRANTS.

Choose a most rich soil for Currants. Plant five feet apart each way. Keep free from weeds and grass by liberal cultivation and mulching. Use plenty of manure, and trim out superfluous wood by cutting back the new growth two-thirds each year. Keep the foliage quite free from worms by the timely and liberal use of powdered white hellebore.

(If ordered to be sent by mail, add 10c per dozen for postage.)

Pamona—The most profitable currant grown, a vigorous grower, free from disease and exceedingly productive, color of fruit a clear, transparent red, flavor sweeter than the common varieties. 15c each; \$1.50 per dozen.

Fay's Prolific—The leading red variety, and one that bears very early, fruit large and of a bright red color, good flavor. (See cut.) 10c each; \$1.00 per dozen.

Cherry—A popular market sort, with very large berries, often measuring 1 inch in diameter, under good cultivation. Bunches are short. A very vigorous grower. 10c each; \$1.00 per dozen.

White Grape—The largest White Currant with a sweet mild acid flavor; excellent for table use. (See cut.) 10c each; \$1.00 per dozen.

Black Victoria—The largest black currant in cultivation, of recent introduction from England, 15c each; \$1.50 per dozen.

GOOSEBERRIES.

(Ordered to be sent by mail, add 10c per dozen for postage.)

Should be planted in good rich soil and well manured once a year. Prune regularly and thoroughly, cutting out all dead wood and all surplus branches. Do not let the bushes grow too thick; the fruit will be larger and more plentiful.

Houghton—Pale red, sweet and tender, very productive; berry small to medium. 15c each; \$1.50 per dozen.

Downing—Pale green large, handsome, productive and of good quality; an old standby. 15c each; \$1.50 per dozen.

Smith's—Large, greenish yellow, excellent quality and a good bearer. 15c each; \$1.50 per dozen.

Gooseberry, Downing.

BLACK RASPBERRIES.

If ordered to be sent by mail, add 10c per dozen for postage.

GREGG—For many years the standard leading variety. The best known market sort. Very productive, large size, firm meaty berries, covered with heavy bloom. 10c each; 70c per dozen; \$4.00 per hundred.

KANSAS—Strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early ripening. Color jet black and almost free from bloom. Very firm; represents a very handsome appearance. The best Black Cap on our grounds. 10c each; 70c per dozen; \$4.00 per 100.

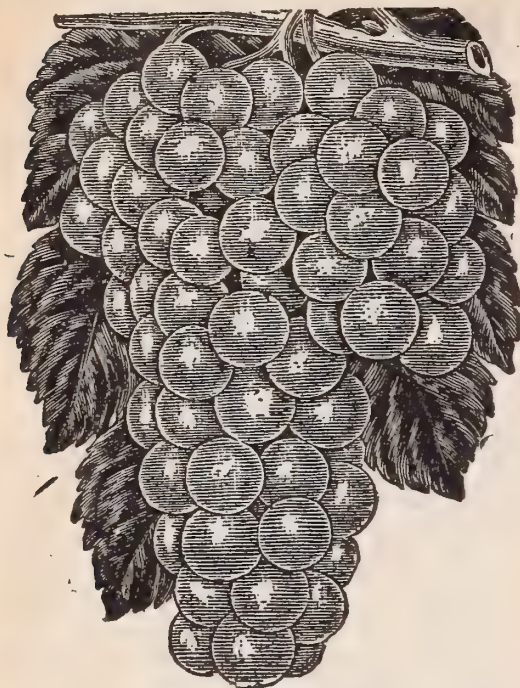

MUNGER—This variety withstands the dry weather better than any other we know of. The past season when the fruit of most of the other varieties was dry and seedy, the Munger ripened up sweet and juicy. It is a very vigorous grower, free from disease. The fruit resembles the Gregg in color and firmness but is much larger. 10c each; 70c per doz.; \$4.00 per hundred.

CUMBERLAND—The largest black Raspberry known, has been well tested in nearly all sections the past season, giving thorough satisfaction. In hardiness and productiveness it is unexcelled by any other variety. In size the fruit is simply enormous, far surpassing any other sort. The berries run seven-eighths to fifteen-sixteenths of an inch in diameter and very handsome in appearance. The bush is exceedingly healthy and vigorous, throwing up stout stocky canes, well adapted for supporting their loads of large fruit. 10c each; 70c dozen; \$4.00 100.

Points on Transplanting.

Get their life and vitality while out of the ground, as a failure in this is often the cause of a feeble growth when transplanted. Poor growth is also caused by not having the ground in proper condition at time of transplanting and a lack of proper after-cultivation.

The natural place for the roots of trees and plants is in the ground, and as soon as they are exposed to the atmosphere and become too dry they begin to lose their vitality; therefore, let it be kept in mind that too much care cannot be taken to

Grape—Concord.

HARDY GRAPES.

STRONG TWO-YEAR-OLD PLANTS.

Plant in rows six feet apart and eight feet apart in the row. Dig holes sufficiently large to amply accommodate the roots of the vine and use only fine surface soil in filling in, mixing with it a little ground bone. Cut back one-year vines to two eyes, placing the lower one beneath the surface; cut back two-year vines to three or four eyes, putting two or three eyes below the surface. Spread the roots out after trimming them; place the stock of the vine at one side of the hole and fill up with soil, pressing down firmly with the feet. Set a stake by the side of the stock, to which the vine should be kept tied, which will be all the support needed for two years. Keep old wood trimmed off: growing fruit on new canes. Prune to admit the sun and air freely.

AGAWAN—Roger's No. 15. Old reliable. large, red, one of the very best, ripens early.

BRIGHTON—A fine, dark red sort; very early; large, compact bunches; berries medium to large, very sweet, of high flavor.

CAMPBELL'S EARLY—strong grower; large healthy foliage; productive, good keeper and shipper; ripens with More's Early; bunch and berry large; glossy black.

EMPIRE STATE—White; bunch medium, long, compact; berries medium; quality best; ripens early.

MOORE'S EARLY—Two weeks earlier than the Concord, which it resembles, as to color, etc.

MOORE'S DIAMOND—One of the very best. Fruit white, changing to yellow tinge when ripe; very juicy.

MARTHA—One of the best greenish, white grapes. A good grower and of easy culture.

WYOMING RED—A red grape resembling the Delaware in color and flavor, but much larger.

WILDER—The finest of all black grapes. Good grower, very productive, berries, medium in size, bunches large.

CONCORD—Universally popular, succeeds everywhere, purplish black. Very productive.

DELAWARE—Bunch small compact, light red, very sweet and of delicious flavor.

NIAGARA—Hardy, strong and vigorous grower. Berries are greenish white, semi-transparent, slightly ambered in the sun. Skin thin and tough, very sweet.

WORDEN—Black handsome compact bunch. Ripens earlier than the Concord.

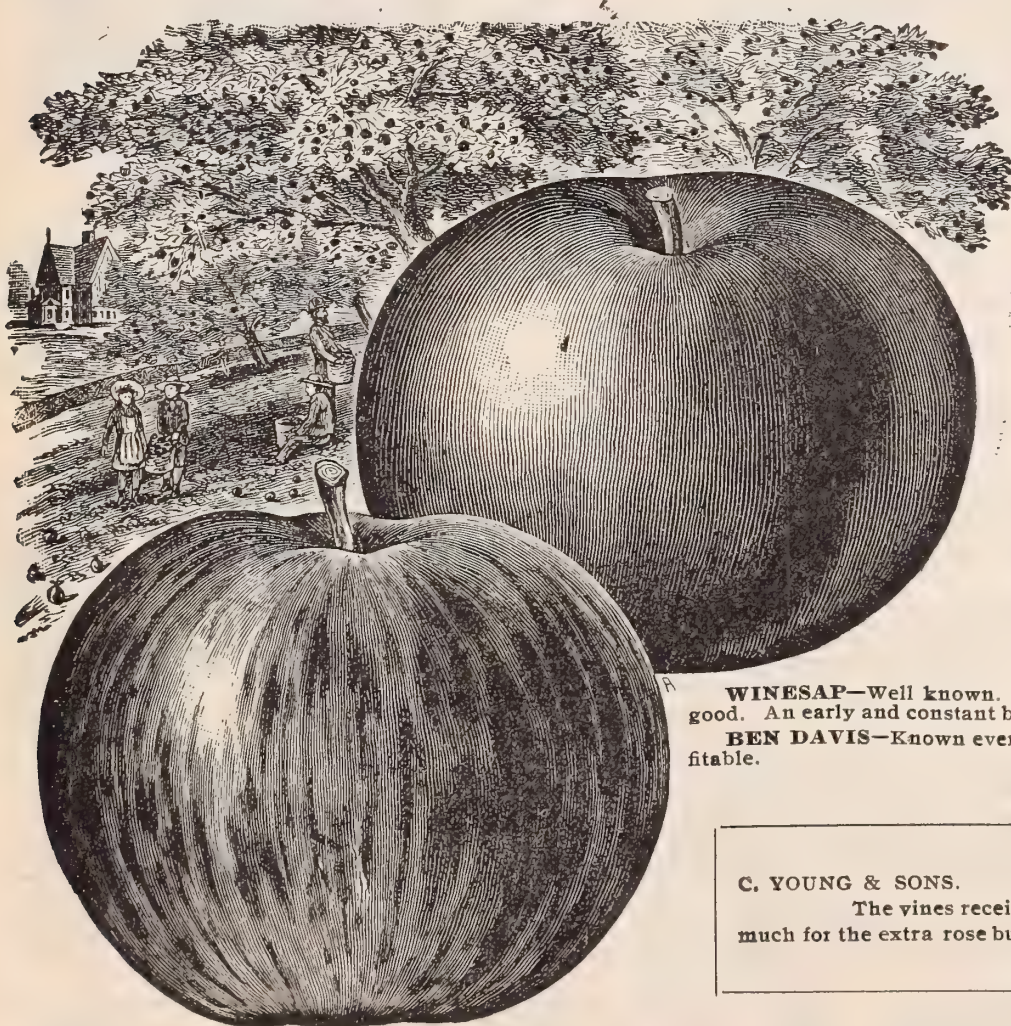

SPECIAL OFFER:—Strong two-year-old plants, 20c each, 3 for 50c, \$2.00 per doz.

APPLES.

PLANT 30 FEET APART EACH WAY—48 TREES TO THE ACRE.

We invite special attention to our very large and fine stock of Apple Trees. They are straight, smooth and beautiful. They are worth very much more than prices quoted, but we wish to reduce our stock and our patrons get the benefit.

Selected six to eight ft. extra stocky and fine, 35c each, \$3.00 per doz., per hundred \$15.00. Thousand rate upon application.

Apple—Ben Davis.

Summer Varieties

EARLY HARVEST—Medium to large size; pale, yellow, tender, with a mild flavor; a good bearer, one of the first to ripen; middle to end of August.

RED JUNE—Medium size; deep red; flesh white, tender, juicy, subacid. Prolific bearer. July.

Autumn Apples

MAIDEN'S BLUSH—Well known as a profitable all-round variety. Long-lived; young bearer. Large; pale lemon-yellow, with a crimson cheek; flesh white, tender, subacid. September.

WEALTHY—Widely esteemed. Young, sure and profuse bearer. Ironclad hardiness. Large, smooth, overspread with dark red; flesh white, very tender, juicy, subacid. October.

Winter

MISSOURI PIPPIN—Bright red, striped; fair quality. As it attains age it overbears, so the fruit is small.

GRIMES' GOLDEN—Quality unexcelled and one of the most profitable early winter sorts. Blooms late. Medium to large; flesh deep golden, aromatic, spicy, rich. One of the most desirable table Apples in existence.

WINESAP—Well known. Medium; dark red; juicy and rich; quality very good. An early and constant bearer.

BEN DAVIS—Known everywhere as the most popular western Apple. Profitable.

Ogunquit, Maine, May 20th, 1906.

C. YOUNG & SONS.

The vines received yesterday in good order. Thank you very much for the extra rose bush.

Mrs. S. T. Norvell.

For 25c

We will send the Popular Collection of Sweet Peas by mail, postpaid, to any address in the U. S.

Young's Collection of 6 Giant Flowered Pansies.

These six varieties of Pansies were selected as the very best out of all the novelties grown by leading pansy specialists of this country, Germany and France, and have no equal in color and size of flower.

President Carnot—A very large, early flowering Pansy, with a very effective color.

Coquette de Polisy—A distinct novelty, different from anything before known in Pansies.

Fairy Queen—The flowers are of a large size and a perfect circular form; color a delicate azure blue.

Ruby—This new variety contains all the richest shades of the red colors, from scarlet, scarlet orange, wine red to rose; the flowers are exceedingly large, and of a fine form.

Bridesmaid—The flowers of the new variety are very large, and of a fine form. The ground color is a delicate rosy white, rivaling in delicacy of color and beauty the apple blossom. The center of the flowers are regularly spotted with dark blotches to the center, which is quite novel in Pansy.

Mammoth Butterfly—A large French strain with blotches and splashes the colors of a butterfly.

For 40c We will send the entire Collection of six Distinct Varieties, by Mail, Postpaid, to any address in the United States.

SPECIAL OFFER.

We will send the 5 collections on this page for \$1.20 Postpaid. No further discount on this offer.

10 Choice Flowering Plants.

ALL FOR 50c. DELIVERED FREE BY MAIL. JUST THINK OF IT!

If you are limited as to the amount you can spend for Flowers, we believe that you cannot get better value than by purchasing the following collection:

Rose. (Golden Gate) Color, creamy white, tinged with golden yellow and clear rose.

Golden Wedding Chrysanthemum. The largest and best golden yellow variety for general use ever introduced.

Geranium. (Mrs. E. G. Hill) Everyone likes geraniums, and while you are getting them, why not have the best fancy-flowered sort?

Czar Heliotrope. This new giant flowered sort is a dwarf growing variety, with black stems and enormous panicles of dark velvety violet flowers. Color is very rich and is sure to please. Either for pot culture or bedding.

Canna. (Gold Burbank) Rich, clear yellow with fine crimson spots in center of flower.

Ageratum. (Princess Pauline) One of the most handsome varieties ever offered.

Carnation. (Enchantress) A novelty of great merit. Color deep salmon pink, very fragrant, always in bloom.

Hibiscus Grandiflorus. Full round flower of a perfect shape, and of a rich, soft carmine rose, with a deep crimson eye. A beautiful, free-blooming variety.

Vinea Elegantissima. A beautiful trailing vine with bright green leathery leaves broadly margined with white. If you want a plant for growing in pots, hanging baskets or for the open ground borders, try it and you will be pleased.

Fuchsia. "Charming." Entirely distinct from any other variety. The flowers are an intense rich carmine.

Peach, Crawford's Early.

STUMP OF THE WORLD—Large; white, with bright red cheek; flesh white, juicy and of high quality; very productive and profitable. One of the most popular white-faced peaches wherever known. Early September.

CARPENTER KLING—Very large; white; rich, juicy, good. Far superior to the old Washington Cling.

CHERRIES.

4 to 6 feet, 40c each; \$4.00 per dozen.

This is one of the best fruits we have. The sour varieties are very hardy and will bear a full crop almost every year, commencing to bear when three years old.

EARLY RICHMOND—The leading early variety. Medium size; juicy, sprightly subacid. Healthy, productive.

DYHOUSE—Very early, sure bearer, a week before Early Richmond. Large; red.

MONTMORENCY—The best sour Cherry. Always bears full crops. Large; red, becoming nearly black when fully ripe. Ripening about ten days after Early Richmond. Tree a slow but stiff grower; very prolific.

GOVERNOR WOOD—Large, roundish, heart-shaped; light yellow, shaded bright red; sweet, very good.

CRAB APPLES.

5 to 7 feet, 40c each, \$4.00 per doz.

HYSLOP—Very large; beautiful dark crimson; hangs in clusters. September.

GENERAL GRANT—Tree a vigorous and upright grower. Fruit large; red to very dark red; flesh white, tender, mild subacid. Excellent for dessert and one of the best Crabs introduced. October.

WHITNEY No. 20—A large Crab; 1½ to 2 inches in diameter. Skin smooth, glossy green, striped with red; flesh firm, juicy and flavor very pleasant. Ripens in August.

PLUMS.

5 to 7 feet, 40c each; \$4.00 per dozen.

GERMAN PRUNE—A large, long, oval variety, much esteemed for drying. Color dark purple. Middle of August.

GREEN GAGE—Fruit large; skin pale green, flesh juicy, sweet, rich. Productive.

LOMBARD—Medium size, oval; violet-red. Tree vigorous and productive. July.

NEWMAN—Fruit medium, oblong; color bright vermillion; adheres to the stone. Tree vigorous; foliage smaller than the Wild Goose. A wonderful cropper. Ripens about middle of August to middle of September.

BLUE DAMSON—Hardy; annual bearer; fruit small, but of very good quality.

LOMBARD—Medium; violet red, good quality; hardy and productive.

WILD GOOSE—Medium size, red with blue bloom, juicy and very sweet.

RED JUNE—One of the best of the Japanese plums; red, of fair size. Ripens in August.

APRICOTS.

Price, 30c each.

ROYAL—Large, yellow, with an orange cheek; rich and delicious. A very fine variety. August.

PEACHES.

To secure healthy, vigorous and fruitful trees, the ground must be kept clean and mellow. Fruit is borne on wood of the previous season's growth, and this makes it absolutely necessary to prune the trees yearly to remove dead branches, and let in the light and air and keep the trees in good shape to produce bearing wood.

Price, select trees 5 to 7 feet, 30c each; \$3.00 per dozen.

CHAMPION—Large and handsome; creamy-white with red cheek; flesh white, sweet, rich and juicy. Exceedingly hardy and a regular bearer. The best variety, ripening in early August, and one of the most valuable of all.

CRAWFORD'S EARLY—Large; yellow with red cheek; flesh yellow, juicy, sweet and good, vigorous and very productive. Middle of August.

CRAWFORD'S LATE—(Melocoton.)—Resembles Crawford's Early, but is larger and even more beautiful, and ripens from two to three weeks later; flesh yellow, but reddish at the pit, juicy and rich.

ELBERTA—Large; light yellow with red cheek; flesh yellow, juicy, melting, of high quality. One of the finest of yellow peaches and very popular, especially at the south. September.

HEATH CLING—(Late Heath)—Large white, with blush cheek.

GREENSBORO—The largest and most beautifully colored of the extra-early Peaches.

TRIUMPH—The earliest yellow peach known. Productive, hardy and profitable for market. Free.

CARMEN—Large, resembling Elberta in shape; color creamy-white on pale yellow, with deep blush; skin tough; flesh tender; fine flavor. Does not rot. One of the hardiest in bud.

PEARS.

Trees 5 to 7 feet, 40c each; \$4.00 per doz.

Dwarf Pair trees are budded on quince stocks. They never grow very large, therefore can be planted close together, about 12x12 feet is right. This makes them suitable for gardens and town lots. They will bear two or three years after being transplanted.

KIEFFER—This Pear has come to stay, and is being largely planted. Its rapid growth, early bearing and immense yield are phenomenal. Its large size and handsome appearance will always cause it to sell readily in the market.

BARTLETT—One of the most popular. Large size; often with a beautiful blush next the sun; buttery and melting, with a rich musky flavor. Bears young and abundantly.

FLEMISH BEAUTY—A large, beautiful, melting, sweet Pear. Tree vigorous hardy and fruitful.

SECKLE—Small, highly flavored, melting and juicy. A good tree for the west.

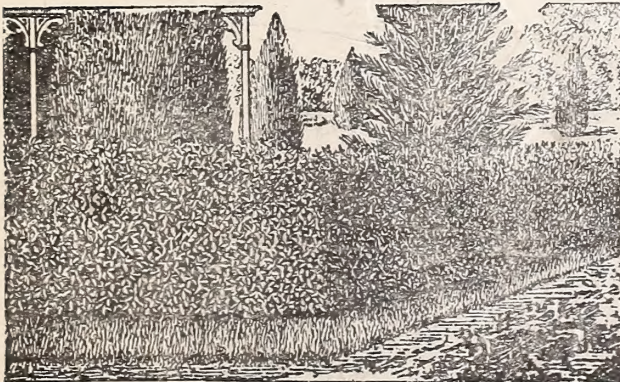

QUINCES.

4 feet, 40c each.

The Quince is hardy and prolific; easily grown; will thrive best on good, rich, moist land; fertilize freely.

ORANGE—The most popular variety. Large, roundish, bright golden yellow; very productive. September and October.

HARDY SHRUBS FOR PLANTING HEDGES.

Privet Hedge.

BARBERRY THUMBERGIA—A very pretty hedge shrub with small foliage changing to a coppery red in the autumn. 20c each; \$2.00 per doz; \$12.00 per 100.

CALIFORNIA PRIVET.

Beautify Your Surroundings.

Remove the unsightly fence; increase the value of your property by planting a California Privet Hedge. It will do almost as well on poor soil as on good, in all situations and under all conditions.

It is a vigorous grower, with leaves of a good rich shade of green, almost an evergreen, the new leaves putting forth as the old ones fall.

It can be pruned at any time, and the more you prune it the better it will look and the better hedge will be formed.

Insects never attack it, and it never grows dull, but holds its beautiful green foliage throughout the season.

It can be planted in a single row, plants 8 to 12 inches apart, but we recommend for a more compact hedge to plant a double row. Plant 8 inches apart, that is 3 plants to every 2 feet of hedge. We have a fine stock of well branched trees to offer at the following prices: 2 to 3 feet well branched, 75c per dozen; \$5.00 per hundred. Extra strong 3 to 4 feet, \$1.00 per dozen; \$7.00 per hundred.

For description and price of Shade Trees and others not mentioned in this book, write for Special Tree Catalog. Mailed Free on request.
